As it is evident that dangerously shoal spots may exist in many parts of this rim, besides those already known, ships should avoid crossing it north of the fifth parallel of south latitude. Southward of this parallel there is, according to the scanty information existing apparently a break in the rim.

CHINA, East coast—Wên Chau river.

Leading marks for South Channel no longer available.

The British Admiralty has given notice (No. 159 of 1892) that information has been received from the Naval Commander-in-Chief on the China Station that consequent on changes in South Channel, Wên Chau river, the leading marks shown on Admiralty chart, No. 1763, can no longer be depended on. The tracks heretofore given on that sheet for South Channel have therefore been erased.

RESOLUTION REVIEWING THE REPORT ON THE LUNATIC ASYLUMS IN BENGAL FOR THE YEAR 1891.

MUNICIPAL DEPARTMENT—MEDICAL—No. 93T—M.

Darjeeling, the 20th May 1892.

RESOLUTION.

READ—

The Report on the Lunatic Asylums in Bengal for the year 1891.

Read again—

The Report for the year 1890, and the Resolution recorded upon it.

The present report, which has been submitted with admirable punctuality, shows the statistics of the asylums in the forms hitherto in use, which cannot be altered without the concurrence of the Government of India, but it adds to these the provincial totals and the modified statement relating to sickness and death, which were suggested in the Resolution on last year's report.

2. The population of the five native asylums on 1st January 1891 was 1,021, the admissions and re-admissions during the year amounted to 213; 149 persons were discharged cured and 42 otherwise, and 80 persons died. The number of persons under detention at the close of the year was 963, or 58 less than at the close of the preceding year. The larger portion of the decrease is

among the non-criminal lunatics, the decrease in this class being 42 as compared with a decrease of 16 in the class of criminal lunatics. The increase in the number of discharges, which amount to 191 as compared with 117 in 1890, is remarkable, and its cause a little obscure; but it is satisfactory to observe that it has occurred chiefly in the class "Cured." The number of admissions was 197, or only two less than in the previous year. It is hoped, however, that in future this number will be reduced when the instructions issued by Government in Circular No. 42, dated 3rd December 1891, regarding the admission of non-criminal lunatics, begin to take effect.

3. The decrease of 16 in the criminal population of the asylums is ascribed by Dr. Hilson to more vigorous supervision on the part of the visitors. It is not apparent, however, how this more vigorous supervision has been exercised. The admissions in this class, which amounted to 80 against 88 in 1890, do not seem to have been affected by the orders of Government prescribing greater caution in the admission of lunatics, as these orders have scarcely had time to begin to operate. Nor can the increase in the number of discharges, from 50 in 1890 to 83 in 1891, have been due to those orders, but it must probably be attributed to the effect of the rules laid down by the Committee in 1888, which are only now coming into full operation.

4. During the year under review, all the asylums were remeasured with the result that there is now found to be accommodation for 1,069 patients, calculated at 50 superficial feet for each patient. Dr. Hilson's surmise that the capacity of the asylums had been under-estimated is thus proved correct, and there is really accommodation for 50 more patients as compared with the capacity shown in the year 1890. This capacity too will be largely increased when the new buildings at Berhampore are completed. Some slight overcrowding, which occurred during the year in the Berhampore and Dacca Asylums, was relieved by making suitable temporary arrangements, so that but little inconvenience was felt.

5. The admissions into hospital were 717 as compared with 715 in the previous year. There were 3 cases of chicken-pox at Dacca, 1 case of cholera at Patna, 28 cases of influenza at Dacca, and 39 cases at Berhampore. It is remarkable that at Berhampore influenza was confined to females, while in the previous year males only suffered. There were 80 deaths as against 69 in 1890. Of these 1 was due to cholera, 17 to diarrhœa and dysentery, 10 to general debility and old age, 18 to tubercle of the lungs, 7 to pneumonia, 4 to anæmia, 6 to apoplexy and hemiplegia, 1 to paralysis, 2 to cirrhosis of the liver, 3 to exhaustion of mania, and the rest to other scattered causes. A comparison is suggested in the report between the sickness and mortality in jails and in the asylums, but such a comparison cannot be fairly made, since the population of a jail is mostly healthy, while that of a lunatic asylum is generally diseased. The rate of mortality ruling in the Bengal asylums may more properly be compared with that recorded in the asylums of other provinces of India, and with the death-rate of asylums in Europe. Taking the latter figures first, it will be found that while the mortality in jails in England is considerably lower than in Bengal, the reverse appears to hold good in the case of lunatic asylums. In 1890, for example, the death-rate in the Bengal asylums was 6·94 per cent., and during the past year it rose to 8·02. But the latter rate compares favourably with the 10 per cent. recorded in England, while French asylums show 15 and Austrian 12 per cent. Even in Belgium, where special attention has been paid to the treatment of lunatics, the mortality in public asylums and families taken together amounts to 8·8 per cent. A comparison with the death-rates of other provinces in India cannot be made for 1891, as the reports are not yet available. But in 1890 the Madras asylums had a death-rate of 18·4 per cent., Bombay showed 11, the Panjab 9·53, and the North-Western Provinces 9; while the rate for the Bengal asylums was only 6·94. These results may be considered satisfactory, and indicate that the health of the inmates of asylums is carefully looked after by the Superintendents. The whole subject of asylum mortality is, however, dealt with rather briefly in the report, and the Lieutenant-Governor would wish it in future to be treated at greater length.

6. The record of injuries, accidents and escapes compares favourably with that of last year, but is still too full. At Dalanda there were three trivial acci-

dents; at Dacca there were three accidents and six injuries, two of which were apparently due to violent treatment of the patients by their keepers. An account is given in the report of one of these cases and of the punishment inflicted on the culprits; the Lieutenant-Governor trusts that sufficiently severe notice was also taken of the other case. At Patna and Berhampore there were two accidents each, and at Cuttack there was one case of suicidal hanging. At Dacca there were two escapes, both the lunatics being recaptured.

7. The figures of income and expenditure are clearly shown in the statement in the body of the report. The details are as follow:—

GRAND TOTA ...	...	.. ...	.....	.....	90,374 15 4	94,780 12 1

Excluding the last three items and the manufacture charges, which are balanced by the receipts, the real expenditure, it is observed, increased by about Rs. 1,000, chiefly due to arrear and new taxes, and to the payment of water-rate at Dacca. The total amount expended on diet shows a decrease of Rs 1,482-0-2. The average cost of each lunatic on account of diet was—Dalanda Rs. 37-14-1, Dacca Rs. 36-13-2, Patna Rs. 31-10-0, Cuttack Rs. 27-15-1, and Berhampore Rs. 33 3-5. The cost of rations per head of average strength in the neighbouring jails was—Alipore Rs. 26-3-0, Dacca Rs. 22-6-0, Patna Rs. 19-15-0, Cuttack Rs. 20-2-0, and Berhampore Rs. 24-14-0. The comparison is useful as indicating the possibility of managing with greater economy, but it must be remembered that the dieting of lunatics cannot be reduced to the same standard of cheapness as the dieting of convicts. The latter are for the most part in good health; the former are, with few exceptions, more or less sickly, and are apt to give trouble about their food; there is more waste, and the arrangements for feeding cannot be carried out on so large a scale as in the jails. Calculated on the actual expenditure shown in the first nine items of the statement given above, the average total cost of a patient in 1891 was Rs. 65-15-7, against Rs. 64-6-6 in 1890.

8. The population of the Bhawánipur European Asylum at the commencement of the year was 34, against 33 in 1890. Fifteen persons were admitted and one re-admitted during the year. Three of the admissions were criminal lunatics, none being serious cases. During the year three persons were discharged cured, one was despatched to Europe under the Merchant Shipping Act, one was transferred to the care of friends, two were made over to the Military authorities, one was despatched to Europe as still insane, and seven died. The

number of patients under detention at the close of the year was 35. There was no want of accommodation either in the male or the female wards: the overcrowding among females which occurred last year was relieved by adding an upper storey to the female ward. There were no injuries, accidents or escapes during the year. The general health of the patients was good. The total expenditure for the year was Rs. 25,370 as against Rs. 20,583 in 1890, the increase of Rs 4,787, which was unavoidable and partly non recurrent, being due to the construction of the upper storey and to the payment of rates and taxes for the first time. The question of closing this asylum altogether, and transferring the patients to the Dalanda block of buildings, is now under consideration, and has been referred to a special Committee.

9. The thanks of the Lieutenant-Governor are due to Dr. Hilson for this report. His Honour is glad to observe the favourable terms in which Dr. Hilson acknowledges the efficiency of the Superintendents and their subordinates.

By order of the Lieutenant-Governor of Bengal,

H. H. RISLEY,

Offg. Secretary to the Govt. of Bengal.

REPORT ON THE STATE OF THE SALT MARKET FOR THE FOURTH QUARTER OF 1891-92.

No. 375B, dated Calcutta, the 13th May 1892.

From—T. Inglis, Esq., Offg. Secretary to the Board of Revenue, L.P.,
To—The Secretary to the Government of Bengal, Financial Department.

Salt.

C. C. Stevens, Esq.

I am directed by the Board of Revenue to submit the following report on the state of the salt market for the fourth quarter of 1891-92, comprising the months of January, February and March 1892.

2. The quantity of salt of every description cleared during the quarter under report amounted to 22,12,558 maunds 29 seers 13 chittacks, against 24,29,085 maunds 23 seers 12 chittacks in the previous quarter, and 22,65,538 maunds 34 seers 12 chittacks in the corresponding quarter of the previous year; and the net amount of duty levied thereon was Rs. 51,96,684-6, against Rs. 56,68,108-12 in the previous quarter and Rs. 52,74,742-6 in the corresponding quarter of the previous year.

3. The quantity of excise salt sold in Orissa during the quarter under review, and the quantity which remained in store at the close of the quarter, are shown in table I:—

Table I.

	Cuttack.	Puri.	Balasore.

Wastage	.....	781 30	.....
Total ...	.....	4,055 30	799 0
Balance at close of the quarter	.....	37,831 10	106 0

4. The total sale of excise salt during the quarter under review amounted to 4,073 maunds, against 3,439 maunds in the previous quarter and 23,232 maunds in the corresponding quarter of the previous year. The total amount of excise salt cleared, *i.e.*, on which duty was paid during the quarter, was 5,703 maunds. The figures in the table shown in the last paragraph are for the salt removed from the golahs.

5. The subjoined table shows in comparison the importations into the port of Calcutta and the total clearances of sea-imported salt during the quarter under review and the corresponding quarters of the previous two years :—

BIHÁR—*concld.*			
Patna Division. 32	Patna — May 21, '92	Nil	Weather—hot with high east wind prevailing. Prospects of *cheena* and sugarcane continue favourable. Rain wanted for the sowing of *bhadoi* crops. Water and fodder-supply getting scarce in the Barh subdivision. Prices of food-grain still rising. Common rice selling at from 10 to 12 seers per rupee. No distress reported.
33	Gaya — „ 21, '92	Nil	Weather—exceedingly hot and oppressive. Sugarcane doing fairly well. *Cheena* being reaped. Prices stationary, but common rice somewhat cheaper at head-quarters. Supply of fodder and water exceedingly scanty, and rain anxiously looked for.
	Jahánabad ...	Nil	
	Nawáda ...	Nil	
	Aurangabad ...	Nil	
34	Shahabad — „ 21, '92	Nil	Weather—cool with strong easterly winds. There are no crops on the ground except sugarcane, millet, and *boro* paddy. The first is withering owing to want of moisture. Millet and *boro* paddy are being cut and yielding well. Fodder and water fairly abundant. Prices stationary.
	Buxar ...	Nil	
	Bhabhua ...	Nil	
	Sasarám ...	Nil	
35	Darbhanga — „ 21, '92	Nil	Weather—very hot in early part of week, cooler towards the end. High east winds. Paddy, *mung*, *cheena*, and other early crops coming up fairly well in low lands. Rain urgently required for preparation of fields for *bhadoi*. Condition of cattle not bad, but water very scarce and bad.
36	Muzaffarpur — „ 21, '92	Nil	Weather—close; strong east winds; occasional clouds. Sowing of paddy has commenced on low lands in Sitamarhi; elsewhere want of rain is beginning to cause scarcity of fodder and water. Prices stationary.
	Hajipur ...	Nil	
	Sitamarhi ...	Nil	
37	Saran — „ 21, '92	Nil	Weather—very hot till the 19th; since then cooler with strong east wind and some clouds. Rain much wanted. Water and fodder sufficient. Prices of common rice:— Chapra ... ... 11 8; Siwán ... ... 11 0; Gopalganj ... ... 12 5 — per rupee.
38	Champaran — „ 21, '92	Nil	Weather—hot with east wind and stormy. Fields are being prepared. *Kodo*, *makai*, paddy, &c., are being sown. Standing crops require moisture in soil. Prices stationary. In the interior of the district common rice is sold at 16 seers in Adapur, 14 seers in Hardi and Bagha, 13 seers in Madhuban, 12 seers in Dhaka, and 11 seers in Kesaria. Fodder sufficient. No cattle-disease.
ORISSA.			
Orissa Divn. 39	Cuttack — „ 21, '92	Figures not furnished	Weather—cloudy and hot. A shower of rain accompanied by high wind fell at Sadar station on 14th instant. Rain much wanted in the interior for agricultural operations. Fodder and water-supply scanty in some places. Price of common rice has gone up in the interior, it being 11 to 15 seers 12 chitaks per rupee.
40	Puri — „ 19, '92	Nil	Weather—seasonable. Rain wanted. Harvesting of *dalua* still continues. Miscellaneous crops good. Rice sells at from 10 to 14 seers per rupee.
41	Balasore — „ 21, '92	0·03	Weather—hot and dry. Scarcity of water throughout the district. Fodder also becoming scarce. Cultivation either not begun or at a standstill for want of rain. About one-fourth of the sugarcane crop is planted. Rice sells at 12 to 13 seers per rupee.
CHOTA NAGPUR.			
South-West Frontier Agency.			
Chota Nagpur Divn. 42	Hazáribágh — May 21, '92	Nil	Weather—intensely hot. Mango 4 to 12 annas crop. Rain wanted for sugarcane and ploughing operations. Common rice selling at 12 to 13 seers per rupee. Fodder and water-supply scanty in most places.
	Giridi ...	Nil	
43	Lohardaga — „ 21, '92	Nil	Weather—very hot. Clouds hanging about, but no rain which is badly wanted. Common rice selling at 13 seers per rupee. Fodder and water not sufficient.
44	Palámau — „ 20, '92	Nil	Weather—extremely hot. Condition of sugarcane promising. Rain urgently wanted. Common rice 12 to 14 seers per rupee. Supply of water and fodder extremely short, and the want of water in some parts is getting serious.
45	Singhbhum — „ 21, '92	Nil	Weather—intensely hot; cloudy in the afternoon during the last three days. Rain badly wanted. *Boro* paddy and sugarcane doing fairly well. Mango is a poor crop. Price of common rice varies from 20 seers in Dumria police outpost jurisdiction in Dhalbhum pargana to 14 seers per rupee in thánas Chaibassa, Chakradharpur, and Monoharpur. Both water and fodder very scarce.
46	Manbhum — „ 21, '92	0·34	A little rain fell yesterday (20th). Only sugarcane on the ground. Prospects so far not good. Price of rice from 13 to 16 seers per rupee. Fodder and water getting very scarce.
	Gobindpur ...	Nil

* Mean of 5 days. | † Mean of 6 days.

Explanations and remarks.—The normal means of air pressure and temperature are the arithmetical average or means of the reading during the same period for the last [illegible] years. The humidity of the atmosphere is expressed at percentage, saturated air being presented by 100. A clear sky is denoted by 0 and an overcast sky by 10. The numbers given in the column of rainfall are the districts or average of the rainfall in that district determined from the returns sent in by the subdivisional stations for the period in question during the season in each district sending in returns divided by the number of stations. A rainy day is one on which at least a tenth of an inch fell.

for the week ending Saturday, the 21st of May 1892.

Average humidity at 8 A.M.	Average cloud amount at 8 A.M. for week.	Rainfall of week at observing station.	Of week. Mean for district.	Of week. Normal mean.	District observations. Rainfall. Since 1st of month. Mean for district.	Since 1st of month. Normal mean.	Since 1st of month. Variation.	Since 16th May 1892. Mean for district.	Since 16th May 1892. Normal mean.	Since 16th May 1892. Variation.	Of week. Average number of rainy days.	Of week. Normal number of rainy days.	Representative station.	District.	Meteorological Division.

ten years. The variations are *negative* when the mean for the week is less than the corresponding normal mean, and *positive* when greater, denoting cloud amount represents the part of the sky covered the whole sky being denoted by 10. Under the head District observations of rainfall the normal means pattern years. The means of the district are the numerical average of the rainfall returned received in the district, i.e, from total rainfall at the subdivisions.

Statement of Rainfall in Bengal for the week ending Saturday (8 a.m.), the 21st of May 1892.

Meteorological division.	District.	Station.	Rainfall.							Total—			Total rainfall since 1st of month.	Average total rainfall from 1st of month.	Total rainfall since 16th May 1892.	Average rainfall from 16th May to date.
			Sunday, 15th May.	Monday, 16th May.	Tuesday, 17th May.	Wednesday 18th May.	Thursday, 19th May.	Friday, 20th May.	Saturday, 21st May.	Number rainy days.	Rainfall of week.	Average normal rainfall of week.

Explanation.—.....indicate that no rain has fallen. If the return for any day has not been received, the corresponding space is left blank. If any of the returns are wanting, the corresponding spaces in the total rainfall columns are left blank. With reference to the column of rainy days, the definition of a rainy day is when at least 0·1 inch of rain has fallen.

CALCUTTA, *the 24th May* 1892.

SUMMARY OF THE METEOROLOGICAL AND RAINFALL OBSERVATIONS TAKEN IN BENGAL, AND OF THE METEOROLOGICAL OBSERVATIONS TAKEN IN ASSAM, FOR THE WEEK ENDING 8 A.M., SATURDAY, THE 21ST OF MAY 1892.

THE meteorological conditions which obtained over the province at the close of the previous week were a little disturbed. On the 15th, or the first day of the present week, the changes were small; pressure fell slowly over the whole of the province and became from about 0·05″ to 0·08″ below the normal, the defect being largest in Assam and East Bengal; the wind directions were fairly normal, and moderate to strong winds were blowing, bringing up considerable amounts of moisture to the province, and on this day a considerable number of stations in East and North Bengal reported local storms with rain, which had occurred on the evening of the 14th; but, on the whole, the rainfall was not heavy. On the 16th the meteorological changes were very small, and conditions were practically unaltered, and only a few stations in the north of the province reported local storms with rain. On the 17th, pressure rose moderately to rapidly, and conditions became more settled, while pressure was almost normal. On the 18th and 19th the barometric changes were exceedingly small, and only averaged a few thousandths of an inch, and hence during these two days weather was generally fine and settled, and, except for a few local storms in East Bengal, which gave light rain, and for moderate rainfall in the hills of North Bengal, the whole province was almost rainless. On the 20th, however, pressure began to fall moderately, the fall being largest in the western, southern, and south-western districts, and it became about a tenth of an inch in defect of the normal at some of the stations in Bihár, and on the 21st pressure had again fallen rapidly over the whole province, the fall at some stations exceeding a tenth of an inch, and on this day pressure became exceedingly low, the defect at such stations as Bankura and Hazáribágh equalling more than 0·15″, and thus a feeble low pressure area or barometric depression had developed over the west of the province. With these conditions a series of disturbances or local storms set in, which gave moderate general rain on the 20th to East and North Bengal, while on the 21st the area of disturbance had extended, and in addition rainfall became fairly general over the greater part of South-West Bengal.

Conditions were therefore fairly normal for the greater part of the week over the greater part of the province, but on the last two days they became very decidedly disturbed, and the disturbance was spreading steadily over the whole province.

Pressure.—The mean pressure for the week has been very considerably in defect of the normal, though the defects have been a little irregular in amount. The largest defects have been registered at such stations as Gaya, Bankipur, and Dehri where they equal about 0·08″, but in the east and south-east of the province the defects have been small, and at Comilla, Barisal, and Chittagong they are less than 0·02.″ In Assam also at Dhubri and Silchar the defects only equal about 0·015″. The general defect over the whole province therefore equals about 0·03″ to 0·04″

Temperature.—Owing to the absence of anything like heavy rain over the greater part of the province, the temperatures registered during the week have been exceptionally high. In Chota Nagpur the mean temperature for this period has been nearly seven degrees higher than usual; in South Bihár the excess has been about four-and-a-half degrees, and in Orissa, South-West Bengal, and North Bihár about two to three degrees. The excess has been small in East Bengal, only equalling one degree. On the other hand, in North Bengal, where at many stations heavy rain has been falling, there is a defect of 1·6°, and in Assam, where rainfall has been abundant, the defect is 2·5°. For Bengal generally the mean temperature of the week has been nearly three degrees above the normal.

Rainfall.—The falls in North Bengal have occurred almost daily during the week, and have averaged no less than 4·11 inches, which is about 72 per cent. in excess of the normal. In all other districts only occasional local showers have occurred, and in East and South-West Bengal they only average about half an inch or nearly a third of the normal fall. In North Bihár also the falls have averaged a quarter of an inch, or again little more than a third of the normal fall. In the other divisions of Orissa, South Bihár, and Chota Nagpur, rainfall has been practically absent.

Even in North Bengal, however, the falls have been very unevenly distributed. Malda has again received little or no rain, and Dinajpur and Bogra rather small amounts; the Jalpaiguri and Darjeeling districts, on the other hand, have received exceptionally heavy rain, having averaged about 14 and 8 inches respectively. The other districts in North Bengal have received good general rain. In East Bengal, Chittagong, Chittagong Hill Tracts, Backergunge, and Noakhali have received little or no rain, and the other districts moderate amounts. In South-West Bengal, the only districts receiving moderately good rain have been Burdwan, Berhampore, Nadia, and Jessore, and in Bihár only the Purnea district reports good rain.

The following table gives the summary of the temperature and rainfall data of each of the seven meteorological divisions of the province for the week ending Saturday, the 21st of May 1892:—

Meteorological Divisions.	Temperature.						Rainfall.								
	Highest observed during week.	Lowest observed during week.	Averages for week.			Average mean of week above or below normal mean of week.	Of week.			Rainy days.			Since 1st of month.		Since 1st April 1892.

The average fall of the corresponding period for 24 years, S.-G.'s Office ...	7·58

The mean pressure, temperature, &c., are deduced from the traces of the Barograph and Thermograph, and from observations made at 6h, 10h, 16h, and 22h.

The maximum and minimum temperatures are obtained from self-registering thermometers. All the thermometers are verified, and the readings have been corrected to a standard constructed and verified at the Kew Observatory. They are exposed under a thatched shed open at the sides, and are suspended four feet above the ground.

The barometer readings are corrected approximately to those of the standard, Newman's No. 86, formerly at the Surveyor-General's Office.

The hygrometric elements are obtained from Tables III, IV, and V of the official tables computed in the Meteorological Office, and based on Regnault's modifications of August's formula.

The directions and the movement of the wind are taken from the trace of a Beckley's anemograph.

The mouth of the rain-gauge is one foot above the ground.

o, overcast; d, drizzling rain; g, gloomy; p, passing temporary showers; <, thunderstorm.

A. PEDLER,

For Meteorological Reporter to the Govt. of India.

H. J. S. COTTON,
Offg. Chief Secy. to the Govt. of Bengal.

REVENUE DEPARTMENT,—FORESTS.

NOTIFICATION No. 2081 For.

The 27th May, 1892.—In order to carry out the reorganization of the Indian Forest Service as finally sanctioned in the Circular, No. 30F., dated the 29th December, 1891, issued by the Government of India, certain changes are required in the Upper Controlling Staff of the Forest Department in Bengal, as stated in the following paragraphs.

1. With effect from the 26th February, 1891, the date from which the Lieutenant-Governor is pleased to introduce the new scheme into Bengal—

Mr. E. G. Chester, Deputy Conservator, 3rd grade, to be Deputy Conservator, 2nd grade.

Mr. R. L. Heinig, Assistant Conservator, 1st grade, and Officiating Deputy Conservator, 4th grade, to be confirmed in the latter grade.

Mr. C. G. Rogers, Assistant Conservator, 1st grade (on deputation to the Forest School, Dehra Dun), to officiate as Deputy Conservator, 4th grade, *vice* Mr. M. S. Fowler, Deputy Conservator, 4th grade, on leave.

Mr. H. D. D. French, Assistant Conservator, 1st grade, *sub. pro tem.*, to be Assistant Conservator, 1st grade, and to officiate as Deputy Conservator, 4th grade, *vice* Mr. Rogers (seconded).

Mr. H. H. Haines, Officiating Assistant Conservator, 1st grade, to be confirmed in that grade.

Mr. W. H. Lovegrove, Assistant Conservator, 2nd grade, to be Assistant Conservator, 1st grade, *sub. pro tem.*, *vice* Mr. Rogers (seconded).

2. With effect from the 21st March, 1891, the date on which Mr. M. S. Fowler, Deputy Conservator, 4th grade, returned from the leave granted to him in notification, dated the 16th December, 1890—

Mr. C. G. Rogers, Officiating Deputy Conservator, 4th grade, to revert to his substantive appointment of Assistant Conservator, 1st grade (seconded).

Mr. H. D. D. French, Officiating Deputy Conservator, 4th grade, to revert to his substantive appointment of Assistant Conservator, 1st grade.

3. With effect from the 4th May, 1891, the date on which Mr. H. H. Davis, Deputy Conservator, 1st grade, proceeded on furlough—

Mr. R. H. M. Ellis, Deputy Conservator, 2nd grade, and Officiating Deputy Conservator, 1st grade, to continue to officiate in the latter grade, *vice* Mr. Davis.

Mr. G. A. Richardson, Deputy Conservator, 3rd grade, to officiate as Deputy Conservator, 2nd grade, *vice* Mr. Ellis.

4. With effect from the 9th May, 1891, the date on which Mr. W. M. Green, Deputy Conservator, 3rd grade, proceeded on three months' privilege leave—

Mr. C. A. G. Lillingston, Deputy Conservator, 4th grade, to officiate as Deputy Conservator, 3rd grade.

Mr. C. G. Rogers, Assistant Conservator, 1st grade (seconded), to officiate as Deputy Conservator, 4th grade, *vice* Mr. Lillingston.

Mr. H. D. D. French, Assistant Conservator, 1st grade, to officiate as Deputy Conservator, 4th grade, *vice* Mr. Rogers (seconded).

5. With effect from the 2nd July, 1891, the date on which Mr. M. S. Fowler, Deputy Conservator, 4th grade, proceeded on nine months' medical leave out of India—

Mr. H. H. Haines, Assistant Conservator, 1st grade, to officiate as Deputy Conservator, 4th grade.

6. With effect from the 14th July, 1891, the date on which Mr. H. D. D. French, Officiating Deputy Conservator, 4th grade, proceeded on privilege leave—

Mr. W. H. Lovegrove, Assistant Conservator, 1st grade, *sub. pro tem.*, to officiate as Deputy Conservator, 4th grade.

7. With effect from the 31st July, 1891, the date on which Mr. M. S. Fowler, Deputy Conservator, 4th grade, died—

Mr. C. G. Rogers, Assistant Conservator, 1st grade, and Officiating Deputy Conservator, 4th grade (on deputation to the Forest School, Dehra Dun), to be confirmed in the latter grade (seconded).

Mr. H. D. D. French, Assistant Conservator, 1st grade, and Officiating Deputy Conservator, 4th grade, to be Deputy Conservator, 4th grade, *sub pro tem.*, *vice* Mr. Rogers, (seconded).

Mr. W. H. Lovegrove, Assistant Conservator, 1st grade, *sub. pro tem.*, and Officiating Deputy Conservator, 4th grade, to be Assistant Conservator, 1st grade, and to continue to officiate as Deputy Conservator, 4th grade.

8. With effect from the 9th August, 1891, the date on which Mr. W. M. Green, Deputy Conservator, 3rd grade, returned from privilege leave—

Mr. C. A. G. Lillingston, Officiating Deputy Conservator, 3rd grade, to revert to his substantive appointment of Deputy Conservator, 4th grade.

Mr. W. H. Lovegrove, Officiating Deputy Conservator, 4th grade, to revert to his substantive appointment of Assistant Conservator, 1st grade.

9. With effect from the 1st October, 1891—

Mr. G. A. Richardson, Officiating Deputy Conservator, 2nd grade, to revert to his substantive appointment of Deputy Conservator, 3rd grade.

Mr. F. B. Manson, Deputy Conservator, 3rd grade, to officiate as Deputy Conservator, 2nd grade, *vice* Mr. Ellis.

10. With effect from the 13th October, 1891, the date on which Mr. H. D. D. French, Depuy Conservator, 4th grade, *sub. pro tem.*, returned from privilege leave—

Mr H. H. Haines, Officiating Deputy Conservator, 4th grade, to revert to his substantive appointment of Assistant Conservator, 1st grade.

11. With effect from the 1st February, 1892, the date from which a post of Deputy Conservator, 3rd grade, was transferred to Bengal from Burma—

Mr. C. A. G. Lillingston, Deputy Conservator, 4th grade, to officiate as Deputy Conservator, 3rd grade.

Mr. H. H. Haines, Assistant Conservator, 1st grade, to officiate as Deputy Conservator 4th grade, *vice* Mr. Lillingston.

12. The following notifications in this Department are hereby cancelled:—

Notifications dated 21st April, 1891, and 28th October, 1891.

Notifications, Nos. 3929 For. and 3930 For., dated the 29th December, 1891.

Secretary to the Govt. of Bengal.

NOTIFICATION No. 2082O.

The 30th May, 1892.—In continuation of the notification of this Department, dated the 10th November, 1891, published in the *Calcutta Gazette* of the 11th idem, it is hereby notified that Mr. H. Blair, Assistant Sub-Deputy Opium Agent, who was allowed leave for eight months, under article 369 of the Civil Service Regulations, under notification, dated the 30th March, 1891, has been granted by Her Majesty's Secretary of State for India a *further* extension of leave, on medical certificate, for four months.

C. E. BUCKLAND,
Secretary to the Govt. of Bengal.

NOTIFICATION No. 2035L.R.

The 25th May, 1892.—Munshi Nundjee, Deputy Magistrate and Deputy Collector, on special duty in Champaran, was granted nine days' privilege leave, from the 25th April to the 3rd May 1892, under Article 291 of the Civil Service Regulations.

C. E. BUCKLAND,
Secretary to the Govt. of Bengal.

NOTIFICATION No. 2084L.R..

The 31st May, 1892.—Under section 5, Regulation III of 1822, as amended by section 2(2) and Schedule II of the Obsolete Enactments Act XII of 1891, the Lieutenant-Governor is pleased to authorise the several Members of the Board of Revenue, Lower Provinces, to exercise generally, throughout the territories subject to their control, all the duties, powers, and authority which are vested in the Board collectively in respect of the departments detailed below :—

Mr. C. C. Stevens will exercise the aforesaid powers in the Department of Land Revenue from the 5th of May 1892, and will continue to exercise them until further orders. This includes Revenue, Survey and Settlement, Land Registration, Land Improvements, the Sale or Lease of Waste Land and Government Estates, the Management of Wards' and Attached Estates, the collection of cesses, the realization of arrears of revenue, and the recovery of public demands, rent suits, embankments, pensions, the examination, enrolment, &c., of Revenue Agents, patni sales, and the supply of provisions for troops.

Mr. D. R. Lyall, C.S.I., will exercise the aforesaid powers in the departments of Miscellaneous Revenue from the 26th May 1892. These include Excise, Income-tax, Salt, Opium, Customs, Stamps and Stationery, Marine, the partition of estates, and the acquisition of land for public purposes.

Mr. C. C. Stevens exercised the aforesaid powers in both the Departments of Land Revenue and Miscellaneous Revenue, as above described, from the 5th to the 25th May 1892.

C. E. BUCKLAND,
Secretary to the Govt. of Bengal.

NOTIFICATION No. 2085Mis.

The 31st May, 1892.—In exercise of the power vested in him by section 3, clause (*c*) of the Indian Museum Act IV of 1887, the Lieutenant-Governor is pleased to appoint Mr. A. Simson to be a Trustee of the Indian Museum, *vice* Mr. J. D. Maxwell.

C. E. BUCKLAND,
Secretary to the Govt. of Bengal.

H. J. S. COTTON,
Offg. Chief Secy. to the Govt. of Bengal.

NOTIFICATION.

The 23rd May 1892.—Under section 259 of the Indian Succession Act X of 1865, and section 81 of the Probate and Administration Act V of 1881, the Lieutenant-Governor is pleased to make the following rules for the preservation and inspection of Wills filed under these Acts, in modification of the Rules issued under this Government Notifications, dated 22nd October 1867, 4th June 1873, 17th September 1885, 3rd October 1887, and 11th May 1889.

Relating to the Custody and Preservation of Wills.

1. All original Wills presented to the District Judge or District Delegate, in accordance with the provisions of section 244 of Act X of 1865, and section 62 of Act V of 1881, shall, immediately upon the passing of the order granting Probate or Letters of Administration under sections 254 and 255 of Act X of 1865, and sections 76 and 77 of Act V of 1881, be committed to the care of the head clerk or chief ministerial officer of the Judge's or District Delegate's Court, who shall be responsible for their safe custody.

2. The said officer shall, on the receipt of each original Will, cause a copy of the same to be carefully entered in a register to be kept for that purpose, and shall also cause to be prepared an Alphabetical index, in which the name of the testator, &c., and the number and page of the register in which a copy of the Will is entered, shall be recorded in the annexed form—

Name of Testator.	Residence, &c.	No. and year of register.	Page.

3. The original Wills shall be deposited in a fire-proof safe, which shall be kept in the office room of the head clerk or other officer aforesaid to whom the safe custody of the Wills may have been entrusted. Where the Court has no iron safe, the Wills may be placed in a small block-tin box, the key of which shall remain with the Judge or District Delegate; and the District Registrar or Sub-Registrar of the place shall, if the Judge or District Delegate require him, lock up this box in his fire-proof safe, giving it up to the Judge or District Delegate on his written demand from time to time.

4. At the expiration of every calendar year, each District Delegate shall transmit to the Court of the District Judge all the original Wills in respect of which a grant of Probate or Letters of Administration has actually been made during the year, together with the register containing the copies thereof and the index, and these shall then be preserved along with the Wills deposited in the District Court subject to the same rules as to custody, inspection, &c.

Relating to Inspection of Wills.

5. Every inspection of original Wills or the registers thereof, as well as applications for copies of Wills, shall be made within the hours fixed by the Judge or District Delegate, and published by a notification posted in a conspicuous place in the Court, and shall be subject to the following conditions:—

6. The inspection of an original Will shall be allowed only on the written order of the Judge or of the District Delegate previously obtained, and shall take place in the presence of the head clerk or other officer who may have charge of the same, and that officer shall be responsible for the Will not being taken out of his sight during such inspection, and also that no erasures or alterations are made in it.

7. Applications for a copy of an original Will shall be submitted to the Judge or District Delegate, and such copy shall only be granted subject to the conditions which attach to the inspection of original Wills.

8. The following fees shall be levied in court-fee stamps for the inspection of Wills, &c.—

(i) For the inspection of an original Will, court-fee stamp of the value of one rupee.

(ii) For the inspection of a copy of a Will in the register, court-fee stamp of the value of eight annas.

(iii) For copies, the same fee as for inspection, in addition to the copying charges, which shall be at the usual rate obtaining in the Civil Courts, and shall be levied in the same way as such charges are levied in the Civil Courts under Chapter IV, Rule VIII (pages 128-132), Civil Rules and Orders.

9. All applications for copies or inspection of Wills and Registers of Wills shall be entered in the register of applications for copies prescribed by the High Court's Circular Order No. 6 of 9th May 1890.

10. In cases where the fees collected exceed Rs. 5 per mensem, District Judges or District Delegates may assign a moiety to the officer entrusted with the custody of the Wills, the balance being credited to Government. In cases where the collections do not average more than Rs. 5 per mensem, District Judges or District Delegates may sanction the payment to such officer of the full amount realized.

H. J. S. COTTON,
Offg. Chief Secy. to the Govt. of Bengal.

DECLARATION.

The 25th May 1892.—Whereas it appears to the Lieutenant-Governor of Bengal that land is required to be taken by Government at the public expense for a public purpose, viz., for the Kendrapara Town outpost, in the village of Santsahi Ayma, pargana Tikan, zilla Cuttack, it is hereby declared that for the above purpose a piece of land measuring, more or less, 1 rood and 39 poles of standard measurement, bounded on the north by the Kendrapara Town road; on the south by the lakhiraj land of Gokhani Bibi; and on the east and west by the lakhiraj lands of Lokenath Das, is required within the aforesaid village of Santsahi Ayma.

This declaration is made, under the provisions of section 6 of Act X of 1870, to all whom it may concern.

H. J. S. COTTON,
Offg. Chief Secy. to the Govt. of Bengal.

Orders and Notifications by the Government of India, &c.

[*Reprinted from the "Gazette of India."*]

The following orders, issued by the Government of India, Revenue and Agricultural Department, are republished for general information.

H. J. S. COTTON,
Offg. Chief Secy. to the Govt. of Bengal.

NOTIFICATION.

EMIGRATION.

Simla, the 23rd May 1892.

No. 1085.—In substitution of the Notification of the Government of India, No. 898 of the 5th May 1892, which was published in the *Gazette of India* of the 7th idem, the following draft Notification is published under section 81 of the Indian Emigration Act XXI of 1883, for the information of persons likely to be affected by the proposed conditions, and notice is hereby given under that section that the draft Notification will be taken into consideration by the Governor-General in Council on the 28th June 1892.

2. Any objection or suggestion which may be made by any person with respect to the draft before that date will be received and considered by the Governor-General in Council.

Draft Notification.

Under the powers reserved by Rule 5 of the Rules providing for the fitting of artificial ventilators to emigrant vessels, published under the Notification of the Government of India in the Revenue and Agricultural Department, No. $\frac{38}{2-5}$-E., dated the 27th March 1889, the Governor-General in Council is pleased to exempt from the operation of those rules steam-vessels fulfilling the following conditions, namely:—

(1) The steam-vessels shall be of sufficient power to maintain an average speed of 10 knots per hour when fully laden.

(2) They shall be provided with two complete suits of sails and storm sails, and with spare gear in accordance with the following list:—

LIST.

Spare gear for emigrant steam-vessels—

One spare length of crank shaft.
One spare slide rod for main engines.

List as per paragraph 90, *Board of Trade Rules—*

1 pair of connecting rod brasses.
1 air-pump bucket and rod with guide.
1 circulating pump bucket and rod.
1 air-pump head valve, seat and guard.
1 set of India-rubber valves for air-pumps.
1 circulating-pump head valve, seat and guard.
1 set of India-rubber valves for circulating pumps.
2 main bearing bolts and nuts.

2 connecting rod bolts and nuts.
2 piston rod bolts and nuts.
8 screw shaft c upling bolts and nuts.
1 set of piston springs.
3 sets if of India-rubber, or 1 set if of metal, of feed pump valves and seats.
3 sets if of India-rubber, or 1 set if of metal, of bilge pump valves and seats.
1 hydrometer.
Boiler tubes, 3 for each boiler.
100 iron assorted bolts, nuts, and washers, screwed, but need not be turned.
12 brass bolts and nuts, assorted, turned and fitted.
50 iron " " " " "
50 condenser tubes.
100 sets of packing for condenser tube ends, or an equivalent.
At least one spare spring each size for escape valves.
1 set of water gauge glasses.
$\frac{1}{10}$th of the total number of fire bars necessary.
3 plates of iron, assorted.
6 bars of iron, assorted.
1 complete set of stocks, dies and taps, suitable for the engines.
1 smith's anvil.
1 fitter's vice.
Hatchet braces and suitable drills.
1 copper or metal hammer.
Suitable blocks and tackling for lifting weights.
1 dozen files, assorted, and handles for the same.
1 set of drifts or expanders for boiler tubes.
1 set of safety-valve springs (if so fitted) for every four valves; if there are not four valves, then at least one set of springs must be carried.
1 screw jack.

And a set of engineer's tools suitable for the service, including hammers and chisels for vice and forge, solder and soldering iron, sheets of tin and copper, spelter, muriatic acid, or other equivalent, &c., &c.

STAR OF INDIA.

Nadia Collectorate, the 13th May 1892. K. G. GUPTA, Collector

NOTICE is hereby given that proprietary right of Government, as specified in the conditions of sale below, to the undermentioned estate situate in the district of Dacca, will be put up to sale at the Dacca Collectorate on the 22nd June 1892, corresponding with 9th Ashar 1299 B.S.

The purchaser will be subject to the following conditions of sale :—

CONDITIONS OF SALE.

1st.—The estate to be sold to the highest bidder above the upset price, which will be fixed by the Collector at the time of sale. The purchaser of this estate will be considered as the proprietor of the estate, and the entire proprietary right of Government in such estate will be transferred to him, subject to the revenue fixed in perpetuity.

2nd.—The sale to be subject to existing leases and to the rights conferred by the settlement proceedings and by the laws in force, and purchasers to be bound to respect the rights of resident cultivators who have signed the schedule of assessment prepared by the Revenue authorities.

3rd.—If the amount of purchase-money do not exceed Rs. 100, the whole amount to be paid down at once.

4th.—If the amount of purchase-money exceed Rs. 100, one-fourth of the amount bid to be immediately deposited. If the balance be not paid by noon of the fifteenth day after the sale, reckoning the day of sale as one, or if that day be a close holiday, then by noon of the first succeeding office day, the sale is to be cancelled (the sum deposited being forfeited to Government), and the estate to be again put up to sale at the risk of the defaulting purchaser, after issue of advertisement, as in the case of original sale—

Midnapore Collectorate, the 18th May 1892.

R. C. DUTT, Collector.

NOTICE is hereby given, under sections 6 and 13, Act XI of 1859, that the undermentioned estate in the district of Bogra will be put up for sale at the Collector's Office of that district on 25th June 1892 for arrears of revenue and other demands, which, by the Regulations and Acts in force, are directed to be realized in the same manner as arrears of revenue.

When in columns 5, 7, and 9 of the appended statement it is stated that only a share is to be sold, a separate account is kept for such share, and the other share or shares in the estate are excluded from the sale :—

1	2	3	4	5	6	7	8	9

Bogra Collectorate, the 20th May 1892.

P. C. LYON, Officiating Collector.

NOTICE is hereby given that the undermentioned plots of land, no longer required by Government, situated along the East Indian Railway, in the district of Hooghly, will be put up to sale at 12 o'clock on the 12th July 1892, corresponding with the 29th Ashar 1299 B.S.

The purchasers of the several plots of land will be subject to the following conditions :—

1*st*.—The purchasers will have no power to make any excavations on the lands nearer than 15 feet from the railway fencing, or plough the land closer than 3 feet from its foundation.

2*nd*.—If the amount of purchase-money does not exceed Rs. 100, the whole amount must be paid down at once.

3*rd*.—If the amount of purchase-money exceeds Rs. 100, one-fourth of the amount must be immediately deposited, If the balance be not paid by noon of the fifteenth day after the sale, reckoning the day of sale as one, or if that day be a close holiday, then by noon of the first succeeding office day, the sale shall be cancelled (the sum deposited being forfeited to Government), and the lot again put up for sale at the risk of the defaulting purchaser after issue of advertisement as in the case of original sale.

4*th*.—The plots of land will be sold revenue-free to the highest bidders.

5*th*.—The purchasers shall be put in possession on receipt by the Collector of the orders of the Board confirming the sales.

Consecutive number of lot	Name of district.	Pargana and mauza.	Number of mile on which land is situate.	Situated on which side of the railway.	Approximate area of lot in bighas and in acres.		Land excluded from sale from each lot. Reasons for exclusion.		Commencement and termination of lot.	Boundary of Lot.

(204—1)

In the matter of the Indian Companies Act, 1882, and in the matter of the Munjha Tea Company, Limited, in Liquidation.

NOTICE is hereby given, pursuant to section 186 of the Companies Act, 1882, that a General Meeting of the members of the abovenamed Company will be held on the 24th June 1892, at 12 o'clock noon, at 4, Mangoe Lane, Calcutta, in order that there may be laid before the said Company an account showing the manner in which the winding up has been conducted and the property of the Company has been disposed of ; and in order that the said Company may hear any explanation that may be given by the Liquidators and also in order that an extraordinary resolution may be passed for determining the manner in which the books, accounts, and documents of the said Company and of the Liquidators shall be disposed of.

LOVELOCK & LEWES, Liquidators.
Dated 20th May 1892. (166—1)

IN pursuance of Section 42, Act XXVIII of 1866 notice is hereby given that all persons haivng claims against the estate of William Meldrum, late of the Chaudpore Tea Estate, in the Habiganj sub-division of Sylhet, Tea Planter, who died on the 20th day of March 1892, should send in their claims to the undersigned on or before the 6th day of August next, after which date no claims will be admitted, and the assets of the estate will be distributed.

OCTAVIUS STEEL, Executor, W. Meldrum, deceased.
Calcutta, the 25th April 1892. (101—3)

East India Tea Company, "Limited"

NOTICE is hereby given that an Extraordinary General Meeting of the abovenamed Company will be held at the Registered Office of the Company, No. 4, Mangoe Lane, Calcutta, on Friday, the 8th day of July 1892, at 3-30 o'clock in the afternoon, for the purpose of considering, and, if thought fit, passing, with or without modification, the subjoined resolution.

And notice is hereby also given that an Extraordinary General Meeting of the Company will be held at the aforesaid Registered Office of the Company on Friday, the 22nd day of July 1892, at 3-30 o'clock in the afternoon, for the purpose of receiving a report of the proceedings at the abovementioned Extraordinary General Meeting, and of confirming (if thought fit) as a special resolution the resolution passed at such Meeting.

Resolution.

That the Articles of Association of the Company be altered in manner following :—

(*a*) By substituting the following Article for Article 15, namely—

15. A General Meeting shall be held once in every year at such time and place as may be prescribed by the Company in General Meeting, and if no other time or place is prescribed then in the month of March in every year at such time and place as may be determined by the Directors :—

(*b*) By striking out the word "half-yearly" wherever the same occurs in Articles 16 and 18.

(*c*) By substituting the word "March" for the word "August" in Article 32.

(*d*) By striking out Articles 34, 39, 40 and 41.

(*e*) By striking out the words "three calendar months' notice" in Article 18.

By order of the Board,

WILLIAMSON, MAGOR & Co., Secretaries.
4, Mangoe Lane, Calcutta, 5th April 1892. (46—4)

Chapaguri Tea Company, "Limited," in Liquidation.

NOTICE is hereby given that a General Meeting of the Shareholders of the above Company will be held at the Registered Office, No. 12, Mission Row, Calcutta, on Thursday, the 2nd day of June next, at 12 o'clock noon, when the Liquidator will lay before the Meeting an account showing the manner in which the winding up has been conducted and the property of the Company disposed of, and for the purpose of transacting such other business as may be brought forward.

D. A. CAMPBELL, Liquidator, Chapaguri Tea Company, "Limited."
Calcutta, the 30th April 1892. (115—3)

Notification.

IT is hereby notified, under section 5 of the Treasure Trove Act VI of 1878, that on the 3 st day of Janusry 1892, treasure, consisting of gold pieces weighing 6 tolas and 1¼ chimams, and brass pieces weighing 24½ chimams, valued at Rs. 90-0-2, was found hidden in an earthen pot while digging the side channel in Bodabanda tank, on the side of the Srungavarapukota Bhimasingi road, at Jami, by Chippada Paradesigadu of Jami in the Srungavarapukota taluk.

2. All persons claiming the said treasure are hereby required to appear personally, or by an agent duly authorized, before the Collector of Vizagapatam at his office on 14th November 1892, in view to the matter being enquired into and determined according to law.

F. RAMAMURTI, for Collector.
Vizagapatam Collector's Office, the 23rd May 1892.

The Padres Hill Mining Company, "Limited."

PROCEEDINGS of the Extraordinary General Meeting of the *Padres Hill Mining Company*, "*Limited*," held at the Registered Office of the Company, No. 14, Old Court House Street, Calcutta, on Thursday, the 26th day of May 1892, at noon.

PRESENT:

Mr. J. S. Fraser, *Chairman*.
„ R. Blechynden.
„ A. E. Harris.
„ J. D. Hanlon.
„ J. Steel.
„ J. P. Farrell.
„ R. C. Baines.
„ G. W. Sutherland.
„ J. Dyce Nicol.
„ A. H. Abbott.
„ W. Garth.
„ T. Traill.
Mr. J. McKeith.
„ R. A. Alston.
„ G. W. Caine.
„ H. W. Boyd.
„ T. W. Anderson, by his Attorney Mr. G. A. Ormiston.
„ W. L. Alston, by his Attorney Mr. J. S. Fraser.
„ J. Martin, by his proxy Mr. J. S. Fraser.

Mr. J. S. Fraser having been called to the Chair, the notice convening the meeting was read.

It was proposed by Mr. J. S. Fraser, and seconded by Mr. H. W. Boyd—

"That the Resolution which was passed at the Extraordinary Meeting of the Company, held on Tuesday, the 10th May 1892, that the Company be wound up voluntarily under the provisions of the Indian Companies Act, 1882, be and is hereby confirmed."

It was proposed as an amendment by Mr. W. Garth, and seconded by Mr. G. W. Sutherland—

"That the Company be wound up by the Court."

On the amendment being put to the Meeting, it was, on a show of hands, declared to be lost. The original Resolution on being put to the Meeting was then declared carried.

It was proposed by Mr. J. S. Fraser, seconded by Mr. R. Blechynden, and carried—

"That Mr. J. H. Lewes, of Messrs. Lovelock and Lewes, be and he is hereby appointed Liquidator for the purposes of such winding up, and that the remuneration of the said Liquidator for his services in the winding up be fixed at a sum of Rs. 2,000 (rupees two thousand)."

Mr. W. Garth entered his protest against the correctness of the minutes of the meeting held on 10th May 1892, Mr. Garth asserting that the Resolution proposing liquidation was carried *nemine contradicente* and not unanimously. The Chairman, although dissenting from Mr. Garth's statement, agreed to record his protest.

(201—1) J. S. FRASER, Chairman.

In the goods of the late George Sibley, C.I.E., deceased.

Letters-of-administration to the estate and effects of the abovenamed deceased, with copy Will and Codicil of the deceased annexed, have this day been granted by the High Court of Judicature at Fort William in Bengal to Thomas Horace Wilson, Solicitor, of, No 7, Old Post Office Street, Calcutta, for the use and benefit of Septimus Sibley and Sir John Tomes Knight, the executors appointed by the said Will, limited until the said executors shall obtain probate of the same.

NOTICE is hereby give, nunder the provisions of section 42, Act XXVIII of 1866, and section 320 of Act X of 1865, requiring creditors and others having claims against the estate of the said testator to send in their claims to the said Thomas Horace Wilson on or before the 26th day of July next, after which date the assets of the said estate will be distributed, having regard only to such claims of which notice shall have been given. Dated this 30th day of May 1892.

(208—1) BEPRENDRA NATH CHATTERJEE.

The Teendarrea Company, Limited (in liquidation).

NOTICE is hereby given that all persons having claims against the Teendarrea Company, Limited, should submit their statements to the undersigned supported by vouchers, or other proper proofs, on or before 15th June 1892, after which no claims will be admitted, and the assets will be distributed.

A. H. HICK, Liquidator, Teendarrea Company, Ld.
38, Strand, Calcutta, the 30th May 1892. (214—1)

The Bengal Trust and Loan Company, Limited, in Liquidation.

Notice.

NOTICE is hereby given that the terms for the purchase of publications from the Bengal Secretariat Press, except *for* Government offices or offices under the control of Government Officers are strictly cash and on no other terms will any publication be supplied, or advertisement, notice, &c., inserted in either of the Gazettes

In the case of insolvency notices, cash must be sent with such notices when forwarded by Mofussil courts or offices, and for those forwarded by the Official Assignee cash must be paid on presentation of memorandum of cost by the Accountant and Treasurer Bengal Secretariat.

Remittances in postage stamps should be accompanied by an addition of one anna in the rupee on account of discount.

☞ Applications for Acts of the Bengal Legislative Council required on the public service should be addressed to the REGISTRAR, Office of the Legislative Department, Government of Bengal.

Copies are available for purchase at MESSRS. THACKER, SPINK AND CO., Government Place, Calcutta.

The List of Books available for sale at the Secretariat Press will in future be published once only in each month.

Spare copies of the List will, however, be kept in stock ready for issue on receipt of applications for them.

NOTICES TO MARINERS.

GOVERNMENT OF BENGAL,—MARINE DEPARTMENT.

NOTICE TO MARINERS—No. 90.

[First Publication.]

JAPAN—NIPON—SOUTH COAST.

Goza harbour and approaches—uncharted dangers.

THE following Notice to Mariners (No. 164 of 1892) issued by the British Admiralty is republished:—

(1) A recent small scale plan of Goza harbour having been received from the Japanese Government, which shows several dangers, not charted on Admiralty plan, No. 994, Mariners are cautioned not to use Goza harbour without a pilot, until a new large scale plan is published.

The following caution has been placed on Admiralty plan No. 994:—"Many uncharted dangers in Goza harbour."

(2) A rock with 15 feet water on it has been discovered outside Outer reef, southward of Goza harbour, from which Kami Sima bears E.N.E., distant 3 cables, and several other dangers have been found between Outer reef and the shore.

Vessels are consequently warned that they should give these outer dangers even a wider berth than usual.

Approximate position of Kami Sima, lat. 34° 11′ 50″ N., long. 136° 48′ 30″ E.

NOTICE TO MARINERS—No. 91.

[First Publication.]

JAPAN—YEZO ISLAND—NEMORO PENINSULA.

Sunken rock south-west of Isomoshiri jima.

THE British Admiralty has given notice (No. 167 of 1892) that the Commander of the Japanese steam-vessel *Tsukushi maru* reports having touched, in October 1891, on a sunken rock lying off the south-east coast of Nemoro peninsula, with the south-west extreme of Isomoshiri jima bearing approximately N.E. by E. ½ E., distant 1$\frac{4}{10}$ miles.

The vessel was drawing 17 feet when she touched, and the lead gave 4½ fathoms on her starboard side, so that probably it is a pinnacle rock. During subsequent examination under unfavourable circumstances, 3 fathoms was the least depth obtained, but there is probably shoaler water in the vicinity.

Approximate position, lat. 43° 19′ N., long. 145° 45′ E.

NOTICE TO MARINERS—No. 92.

[First Publication.]

AUSTRALIA—North-west coast.

King sound entrance.

Shoals in and near the fairway Sunday strait.

The British Admiralty has given notice (No. 168 of 1892) concerning certain shoals lying in and near the fairway of Sunday strait, King sound entrance :—

1. A shoal, with 2 fathoms water on it, and 12 to 20 fathoms close northward, lies with the west extreme of East Roe island bearing south, distant about 1¼ miles.

   Approximate position, lat. 16° 20¼′ S., long. 123° 13′ E.

2. A shoal of small extent, with dangerously shallow water reported on it, lies in the fairway of the strait, with Tree islet bearing about E. ¼ S., distant 2⅓ miles.

   Position (to be considered doubtful), lat. 16° 22¼′ S., long 123° 16⅓′ E.

3. Amur reef, lying north-west of Long island, and which dries 15 feet at low water, extends nearly 3 miles in a N. by E. and S. by W. direction, with a breadth of about 1⅓ miles.

   Approximate position of northern end, lat. 16° 29⅓′ S., long. 123° 18′ E.

[First Publication.]

NOTICE TO MARINERS—No. 93.

AUSTRALIA—South.

Special warning to Mariners—compasses—heeling error.

The Secretary, Marine Board, Port Adelaide, has given notice that the attention of Mariners has been directed by the Board of Trade "to the necessity of exercising a constant watchfulness in regard to the error of their navigating compasses, more particularly to the heeling error, the neglect of which is doubtless a common, though often unsuspected, cause of the stranding of many vessels.

"Serious changes frequently take place in the character and amount of the heeling error as the ship changes her magnetic lat. from (1) the vertical force arising from the permanent magnetism of the ship, the error from which is greatest in high lats., diminishes until the Equator is reached, where it is least, and increases again in the opposite hemisphere, but still retaining the same name; (2) from verticle induction in vertical and transverse soft iron, generally (such as beams, &c.), the error from which is greatest in high lats., diminishes until the Equator is reached, where it becomes *nil*, and increases again (but of an opposite name) as the vessel recedes from the Equator in the opposite hemisphere. It is difficult, therefore, to predict with any great accuracy the change that will take place, observations at every possible opportunity being the only reliable safeguard.

"In the Nrn. hemisphere in ships built with their heads from about S.E., through N., to S.W. (the usual effect of the permanent magnetism of the ship then conspiring with that of her vertical and transverse soft iron), the N. pt. of the compass needle, assuming the compass to be on the upper deck and on the after portion of the ship as usual, will, as a general rule, be drawn to windward or to the high side of the ship; the nearer the ship's head was to N. whilst building the greater the error that may be expected, the effect being to throw the ship to windward of her supposed position when steering on Nly. courses, and to leeward on Sly. courses, the error decreasing as the Equator is approached, and small, perhaps of a contrary name, in the Srn. hemisphere.

"In ships built with their heads from about S.E., through S., to S.W. (the usual effect of the permanent magnetism, and that of the transverse, &c., iron, being then contrary to each other), the N. end of the compass needle may be drawn to leeward, depending upon whether the vertical force of the permanent magnetism or that of the induced magnetism of transverse iron predominates, but the error would then, as a general rule, be small in these lats. and large in the Srn. hemisphere.

"*It has been est., as a rule, however, that in the Nrn. hemisphere (in compasses above the upper deck) in the majority of iron ships, the N. pt. of the compass needle is drawn to windward, the consequence being that if this is not allowed for, a ship will go to windward of her supposed position on Nly. courses and to leeward on Sly. courses.*

"The heeling error is always greatest with the ship's head at or near N. or S. by the disturbed compass, and least, or *nil*, with the ship's head E. or W. It is particularly important, therefore, should the vessel heel over either from the effect of the wind, or the cargo, when steering in a Nly. or Sly. direction, that the Mariner should use every precaution and never lose an opportunity of ascertaining the errors of his compass.

"The heeling error may be small or large, depending greatly upon the position of the compass—it has been known to exceed 2° for every degree heel of the ship—and is directly proportional to the amount of heel, consequently if the error at N. or S. for 1° of heel is known, the error for any other direction of the ship's head, and amount of heel, can be found by the usual methods.

"Mariners are further warned that the adjustment of compasses by magnets, soft iron, &c., is for bringing the error within manageable limits and for equalising the directive force of the needle, and must only be considered approx. for the lat. in which the adjustment was made, and that they should lose no opportunity of verifying the error both in port and at sea, as it is constantly changing from numerous causes, the chief amongst which are heeling, change of lat., change of cargo, collision, after repairs, and from the ship remaining with her head in one direction for a length of time, &c."

EATON W. PETLEY,
Port Officer of Calcutta.

NOTICE TO MARINERS—No. 94.

[First Publication.]

CHINA—EAST COAST—YANG TSE KIANG.

Alterations in marking South Channel.

THE British Admiralty has given notice (No. 180 of 1892) that on account of changes in South channel, Yang tse Kiang, the following alterations have been made:—

1. Kiu Toan light vessel has been moved to a position off the south-east end of Block House shoal, and now lies with Kiu Toan beacon bearing S. 68° W., distant about $3\frac{3}{10}$ miles.

Approximate position, lat. 31° 17′ 10″ N., long. 121° 47′ 25″ E.

2. Middle ground lower buoy, painted black, and surmounted by a black spherical cage, now lies with House island beacon bearing N. 11° W., distant about $3\frac{8}{10}$ miles, and marks the south-west side of the channel.

Approximate position, lat. 31° 12′ 50″ N., long. 121° 52′ 25″ E.

3. Middle ground upper buoy, painted black, and surmounted by a black cylindrical cage, now lies with Kiu Toan beacon bearing S. 12° W., distant about $2\frac{2}{10}$ miles, and marks the south-west side of the channel, and the north-west extreme of Middle ground.

Approximate position, lat. 31° 18′ N., long. 121° 44′ 20″ E.

4. A red buoy, surmounted by a black spherical cage, and named *South-east Knoll buoy*, has been moored with Kiu Toan small beacon bearing S. 87° W, distant about $2\frac{2}{10}$ miles, and marks the north-east side of the channel, and the south-easternmost of a line of knolls that have formed off the south-west side of Block House shoal.

Approximate position, lat. 31° 19′ 30″ N., long. 121° 42 20″ E.

NOTE.—Vessels should not pass north-eastward of Kiu Toan light vessel.

NOTICE TO MARINERS No. 88.

[Third Publication.]

INDIAN OCEAN—SEYCHELLES BANK.

Shallow water on the western edge.

THE British Admiralty has given notice (No. 157 of 1892) that a recent examination of the western edge of the Seychelles bank conducted by Lieutenant and Commander Smyth, H.M. surveying vessel *Stork*, shows that a nearly continuous rim, of more or less shallow water, extends from Bird island to beyond the western point of the bank.

As it is evident that dangerously shoal spots may exist in many parts of this rim, besides those already known, ships should avoid crossing it north of the fifth parallel of south latitude. Southward of this parallel there is, according to the scanty information existing apparently a break in the rim.

RESULTS OF EXAMINATION OF CANDIDATES FOR APPOINTMENT AS DEPUTY MAGISTRATE-COLLECTORS AND SUB-DEPUTY COLLECTORS.

RESOLUTION.

APPOINTMENT DEPARTMENT.

Dated Darjeeling, the 25th May 1892.

READ—

The Resolution of 20th July 1891, reporting on the result of the examination held in March in that year, and appointing certain candidates to be probationers of the Executive Branch of the Provincial Service.

The Notification of 14th September 1891, regarding the admission of Natives of India to the Opium Department.

The Notification of 10th October 1891, publishing rules for the Subordinate Executive Service Examination of 1892.

The Reports of the Examiners at the examination held on the 28th, 29th, 30th and 31st of March 1892.

1. As the result of the examination for the Subordinate Executive Service, held in 1891, sixteen gentlemen were selected to be Probationary Deputy Collectors, three were appointed to be Temporary Sub-Deputy Collectors, and eight were appointed to be Probationary Sub-Deputy Collectors. The sixteen Probationary Deputy Collectors have in due course been appointed to be

Officiating Deputy Magistrates and Deputy Collectors, and similarly the eight Probationary Sub-Deputy Collectors have been absorbed as substantive *pro tempore* Sub-Deputy Collectors in the fourth grade. The Lieutenant-Governor is glad to say that the report furnished by their official superiors of the working of these probationary officers has been uniformly satisfactory.

2. In September 1891 it was decided that a competitive examination of Native candidates for the Opium Department would be held in 1892 at the same time and in the same subjects as the examination prescribed for candidates for the Executive Branch of the Provincial Service; and it was declared that the candidate who obtained the highest aggregate of marks would be admitted to the Opium Department and be appointed between the second and third of the three successful European and Eurasian candidates at their examination. The candidate so appointed would be considered a probationer for the first two years of his service.

3. In October it was notified that, at an examination to be held in March 1892, 20 candidates would be selected for Probationary Deputy Collectorships on a salary of Rs. 50 a month, and 10 for Probationary Sub-Deputy Collectorships on a salary of Rs. 30 a month respectively. It was announced that 10 of the probationers for Deputy Collectorships would be appointed from the first 10 candidates on the list in order of merit, that 10 would be selected by the Lieutenant-Governor either from those who are now Sub-Deputy Collectors, or from among those who have obtained a minimum of one third of the total marks, and that from the remainder of those qualified by obtaining one-third of the total marks the Lieutenant-Governor would select 10 more candidates as probationers for Sub-Deputy Collectorships.

4. The examination so notified was held on the 28th, 29th, 30th and 31st of March 1892. No fewer than 195 competitors (of whom all except five were graduates of the Calcutta University) entered their names for the examination, and of these 190 actually appeared and sent in papers. Of these 190 candidates, 176 took up Bengali as their vernacular, 8 took up Hindustani, and 5 took up Uriya. One gentleman, Mr. J. E. Friend-Pereira, took up no vernacular. No less than 179 of the candidates have obtained the minimum of one-third marks necessary for appointment into the Subordinate Executive Service by nomination.

5. The following ten gentlemen, who stood first in order of merit, are entitled to appointments as Probationary Deputy Collectors:—

	No. of marks.
Babu Sriram Chunder Bose, B.L. ...	... 588
„ Ambica Prasad Sen, M.A., B.L.	... 580
„ Bunku Behary Dutt, B.L. ...	... 570
„ Raj Kishore Das, B.L. ...	... 562
„ Rasik Lall Sen, B.A. ...	... 541
„ Hemendra Lall Khastgir, M.A.	... 537
„ Bhabani Prosad Neogi, B.A. ...	... 522
„ Grish Chunder Nag, B.A. ...	... 517
„ Kunja Bihari Goswami, B.L. ...	... 516
„ Nogendro Chunder Sen, B.L. ...	... 513

6. Babu Nogendro Chunder Sen was a candidate for the Opium Department as well as for the Subordinate Executive Service. He has, however, intimated that he would prefer to accept an appointment in the Subordinate Executive Service. The candidate for the Opium Department who obtained the next highest aggregate number of marks is Babu Mohima Nath Bhattacharjya, B.A., who is thirteenth in the general list and obtained 500 marks. He has been offered and accepted an appointment in the Opium Department, on the conditions stated in the notification of the 14th September last.

7. Of the ten selected candidates for Probationary Deputy Collectorships, one, Babu Rasik Lall Sen, is already a third grade Sub-Deputy Collector employed under the Administration of Assam, and draws a salary of Rs. 150 a month; another, Babu Kunja Bihari Goswami, is a substantive *pro tempore* Sub-Deputy Collector in Bengal in the fourth grade, drawing a salary of Rs. 100 a month. In consideration of their position in the service, they will at once be appointed to be Officiating Deputy Magistrates and Deputy Collectors on a

salary of Rs. 200 a month. There will therefore be two vacancies among probationers selected by merit, and the two next candidates in the list who occupy a position of equality in the eleventh place will be considered as entitled to appointments as Probationary Deputy Collectors. Their names are—

	No. of marks.
Babu Nogendro Nath Mukerjea, B.L.	503
Brajendra Nath Roy, B.A.	503

Of these two officers, again, the latter, Babu Brajendra Nath Roy, is already a substantive *pro tempore* Sub-Deputy Collector in Bengal in the fourth grade, drawing a salary of Rs. 100 a month. He will therefore be at once appointed to be an Officiating Deputy Magistrate and Deputy Collector on a salary of Rs. 200 a month. The thirteenth candidate having selected the Opium Department, the appointment of Probationary Deputy Magistrate will devolve on the fourteenth in the list, Babu Asutosh Bagchi, M.A., who obtained 490 marks.

8. The number of candidates to be selected by the Lieutenant-Governor among those who have obtained one-third marks is fixed at ten. The choice has been carefully made with reference to the number of marks obtained, the claims upon Government of members of the candidate's family, and the interests of different classes of the community. The following are the candidates selected for appointment as Probationary Deputy Collectors:—

Babu Ramani Mohun Das, M.A.
„ Ramapati Chatterjea, B.L.
„ Harendra Kumar Ghose, B.A. (I).
„ Nikhil Nath Roy, B.L.
„ Basanta Kumar Raha, B.L.
Babu Nogendro Nath Mitter, B.A.
Moulvie Syed Abdul Malek, B.A.
„ Mohiuddin Ahmed, B.A.
„ Abdul Kadir, B.A.
Mr. J. E. Friend-Pereira, B.A.

9. Of these, Babu Harendra Kumar Ghose is already a substantive *pro tempore* Sub-Deputy Collector of the fourth grade drawing a salary of Rs. 100 a month. He will therefore be at once appointed to be an Officiating Deputy Magistrate and Deputy Collector on Rs. 200 a month. To fill the vacancy created by this appointment Babu Uma Prasanna Guha, M.A., is selected as a Probationary Deputy Collector. Mr. Friend-Pereira, although he took up no vernacular language, obtained the highest marks in English Essay of any candidate. He is now a member of the Subordinate Executive Service, fourth grade, under the Administration of Burma, on a salary of Rs 150 a month, and will therefore also be appointed to be an Officiating Deputy Magistrate and Deputy Collector on Rs. 200 a month. To fill the vacancy thus caused, Babu Jagadis Chunder Sen, M.A., is selected as a Probationary Deputy Collector.

10. All these probationary officers will receive a salary of Rs. 50 per mensem, and if the report from the districts where they are stationed is favourable they will, after such period of probation as may seem advisable, be appointed to be Officiating Deputy Magistrates and Deputy Collectors as vacancies occur. They will not ordinarily be vested with magisterial powers until they are so appointed. Separate orders will now at once be passed posting all the gentlemen above named to districts.

11. There are at the present moment 41 Officiating Deputy Magistrates and Deputy Collectors, or eight in excess of the vacancies in the several grades. But against this excess there is a deficiency in the number of officers sanctioned for Covenanted appointments, which, under the orders of the Government of India, may be supplied by appointments in the Subordinate Executive Service. The deficiency in the Covenanted Service consists of 23 officers, and deducting from this number the eight Officiating Deputy Magistrates in excess, the number of officers still short is fifteen. Leaving a margin of ten to provide for officers returning from leave or deputation, five appointments are available in the grade of Officiating Deputy Magistrates, which can now be filled up by the promotion of Sub-Deputy Collectors.

12. The Lieutenant-Governor has decided in this connection that the claims of Special Deputy Collectors who are appointed for specific temporary work should receive the first consideration. These officers are now always carefully chosen from among the grades of Sub-Deputy Collectors, and although the work done by them is in theory of a temporary nature, experience has shown

that there is enough of it to furnish continuous employment for a considerable number of officers. It is only fair to them that they should receive a preferential claim among Sub-Deputy Collectors for promotion to be Officiating Deputy Collectors in the regular line. Such officers, when included in the regular cadre of the Subordinate Executive Service, will not be indefinitely detained on special duty, but will be transferred to general employment as soon as possible: until, however, they can be so transferred they will be seconded. Under these orders the following Special Deputy Collectors are now appointed to be Officiating Deputy Collectors, but so long as they remain employed on their special work they will be seconded in the regular line of the service:—

Babu Behari Lall Mukerjea, B.A.	...	Employed on land acquisition work in North Bihár.	
„ Jadu Nath Sircar	...	Ditto	revaluation work in Manbhum.
„ Prosunno Kumar Bose	...	Ditto	income-tax work in Calcutta.
„ Surjya Kumar Das	...	Ditto	batwara work in Mymensingh.
„ Satya Taran Mukerjea	...	Ditto	revaluation work in Burdwan.

13. These officers will now be severally seconded in the regular line by the appointment of Babus Rasik Lall Sen, Kunja Behari Goswami, Brajendra Nath Roy, Harendra Kumar Ghose, and Mr. J. E. Friend-Pereira, who, under orders contained in this Resolution, have been appointed to officiate as Deputy Magistrates. They should all of them revert to general duty when they have finished the special work on which they are engaged, or arrangements have been made for relieving them of it.

14. The following are the ten candidates selected by the Lieutenant-Governor from among those who have obtained one-third marks to be Probationary Sub-Deputy Collectors:—

Babu Charu Chunder Chatterjea, B.A.	Babu Abhay Prosad Das, B.A.
„ Makhan Lall Chatterjea, M.A.	„ Jadu Nath Chatterjea, M.A.
„ Hem Chunder Chatterjea, M.A., B.L	Moulvie Syed Ahmad Ali Khan, B.A.
Mr. Rowland Nagendro Lall Chandra, M.A.	„ Afsaruddin Mahomed, B.A.
Babu Narendro Kumar Ghose, M.A.	„ Gholam Ghous, M.A.

15. These probationary officers will receive a salary of Rs. 30 per mensem at present, and will, if they are satisfactorily reported on, be gradually absorbed into the fourth grade of Sub-Deputy Collectors as vacancies occur. Separate orders will at once be passed posting them to districts.

ORDER.—Ordered that the above Resolution be published in the *Calcutta Gazette*.

By order of the Lieutenant-Governor of Bengal,

H. J. S. COTTON,

Offg. Chief Secy. to the Govt. of Bengal.

RESOLUTION ON THE REPORT ON THE CALCUTTA MEDICAL INSTITUTIONS FOR THE YEAR 1891.

MUNICIPAL DEPARTMENT—MEDICAL.

Darjeeling, the 28th May 1892.

RESOLUTION No. 157T.—M.

READ—

The Report on the Calcutta Medical Institutions for the year 1891.

Read also—

The Report for the year 1890 and the Resolution recorded thereon.

The year 1891 was more unhealthy for the Town than the previous year, the number of deaths reported for Calcutta, Howrah, and the Suburbs being 23,650 in 1891, against 22,241 in 1890. Cholera prevailed with great severity during the early part of the year, owing, it is said, to the large influx of pilgrims and others into Calcutta during the Ardhodoy Jog festival. The mortality from this cause in the Town of Calcutta alone rose from 963 in 1890 to 1,553 in the year under report, while that for the combined area, including Calcutta, Howrah, and the amalgamated Suburbs, rose from 2,243 to 3,445. The mortality from fever was again above the average, exceeding that of the previous year in the combined area by 1,094. There was a marked diminution, however, in the mortality from small-pox, and the entire area appears to have enjoyed a comparative immunity from this disease. The deaths from other causes remained practically the same.

2. The following statement shows the number of indoor and outdoor patients treated in the several hospitals and dispensaries during the past two years:—

Name of Institution.	1890.								1891.							
	Indoor.			Outdoor.		Total number of patients treated, both indoor and outdoor.	Total number of deaths among indoor patients.	Percentage of deaths on total number of indoor patients treated. (a) Reckoned on cases treated exclusive of those treated in the ophthalmic ward of the Medical College Hospital.
(b) Exclusive of 214 cases of no appreciable diseases.
(c) Ditto 39 ditto ditto.
(d) Ditto 20 ditto ditto.

There was an increase in the number of patients treated in all the hospitals with the exception of the Presidency General and Police Hospitals. The decrease in the number of patients treated at the Presidency General Hospital is said to have been due to there having been a smaller number of vessels in port, and consequently fewer seamen admitted to hospital; while in the case of the Police Hospital the decrease is ascribed to the absence of any outbreak of influenza. The total number treated, including both indoor and outdoor patients, rose from 232,435 to 245,136; the daily average of outdoor patients increased from 1553 14 to 1671·98, and that of indoor patients from 1202 93 to 1205·67. During the year an outdoor department was opened at the Eden Hospital, and though the attendance was not as large as might have been expected, there is every reason to believe that it will improve as the dispensary comes to be more generally known.

Of the total number of patients, both indoor and outdoor, treated in all the hospitals during the year, 153,705 were men, 34,678 women, and 56,753 children. The corresponding figures for the previous year were 143,722, 33,017 and 55,696. More than 50 per cent. of the patients treated were Hindus, next in order coming Muhammadans, Eurasians, Europeans, and other classes. Fewer Europeans sought relief at the hospitals during 1891 than in the previous year.

3. The death-rate among all the patients under treatment during 1891 was 127 per mille against 124 in 1890, excluding the patients treated for eye-diseases. This includes deaths from cholera, without which the death-rate would be 113 against 114 per mille. The average death-rate in English hospitals is stated to be 80 per thousand, and in French hospitals 95. In 1882 the death-rate in St. Bartholomew's Hospital in London was as high as 120, the Edinburgh rate being 105. As in the previous year, the death-rates were highest in the Howrah and Campbell Hospitals, which is natural, seeing that these are the refuges to which emigrants taken ill in the depôts, moribund cases found in the streets, and pauper patients generally are sent. Last year's Report and Resolution drew attention to the fact that the death-rate in our hospitals was persistently higher among girls than boys. This year this inequality has been removed, as the following statement shows :—

	Admissions.		Deaths.		Death-rate per mille.	
	Boys.	Girls.	Boys.	Girls.	Boys.	Girls.
1888 ...	662	647	74	73	111·7	112·8
1889 ...	797	776	77	99	96·6	127·5
1890 ...	950	701	78	99	82·1	141·2
1891 ...	1,006	793	110	86	109·3	109·2

The combined ratio of 109·3 per thousand is very little in excess of 108, the ratio of mortality among children in French hospitals during 1885.

4. There were only 21 cases of small-pox treated during the year, against 321 in the previous year; all the cases were admitted into the Campbell Hospital, and five proved fatal. The number of admissions for cholera was 761 against 528 in 1890; nearly half of this number were treated in the Campbell Hospital. In 455 cases, or 59·7 per cent. of the whole, the disease proved fatal. The number of cholera cases treated in the Presidency General and Howrah Hospitals was comparatively small. The Inspector-General states that there was no outbreak of the disease, such as occurred in 1890, among the patients under treatment in these hospitals, and claims this as due to the improvement in the drainage system. Cholera has, however, shown itself since the close of the year under report, and this has led to the discovery of further defects in the sanitary arrangements at these hospitals. The Lieutenant-Governor trusts that the matter will be made the subject of careful investigation. The cause of the prevalence of cholera in the Campbell Hospital is said to have been traced to the bad quality of the milk used by the patients, the theory being that the supposed germ of cholera is communicated by means of water used to adulterate the milk. The Inspector-General, however, thinks that the defective condition of the latrines may have had something to do with it. He maintains that the occurrence of an outbreak of cholera in a hospital among the patients under treatment for other diseases is always an indication of grave sanitary defects of some kind or other, thus implying that if the cause is removed the effect can also be prevented; and his opinion must necessarily carry great weight with the profession. There is, however, another school which holds that cholera is communicated through the air, and its supporters sometimes go so far as to maintain that it is as idle to seek for the causes of cholera as to enquire why the bullets of the garrison strike down one man rather than another on the glacis of a besieged fort. However this may be, the fact remains that the cause of cholera has not yet been conclusively traced. Attention has been drawn by the Inspector-General to "the practical immunity of the European residents of Calcutta of late years from cholera" as an illustration of what may be effected by improved sanitary surroundings. This, if it be a fact of permanent duration, is an important piece of evidence, but though the statement may be broadly true, it is certainly subject to a considerable number of exceptions. Dysentery and diarrhœa

were somewhat more prevalent than in the previous year, but the rate of mortality from these causes was less. Malarial fever was slightly less prevalent among the indoor patients treated during 1891 than in 1890, the figures for the two years being 4,235 and 4,366 respectively. The number of deaths from this cause was, however, heavier than in the previous year, the figures being 398 against 289. The number of cases of venereal diseases treated at the hospitals declined from 12,326 in 1890 to 11,866 in 1891. The difference is, however, too small to warrant the opinion that these diseases are less prevalent now than they were before. A comparison with the figures of previous years would have been useful, but the Inspector-General explains in paragraph 23 of the report that no comparison can be made with the prevalence of the disease previous to 1890, as in that year the nomenclature was changed. If so, a grave responsibility rests on those authorities who by a change in nomenclature have obscured statistics important to science. The number of cases of leprosy treated during the year was 134, of which 122 were admitted into the Campbell Hospital. Before such cases are admitted into this hospital in future, it should be ascertained whether no accommodation can be found for them in the Leper Asylum. There were 26 cases of enteric fever under treatment during the year, of which 9 proved fatal. This is the highest number on record since 1877. Experience shows that it is confined chiefly to Europeans.

5. The number of important surgical operations performed during the year was 2,221 against 2,080 in 1890. The revised classification prescribed by the Government of India was adopted in 1891, with the result that some institutions returned a larger number of major operations than before, while others returned less. This is shown in the cases of the Mayo and Medical College Hospitals, where the number of major operations are placed at 451 and 1,225 respectively, against 189 and 1,447 in 1890. Changes in classification which produce such results as this may be necessary, but they are very inconvenient, preventing the possibility of comparing the work of one year with another. The number of minor operations was 20,275 against 19,956. Death ensued in 107 against 88 of the cases in which major operations were performed, giving a death-rate of 45 per mille against 39 in 1890. The number of dental operations performed was 2,431 against 2,320. The statistics show that the number of Eurasians applying for dental treatment far exceeded that of other classes, and Mr. Woods, the Professor of Dentistry at the Medical College, has, it is said, observed that the teeth of mixed races are more prone to decay than those of other classes. This may possibly be a fact, but it is not established by the figures given in the report, which do not show the ratio to the total population borne by the classes referred to. In the case of Hindus, who are stated to be the next most frequent applicants for relief, decay of the teeth is said to be on the increase, and is attributed by the Professor of Dentistry to the influence of advancing civilization. The subject does not appear yet to have got beyond the stage of plausible conjecture.

6. In the Eden Hospital 1,485 women and 326 children were treated during the year, against 1,409 and 363 in 1890. Of the total number of patients treated, 979 were Europeans and 832 Natives, against 1,024 and 748, the corresponding figures for the previous year. The number of deaths among the Europeans was 32 against 27, and that among the Natives 65 against 42. The increase in the mortality among both classes of patients is attributed to the number of moribund cases admitted. There were 542 confinement cases against 442 in the previous year, of which 21 terminated in death against 10. Dr. Joubert remarks that among the native women there was an unusual number of bad labour cases, which he regards as a hopeful sign, indicating the growing popularity of the hospital with the native community. The number of cases of septicæmia increased from 15 to 24, of which eight originated in the hospital. It is hoped that the special precautions which are reported to have been taken to guard against this malady will reduce the number of such cases in future. The arrangements for supplying hot food and hot water in this hospital are said to be still very defective, although attention was drawn to them in the report for 1890. The Lieutenant-Governor trusts that the Principal will take steps to remedy this state of things, which is likely to impair the reputation and popularity of the hospital.

7. During the year the Shama Churn Law Eye Infirmary was opened, and all cases which were formerly treated in the ophthalmic wards of the Medical College Hospital were transferred to it. As a separate institution, the Eye Infirmary appears to have attracted more patients, the number of those seeking outdoor relief having increased from 10,466 to 11,389. The number of indoor patients was 504 against 563 in 1890. Most of the operations performed during the year consisted of cataract extraction, the percentage of success being 66·79, against 68 81 in 1890.

8. The number of Jewish patients, both indoor and outdoor, treated at the Ezra Hospital increased during the year. The outdoor patients numbered 2,279 with a daily average of 12·63, against 1,633 with a daily average of 9·3 in 1890. The indoor patients numbered 342 with a daily average of 16·73, against 248 with a daily average of 11·33.

9. The nursing arrangements at all the hospitals, especially at the Presidency General, Medical College, and Eden Hospitals, are reported to have been satisfactory. Thirteen pupil-nurses and eight pupil-dhais passed out of the Eden Hospital during the year, which speaks well for the training received by them at this institution.

10. The invested capital of the hospitals increased from Rs. 5,77,000 to Rs. 5,83,000. More than half of this belongs to the Mayo Institutions, and the increase during the year was due to the munificent gift of Rs. 10,000 made by Maharaja Bahadur Sir Jotendro Mohun Tagore to the Mayo Native Hospital. Securities to the value of Rs. 4,000 were sold during the year out of the capital of the Howrah General Hospital to meet the cost of quadrennial repairs. The following statement compares the main heads of income and expenditure of the hospitals for the past two years:—

Income.

	1890.	1891.
	Rs	Rs.
Opening balance	15,896	16,289
From Government	3,17,037	3,21,845
Local Funds	65,443	67,527
Municipal Funds	34,347	34,621
Interest on investments...	24,917	27,993
Sale of securities	.....	4,173
Subscriptions—		
Europeans	10,659	12,319
Natives	1,512	11 696
	1,36,878	1,58,329
Total ...	4,69,811	4 96,463

Expenditure.

On establishment	1,88,857	1,86,736
„ bazar medicines	4,321	4,216
„ Europe „	24,195	23 708
„ diet	1,07,493	1,12,221
„ miscellaneous charges	61,414	75,786
„ buildings and repairs	67,242	66,776
Invested during the year	.....	10,000
	4,53,522	4,79,443
Closing balance	16,289	17,020
Total ...	4,69,811	4,96,463

11. The total income of the year, excluding the opening balance, was Rs. 4,80,174, which exceeds that of the previous year by Rs. 26,259. The increase occurred under all heads of income, except Europe medicines, but was mainly due to the donation of Rs. 10,000 above mentioned given to the Mayo Hospital. The Lieutenant-Governor is glad to notice the improvement in the amount of subscriptions realized from Europeans as well as Natives. The

contributions from Local Funds increased by Rs. 2,000, but little or no advance was made in the amount contributed from Municipal Funds. The total expenditure of the year exceeded that of the previous year by Rs. 15,920, the excess being chiefly on account of diet and miscellaneous charges. In the Medical College Hospital alone there was an increase of Rs. 4,412 in the expenditure on diet, and in the Presidency General Hospital the miscellaneous charges exceeded those of the previous year by Rs. 11,847. This, it is explained, was due to the payment of rates and taxes for the year 1891 and the previous year, the payment of the value of clothing purchased in 1890, and repairs and improvements to the hospital. In Statement V, Part I, appended to the report, the average cost of each diet during the year is shown to have been as follows:—

	Europeans.	Natives.
	A. P.	A. P.
Medical College Hospital	6 9¾	3 1¾
Presidency General „	8 9	.....
Campbell „	.....	2 3½
Police „	.....	2 4
Mayo Native „	.....	3 7
Chandney „		
Howrah General „	8 6	2 3

No explanation has been offered of the varying cost of a diet in the different hospitals. The averages for Europeans are said to include the cost of diet for paying as well as non-paying patients, and it is also added that the maximum of eight annas for non-paying patients was never exceeded. Nothing has, however, been said in respect of the averages for Natives. The Lieutenant-Governor would be glad to have a fuller explanation of these figures furnished in future reports. The excess expenditure of Rs. 698 incurred under the head of establishment in the Campbell Hospital is said to have been partly due "to the furlough allowance of the Superintendent from 1st January to 13th November having been debited against the hospital." It is not understood how these charges come to be debited to the hospital, as furlough allowances when drawn in England are adjusted between the Government of India and the Secretary of State. The Inspector-General will be asked to look into this point. In future reports it should be stated which of the Calcutta hospitals have been personally inspected by the Head of the Medical Department during the year.

12. The thanks of the Lieutenant-Governor are due to Dr. Hilson, the Inspector-General of Civil Hospitals, for his report and the promptness with which it is submitted, which is the more commendable, as the statements were entirely changed and fuller information had to be furnished on several points not noticed in former reports.

ORDER.—Ordered that a copy of this Resolution, with a copy of the Report, be submitted to the Government of India for information.

Ordered also that a copy of this Resolution be forwarded to the Inspector-General of Civil Hospitals for information and guidance, and that a copy of this Resolution and of the Report be forwarded to the Chairman of the Corporation of Calcutta, the Commissioner of Police, Calcutta, the Governors of the Mayo Hospital, the Commissioner of Burdwan, and the Sanitary Commissioner, Bengal, for information.

Ordered also that this Resolution be published in the *Calcutta Gazette*.

By order of the Lieutenant-Governor of Bengal,

H. H. RISLEY,

Offg. Secretary to the Govt. of Bengal.

RESOLUTION ON THE ADMINISTRATION REPORT OF THE JAIL DEPARTMENT FOR THE YEAR 1891.

No. 129P.D.

RESOLUTION.

JAILS.

Dated Darjeeling, the 28th May 1892.

READ—

The Report on the Administration of the Jail Department for the year 1891.

Read also—

The Reports for the years 1889 and 1890, and the orders of Government recorded thereon.

Dr. Lethbridge was in charge of the Department throughout the year, except for 2½ months when he was absent on special duty, and Mr. A. D. Larymore, Superintendent of the Aliporo Jail and Deputy Inspector-General of Jails, was in charge. Since the close of the year, Dr. Lethbridge has been appointed Superintendent of Thuggee and Dacoity Operations, and his place as Inspector-General of Jails has been taken by Surgeon-Major D. W. D. Comins. In order to leave no arrears of work to his successor, Dr. Lethbridge completed his report for the year 1891 before making over charge, and this report, which is due to Government on the 15th April, was received in print on the 8th of that month.

2. Dr. Lethbridge opens his report with some figures to show the progress made in the Department during the 14 years it has been under his control. This comparison gives the following results:—

	1873—1877.	1887—1891.
Gross expenditure, exoluding jail buildings	Rs. 12,81,699	Rs. 11,04,208
Annual cost of rations per head of jail population	„ 28-0-5	„ 23-0-3
Cash earnings per head for each convict sentenced to labour ...	„ 13-13-0	„ 22-7-0
Punishments by flogging ...	3,447	266
Escapes of convicts ...	85	15
Death-rate among all classes of prisoners per mille ...	51·1	37·2

These figures show sufficiently clearly the great improvement which has taken place in jail administration during the past 15 years. Admitting that many of the changes which have taken place are due to the greater attention given of late years by this Government and the Government of India to the subject of jail management, the Lieutenant-Governor has no reason to doubt that the chief portion of the credit for the great advance which has been made is due to the able manner in which Dr. Lethbridge has performed the duties of his office.

3. *Judicial statistics.*—During the year the Naya Dumka Subsidiary Jail was converted into an intermediate jail, thus raising the number of jails in the province from 45 to 46. The Rajmahal lock-up having been converted into a subsidiary jail, the number of such jails remains at 86, as last year The Tippera Jail, which was an intermediate jail during the year under review, has, since the close of the year, been made a district jail. The total number of all classes of

prisoners in jails and subsidiary jails, together with corresponding figures for the previous nine years, is shown in the following table:—

	1882.	1883.	1884.	1885.	1886.	1887.	1888.	1889.	1890.	1891.
Number of prisoners of all classes in jails and subsidiary jails on the last day of previous year	16,367	15,595	14,718	15,354	15,076	14,629	13,210	13,985	15,048	15,211*
Total number admitted during the year	77,981	74,643	80,852	80,853	77,966	75,664	81,136	84,639	80,959	87,925
Total ...	94,348	90,238	95,570	96,207	93,042	90,293	94,346	98,624	96,007	103,136
Total discharged ...	78,753	75,520	80,216	81,131	78,413	77,083	80,361	83,576	80,800	86,546
Balance at the end of the year	15,595	14,718	15,354	15,076	14,629	13,210	13,985	15,048	15,207	16,590
Daily average of all classes ...	16,155	15,026	15,101	15,177	14,806	12,250	13,731	15,026	14,777	15,916

* Two prisoners (one convict and one under-trial) who remained on the 31st December 1890 at the Dum-Dum subsidiary jail, and two convicts who were confined at the Rajmahal Magistrate's hájat on the 31st December 1890, before it was converted into a subsidiary jail, were not accounted for in the statistics for 1890.

From these figures it appears that the number of admissions during the year was larger than in any other of the past ten years, while the number of prisoners remaining in custody at the end of the year was larger than in any year since 1880. The increase in admissions is spread equally over under-trial prisoners, convicts, and civil prisoners. No satisfactory explanation of this increase has been furnished: there was on the whole no greater scarcity in 1891 than in 1890, and there is no reason to suppose that police activity was greater than in previous years.

4. *Numbers in different classes of jails.*—Of the total daily average of 14,449 convicts, 53·40 per cent. were confined in central jails, 44·29 in district jails, and 2·31 per cent. in subsidiary jails. The daily average number of convicts in central jails was 7,716 against 7,313 in 1890, and the Inspector-General reports that these jails were kept absolutely full throughout the year. No doubt it is the proper policy to keep the central jails always full, as in them the maintenance of discipline is better and the work of the prisoners more profitable than in the smaller jails. Dr. Lethbridge remarks that if the increase in jail population continues, it will become necessary to convert some of the existing intermediate jails into district jails, and that it will be impossible to carry out the suggestion made by the Prison Committee that only prisoners with sentences of one year or upwards should be confined in central jails. However this may be at the present time, the number of prisoners in district and intermediate jails should be kept down as far as possible in ordinary seasons, and it is certain that many district jails are as a rule not nearly full.

5. *Releases.*—The following table compares the releases under the various heads with the figures for the six previous years:—

	1885.	1886.	1887.	1888	1889.	1890.	1891.
Released on expiry of sentence	27,379	27,125	21,328	26,452	28,754	28,464	25,878
,, on appeal	1,750	1,845	1,903	1,980	1,942	2,038	2,120
,, under remission rules	1,565	1,673	1,017	1,352	1,575	1,622	1,661
,, on medical grounds	22	26	28	33	37	39	105
,, on other grounds	75	27	6,484	88	2	9	9

During the year the views expressed by the Lieutenant-Governor in the Resolution on the Jail Administration Report of 1890, regarding the release of moribund prisoners, have been brought into effect, and the number of releases in such cases rose from 39 in 1890 to 105 in 1891. No formal alterations in the rules were, however, made till February of the present year, when a rule was issued by which moribund prisoners, who have not been sentenced to imprisonment for a period exceeding 7 years for any very heinous crime or series of crimes, may, when they have friends who will be responsible for their safe keeping, be released on the order of the Magistrate of the district, if the unexpired portion of their sentence does not exceed six months, and in other cases on the orders of Government. It has been clearly explained that the change in the rule has been made not with a view to prevent the jail mortality from being unduly swelled, but from motives of humanity, that the prisoner may have the

consolation of dying at home. The former rule on this point was that such releases could only be made where the release of the prisoner was reasonably likely to save his life.

6. *Numbers transported and executed.*—The number of transportations from Bengal to the Andamans fell from 157 in 1890 to 90, of whom only 7 were females, during the year under review. There were 37 executions during the year, compared with 26 of 1890 and 17 in 1889.

7. *Burman convicts.*—The total number of Burman convicts confined in the Bengal jails at the close of the year was 387, against 470 remaining at the close of 1890. There were nine deaths among these convicts, against 15 in the preceding year. Ninety-two were despatched to Rangoon and four were discharged locally, while 22 were received against 20 in 1890. The number of offences committed by Burman prisoners was 699 as compared with 953 in the previous year, and the number of offences connected with work fell from 452 to 251. This is accounted for by the promotion of a larger proportion of the convicts to be convict warders.

8. *Classification of convicts.*—Of the 34,814 convicts admitted direct into jail, 19,872 or 57·08 per cent. were Hindus, 13,535 or 38·88 per cent. were Muhammadans, and 299 or ·86 per cent. were Christians, the balance being aboriginals, Buddhists and Jains. The number of juveniles under 16 years of age admitted to jail was 371 or 1·06 per cent. of total admissions, as compared with 374 or 1·14 per cent. in 1890. The number of prisoners previously engaged in agricultural pursuits rose from 19,021 or 60·47 per cent. in 1890 to 21,282 or 63·44 per cent. in 1891. The number of female convicts admitted direct to jail was 1,265 as compared with 1,431 and 1,503 in 1890 and 1889 respectively.

9. The number of re-convicted prisoners admitted into jail was 3,226 or 9·26 per cent. of the total number, against 3,331 or 12 per cent. in 1890. Of these, 2,305 had one previous conviction, 558 two previous convictions, and 363 more than two previous convictions. During the year the organization of the anthropometric system for the identification of habitual offenders, which has been made over to the Police Department, made considerable progress, and all the important criminals in the central jails have already been measured. The number of persons sent to jail in default of giving security for good behaviour rose from 1,303 to 1,448.

10. *Sentences of convicts.*—A steady increase in the proportion of prisoners with short sentences has been noticed for some years; of 15,429 convicts confined in the jails on the 31st of December 1891, 7,993 or 51·8 per cent. had sentences not exceeding one year, as compared with 6,679 or 47·6 per cent. in 1890. In last year's Resolution it was noticed that in many cases simple imprisonment was ordered where the proper punishment would have been rigorous imprisonment; and during the year under review, while the total number of sentences increased by nearly 2,000, sentences of simple imprisonment fell from 2,557 to 2,472. There appears, however, still to be room for considerable improvement in this direction, and an impression still exists among some Magistrates that if a prisoner is too old and weak to be capable of much labour, he should be sentenced to simple imprisonment. This is a mistake. In such cases the sentence passed should be one of rigorous imprisonment, and it should be left to the Jail officials to employ the prisoner on some light labour suitable to his strength. Dr. Lethbridge again calls attention to the very small number of sentences of rigorous imprisonment with solitary confinement, viz., 56 against 30 in 1890. The Lieutenant-Governor has himself noticed that the cells appear to be used almost solely for the purposes of jail punishment, and hardly ever as a part of a sentence. In other provinces this form of punishment is freely used in criminal courts, and Sir Charles Elliott sees no reason why it should be otherwise in Bengal. The number of sentences of imprisonment with whipping rose from 90 in 1890 to 95 in 1891. The number of convicts whipped under judicial sentences rose from 1,329 to 1,528, while the number of boys under 16 ordered by judicial courts to be whipped fell from 500 to 458.

11. *Under-trial prisoners.*—The number of under-trial prisoners admitted during the year was 30,304, and there were 1,099 prisoners under trial at the close of the year 1890, against 1,089 at the end of 1891. Of these 15,036 or 49·6 per cent. were finally convicted. The number of admissions was greater

than in any of the preceding ten years. There were 33 escapes during the year among under-trial prisoners. Of these, one was from the intermediate jail at Malda, and the rest from subsidiary jails. Of the escaped prisoners, nine remained uncaptured at the end of the year.

12. *Detention of under-trial prisoners.*—The average period of detention in Sessions cases for the whole province was 49·96 days as compared with 45·88 days in 1890. Of the 16 districts with the worst average in this respect, all but two are under a Judge who also holds Sessions in another district. The average detention in cases before Magistrates fell from 13·28 days in 1890 to 11·96 days in 1891. In the cases of Champaran and Khulna, the average detention of such prisoners was less than 3 days, which is a remarkably low figure. The unnecessary postponement of cases is a subject to which the Lieutenant-Governor has given much attention, and His Honour has every reason to hope that, as anticipated by the Inspector-General, there will be a further improvement in regard to the detention of under-trial prisoners during the present year.

13. *Civil prisoners.*—There were 73 civil prisoners in confinement on the last day of 1890, and the number of admissions during 1891 was 1,089, against 969 in 1890. Of the total number, 15 were transferred, 1,074 were released, and two died of cholera.

14. *State prisoners.*—Three Lushai chiefs sent down by the Assam Government were received in the Hazáribágh Jail. Two of these men committed suicide by hanging themselves with ropes made from their clothing. The remaining chief was in jail at the close of the year, and was in good health. Twenty-one prisoners from Manipur passed through the Alipore Jail on their way to the Andamans.

15. *Jail buildings.*—The total expenditure during the year was Rs. 2,03,705, of which Rs. 1,35,190 were spent on Original Major Works. In future years the Inspector-General will receive a fixed grant for Original Works, which has been fixed at Rs. 1,00,000 for the year 1892. Within these limits the selection of the most urgent among the works which have received administrative sanction will be made by the Inspector-General at his discretion. The subject of jail buildings is one to which great attention has been paid during the year. It is the Lieutenant-Governor's opinion that there has been some unnecessary expenditure on jail construction in Bengal, and especially in subsidiary jails, due to the prevalent conviction that all jail buildings must be of masonry work. For the subsidiary jails, which on an average contain four convicts and six under-trial prisoners, the cost of construction on the standard plan has been from Rs. 15,000 to Rs. 20,000 apiece, and the expenditure during the past year was Rs. 64,272. Not only are the surrounding walls and the sleeping barrack high and of masonry, but the very workshed under which the oil-mill stands, the sheds for warders, and even their cooking sheds must also be of masonry work. Expenditure has thus increased through the mistaken belief that it is cheaper to build with brick and avoid subsequent repairs, whereas in fact the mere interest on the cost of a *pucka* building is often equal to the whole cost of a *cutcha* one, and in all cases exceeds the cost of the annual repairs to the latter. In these respects His Honour has spared no effort to introduce a more economical spirit. Since, however, these jails are being built on a standard plan, and only a small number remain to be constructed on this system, His Honour has agreed for the sake of uniformity to allow these to be completed on the same general plan, only modifying some of the details.

16. *Guards.*—The total strength of the warder-guard now stands at 1,607 men of all grades. The system by which a small monthly sum is deducted as security from the salary of each warder was continued during the year, and is reported to have an excellent effect on the men. The new organization referred to in last year's Resolution, by which every warder on first appointment in the department has to serve in a central jail, was worked throughout the year with success, and Dr. Lethbridge unhesitatingly expresses the opinion that this arrangement has improved, and will, in future, very materially improve the discipline and efficiency of the warder guard. The loss of efficiency in the guards of central jails, which might be expected to result from this system, has, as far as possible, been avoided by keeping the best warders of the higher grades at the central jails, and by insisting that before admission to the permanent establishment at a central jail, every warder shall have undergone a period of

training and probation as an apprentice on subsistence allowance in a district jail. An important point in connection with this reorganization scheme is the uniting of all the head-warders and warders of the jails affiliated to one central jail into one establishment. On this subject Dr. Lethbridge writes as follows:—

"I trust I may be pardoned if I take this my last opportunity of referring to this subject, to bring prominently to notice one important and essential feature which should never be lost sight of in the working of this system. The head-warders and warders of all the jails affiliated to a central jail must be made to know and appreciate the fact that they belong to one establishment; that all the appointments in that circle are open to them; and that the Superintendent of the Central Jail has the power, on the recommendation of their immediate superior, to promote them to any vacancy in a jail in that circle, to which their standing and good services give them a claim. The promotion board which has been devised for this purpose enables the Superintendent of a Central Jail to consider the claims of each warder, but the fact that such a record exists does not satisfy the warders in distant jails that their claims have received consideration when promotions have been made, because the men are usually not aware of their standing on the promotion board, or of their prospects of advancement. To remedy this defect, I have ordered that a copy of the promotion board should be made in the vernacular and sent to each jail every half-year to let the men see how they stand, what promotions have been made, and what the prospects are before them. What the Civil List is to young civilians, this copy of the promotion board will be to warders—a constant stimulus to good work and an assurance that their claims are not neglected because they happen to be working in some district away from head-quarters. But this is not all; the warders must be satisfied that the changes which they notice in the last copy of the promotion board have not been made in a haphazard fashion, and have not been due to favouritism or to the fact that men promoted had been serving under the immediate notice of the dispenser of patronage. To make this quite clear, and to give the warders confidence in the system, the grounds on which a man has been passed over must be stated in the column of remarks. Such explanations as "Illiterate," "Not recommended by his Superintendent," "Punished during the half-year," will be quite sufficient to show the warders that the claim of each man for promotion has received consideration. On the other hand, if a warder is promoted out of his turn, the special service for which this promotion has been given should be detailed as an incentive to others to follow his example. I am satisfied that any extra work that this further development of the system may entail will result in greater efficiency, and will make the service more popular than it has been."

His Honour notices with approval these arrangements as likely to create a zealous spirit in the warder guard establishment. The difficulty of explaining to native subordinates the grounds of promotion is one universally felt even outside the Jail Department, and Dr. Lethbridge is to be congratulated on having devised this method of dealing with it.

17. *Escapes.*—There were 21 escapes of convicts as compared with 13 in 1890. Of these, two were from central jails, seven from district jails, four from intermediate jails, and eight from subsidiary jails. Fifteen of the 21 were recaptured during the year, besides four who had escaped in previous years. These figures in connection with the daily average convict population of jails and subsidiary jails are thus compared with the figures of other provinces for the latest years for which figures are available:—

Provinces.	1889.		1890.		1891.	
	Convict population.	Escapes.	Convict population.	Escapes.	Convict population.	Escapes.
Bengal ...	13,591	11	13,447	13	14,449	21
Assam ..	1,375	30	1,327	29	1,218	31
North-Western Provinces and Oudh ...	22,254	12	23,493	27	.....	.....
Punjab ...	12,242	25	11,842	19	.....	.....
Bombay	6,959	43	7,018	14	.....	.....
Madras ...	7,419	49	7,954	22	.....	.....
Burma ...	8,614	3	10,861	4	.....	.....
Central Provinces ...	4,342	4	4,255	15	.....	.....

18. *Prison discipline.*—The number of offences committed by prisoners was 26,459 against 25,700 in 1890. The ratio of punishments to the daily average jail population fell from 191·1 per cent. in 1890 to 183·1 in the

year under review. The following table gives the statistics of punishments during the past seven years:—

	By criminal courts.	By Jail Officers.*					Total punishments.	Ratio per cent. of total punishments to daily average number of prisoners.	Ratio per cent. of corporal punishment to total number of all other punishments inflicted on able prisoners.
		Solitary confinement.	Reduced diet.*	Solitary confinement with reduced diet.	Corporal punishment.	All other punishments.			
1886	71	3,333	2,486	472	347	42,081	48,790	354·65	0·73
1887	44	2,504	1,015	409	396	36,048	40,504	299·93	1·01
1887	44	1,599	569	251	266	33,095	35,824	328·41	0·75
1888	29	1,295	525	352	245	26,608	29,054	234·71	0·93
1889	40	1,276	563	318	272	22,641	25,110	184·75	1·18
1890	28	1,270	430	194	259	23,576	25,697	191·10	1·94
1891	37	1,276	738	168	291	23,946	26,456	185·10	1·18

* Including convicts put on penal diet.

In a separate table the figures of column 7, "All other punishments," are analysed as follows:—

Handcuffs	7,629
Fetters	8,840
Loss of marks	4,087
Gunny clothing	1,308
Penal or hard labour	686
Loss of early morning meal	345
Work in cells	10
Reduction and degradation of prison officers	515
Shaving the heads, and cutting the hair of female convicts ...	127
All other miscellaneous punishments	336
Total ...	23,883*

* Excluding 63 convicts punished in the subsidiary jails.

In future years, the Lieutenant-Governor desires that the information contained in these two tables may be combined in one statement.

19. *Convict officers and mark remissions.*—The total number of prisoners employed during the year as convict officers was 1,986, and the ratio per cent. of the average number of prisoners so employed was 5·80 for males and 0·37 for females. The Inspector-General reports that though the proportion employed is fairly small for the province, certain jails have not been well managed in this particular. The number of convict officers punished was 1,580 as compared with 1,629. Out of 1,661 prisoners released during the year, who were on the mark system, only nine failed to gain remission under it.

20. *Expenditure.*—The gross expenditure of the Department for the last ten years is shown in the following table:—

	1882.	1883.	1884.	1885.	1886.	1887.	1888.	1889.	1890.	1891.
	Rs.	Rs.	Rs.	Rs.	Rs.	Rs.	Rs.	Rs.	Rs.	Rs.
General supervision	48,931	45,906	47,018	48,207	49,236	49,196	50,251	49,344	49,890	48,820
Dieting prisoners ...	3,06,138	3,10,649	3,57,513	3,65,386	3,34,687	2,44,730	2,95,080	3,89,300	3,54,257	3,03,600
Establishment (excluding the police)	4,25,511	4,54,276	4,36,153	4,42,863	4,67,459	4,60,894	4,55,688	4,51,449	4,40,777	4,47,212
Hospital charges	42,269	40,947	39,227	40,183	42,899	36,608	46,930	56,825	47,766	49,155
Clothing	64,486	50,422	58,614	69,744	60,051	44,272	58,864	70,098	54,257	55,846
Miscellaneous contingencies ...	88,215	95,020	90,361	1,03,216	1,02,139	96,855	1,28,592	1,47,911	1,47,721	1,66,790
Petty construction and repairs ...	21,440	19,484	21,715	27,777	28,833	27,824	25,842	22,053	29,093	31,606
Police	31,249	3,701	... ...	.....	... .	.....	.....	... .	.. ...	....

Medical stores ...	5,915	4,749	5,000	7,545	6,252	6,359	5,380	2,848	2,630	1,245
Total ...	10,36,212	10 32,695	10,56,490	11,16,423	10,93,361	9,68,033	10,68,161	11,91,149	11,27,837	11,65,589
Daily average population of all classes	16,155	15,026	15,101	15,176	14,606	12,250	13,731	15,025	14,777	15,915
	Rs. A. P.	Rs. A. P.	Rs. A. P.	Rs. A. P.	Rs. A. P.	Rs. A. P.	Rs. A. P.	Rs. A. P.	Rs. A. P.	Rs. A. P.
Average expenditure per prisoner ...	64 2 3	68 11 7	69 15 4	73 9 0	73 13 6	79 0 4	77 12 8	79 4 5	76 6 3	73 3 9
	Rs.	Rs.	Rs.	Rs.	Rs.	Rs.	Rs.	Rs.	Rs.	Rs.
Public Works Department ...	10,10,781	5,07,718	1,09,739	60,657	92,804	1,88,333	2,40,244	2,37,314	1,56,819	2,03,705

The increase under diet, hospital charges, clothing, and contingencies is accounted for by the increase in jail population. The decrease in the average cost per prisoner under all heads, excluding public works, from Rs. 79-4-5 in 1889 and Rs. 76-6-3 in 1890 to Rs. 73-3-9 in the year under review, is satisfactory. The Lieutenant-Governor finds nothing to take exception to in this table as a whole, and is glad to be able to record that the jails have, as a rule, been managed with economy and forethought.

21. The average prices paid for the principal articles of diet during the past two years are noted on the margin, and, as remarked by the Inspector-General, they show that by a judicious use of the system of buying the bulk of the cereals required at the cheapest season of the year, it has been possible, in a year of exceptionally high prices, to keep the rates almost down to what they were the previous year. The Lieutenant-Governor regrets, however, to have to notice that in some cases a great want of common sense was shown as regards the purchase of sufficiently large quantities of grain at the proper season, sometimes from ignorance of the resources of the market, and in one case at least from fear of the responsibility for safe storage. The judicious working of the storage system, and the better use of the jail gardens for growing food-grains, are the chief measures which can be relied on for reducing jail expenditure, and His Honour trusts that he may not again have to notice any failure in the former respect.

The most expensive jails are those placed at the top of the list At Naya Dumka there is every reason to expect improvement in future under the superintendence of Dr. Kelly, one of the most economical Superintendents in the Department. At Midnapore the high cost is due to the better diet given to the prisoners under medical advice; while in the Alipore Jail, where the cost has fallen from Rs. 27-14-6 in 1890 to Rs. 26-3-2, the high price which still prevails is due to the want of storage accommodation. The cheapest jails in

the province are Gaya, Bankura, Malda, Puri, Purnea, Monghyr, and Saran in the order named. The results at Gaya have been obtained, under the management of Jailor Lal Behari Singh, by cultivating the jail land to the best advantage, and by the maintenance of a good dairy. At Bankura, Dr. Mukerji and Assistant Jailor Dilaruddin Ahmad managed to store rice at Re. 1-10 per maund, the cheapest rate obtained in any jail in the province. Dr. Lethbridge also mentions as worthy of special commendation the work of Dr. Kelly and Assistant Jailor Jodunath Mazumdar at Malda. In the Presidency Jail special attention was paid to the storage of grain, and the result has been a decrease in the cost per prisoner from Rs. 28-0-6 to Rs. 23-14-9, a result which reflects great credit on the Superintendent, Mr. Donaldson. Dr. Basu has the credit of having made the largest reduction in the province under this head, expenditure in the Mymensingh Jail having fallen from Rs. 28-2-2 in 1890 to Rs. 23-12-6 in the year under review.

23. Altogether, in spite of the rise in prices, out of 47 jails, 29 show a reduction in the cost of diet per prisoner. In the following jails only was there an increase exceeding 8 annas:—Shahabad (Rs. 4-11-10), Patna (Rs. 3-1-1), Champaran (Rs. 2-2-9), Jalpaiguri (Rs. 2-1-1), Muzaffarpur (Rs. 2-0-3), Bhágalpur (Rs. 1-13-3), Darbhanga (Re. 1-10-10), Bogra (Re. 1-1-8), Lohardaga (annas 15-6), Saran (annas 11-1), Dinajpur (annas 10-9), Pabna (annas 10-7), and Manbhum (annas 10-2). The average expenditure per prisoner for diet throughout the province was Rs. 22-12-10 against Rs. 23-15-5 and Rs. 25-14-7 in 1890 and 1889 respectively.

24. *Supply of vegetables and other products of jail gardens and dairies.*—The whole of the vegetables consumed by prisoners during the year were grown in the jail gardens, except in the case of the Midnapore and Mymensingh jails which purchased vegetables to the value of Rs. 210 and Rs 58 respectively. All condiments used for the diet of convicts were also grown in the jail gardens. In this connection the Lieutenant-Governor would wish to refer to the wholesome rule that every jail should contain in its gardens one lime tree for every prisoner within its walls. It will be interesting if in future years it is stated in the annual report of the Department in how many jails this ideal is realized. The total of the value of vegetables and dairy produce sold, Rs. 72,831, compares most favourably with the figures of 1890 (Rs. 53,747) and 1889 (Rs. 47,827). This remarkable increase is reported to be largely due to the development of jail dairies which supplied the jails during the year with milk to the value of Rs. 13,517. Dr. Lethbridge estimates the expenditure on the purchase of cows at Rs. 8,000, but no details are given as to the cost of maintaining the dairies. It is clear, however, that by the establishment of these dairies a supply of milk of undoubted purity is obtained at a very small cost to Government, which not only reduces considerably the cost of diet throughout the jails, but is invaluable in cases of sickness. The first prize offered by Government for the best managed jail dairy has been awarded to Babu Nauronga Marwari of the Buxar Jail, Jailor Lal Behari Singh of the Gaya Jail obtaining the second prize.

25. *Establishment, &c.*—Expenditure under the head "Establishment" rose from Rs. 3,78,895 to Rs. 3,84,825: hospital charges rose from Rs. 47,437 to Rs. 48,751: the value of clothing supplied increased from Rs. 53,667 to Rs. 55,444, and the expenditure on contingencies was Rs. 1,47,722 against Rs. 1,29,089.

26. *Average rate of controllable expenditure.*—The total average cost per prisoner on account of diet, hospital charges, and clothing together, which amounted to Rs. 34-13-11 in 1889 and Rs. 31-3-5 in 1890, was further reduced to Rs. 29-11-9 in 1891. The jails of Malda and Gaya show the best results. Buxar was as usual the cheapest central jail.

27. *Employment of prisoners, and manufactures.*—The chapter on this subject is a meagre one, consisting of 2½ pages only of printed matter, of which almost the whole is composed of the barest statistics. This side of jail administration is one to which the Lieutenant-Governor attaches great importance, and he would like to see it dealt with more fully in the reports for future years. From what Sir Charles Elliott has seen on his tours of inspection, he is persuaded that the jail policy of the past few years has tended, while taking special care of the health of the prisoners, rather to the neglect of the punitive side of imprisonment, that is, the labour question. In several jails His Honour found that

prisoners were altogether insufficiently worked, as the following extracts from the inspection notes written at the time will show:—

Mymensingh Jail.—"The arrangements for labour are not at all satisfactory. With so large a force (372 convicts to-day) something valuable should be done. Yet the cash receipts of 1890 were only Rs. 2,264. The labour is divided between many objects—pounding surki, husking paddy, making bamboo mats and twine, oil-mills, garden work, &c. In the cold weather they make bricks. If nothing better can be devised, they should be employed on some big public work—embankment, drain, or such like. It is a sin to waste such a valuable labour force in this way."

Backergunge Jail.—"The great difficulty here is employment. Only 129 out of 397 rigorous imprisonment cases are employed on real labour, and of these 41 are only spinning jute which is women's work. More effort should be made to find hard and more profitable work. But there is certainly a danger here in avoiding the greater evil of high mortality of falling into the lesser evil of under-working the prisoners. The good jail officer is he who avoids either extreme."

Gaya Jail.—"Everything is satisfactory except one point, that of employment. In this respect it is the worst jail I have ever seen. A few men are at the oil-mills, and a few grind wheat for jail consumption; but the greatest portion are employed on the lightest form of women's work, spinning grass into twine. It is absurd to call this labour at all. I think I could see throughout that there is too strong a desire to make things easy and pleasant for the prisoner, owing, perhaps, to the great death-rate of some years ago. Active measures should be taken to invent new sources of labour. The Magistrate says he has arranged for starting stone-breaking again. The stone should be of the best, and if no exception is taken to its quality, the District Engineer should utilize it at the same rate, instead of paying a contractor for hired labour. Brick-making might be tried. The police are building reserve lines and hospital close by with bricks supplied by the Public Works Department, *i.e.*, made by hired labour, instead of by the jail. I found a lot of men making twine, with regard to whom it was urged that they could not be put to any other work, because the Jail Code says that no one should be put to hard labour for his first month. I think this should be modified. It might run that a full task of hard labour should not be exacted in the first month. But able-bodied men should not be put to women's work under the cover of this rule."

These admonitions have not fallen on unfruitful ground. Experiments have been made by Dr. J. H. T. Walsh, Medical Officer of the Presidency Jail, on the effect of exercise and enforced labour on weakly constitutions. The following extract from his report on the subject is full of interest and worth reproducing:—

"As the outcome of this forced muscular waste, there is increase in tissue hunger and tissue respiration, which allows, and indeed compels, the patient to take in and digest large quantities of food; thus causing increase of weight and great improvement in muscular vigour and health generally. From such cases as are here alluded to it is only a step to those in which the patient, though in poor health, is able to move about and use his limbs. It must be understood that I exclude from the category of persons suitable for these experiments all those suffering from marked organic disease of the heart, lungs and kidneys. The starved, the anæmic and the dispeptic form a very large proportion of all jail populations, especially in Bengal, where the standard of health is low. As a rule such subjects, when punished by imprisonment, have been allowed to do very trifling tasks, and have been, so far as production is concerned, practically placed among the sick. During the year 1891 I selected 129 such cases and placed them on hard work with the following results:—121 improved in health and gained weight, 2 lost weight and had to be kept on light work, 2 being somewhat old were ultimately placed in the convalescent gang as much improvement could not be hoped for in such persons, 2 neither lost nor gained; and finally, of all these weakly persons only two are registered as having been admitted into hospital. One of these was admitted for periostitis, not in any way caused by the work he was doing. The second man was placed on hard work, *dhenki*, on the 30th November. He then weighed 88½lbs. He worked on until the 21st December and weighed 90lbs. He then got diarrhœa and was admitted into hospital. All the men selected were admitted in "bad" or "indifferent" health, and all these cases have been kept carefully under observation by the Civil Hospital Assistant and by me, and a register has been kept showing the weekly gain or loss in weight. I must point out that for the first week or so a full task must not be expected, and also that some forms of labour are much better to begin with than others. I have generally commenced with the *dhenki* or with *dall-grinding*, passing on afterwards to *wheat-grinding*, *hand-press* or *oil-mill*. It is hardly necessary to mention that the convicts do not show any desire to assist in these beneficial experiments, and in some cases it has required firmness in insisting on the tasks being performed."

The results of Dr. Walsh's experiments seem to the Lieutenant-Governor to be of much importance. While great improvement has taken place in the mortality ratio, the importance of which cannot be overrated, the generality of Superintendents are reluctant to enforce a proper amount of work on the part of the prisoners, for fear that such work should have a prejudicial effect on their health. The above observations on the health-giving effects of moderate

labour, which agree with those of the Famine Commission in the case of starving people, are therefore most valuable, and should be known as widely as possible.

His Honour has issued orders for the employment, as far as possible, by the Public Works Department, of prisoners for such works as brick, tile, and surki manufacture, coolie labour to assist skilled workmen, earthwork of all kinds, and stone and brick breaking, and trusts that by this means the valuable labour-supply contained in the jails may be turned to greater profit than has hitherto been the case.

The average number of prisoners under sentence of labour was 14,230 against 13,241 in 1890; of these, an average number of 729 were employed on unremunerative labour as compared with 491 in 1890.

28 *Earnings of prisoners.*—The profit on the manufacturing account during the last two years is as follows:—

	1891.	1890.
	Rs.	Rs.
Cash drawn from the treasury	8,91,321	8,84,267
Cash paid into the treasury	12,05,342	10,35,109
Difference or profit ...	3,14,021	1,50,842

No explanation is given by the Inspector-General of this remarkable increase in the profit from manufactures. The average profit per head from each labouring prisoner was Rs. 52-7 against Rs. 28-3 in the previous year.

His Honour regrets to observe that owing to carelessness in the working of the Rajshahi Jail, the Manager, Eastern Bengal State Railway, had to reject several consignments of the castor-oil supplied by that jail for the lighting of the Railway.

29. *Subsidiary Jails.*—The number remains unchanged at 86. Of these, only 9 were visited less than 70 times by the Superintendents, and Dr. Lethbridge reports an improvement throughout in the number of visits paid to these jails compared with the results of previous years. The total amount expended on subsidiary jail buildings was Rs. 64,272 compared with Rs 63,872 in 1890. The daily average number of convicts and under-trial prisoners in these 86 jails was 332·84 and 515·03, respectively, or a little less than four convicts and six under-trial prisoners to each jail. Of the 40 prisoners who escaped from subsidiary jails, eight were convicts, and of these five were recaptured. Of the 32 under-trial prisoners who escaped, 23 were recaptured.

The total cost of the subsidiary jails was Rs. 1,73,235, or, excluding public works, Rs. 128-6-9 per prisoner compared with Rs. 1,70,110, and Rs. 131-8-8, the corresponding figures for 1890. The total credits from manufactures in subsidiary jails amounted to Rs. 20,815, with a net profit of Rs. 3,198, against Rs. 19,340 and Rs. 3,127 in 1890.

30. *Water-supply.*—The Alipore Central Jail has been connected with the Calcutta water-supply during the year. A well is being sunk near the Midnapore Central Jail, the completion of which will, it is hoped, solve what has been a serious difficulty in the past. The well water used in the Arrah Jail, where cholera has appeared in July of each of the last two years, was found to be impure, and the Lieutenant-Governor has sanctioned the introduction of pure canal water for the use of the jail. For the Champaran Jail river water has to be carted for a distance of six miles. An attempt to introduce well water during the year was followed by much sickness among the prisoners, and the old system has been resumed. Arrangements have been made during the year by which the water in use in every jail where wells are the source of supply, or where the quality of the water is doubted, will be tested once a year by the Chemical Examiner to Government.

31. Dr. Lethbridge reports that Mr. A. D. Larymore, Superintendent of the Alipore Jail, has invented during the year a boiler which fulfils all the

necessary conditions, viz., (1) it will boil large quantities of water with a minimum expenditure of fuel; (2) the fact that the water is thoroughly boiled is made known by a steam whistle which continues for some minutes after the fuel is withdrawn; (3) the water is passed direct into the filter, thus avoiding all chance of contamination in handling. His Honour is convinced from what he has seen during his tours that most of the boilers in jails merely heat the water without boiling it. Mr. Larymore's invention has come in good time, and should be introduced without delay into all jails which show a large number of admissions to hospital from fevers and bowel-complaints.

32. *Mortality among prisoners.*—The following table shows the sickness and mortality of the jails for every year from 1863 onwards:—

Years.	Daily average number of prisoners.	Daily average sick.	Ratio per mille of daily sick.	Number of deaths. From cholera.	Number of deaths. From all other causes.	Number of deaths. Total number of deaths.	Death-rates per mille of average strength. From cholera.	Death-rates per mille of average strength. From all other causes.	Death-rates per mille of average strength. From all causes.	Remarks.
1863	16,453	847	51·4	338	1,223	1,561	20·5	74·3	94·8	All classes of prisoners.
1864	16,729	814	48·6	231	804	1,035	13·8	48·0	61·8	
1865	17,430	756	43·3	162	790	952	9·2	45·3	54·5	
1866	20,683	746	54·5	684	1,560	2,223	33·0	74·0	107·0

1877	18,709	730	39·0	151	763	914	8·0	40·8	48·8	
1878	18,611	803	43·1	215	1,072	1,287	11·5	57·6	69·1	
1879	18,483	947	51·2	341	1,411	1,752	18·4	76·4	94·8	
1880	17,803	941	52·8	31	1,100	1,131	1·7	61·8	63·5	
1881	16,520	873	52·8	85	1,014	1,099	5·1	61·4	66·5	
1882	15,902	849	53·3	151	933	1,084	9·5	58·6	68·1	
1883	14,776	729	49·3	68	701	762	4·1	47·4	51·5	
1884	14,868	724	48·6	62	678	740	4·1	45·6	49·7	
1885	14,926	773	51·7	157	730	887	10·5	48·9	59·4	
1886	14,579	648	44·4	40	503	543	2·7	34·5	37·2	
1887	12,047	539	44·7	20	379	399	1·7	31·4	33·1	
1888	13,634	661	46·2	132	482	614	9·7	35·3	45·0	
1889	14,071	695	46·4	132	555	687	9·8	37·0	45·8	
1890	14,706	580	39·4	33	443	476	2·2	30·1	32·3	
1891	15,339	619	38·5	52	439	491	3·2	27·7	30·9	
Total ...	503,738	21,313	42·3	4,500	24,084	28,534	8·9	47·8	56·7	
Average ...	17,336	735	42·3	155	829	984	8·9	47·8	56·7	

The death-rate is 1·4 below that of last year, which was itself the lowest on record—a result which is most satisfactory and should encourage Superintendents of Jails to continue their exertions in the direction of improved sanitation.

The jails in which the ratio of admissions to hospitals per mille of average daily population was highest were Purnea 99·8, Dinajpur 91·8, Chittagong 82·9, Dacca 72·7, Jalpaiguri 67·8 and Champaran 67·7. There were 81 cases of cholera with 48 deaths against 55 cases and 31 deaths in the previous year. Only seven cases of small-pox occurred. These were mostly of a mild type, and only one case terminated fatally. There were 23 admissions from cerebro-spinal fever, of which 18 ended in death. Twelve cases and eleven deaths occurred in the Alipore Jail, six with four deaths at Bhágalpur, and five with three deaths at Rangpur. The Medical Committee has continued its investigations in regard to this mysterious and fatal disease, and has seen every case that has occurred in the Alipore Jail, but its final report has not yet been submitted.

33. The total number of deaths was 454. Of these, 444 occurred in jails other than subsidiary jails. Dr. Lethbridge points out that out of these 444 convicts who died during the year, only 150 were originally admitted to jail in good health. The following jails show the highest mortality—

Jails.	Death-rates from all causes per mille.		Death-rates exclusive of cholera per mille.	
	1891.	1890.	1891.	1890.
Purnea ...	131·2	22·3	131·2	22·3
Shahabad ..	104·9	148·4	21·0	15·6
Rangpur ...	94·3	86·8	69·7	86·8
Puri ...	91·2	27·7	76·0	27·7
Dinajpur ...	88·3	71·7	88·3	71·7
Saran ...	62·2	65·8	43 9	32·9
Jessore ...	45·9	43·3	45·9	43 3
Palámau ...	44·9	27·5	44·9	27·5
Muzaffarpur ...	43·6	34·7	30·5	34·7
Chittagong ...	42·9	22·1	26 8	22·1
Jalpaiguri ...	42·8	114·0	42·8	99·8
Lohardaga ...	42·1	27·3	42·1	27·3

Of the twelve deaths in the Purnea Jail, six were those of prisoners who were brought to jail in bad health, and were sent at once to hospital where they died a few days afterwards. In this jail 67 other cases had to be taken to hospital directly on their admission, and the general health of the district was exceedingly bad during the year. The high death-rate at Shahabad has resulted entirely from an epidemic of cholera, to which 12 deaths were due. Apart from this the death-rate was 21 per mille. In the Rangpur Jail there were six deaths from cholera, and in this jail out of 23 prisoners who died, 12 were admitted in bad health, 10 in indifferent health, and only one in good health. The Puri Jail is a small one, and a high death-rate is accidental, and due to six deaths from various causes. The Dinajpur Jail is situated in a notoriously unhealthy district, and of the 15 convicts who died in it, nine were admitted in indifferent health and four in bad health. In Saran there were five fatal cases of cholera.

34. In paragraph 25 of the Resolution on last year's Jail Report, it was ordered that in all jails where the death-rate exceeded 60 per mille a separate and special examination should be made by a Committee consisting of the Superintendent of the Jail and three neighbouring Civil Surgeons with a view to ascertain the causes of the mortality. The Lieutenant-Governor is not aware that any action has been taken upon these orders beyond circulating them to Superintendents of Jails. This is obviously a very insufficient compliance with the orders of Government, and His Honour expects that Dr. Comins will at once take steps for the appointment of a Committee to enquire into the sanitary condition of the Purnea, Rangpur and Dinajpur jails. It would be well to deplete these jails as far as possible, transferring all but the shortest term prisoners to more healthy prisons, if room can be found for them there.

35. *Inspections.*—During the year the Lieutenant-Governor himself inspected 28 jails, and in the case of 10 of these recorded notes of the result of his inspection. The Inspector-General inspected 31 jails, 6 subsidiary jails, and the 2 reformatory schools at Alipore and Hazáribágh. Mr. Larymore, during the time he was in charge of the Department, visited 15 jails. The number of inspections by judicial and magisterial officers increased from 1,931 in 1890 to 2.145 in 1891; those made by non-official visitors, however, fell from 144 to 137.

36. *Officers of the Department.*—Dr. Lethbridge cordially acknowledges the value of the services rendered by the officers of his Department, and it is very satisfactory to Government that an officer of such experience and insight into character should be able to speak in this way of so large a number of his subordinates. In this Resolution it is possible to mention only a few names, but among jailors the Lieutenant-Governor notices with pleasure the high testimony borne to the services of Messrs. O'Connell and Donelan and Babu Nauronga Marwari, and among Deputy Superintendents of Messrs. Fox, Petty and Dobson. The following Superintendents received special mention:—

Superintendents of District Jails.

Dr. E. G. Russell.	Dr. U. C. Mookherjee.
„ E. J. Manook.	„ D. Basu.
„ C. M. Russell.	„ D. G. Crawford.
„ J. M. Zorab.	„ G. Jameson.
„ K. D. Ghose.	„ N. P. Sinha.
„ E. Bovill.	„ H. W. Pilgrim.
„ H. W. Hill.	„ R. S. Ashe.
„ F. R. Swaine.	„ R. M. Blaker.
„ R. Macrae.	„ J. Kelly.

Superintendents of Central Jails.

Mr A. D. Larymore.	Mr. C. H. C. Sevenoaks.
„ W. Leonard.	„ E. W. Payne.
„ P. Donaldson.	„ M. S. Emerson.
„ W.a'C. Beadon.	

The thanks of Government are also due to Mr. Hanlon, Superintendent of Jail Manufactures, and especially to Mr. A. D. Larymore, the Deputy Inspector-General of Jails, who has carried on the duties of that appointment in addition to his ordinary work at Alipore, and has given much assistance in the administration of the department.

37. To Dr. Lethbridge himself the Lieutenant-Governor must again express his special thanks for the services he has rendered for so many years in the important office of Inspector-General of Jails. These services were acknowledged in the Gazette at the time Dr. Lethbridge made over his appointment, in terms which the Lieutenant-Governor is glad to reproduce as the concluding words of this Resolution—

"Surgeon Lieutenant-Colonel A. S. Lethbridge, C.S.I., M.D., whose services have now been placed at the disposal of the Government of India in the Foreign Department, has been employed under the Government of Bengal for a period of nearly fourteen-and-a-half years as Inspector-General of Jails. During this long incumbency he has justly won for himself the reputation of a most able and efficient Head of the Department, and his name will always be associated with the great improvements which, in recent times, have been effected in Jail administration in India. His merits have repeatedly been acknowledged by the Local Government and by the Government of India, and the Lieutenant-Governor cannot allow his transfer to another sphere of duties to take place without recording his sense of the valuable services Dr. Lethbridge has rendered to this Province."

ORDER.—Ordered that a copy of this Resolution be forwarded to the Inspector-General of Jails for information and guidance.

Ordered also that a copy of this Resolution, and a copy of the Report, be submitted to the Government of India in the Home Department.

Ordered also that a copy of this Resolution be published in the *Calcutta Gazette*.

By order of the Lieutenant-Governor of Bengal,

H. J. S. COTTON,

Offg. Chief Secy. to the Govt. of Bengal.

RESOLUTION ON THE ADMINISTRATION REPORTS OF THE ALIPORE AND HAZARIBAGH REFORMATORY SCHOOLS FOR THE YEAR 1891.

No. 126P.D.

RESOLUTION.

JAILS.

Darjeeling, the 28th May 1892.

READ—

(1) Letter No. 4236, dated the 26th April 1892, from the Inspector-General of Jails, forwarding the Administration Report of the Alipore Reformatory School for the year 1891.

(2) Letter No 4235, dated the 26th April 1892, from the Inspector-General of Jails, forwarding the Administration Report of the Hazáribágh Reformatory School for the year 1891.

Read also—

The Reports for the year 1890, and the orders of Government recorded thereon.

The Alipore School.—The average daily number of boys in the Reformatory rose from 116 in 1890 to 142 in 1891. There were 38 admissions during the year, and 21 releases and 2 deaths. The average number of punishments to each boy fell from 1·02 in 1890 to 0·66 in 1891, and the offences for which they were imposed are reported not to have been of a serious character. This, in view of the large increase in the number of boys, is very satisfactory.

The average number entitled to marks fell from 89·73 to 82·16, and the weekly average money reward from Rs. 3-9-5 to Rs. 3-2-9. The average number of admissions to hospital was 2·52 against 2·78 in 1890. There were two deaths, one from cholera and one from accidental poisoning, due to drinking an antiseptic solution under the idea that it was brandy. The Civil Hospital Assistant, through whose carelessness the accident occurred, was censured and removed from the charge of the Reformatory Dispensary. Three boys escaped from the Reformatory on the 8th April 1891 by scaling a wall, but were recaptured within a few days.

2. Quarters for the Civil Hospital Assistant were added to the Reformatory during the year, but no other building of importance was undertaken. It is, however, reported that more workshops are needed. The arrangements for the work and recreation of the boys continued the same as in past years. An hour's gymnastics has recently been introduced into the day's routine, but sufficient time has not yet elapsed to make any estimate of its effects possible.

3. Reports regarding 65 boys were received from Magistrates during the year. Of these 11 had been reconvicted, two bore a bad character, two had died, and 50 bore a good character. Out of 242 boys released since the opening of the institution, 37 have been reconvicted, 41 have been reported as bearing bad characters, and 164 as bearing good characters. It is, however, disappointing to notice that only 27 follow the trade learnt in the Reformatory.

4. The total expenditure of the school rose from Rs. 13,988-8-4 in 1890 to Rs. 15,776-5-6 in 1891. The average cost per head fell, however, from Rs. 119-9 to Rs. 111-1-6. The average expenditure per head on fixed establishment and diet fell from Rs. 71-10-8 and Rs. 33-11-3 to Rs. 61-10-10 and Rs. 32-10-3 respectively. These reductions are satisfactory, but, in the Lieutenant-Governor's opinion, the cost of diet is still unduly high. The cost per head in the Alipore Central Jail is only Rs. 26-3-2 a head, and there appears to be no reason why the diet of boys should cost more than that of men. Arrangements should be made for storing supplies of grain in the Reformatory at the cheapest season of the year as is done in the jails. The price paid for rice, Rs. 3-0-5 per maund, was unnecessarily high.

5. From the table shewing the results of manufacture it would appear that the profits of the manufacturing department amounted to Rs. 10,235-12-5 against Rs. 9,901-13-4 in 1890. The figures for that year, however, took into

account, on both the credit and debit sides, the value of raw material in stock and of plant and machinery. The omission of these figures in the present table prevents any accurate comparison between the results of the two years.

6. Arrangements have recently been made by which selected boys will be instructed in the technical work of printing, such as setting up and distributing type, the printing work of the institution having hitherto been confined to the purely mechanical processes. It has also been arranged that some of the Burmese convicts in the Alipore Jail should instruct the boys in wood-carving These arrangements were not, however, brought into effect during the year under review.

7. The question of the unduly short terms for which many little boys are sent to the Reformatory has been brought to the Lieutenant-Governor's notice. His Honour understands that this question has been dealt with in the report of the Prison Conference, and will take no action in the matter pending the issue of orders on that report. He desires, however, to call the special attention of all Magistrates to the standing orders on this point, and hopes that he may not have to find fault in this particular in future.

8. The Lieutenant-Governor visited and inspected the institution on the 16th January 1892, and was thoroughly satisfied with all he saw of its management. His Honour is glad to notice that the Board of Management again speak in favourable terms of the manner in which Mr. C. J. Courtenay carried out his duties as Superintendent.

9. *The Hazáribágh School.*—The daily average number of boys in the school was 296·10 against 280·7 in 1890. Seventy-eight boys were admitted during the year, 67 were released, and one died. Discipline was on the whole good, and only 219 punishments were inflicted against 308 in 1890. A serious attack was, however, made on the Deputy Superintendent by two of the boys, instigated by a prisoner sent from the Bhágalpur Jail to teach carpet-weaving. The Deputy Superintendent was fortunately able to defend himself successfully, and the offenders were suitably punished. The daily routine of the school is the same as in previous years. The Lieutenant-Governor would be glad to see something done towards the introduction of gymnastics here, as in the Alipore Reformatory School. The monthly average number of boys earning marks was 270·5, and the average weekly earnnig Rs. 10-1-4. The corresponding figures for last year were 273·66 and Rs. 10-11-11. The year was an exceptionally healthy one—there were only 58 admissions to hospital and one death—and the daily average number of sick was only 2 54.

10. The total expenditure of the school was Rs. 83-3-9 per head against Rs. 75-4-11 in 1890, or, omitting outlay on building, Rs. 70-8-5 against Rs. 69-5-7. The Lieutenant-Governor notices that there was an increase in the expenditure per head under all the three controllable items of expenditure—diet, clothing, and contingencies, while higher prices were paid than in the previous year for rice and 'atta.' The average expenditure per head on diet was Rs. 27-15-9 against Rs. 25-11-5 in 1890. The corresponding figure for the Hazáribágh Jail was only Rs 18-2-11. The Lieutenant-Governor cannot consider these figures satisfactory. He hopes that during the current year greater economy may be exercised by a judicious storing of food-grains at harvest time. A workshed and 25 cells were built during the year. The results of the working of the Manufacture Department were that the amount paid into the treasury was Rs. 3,979-8 and the value of goods supplied to the General Department and to other departments was Rs. 4,435 and Rs. 2,900-3-4 respectively, while the total profits amounted to Rs. 2,661-12-9.

There was no noticeable change in the employment of the boys, but the Lieutenant-Governor is of opinion that book-binding and cane-work might with advantage be taught.

11. Reports regarding 90 boys released from the school were received during the year from Magistrates of districts. Of these 59 were reported as well-conducted, five were in jail, five were viewed with suspicion, and one had died; only one boy was reported as pursuing the trade learnt in the school.

12. For two months a serious spirit of insubordination prevailed among the warder staff, owing to recent orders with regard to the furnishing of security. Finally the head-warder was dismissed, and three warders resigned, and matters now appear to have settled down quietly.

13. The school was well-managed during the year, and its successful working does credit to Dr. Wilson, the Superintendent, and to Mr. Hill, the Deputy Superintendent, of whose services not only the Inspector-General of Jails, but all who have visited the school, speak in the highest terms.

ORDER.—Ordered that a copy of the Resolution be forwarded to the President of the Board of Management of the Reformatory School at Alipore for information and communication to the members of the Board.

Ordered also, that a copy of the Reports, and a copy of the Resolution, be forwarded to the Inspector-General of Jails for information and communication to the Superintendent of the Hazáribágh Reformatory School.

Ordered also that the Resolution be published in the *Calcutta Gazette*.

By order of the Lieutenant-Governor of Bengal,

H. J. S. COTTON,

Offg. Chief Secy. to the Govt. of Bengal.

CONSTRUCTION OF A BRIDGE OVER THE BRAHMAPUTRA AT NASIRABAD.

No. 105T.—M., dated Darjeeling, the 23rd May 1892.

From—H. H. RISLEY, Esq., C.I.E., Offg. Secretary to the Government of Bengal, Municipal Department,

To—The Commissioner of the Dacca Division.

I AM directed to acknowledge the receipt of your letter No. 1020J., dated the 5th May 1892, forwarding a copy of a letter from the Collector of Mymensingh, in which he reports that Babu Jogendro Kisore Rai Chaudhri has offered to pay the sum of Rs. 30,000 towards the cost of erecting a bridge over the Brahmaputra at Nasirabad. You recommend that the acceptance of the offer by the District Board of Mymensingh may be approved.

2. In reply, I am directed to say that the Lieutenant-Governor has much pleasure in authorizing the District Board to accept the donation, and to request that you will be so good as to convey to Babu Jogendro Kisore Rai Chaudhri the thanks of His Honour for his liberality and public spirit. The correspondence will be published in the *Calcutta Gazette* for general information.

No. 1020J., dated Dacca, the 5th—9th May 1892.

From—C. F. WORSLEY, Esq., Commissioner of the Dacca Division,

To—The Secretary to the Government of Bengal, Municipal Department.

I HAVE the honour to forward copy of a letter from the Collector of Mymensingh, No. 346G., dated 2nd instant, reporting that Babu Jogendro Kisore Rai Chaudhri has offered to give the sum of Rs. 30,000 towards the cost of erecting a bridge over the Brahmaputra at Nasirabad (Mymensingh), and to recommend that His Honour the Lieutenant-Governor of Bengal may be pleased to approve of the District Board's acceptance of the offer, and to sanction the publication of this correspondence in the *Calcutta Gazette*.

No. 346G., dated Mymensingh, the 2nd May 1892.

From—H. A. D. PHILLIPS, Esq., Collector of Mymensingh,

To—The Commissioner of the Dacca Division.

I HAVE the honour to state that Babu Jogendro Kisore Rai Chaudhri has offered to give the sum of Rs. 30,000 towards the cost of erecting a bridge over the Brahmaputra at Nasirabad (Mymensingh).

2. I have much pleasure in bringing this offer to the notice of Government. Babu Jogendro Kisore Rai Chaudhri bears a high character, and has always been esteemed by successive Collectors of this district. The present donation is one of many instances of his public spirit and liberality.

LIFE-BOAT AT GOALONDO.

No. 1284 Marine.

GOVERNMENT OF BENGAL—MARINE DEPARTMENT.

Dated Calcutta, the 30th May 1892.

RESOLUTION.

READ—

A letter from the Commissioner of the Dacca Division, No. 63T., dated the 20th April 1892, enclosing a copy of a letter from the Magistrate of Faridpur, stating that the Hon'ble Nawab Khwajah Ahsanullah, Bahadur, C.I.E., of Dacca, has promised to pay a sum of Rs. 900 or Rs. 1,000 for the purchase of a life-boat at Goalundo.

THE Hon'ble Nawab Khwajah Ahsanullah, Bahadur, C.I.E., of Dacca, has offered to contribute a sum of Rs. 900 or Rs. 1,000 for the purchase of a life-boat to be kept at Goalundo, and has requested that it may be called after his father, Nawab Sir Khwajah Abdul Gunny, Bahadur, K C.S.I.

2. The Lieutenant-Governor is pleased to accept the Hon'ble Nawab Khwajah Ahsanullah Bahadur's liberal offer. The correspondence published below will show the necessity of keeping up a life-boat at Goalundo, and His Honour takes this opportunity to thank the Nawab for contributing towards such an useful object.

ORDER—Ordered, that the Resolution be published in the *Calcutta Gazette*.

By order of the Lieutenant-Governor of Bengal,

C. W. ODLING,

Joint-Secretary to the Govt. of Bengal.

No. 63T., dated Camp Faridpur, the 20th April 1892.

From—C. F. WORSLEY, Esq., Commissioner of the Dacca Division,
To—The Secretary to the Government of Bengal, Marine Department.

I HAVE the honour to forward copy of a letter from the Magistrate of Faridpur, No. $\frac{830}{XXIV-35}$, dated 19th instant, reporting the promise of a most liberal donation of Rs. 900 or Rs. 1,000 by the Honorable Nawab Khwajah Ahsanullah, Bahadur, C I.E., for the purchase of a life-boat to be kept at Goalundo, and to recommend—

(1) That the Nawab's generosity and public spirit may be acknowledged by the Government;

(2) That a boat, as recommended by the Marine Surveyor in his letter cited by the Magistrate, may be purchased, and sent to Goalundo as soon as possible; and

(3) That orders may be issued for the despatch of the old life-boat from Goalundo to Calcutta in view to its sale.

2. I trust that the Government will continue to make such contribution as it has heretofore made for the maintenance of the boat.

No. $\frac{830}{XXIV-35}$, dated Faridpur, the 19th April 1892.

From—E. F. GROWSE, Esq., Offg. Magistrate of Faridpur,
To—The Commissioner of the Dacca Division.

I HAVE the honour to inform you, in reply to your No. 393J., dated the $\frac{13th}{19th}$ February 1892, that I consider it very advisable to keep up a life-boat at Goalundo, as the figures given in the margin show that she has done very useful work during the last 8 years.

Lives saved.

1884-85.	1885-86.	1886-87.	1887-88.	1888-89.	1889-90.	1890-91.	1891-92.
46	143	116	99	51	86	131	85

2. The Sub-divisional Officer of Goalundo has addressed certain zamindars asking for subscriptions towards a new boat, and I have also written letters to others with the same object, and I have much pleasure in reporting that the Hon'ble Nawab Khwajah Ahsanullah, Bahadur, C.I.E., of Dacca, has most generously promised to give a sum of Rs. 900 or Rs. 1,000 to buy a new boat, to be called after his father, Nawab Sir Khwajah Abdul Gunny, Bahadur, K.C.S.I.

3. I would therefore ask you to report the fact to the Government of Bengal, in the Marine Department, and ask that a boat, as recommended by the Marine Surveyor in his letter No. 133, of the 28th January last, to the address of the Secretary to the Government of Bengal, in the Marine Department, be purchased, and sent to Goalundo as soon as possible.

4. The Sub-divisional Officer informs me that hitherto the boat has been maintained as follows:—

A Serang is retained permanently at Rs. 15 a month, and from June till September a crew of Khalasis is entertained at a cost of Rs. 92 a month. The total cost has therefore been about Rs 548 a year; of this sum the Railway pay Rs. 150, and local zamindars another Rs. 150, and the remainder is paid by Government. I understand that there will be no difficulty in getting this sum always, but I would ask that Government be urged to guarantee the entire maintenance of the boat, in case local subscriptions should fail. It is possible that some of the other gentlemen who have been addressed may send donations, and, if so, these might be used to form a nucleus for a maintenance fund, but I do not like to be too sanguine of getting favourable replies.

5. As for the old life-boat, the Sub-divisional Officer reports that nobody will buy it at Goalundo, and I beg to recommend that it be sent to Calcutta for sale there.

DISTRICT ROAD FUND.

No. 2636R.C.

GOVERNMENT OF BENGAL—PUBLIC WORKS DEPARTMENT.

Road Cess.

Dated Calcutta, the 26th May 1892.

RESOLUTION.

READ—

Letter from the Accountant-General, Bengal, No. 1255L.F., dated he 25th March 1892, submitting n abstract of receipts and expenditure of the several District Road Committees in Bengal for the quarter ending 31st December 1891.

RESOLUTION.—The Lieutenant-Governor directs that the accounts of the receipts and expenditure of the several District Road Committees in Bengal for the 3rd quarter of the year 1891-92 be published in the *Calcutta Gazette*, and circulated to the officers concerned.

ORDER.—Ordered that a copy of this Resolution, together with a copy of the abstract of receipts and expenditure, be published in the Supplement to the *Calcutta Gazette.*

Ordered also, that a copy of this Resolution, and of the abstract referred to, be forwarded to the Commissioners of the Rajshahi, Bhágalpur, Chittagong, and Chota Nagpur Divisions; to the Superintending Engineers of the Northern and Western Circles; to the Inspector of Works, Eastern Circle; and to the Financial Department of this Government, for information.

By order of the Lieutenant-Governor of Bengal,

F. J. JOHNSTONE,

Secretary to the Government of Bengal.

O. T. BARROW,

Accountant-General, Bengal.

GOVERNMENT OF BENGAL, MARINE DEPARTMENT.

No. 43Mne., dated Calcutta, the 30th May 1892.

THE following report of the 19th quarterly inspection of the Dock Works at Kidderpore which are being carried out by the Commissioners of the Port of Calcutta, is published for general information.

By order of the Lieutenant-Governor of Bengal,

C. W. ODLING,

Joint-Secretary.

QUARTERLY INSPECTION OF KIDDERPORE DOCK WORKS.

Dated Calcutta, the 19th May 1892.

From—LIEUT.-COL. A. D. MCARTHUR, R.E., and J. D. DAVIES, ESQ.,
To—The Secretary to the Government of Bengal, Public Works Department.

AGREEABLY to the orders of the Government of Bengal received with Under-Secretary's letter No. 1161 Marine of the 11th instant, we have the honour to report that our inspection of the Kidderpore Dock Works for the quarter ending 31st March 1892 was made on the 17th instant.

It is unnecessary again to allude to the main works in detail, our report for the quarter ending 31st December last showing that all are in a complete state

Works generally.—Additional water was pumped into the dock, full level being maintained The dredging of the berms was proceeded with and has been nearly completed, so as to afford a minimum depth of 24 feet along the walls for the greater portion of their length. Further deepening will be carried out.

Four sheds on the west side of the dock were completed in every respect, and those to the east are rapidly approaching completion.

Great progress had been made in the minor details of work, such as compound walls, gates, railway sidings, and the clearing and finishing up of a large area within the walls.

The opportunity was afforded us of seeing the four sheds to the west lighted up with electric light. The lights were all in position and the effect very good.

Expenditure.—The total expenditure up to the quarter under review is reported to be Rs. 2,54,86,621-5-3, of which Rs. 2,29,02,442-2-9 represent outlay on works and Rs. 25,82,179-2-6 on account of land.

During the quarter under review the health of the workpeople was good. The daily average number of workmen employed was 4,267, among whom there were 4·6 per cent. deaths, thus showing a death-rate of 12·28.

Remarks.—The dock is now ready in every way for the reception of several vessels, but no berths have up to the present been utilized. The graving dock has, however, been in use.

We consider that the progress on the works in hand during the last quarter was satisfactory, and that, so far as we could judge, the quality of the work was all that could be desired.

Rainfall, Weather, and State and Prospects of the Crops.

Statement showing Rainfall, Weather, and State and Prospects of the Crops in the different districts of Bengal, as reported to Government, during the week ending the 28th May, 1892.

No.	District and date of return.	Rainfall at Sadar Station in inches	Character of the weather and state and prospects of the crops.
BENGAL.			
BURDWAN DIVN. 1	Burdwan May 28, '92	1·29	Weather—hot. Sugarcane transplanting almost finished. Ploughing general. Cattle in good condition and sufficient fodder. More rain wanted. Prices of common rice— Srs. Burdwan ... ... 13 to 16; Katwa ... ... 13; Raniganj ... ... 14 — per rupee.
	Katwa ...	0·52	
	Raniganj ...	2 22	
2	Bankura ,, 28 '92	3·71	Weather—much cooled down by recent rain and storm. The rainfall of the week has been sufficient for all agricultural operations. Supply of fodder and water now sufficient. Common rice selling at 14 seers per rupee at Vishnupur and 14 seers 1 chitak at Bankura. A flight of locusts passed over near the town of Bankura on the 16th instant. They came from the north-west and are reported to have eaten the young sugarcane leaves in places in outpost Chhetua
	Vishnupur ...	4·08	
3	Birbhum ,, 28, '92	1·91	Rain has been general throughout the Sadar sub-division and has done much good. Ploughing is going on everywhere, and the ground begins to look green again. Prospects of fodder and water looking up. Price of rice from 12 to 15 seers per rupee.
	Rampur Hát ...	0·57	
4	Midnapore ,, 28, '92	1·13	Weather—hot; occasional showers of rain. Indigo doing well. Want of fodd r and water felt everywhere. Prices of common rice— Srs. Sadar ... ... 13; Contai ... ... 13; Tamluk ... ... 12; Ghatál ... ... 13 — per rupee.
5	Hooghly ,, 28, '92	1·81	Weather—fair with occasional heavy storms of wind and rain. Sowing of rice and jute has begun in some parts of the district, but more is unsown for want of rain. Fodder-supply adequate. Water-supply inadequate. Prices of common rice— Srs. Sadar ... ... 10; Serampore ... ... 10; Jahánabad ... ... 13 — per rupee.
	Jahánabad ..	3·95	
6	Howrah ,, 28, '92	2 00	Frequent rain storms; temperature fairly hot. Rain has improved prospects. Cultivation commenced. Condition of cattle good. Fodder and water-supply still inadequate. Rice 10 to 12 seers per rupee.
	Ulubaria ...	1·61	
PRESIDENCY DIVN. 7	24-Parganas ,, 31, '92	3·52	Weather—cloudy and unsettled with thunderstorms. Temperature hot and oppressive at times. Rain has fallen throughout the district. Prospects have improved, but more rain is wanted. Price of rice 10 to 11½ seers per rupee. Cattle-disease reported from one village in thána Baduria. Water and fodder sufficient.
8	Nadia ,, 28, '92	0·18	Weather—very hot. Sowing of *aus* nearly completed. More rain wanted for the seedlings. Coarse rice selling at from 10 seers 10 chitaks to 13 seers 5 chitaks per rupee. Some deaths of cattle reported from Jibannagar thána. Supply of fodder and water good.
	Kushtia ...	3·51	
	Meherpur ...	0·96	
	Ranaghat ...	1·62	
9	Khulna ,, 28 '92	2 99	Weather—hot with one or two cool days. Ploughing for *áman* and sowing of *aus* going on vigorously. Prospects of *til* and sugarcane favourable in Bágerhat. More rain wanted. Coarse rice selling at from 11 to 14 seers per rupee. Supply of fodder sufficient, and want of water less felt than a month ago.
	Bágerhat ..	1·48	
	Satkhira ...	1·77	
10	Jessore ,, 28, '92	2·55	Weather—hot with occasional showers. Sowing of *áman* and jute progressing, and that of *aus* and indigo nearly over. Prospects much improved by rain. Prices stationary. Fodder and water plentiful.
	Jhenida ..	1·11	
	Magura ..	2·66	
	Narail ..	0·97	
	Bangaon ..	2·22	
11	Murshidabad ,, 28, '92	1·15	Weather—hot and cloudy with occasional showers *Bhadoi* and jute lands are being sown. *Boro* paddy almost harvested. Fodder available for cattle. Common rice selling at 12 seers per rupee.
CHITTAGONG DIVN. 12	Chittagong ,, 28, '92	1·11	Weather—seasonable. Prospects of crops good. Prices stationary. Condition of cattle generally good. Supply of fodder sufficient.
13	Noakhali ,, 28, '92	2·24	Weather—seasonable. State of *aus* paddy is good. Sowing of *áman* paddy has commenced. Fodder and water sufficient. No cattle-disease. Price of rice stationary.
	Fenny ..	3·82	
14	Tippera ,, 28, '92	4·36	Weather—hot and cloudy. Sowing of *aus*, *áman*, and jute almost completed. *Til* and chillies being gathered. Prospects good. Cattle-disease decreasing. Prices stationary.
15	Chittagong Hill Tracts. ,, 27, '92	2·39	Weather—seasonably hot. Sowing in *jums* still going on. Paddy and other crops in *jum* progressing. Cattle-disease still prevailing. Common rice selling at 10 seers a rupee.

No	District and date of return.	Rainfall at a stated Station in inches.	Character of the weather and state and prospects of the crops.
BENGAL—*concld.*			
Dacca Divn.			
16	Dacca May 28, '92	4·89	Weather—hot, and rain at intervals with high wind. Jute and *aus* paddy thriving, but the latter has been partially damaged in low lands owing to sudden rise of the rivers. Fodder available. No cattle-disease. Common rice selling at 12 to 15 seers per rupee.
17	Faridpur „ 28, '92	3·39	On Sunday (22nd) there was a heavy storm which did some damage to trees and houses. Weather hot and seasonable. All young crops doing well. Common rice sells at 12 seers per rupee at Goalundo, 13 seers at Madaripur, and 13½ seers at Sadar. Cattle doing well and at present get fodder, but rivers rising and fodder will gradually become more and more difficult to procure.
18	Backergunge „ 28, '92	1·25	Weather—hot and cloudy. State and prospects of crops fair. Ordinary rice sells at from 10 to 13 seers per rupee. Fodder and water sufficient.
19	Mymensingh „ 28, '92	6·79	Weather—very hot. Rain at intervals. Prospects of standing crops fair. In Netrokona subdivision *aus* and jute crops have suffered from heavy rain. Common rice sells at 13 seers per rupee. Supply of fodder and water sufficient.
Rajshahi Divn.			
20	Dinajpur „ 28 '92	0·88	Weather.—hot; cloudy and rainy at times. Standing crops doing very well.
	Thakurgaon ...	4·34	Weeding continues. Preparation of land for *haimanti* rice commenced in places. Price of rice, both at Sadar and Thakurgaon, stationary. Condition of cattle good. Fodder and drinking water available.
21	Rajshahi „ 28, '92	2·03	Weather—hot and cloudy. Rain is expected soon. *Aus*, *áman* and jute are all
	Nator ..	3·19	prospering well after the late rain. Condition of cattle good. Fodder and
	Nowgong ...	1·57	water-supply sufficient. Price of rice ranges from 11 to 15 seers per rupee.
22	Rangpur „ 30, '92	3·29	Prospect of *aus* continues favourable. Price of common rice 11 to 14 seers per
	Gaibanda ...	7·07	rupee. Fodder sufficient.
	Nilphamari ...	7·17	
	Kurigaon ...	4·66	
	Ulipur .	11·51	
23	Bogra „ 28, '92	2·12	Weather—variable. Frequent storms with heavy rain. Average temperature
	Sherpur ...	2·95	below the normal. Standing crops promise well. Some of the *káon* planted
	Naukhila ...	2·29	in very low lands is suffering from the heavy rain. Ploughing for *áman* progressing. In some places the *aus* is almost ripe. Slight rise in the price of common rice, which now sells at 13 seers per rupee.
24	Pabna „ 28, 92	2·08	Weather—cloudy, rainy and hot. Prospects of standing crops good. Weeding continues. Price of common rice rose to 12 seers a rupee. Condition of cattle good. Water-supply and fodder sufficient, except at Dulai.
25	Darjeeling „ 28, 92	3·05	Weather—rainy with occasional breaks. *Aghani* sowings in nurseries going on. Jute, *bhadoi*, *bhutta*, *kagni*, potatoes, *chhota marua* and *jafar* progressing favourably. Fodder and water-supply sufficient. Some cases of cattle-disease in the hills.
26	Jalpaiguri „ 28, '92	6·93	Weather—cloudy and cool though hot at intervals. Rain throughout the week causing damage to *bhadoi* and jute crops in places. Fair weather wanted. Price of common rice remains stationary. Fodder-supply still sufficient. Condition of cattle good.
Bihar.			
27	Monghyr „ 28, '92	0·31	Weather—hot and sultry; a slight shower on the 25th. Fields ploughed, but
	Begusarai ...	Nil	sowing not done for want of rain. Fodder and water getting scanty. Rice
	Jamui ...	1·15	10 to 12 seers per rupee.
Bhagalpur Divn.			
28	Bhagálpur „ 28, '92	0·33	Weather—hot with easterly wind. Rain has fallen, but more rain is needed in
	Banka ...	0·08	the affected tract in Supaul. *Bhadoi* and *aghani* much benefited. Cul-
	Madhipura ...	1·46	tivation good. Fodder and water for cattle sufficient. Prospects of crops
	Supaul ...	1·20	favourable. Common rice 11 seers 6 chitaks per rupee.
29	Purnea „ 28, '92	1·18	Weather—hot with occasional storms. Cooler and more rain in north than at
	Kishanganj ...	3·83	head quarters. *Bhadoi* crop and sugarcane doing well, and recent rain has
	Araria ...	3·49	been useful for indigo which was being scorched in places. *Aghani* sow-
			ings continue. *Kauni*, *cheena* and *mung* being harvested. Fodder and water sufficient. Prices of common rice—
			Srs.
			Sadar ... ... 11 to 13 } per rupee.
			Araria ... ... 12 to 13 }
30	Malda „ 28, '92	0·69	Weather—extremely hot and oppressive till this day (28th), when it has cooled
	Chanchal ..	0·63	down after a little rain. Sowing of *bhadoi* and harvesting of *boro* about to
	Shibganj ...	3·02	be completed. Average outturn of *boro* estimated to be not less than 12
	Gajol ..	0·27	annas. Yield of mango 8 annas. Supply of fodder ample. Ordinary rice selling at from 11 to 12 seers per rupee.
13	Santhal Parganas „ 28, 92	1·87	Good rain everywhere except in Rajmahal, Godda and Deoghur. East and
	Deoghur ...	0·86	south winds with storms. The rain has improved prospects, enabling plough-
	Godda ..	0·60	ing to begin and helping the sugarcane. More rain wanted everywhere, but
	Jamtara .	1·93	specially in Rajmahal, Godda and Dumka. Fodder still scarce. Water-
	Pakaur ..	2·51	supply improved. Locusts passed over last week destroying indigo in
	Rajmahal ..	0·36	Dumka. Price of rice ranges from 10 to 13 seers per rupee.

No.	District and date of return.		Rainfall at Sadar Station in inches.	Character of the weather and state and prospects of the crops.
BIHÁR—*contd.*				
Patna Division. 32	Patna	May 28, '92	0·45	Weather—hot. Lands being prepared for *bhadoi* sowings, but more rain wanted. The rain that fell during the week will do good to the standing crops of sugarcane and *cheena*. Water and fodder getting scarce in Barh sub-division. Common rice selling at from 10 to 12½ seers per rupee. No distress reported.
	Barh	...	Nil	
	Bihár	...	0·10	
	Dinapur	...	0·21	
33	Gaya	,, 28, '92	0·57	Temperature about normal, but air rather humid. Partial rain on 26th. Sugarcane kept going by irrigation, but reported to be suffering from drought in Nawáda. *Cheena* harvest nearly completed. Prices stationary. Common rice selling at 12 seers per rupee at Sadar. Cattle are suffering from scanty supply of fodder and water.
	Aurangabad	...	0·05	
	Nawáda	...	0·09	
	Jahánabad	...	Nil	
34	Shahabad	,, 28, '92	0·37	Weather—warm. Sugarcane doing well except that now the want of water is being felt. Millet and *boro* paddy are being reaped and yielding a fair outturn. Fodder and water-supply sufficient. Prices stationary.
	Buxar	...	1·15	
	Bhabhua	...	0·29	
35	Darbhanga	,, 28, '92	1·97	Weather—cloudy. The rain has done great good, but a little more is wanted, as many *chár* lands are not yet sown. *Mung* looking well and early rice also, but the latter wants more rain. Land is being prepared for *bhadoi* crops. Fodder for cattle much freshened by rain, and water also more plentiful. Common rice 10 to 11 seers per rupee.
	Madhubani	...	1·03	
	Samastipur	...	0·50	
36	Muzaffarpur	,, 28, '92	1·35	Weather—cooler and often cloudy with occasional thunderstorms. The rain has been pretty general over the district, though it has been given by storms of more or less local character. Agricultural operations are beginning all over the Sadar sub-division and part of Sitamarhi. Price of rice has fallen in Sitamarhi, being in some places over 13½ seers per rupee; elsewhere also prices show an inclination to fall.
	Hajipur	..	0·26	
	Sitamarhi	...	0·95	
37	Saran	,, 28, '92	0·48	Weather—very disturbed; thunderstorms everywhere on 22nd, smaller local storms since. High east winds. Rain has freshened indigo and *cheena*, but more is wanted for preparing land for *bhadoi*. Common rice selling as follows:—
	Siwán	...	0·26	
	Gopalganj	...	0·90	

	Srs.	
Chapra	11	per rupee.
Siwán	11	
Gopalganj	12¼	

	38	Champaran	,, 28, '92	2·89
		Bettiah	...	1·37

Weather—hot; cloudy and stormy with high east wind. Fields are being prepared for *bhadoi* paddy, and other seeds are being sown. Standing crops have been slighty benefited by the recent rain. Prices stationary. Fodder and water sufficient.

ORISSA.

Orissa Divn.	39	Cuttack	,, 28, '92	0·21
	40	Puri	,, 26, '92	Nil
		Pipli	..	0·43
		Khurda	...	1·37
	41	Balasore	,, 28, '92	2·30

Weather—unsettled with thunderstorms. Local showers in parts have facilitated agricultural operations, but the rainfall up to date is quite inadequate. Prices of food-grains rising. Common rice sells at from 11 seers 13 chitaks at head-quarters to 15 seers 12 chitaks in the interior. Fodder and water-supply scanty in parts.

Weather—seasonable. Rain in some parts of the district. More rain wanted. Harvesting of *dalua* paddy still continues. Miscellaneous crops good. Rice sells at from 10 to 14 seers per rupee.

Weather—stormy. Rain has been more or less general throughout the district. It enables the raiyats to plough and will give fodder for the cattle. More rain is urgently required for drinking purposes. Rice sells at 12 and 13 seers per rupee.

CHOTA NAGPUR.

South-West Frontier Agency.

Chota Nagpur Divn.	42	Hazáribágh	May 28, '92	0·87
		Giridi	...	0·89
	43	Lohardaga	,, 28, '92	1·64
	44	Palámau	,, 27, '92	0·16
	45	Singhbhum	,, 28, '92	2·19
	46	Manbhum	,, 28, '92	·78
		Gobindpur	...	·79

Weather—very hot and somewhat unsettled. Mango 4 to 12 annas. Sugarcane doing well. Much more rain wanted for agricultural operations. Fodder and water scanty. Common rice selling at from 11 to 13 seers per rupee.

Weather—very hot and cloudy. More rain is wanted for ploughing land for *gora* paddy and *gundli*. Common rice selling at 13 seers per rupee. Fodder and water not sufficient

Weather—somewhat cooler. Good showers in some parts, but general rain urgently wanted. Sugarcane thriving well. Common rice 13 to 14 seers per rupee. Supply of water and fodder very short; want of water badly felt.

Heavy rain on 23rd and 24th and a heavy shower on 25th. Weather much cooler. Clouds hanging about. The rain has been general and has done immense good. Sugarcane doing fairly well; 8 to 12 annas crop expected. Mangó crop poor except in Kolhan. Ploughing operations going on everywhere. Price of common rice stationary. Fodder and water-supply much improved by the late rain.

Weather—much cooler; several storms during the week. The rain has facilitated ploughing operations. Price of rice 13 to 16 seers per rupee.

Erratum.—In the Weather and Crop Report for the week ending 30th April 1892, published in the Supplement to the *Calcutta Gazette* of 4th May, for the rainfall of "1·16" at Sitamarhi in the Muzaffarpur district read "Nil."

Published for general information.

CALCUTTA; REVENUE DEPT.,
The 31st May, 1892.

C. E. Bu
Secretary to the G

The following Statement shows the Quantities of the Principal Staples of Traffic imported into Calcutta from the Interior during the month of February, 1892.

IMPORTS INTO CALCUTTA.

Explanation.—Summary.—The normal means of air pressure and temperature are the arithmetical average or means of the reading during the same period for the last The *humidity* of the atmosphere is expressed at percentage, saturated air being presented by 100. A clear sky is denoted by 0 and an overcast sky by 10. The numbers are the numerical means or average of the rainfall in that district determined from the returns sent in by the subdivisional station for the period in question during the stations in the district sending in returns divided by the number of stations. A rainy day is one on which at least a tenth of an inch fell.

for the week ending Saturday, the 28th of May 1892.

Explanation.—.....indicate that no rain has fallen. If the return for any day has not been received, the corresponding space is left blank. If any of the returns are wanting, the corresponding spaces in the total rainfall columns are left blank. With reference to the column of rainy days, the definition of a rainy day is when at least 0·1 inch of rain has fallen.

CALCUTTA, *the* 31*st May* 1892.

SUMMARY OF THE METEOROLOGICAL AND RAINFALL OBSERVATIONS TAKEN IN BENGAL, AND OF THE METEOROLOGICAL OBSERVATIONS TAKEN IN ASSAM, FOR THE WEEK ENDING 8 A.M., SATURDAY, THE 28TH OF MAY 1892.

At the close of the previous week conditions had become disturbed over the greater part of the province from the formation of a feeble barometric depression over the western districts, and with these conditions local storms with rain were general in almost all districts. On the 22nd, or the first day of the present week, the centre of the feeble barometric depression changed its position to Chota Nagpur, where pressure was more than 0·15″ in defect at Hazáribágh. The depression caused a very distinct tendency to a cyclonic circulation of winds round a centre to the east of Hazáribágh, and with the depression existing over the province, rather strong winds were reported in Bengal and at the head of the Bay. On the 23rd the depression had to a considerable extent filled up or had moved away from the province, but the barometric changes were very irregular, showing that the disturbed state of the atmosphere still existed. These irregular changes of pressure continued in Bengal on the 24th, but rather more important changes occurred on this day in the Bay, where a barometric depression appeared in the Andaman Sea, while there was also a tendency to low pressure off the South Orissa and Ganjam coasts. On the morning of the 25th, the wind directions in Bengal had become very irregular, and at a good many stations north-easterly winds were reported, showing slight indraught towards the Bay, and the feeble barometric depressions appeared still to exist off the South Orissa coast and in the Gulf of Martaban, but the pressure changes on this day in Bengal were small. On the 26th the two feeble depressions in the Bay filled up, and pressure distribution and wind directions became a little more normal, while on the 27th pressure rose slowly in Bengal and the distribution became practically normal for the day, and the winds also became of directions varying from southerly in the southern districts, though south-easterly, to easterly in the north of the province. On the 28th the pressure changes were comparatively small, though usually there was a fall, and pressure was again becoming below the normal particularly in Bihár, but winds continued fairly normal in direction on this day. For the greater part of the week, therefore, it will be seen that conditions were very decidedly disturbed in Bengal, though towards its close weather was more normal. Hence during the earlier part of the week local storms with rain occurred at almost all stations in the province, but towards the end of the week they became decidedly less numerous, and had practically ceased to occur in Orissa, Bihár, and Chota Nagpur, and over the greater part of East and South-West Bengal, though they were still rather numerous in North Bengal and the adjoining parts of North Bihár.

In the Bay the south-west monsoon current has been blowing fairly steadily and rather strongly throughout the week, and the barometric depression which occurred in the Andaman Sea and moved into the Gulf of Martaban and Burma in the middle of the week was probably formed in front of this current, for it gave exceedingly heavy rain to some of the Burma stations. During the week, therefore, the true south-west monsoon current has probably advanced well into the centre of the Bay and, as is usually the case, it is making itself felt first at the eastern stations.

Pressure.—The mean pressure for the week has been below the normal in all districts, the usual defect being from about 0·05″ to 0·07″, but the defects have been smallest at some of the northern stations, where at Rangpur, Purnea, and Darbhanga they equal only about 0·03.″ In Assam the average defect for the week has equalled 0·072″, and it has been largest at Sibsagar, where it is 0·09.″

Temperature.—Owing to the rather heavy rainfall during the week there has been a rather rapid fall of temperature, and the mean temperature of the province for the week is below the normal instead of above it, as has been the case for so long a time. The defect for the week in North Bengal and North Bihár equals about 4°, and elsewhere about 1° or 2°, and the mean temperature for the whole province has been 1·7° below the normal. In Assam the defect has been 2·1°.

Rainfall—Has been moderately heavy in all districts except South Bihár, where the fall is only about two-thirds of the normal amount. On the other hand, falls considerably in excess of the normal amounts are reported in East and South-West Bengal and North Bihár. Average falls of three to four inches have occurred in East and North Bengal, a fall of two inches in South-West Bengal, falls of an inch to an inch and-a-half in Orissa, North Bihár, and Chota Nagpur, and a fall of about two-thirds of an inch in South Bihár.

In most districts these falls have been fairly equally distributed, but in South Bihár, Shahabad, Gaya, and Patna have received very little rain, Monghyr has received very considerable amounts, and the Sonthal Parganas district a fall rather larger than the normal for the week.

The following table gives the summary of the temperature and rainfall data of each of the seven meteorological divisions of the province for the week ending Saturday, the 28th of May 1892:—

Meteorological Divisions.	Temperature.						Rainfall.								
	Highest observed during week.	Lowest observed during week.	Averages for week.			Average mean of week above or below normal mean of week.	Of week.			Rainy days.			Since 1st of month.		Since 16th May 1892.

The mean pressure, temperature, &c., are deduced from the traces of the Barograph and Thermograph, and from observations made at 6h, 10h, 16h, and 22h.

The maximum and minimum temperatures are obtained from self-registering thermometers. All the thermometers are verified, and the readings have been corrected to a standard constructed and verified at the Kew Observatory. They are exposed under a thatched shed open at the sides, and are suspended four feet above the ground.

The barometer readings are corrected approximately to those of the standard, Newman's No. 86, formerly at the Surveyor-General's Office.

The hygrometric elements are obtained from Tables III, IV, and V of the official tables computed in the Meteorological Office, and based on Regnault's modifications of August's formula.

The directions and the movement of the wind are taken from the trace of a Beckley's anemograph.

The mouth of the rain-gauge is one foot above the ground.

o, overcast; g, gloomy; d, drizzling rain; p, passing temporary showers; t, thunder; ≤, lightning; lr. lightning reflection; ≏, dew.

J. H. Gilliland,

Orders and Notifications by the Lieutenant-Governor of Bengal, the High Court, Government Treasury, &c.

ORDERS BY THE LIEUT.-GOVERNOR OF BENGAL.

No. 145A.

GENERAL.—*The 1st June* 1892.—Captain J. G. Downing, Calcutta Volunteer Rifle Corps, is allowed leave of absence for six months, with effect from such date as he may avail himself of it.

The 3rd June 1892.—Babu Charu Chunder Chatterjea, B.A., is appointed substantively *pro tempore* to be a Sub-Deputy Collector of the fourth grade, and is posted to Naugaon, in the district of Rajshahi, *vice* Babu Krishna Dhan Bagchi, deceased.

This cancels the order of the 31st ultimo, posting Babu Charu Chunder Chatterjea as a Probationary Sub-Deputy Collector to Lohardaga.

Babu Kali Prosanno Sircar, Deputy Magistrate and Deputy Collector, Midnapore, is allowed leave for four months, under article 369 of the Civil Service Regulations, with effect from the 19th May 1892.

The 4th June 1892.—Honorary Quarter-Master Edward Read, Presidency Volunteer Rifle Battalion, is allowed leave of absence for six months, with effect from the 25th May 1892.

Babu Sitikanta Ghose, Deputy Magistrate and Deputy Collector, Malda, is allowed leave for one month, under article 291 of the Civil Service Regulations, with effect from the 15th instant.

Maulvi Mahomed Abdurrauf, Sub-Deputy Collector, Rangpur, is transferred temporarily to the Nilphamari sub-division of that district.

The 6th June 1892.—Mr. J. A. Hopkins, Magistrate and Collector, Patna, is appointed to act temporarily as Commissioner of Patna, with effect from the forenoon of the 7th June 1892.

Mr. H. LeMesurier, Officiating Joint-Magistrate and Deputy Collector, Patna, is appointed to act temporarily as Magistrate and Collector of that district, with effect from the forenoon of the 7th June 1892.

Mr. D. B. Allen, Officiating Magistrate and Collector of the second grade, is confirmed in that grade, with effect from the 26th May 1892, *vice* Mr. E. R. Henry.

Mr. F. A. Slack, Settlement Officer, Chittagong, is appointed to be a Magistrate and Collector of the third grade, with effect from the 26th May 1892, *vice* Mr. D. B. Allen, but will continue to act in the second grade of Magistrates and Collectors until further orders.

Mr. E. B. Harris, Officiating Magistrate and Collector, Rangpur, is appointed substantively *pro tempore* to the third grade of Magistrates and Collectors, with effect from the 26th May 1892, *vice* Mr. F. A. Slack, on settlement work, but will continue to act, until further orders, in the second grade of Magistrates and Collectors.

The 7th June 1892.—Mr. M. Finucane, Director of Land Records and Agriculture, Bengal, reported his departure from India on furlough on the 14th May 1892.

The 7th June 1892.—Mr. H. Lee, Chairman of the Commissioners of Calcutta, is allowed leave for two months and twenty days, under article 291 of the Civil Service Regulations, with effect from the 6th July 1892.

Mr. J. G. Ritchie, Magistrate and Collector, third grade, officiating as Deputy Commissioner, Darjeeling, is appointed to act as Chairman of the Commissioners of Calcutta, during the absence, on leave, of Mr. H. Lee, or until further orders.

Mr. R. M. Waller, Magistrate and Collector of the first grade, is appointed to officiate as Deputy Commissioner of Darjeeling until further orders.

Mr. C. H. Vowell, Magistrate and Collector, Purnea, is appointed to be Magistrate and Collector of Monghyr, with effect from the date on which he may take charge from Mr. R. M. Waller.

Mr. C. J. S. Faulder, Magistrate and Collector of the third grade, on leave, is appointed to be Magistrate and Collector of Purnea, with effect from the date on which he may take charge from Mr. C. H. Vowell.

Babu Sasi Bhushan Sen, Officiating Deputy Magistrate and Deputy Collector, Burdwan, is vested with the powers of a Collector under Act X of 1870 in the district of Hooghly.

Mr. G. Stevenson, Magistrate and Collector, Cuttack, is appointed to act, until further orders, in the first grade of Magistrates and Collectors, with effect from the 20th ultimo, *vice* Mr. A. A. Wace, on deputation.

Mr. E. N. Baker, Officiating Magistrate and Collector, 24-Parganas, on privilege leave, is appointed to act, until further orders, in the second grade of Magistrates and Collectors, with effect from the 20th ultimo, *vice* Mr. G. Stevenson.

Mr. H. F. J. T. Maguire, Officiating Magistrate and Collector, on privilege leave, is appointed to act, until further orders, in the second grade of Magistrates and Collectors, with effect from the 20th ultimo, *vice* Mr. E. N. Baker, on privilege leave.

Mr. E. F. Growse, Officiating Magistrate and Collector, Faridpur, is appointed to act, until further orders, in the second grade of Magistrates and Collectors, with effect from the 20th ultimo, *vice* Mr. H. F. J. T. Maguire, on privilege leave.

POLICE.—*The 7th June* 1892.—Mr. J. A. Cave-Browne, Officiating Assistant Superintendent of Police, is posted to the South Lushai Hills district, with effect from the date on which he joined his appointment.

LEGISLATIVE.—*The 3rd June* 1892.—With the sanction of His Excellency the Viceroy and Governor-General, the Lieutenant-Governor re-appoints the Hon'ble H. J. S. Cotton, C.S.I., under the provisions of the 29th, 30th, and 45th sections of the Indian Councils Act of 1861, to be a Member of the Council of the Lieutenant-Governor of Bengal, for the purpose of making Laws and Regulations in the Bengal Division of the Presidency of Fort William.

ECCLESIASTICAL.—*The 1st June* 1892.—Mr. John Ellison, Baptist Missionary, Rangpur, is hereby granted a license, under section 9 of Act XV of 1872, authorizing him to grant certificates of marriage between persons who are Native Christians.

He is also appointed to be a Registrar of Births and Deaths under Act VI of 1886.

The 3rd June 1892.—The Revd. K. E. Barrow, Chaplain of St. Thomas' Church, Calcutta, is allowed leave for one month, under article 656 of the Civil Service Regulations, with effect from the 13th instant, or such subsequent date as he may avail himself of it.

The Revd. A. D. Green is appointed to act as Chaplain of St. Thomas' Church, Calcutta, during the absence, on leave, of the Revd. K. E. Barrow, or until further orders.

The 7th June 1892.—The Revd. H. T. Ottley, Chaplain of St. James' Church, Calcutta, is allowed leave for five days, under article 656 of the Civil Service Regulations, in extension of the leave granted to him under the order of the 9th April 1892.

EDUCATION.—*The 7th June* 1892.—Babu Lal Gopal Chakravarti, M.A., is appointed temporarily to be Assistant Professor in the Hooghly College, during the absence, on leave, of Mr. E. M. Wheeler, or until further orders.

The following notifications are republished from the *Assam Gazette*:—

No. 4251*G.*—*The 20th May* 1892.—On the report of the Central Examination Committee, the Chief Commissioner directs the publication, for general information, of the

results of the half-yearly examination of Deputy Commissioners, Assistant Commissioners, Extra Assistant Commissioners and others, held on the 2nd, 3rd, 4th and 5th May 1892.—

The 31st May 1892.—The following Rules for regulating the employment of Apprentices in the Secretariat Clerical Establishment of the Government of Bengal and attached offices, having been approved by the Lieutenant-Governor, are published for general information :—

1. Apprentices may be appointed up to a number not exceeding 10 per cent. on the number of permanent employés, that number being taken for the purpose of this calculation as the multiple of ten nearest to the actual number.

2. In the Government Secretariat, and in all offices to which the rules of 16th March 1889 regulating recruitment for clerical appointments apply, apprentices should be appointed on separate lists for the Upper and Lower Divisions.

3. Persons who have successfully passed the examination prescribed by the rules for the regulation of appointments in the Secretariat Clerical Service, will have the first claim to a vacancy on the list of apprentices.

4. If any vacancies remain after the claims of successful examinees have been satisfied, other candidates may be appointed, subject to the following conditions :—

(*a*) If pure natives of India, they must have passed the F.A. examination in order to qualify for the Lower Division, or the B.A. Examination in order to qualify for the Upper Division.

If Europeans or Eurasians, they must possess certificates of education equivalent to the above standards.

(*b*) They must be under 25 years of age.

(*c*) They must possess all qualifications required for permanent appointments under rules 6 (2) and 13 (*c*) of the 16th March 1889.

(*d*) They must produce a certificate from a Government medical officer of or above the rank of Surgeon, to the effect that they are in good health and of sound constitution.

5. Apprentices who enter under rule 3 will have a preferential claim to officiating appointments over those who enter under rule 4.

6. The names of apprentices will be removed from the list when they have served for three years, or have attained the age of 25, whichever happens first.

7. Apprentices will have the first claim to the lowest of a chain of officiating vacancies in the office to which they are attached, but for permanent vacancies the head of the office is at liberty to introduce any other person who may satisfy the conditions of the rules in force ; provided that passed candidates who have served as apprentices shall have a preferential claim to appointments reserved for successful candidates in the clerkship examination.

8. Apprentices will receive a subsistence allowance of Rs. 20 in the Upper Division, and Rs. 10 in the Lower, when they are not filling officiating vacancies.

9. Service as an apprentice qualifies for employment not only in the office in which it is rendered, but also in any other office to which these rules apply. An apprentice, however, having once taken officiating employment in another office, has no claim to readmission as an apprentice into the office in which his service as apprentice began.

H. H. RISLEY,
Offg. Secy. to the Govt. of Bengal.

MEDICAL DEPARTMENT.

To—The Secretary to the Government of Bengal, Marine Department.

IN continuation of my telegram of the 25th instant, I am directed to forward herewith, for the information of the Government of Bengal, copy of a Resolution of this Government, No. 1732, of to-day's date, and of the notification issued thereunder, regarding the enforcement of quarantine rules at Aden, Perim, and the Somali Coast against arrivals from Zaila.

Quarantine : Imposition of—at Aden, Perim, and the Somali Coast against arrivals from Zaila

No. 1732.

GENERAL DEPARTMENT.

Bombay Castle, the 27th May 1892.

Telegram from the Government of India, Home Department, dated 26th May 1892 :—

"Number 91, Sanitary. Your telegram 25th instant. Governor-General in Council sanctions as temporary measure issue of rules similar to those issued 16th October 1891, under section 1, Act I of 1870, against arrivals from Zaila at the Port of Aden. Please wire date of notification publishing the rules and send copy for republication in *Gazette of India.*"

RESOLUTION.—A notification should be published in a *Bombay Government Gazette Extraordinary* bringing the B. Quarantine Rules into operation at Aden, Perim, and the Somali Coast against arrivals from Zaila.

2. Copies of the notification should be forwarded to the Political Resident, Aden, and the other officers and departments concerned, for information, with reference to Government Resolution No. 1699, dated 25th instant. Copies should also be forwarded to the Governments of India, Bengal, Madras, and Ceylon and the Chief Commissioner of Burma.

W. L. HARVEY,
Under-Secretary to Government.

NOTIFICATION.

GENERAL DEPARTMENT.

Bombay Castle, the 27th May 1892.

No. 1732.—In exercise of the power conferred by Act I of 1870, the following rules for quarantine against cholera have been made by the Government of Bombay, with the previous sanction of the Governor-General in Council : they have effect from the 24th instant in the Ports of Aden, Perim, and the Somali Coast as a temporary measure :—

I.—The Commander of every vessel, including buggalows or other native craft, arriving from Zaila, shall, before entering the harbour, indicate by signal the port from which such vessel has come.

II.—Such Commander shall not, except as hereinafter provided, allow any communication, either with the pilot boat, except orally, or with the shore, or with any other vessel or boat in the harbour.

III.—Immediately on arrival the Commander shall cause the letter R. of the Commercial Signal Code to be hoisted, and shall keep the said flag flying during his stay in port or until authorized by the Health Officer to haul it down. If communication with the shore is not desired, the vessel shall anchor at such place as may be pointed out by the port authorities, having regard to the season of the year. If communication with the shore is desired, the Health Officer shall go alongside the vessel, and, after all necessary enquiries, shall direct the Commander to take the vessel to the quarantine anchorage duly appointed and notified in that behalf by the Resident, there to remain for a period of seven days from the date of arrival, or for the shorter period prescribed in Rule IV, and undergo disinfection, which should apply as well to crew, passengers, effects, and susceptible goods.

IV.—If the Health Officer of the Port has sufficient evidence that no cases of a suspicious nature have taken place on board during the voyage, and if the vessel is besides in good hygienic condition, the duration of the quarantine will be diminished according to the following scale:—

After eight days of voyage	...	...	six days of quarantine.
Do. nine do.	...	...	five do.
Do. ten do.	...	...	four do.
Do. eleven do.	...	...	three do.
Do. twelve do.	...	...	two do.
Do. thirteen do. and upwards		...	twenty-four hours of quarantine.

V.—If during the period a vessel is at the quarantine anchorage aforesaid, any case or cases of cholera should occur on board, the said vessel shall remain in quarantine for a period of seven days from the date of the last case occurring, and be subject to all the prohibitions provided for in Rule III.

VI.—When any vessel has been placed in quarantine as aforesaid, the Health Officer may direct the removal of so many of the passengers and crew as may not be suffering from illness, and whose services may not be required on board the vessel, to such particular spots as may from time to time be selected by the Resident as places of quarantine, there to remain for a period of seven days. If a case of cholera occurs among such passengers and crew during any such period, they shall remain in a place of quarantine for a period of fifteen days from the date of the occurrence of the last case of such illness.

VII.—Any mails or cargo which may be brought by any vessel so arriving shall be landed under such precautions as the Health Officer may deem necessary to prevent the spread of the disease.

VIII.—It will be the duty of the Port Officer to facilitate the conveyance to all vessels in quarantine of such supplies of provisions, stores and other articles as may be required by those on board. Such supplies will be placed on the boats of the vessels in quarantine to be subsequently removed by members of their crews.

IX.—All vessels arriving at Aden, Perim, and the Somali Coast which may have communicated with vessels coming from Zaila shall be subjected to the same quarantine as vessels arriving at Aden, Perim, and the Somali Coast from Zaila.

X.—All vessels which have undergone quarantine in the manner above prescribed should have the fact clearly stated on their bills-of-health.

By order of His Excellency the Right Honourable the Governor in Council,

T. D. MACKENZIE,
Chief Secretary to Government.

The 7th June 1892.

No. 49*Marine.*—The following telegram, dated the 4th June 1892, from the Government of Bombay, relative to the imposition of ten days' quarantine at Yemen and Hedjaz against arrivals from Bussorah, is published for general information.

Copies should also be forwarded to the Governments of India, Bengal, Madras and Ceylon, and the Chief Commissioner of Burma.

W. L. HARVEY,
Under-Secretary to Government.

NOTIFICATION.

GENERAL DEPARTMENT.

Bombay Castle, the 2nd June 1892.

No. 1812.—In exercise of the power conferred by Act I of 1870, the following Rules for Quarantine against Cholera have been made by the Government of Bombay with the previous sanction of the Governor-General in Council: they have effect from the 30th ultimo in the Ports of Aden, Perim, and the Somali Coast as a temporary measure:—

I.—The commander of every vessel, including buggalows or other native craft, arriving from the Arabian Coast between Aden and Babelmandeb and from the African Coast between Suakim and Guardafui shall, before entering the harbour, indicate by signal the port from which such vessel has come.

II.—Such commander shall not, except as hereinafter provided, allow any communication either with the pilot boat, except orally, or with the shore, or with any other vessel or boat in the harbour.

III.—Immediately on arrival the commander shall cause the letter R. of the Commercial Signal Code to be hoisted, and shall keep the said flag flying during his stay in port or until authorized by the Health Officer to haul it down. If communication with the shore is not desired, the vessel shall anchor at such place as may be pointed out by the Port authorities, having regard to the season of the year. If communication with the shore is desired, the Health Officer shall go alongside the vessel, and, after all necessary enquiries, shall direct the commander to take the vessel to the quarantine anchorage duly appointed and notified in that behalf by the Resident, there to remain for a period of seven days from the date of arrival, or for the shorter period prescribed in Rule IV, and undergo disinfection which should apply as well to crew, passengers, effects, and suspectible goods.

IV.—If the Health Officer of the Port has sufficient evidence that no cases of a suspicious nature have taken place on board during the voyage, and if the vessel is, besides, in good hygienic condition, the duration of the quarantine will be diminished according to the following scale:—

After eight days of voyage			...	...	Six days of quarantine.
Do.	nine	ditto	...	...	Five ditto.
Do.	ten	ditto	...	...	Four ditto.
Do.	eleven	ditto	...	...	Three ditto.
Do.	twelve	ditto	...	...	Two ditto.
Do.	thirteen	ditto and upwards		...	Twenty-four hours of quarantine.

V.—If during the period a vessel is at the quarantine anchorage aforesaid any case or cases of cholera should occur on board, the said vessel shall remain in quarantine for a

period of seven days from the date of the last case occurring, and be subject to all the prohibitions provided for in Rule III.

VI.—When any vessel has been placed in quarantine as aforesaid, the Health Officer may direct the removal of so many of the passengers and crew as may not be suffering from illness, and whose services may not be required on board the vessel, to such particular spots as may from time to time be selected by the Resident as places of quarantine, there to remain for a period of seven days. If a case of cholera occurs among such passengers and crew during any such period, they shall remain in a place of quarantine for a period of fifteen days from the date of the occurrence of the last case of such illness.

VII.—Any mails or cargo which may be brought by any vessel so arriving shall be landed under such precautions as the Health Officer may deem necessary to prevent the spread of the disease.

VIII.—It will be the duty of the Port Officer to facilitate the conveyance to all vessels in quarantine of such supplies of provisions, stores, and other articles as may be required by those on board. Such supplies will be placed on the boats of the vessels in quarantine, to be subsequently removed by members of their crews.

IX.—All vessels arriving at Aden, Perim, and the Somali Coast, which may have communicated with vessels coming from the Arabian Coast between Aden and Babelmandeb and from the African Coast between Suakim and Guardafui shall be subjected to the same quarantine as vessels arriving at Aden, Perim, and the Somali Coast from the Arabian Coast between Aden and Babelmandeb and from the African Coast between Suakim and Guardafui.

X.—All vessels which have undergone quarantine in the manner above prescribed should have the fact clearly stated on their bills-of-health.

By order of His Excellency the Right Hon'ble the Governor in Council,

T. D. MACKENZIE,
Chief Secretary to Government.

JAIL DEPARTMENT.

No. 5591, *dated the* 31*st May* 1892.—Surgeon Lieutenant-Colonel J. Wilson made over charge of the Hazaribagh Jail and Reformatory School to Assistant Surgeon Benode Behary Das on the afternoon of the 15th May 1892.

No. 5788, *dated the 7th June* 1892.—Assistant Surgeon Ram Chunder Mozumdar made over charge of the Darbhanga Jail to Surgeon Captain F. A. Rogers on the forenoon of the 29th May 1892.

A. D. LARYMORE,
For Inspr.-Genl. of Jails, Bengal.

EDUCATION DEPARTMENT, BENGAL.

Subordinate Educational Service.

The 23*rd May* 1892.—Babu Mukunda Chandra Bidyabagis, M.A., Head Master of the Rangpur Zilla School (class V), is appointed to be Head Master of the Rangpur Training School, with effect from the date on which the school re-opens after the summer vacation in June next, *vice* Babu Sasi Bhusan Sen, transferred.

Babu Narayan Chandra Mookerjea, B.A., Second Master of the Rangpur Zilla School (class VII), is appointed to be Head Master of the same institution, with effect from the date on which the school re-opens after the summer vacation in June next, *vice* Babu Mukunda Chandra Bidyabagis, transferred.

The 31*st May* 1892.—Babu Phani Bhusan Bose, M.A., Deputy Inspector of Schools, Murshidabad (class V), is allowed leave of absence for two months, under Article 294 of the Civil Service Regulations, with effect from the 2nd June 1892, or such subsequent date as he may avail himself of it.

Babu Madhu Sudan Sinha, B.A., Sub-Inspector of Schools under the District Board of Murshidabad (class VI), is appointed, subject to the sanction of the Board, to act as Deputy Inspector of Schools, Murshidabad, and in class V, during the absence, on leave, of Babu Phani Bhusan Bose, or until further orders.

Babu Barada Kanta Sen is appointed to act as Departmental Sub-Inspector of Schools, Faridpur, and in class VI, during the absence, on leave, of Babu Mahim Chandra Bose, or until further orders.

CHARLES H. TAWNEY,
Offg. Director of Public Instruction, Bengal.

EDUCATIONAL PROSPECTUS.

THE Calcutta Medical College Session, 1891-92, will commence on the 23rd June next. Students who may be desirous of commencing their studies are requested to apply to the Principal between the hours of 11 A.M. and 4 P.M. on or before that date.

Students are expected to enter formally and commence attendance at the College upon the date named. Under exceptional circumstances a student will be permitted, at the discretion of the Principal, to extend the time to July 1st, but under no circumstance will any application for entrance be entertained after that date.

2. Ten free presentations for a year will then be awarded. These are given to students according to their relative positions in the University B L., B.A, and F.A. examinations, preference being given to those who have passed the highest examination.

3. No person shall be enrolled as a matriculated student who has not previously passed the First Arts examination of the Calcutta or an Indian University, or a preliminary Arts examination of the United Kingdom recognized by the British General Medical Council.

4. All matriculated students of the College shall pay Rs. 15 on entrance, Rs. 35 for the summer session on the 23rd June, and Rs. 35 for the winter session on 1st November of each year. Rupees 6 extra will be required from each student for each course of dissections. Fees once paid cannot be refunded.

Muhammadan students are required to pay Rs. 15 on entrance and one-third fee, *i.e.*, Rs. 12 per session. The remaining two-third fees are charged to the Mohsin Fund.

5. Any matriculated student of the College may, with the permission of the Principal and the Professor of the subject, attend courses of lectures or departments of hospital practice in addition to the full curriculum for the year, and shall be entitled to certificates of attendance at such extra lectures, if the Professor is satisfied that he or she has really studied the subject. The fees payable in advance for such additional courses are the following:—

	Rs.
For a single course of lectures on each subject in one year ...	40
For six months' attendance in each department of hospital practice	60

6. Any matriculated student who leaves the College before completing his University course, with the object of continuing his studies at a medical school in Europe, may receive certificates of attendance at lectures on payment of fees at the rate fixed in the foregoing rule. But in calculating the sum to be so paid, the amount of the fees already paid by him as a regular student, or, in the case of a free student, the amount which would have been paid by him had he been a paying student, shall be deducted.

7. Any person not being a matriculated student of the College who wishes to attend any course of lectures, or any department of hospital practice, may do so with the permission of the Principal and Professor of the subject on payment, in advance, of fees at the rates fixed in paragraph 5. If he has passed the Entrance examination of the University, he shall receive certificates of attendance at lectures. If he has not passed the Entrance examination, he shall receive no class certificates.

8. College scholarships (*vide* paragraphs 9 and 10), prizes and certificates of honour are open for competition only to matriculated students of the College, military medical pupil and female certificate classes.

9. Junior scholarships of Rs. 8 per mensem and free tuition for one year are annually awarded to 10 students of the 2nd and to 10 of the 3rd year, on the results of the 1st year's Test and Honour and Preliminary Scientific L.M.S. and M.B. examinations respectively.

10. Ten senior scholarships of Rs 12 per mensem and free tuition tenable for two years are annually awarded to students of the 4th year on the results of the University first examination in medicine. But these shall not be awarded to students who gain Durga Charan Laha scholarship of Rs. 30 per mensem for two years, nor to other scholars. Students who have failed from any cause to pass at their first chance are not eligible for these scholarships (junior and senior).

The Goodeve scholarship of Rs. 12 per mensem, tenable for one year, is annually awarded to a matriculated student of the 5th year, on the result of the midwifery test examination of the 4th year.

The F.C. Chatterjee scholarship of Rs. 17 per mensem, tenable for a year, is annually awarded to the best matriculated student of Native Indian extraction, and whose conduct is certified to be good, in histology at the end of the 4th year. The examination takes place in June each year.

The Abdul Gunny scholarship of Rs. 26 per mensem, tenable for one year, is annually awarded to the end of the 4th year to the best matriculated student in all subjects at the class examinations of the 1st to 4th year inclusive. The award is made in May.

The Duke of Edinburgh's prize is awarded to the best in surgery among the matriculated students at the end of the 4th and 5th year. The examination takes place in May.

The Bhola Nath Bose's prize of Rs. 40 is awarded to the 4th-year matriculated student who proves himself to be the most successful at bedside diagnosis of disease, in surgery and medicine in alternate years. The award is made in May.

A gold medal and certificates of honour are awarded to the best students in each subject at the test and honour examinations.

The Goodeve and Macnamara silver medals are awarded to the best of the 1st-year native students in anatomy and chemistry respectively, on the result of the tests and honour examinations.

A prize in Clinical Medicine is awarded annually to the best clinical clerk of the 4th and 5th year matriculated students

A prize in Clinical Surgery is awarded annually to the best clinical dresser of the 4th and 5th year matriculated students.

The Rivers Thompson silver medal is annually awarded to the best Mahomedan student who passes the final L.M.S. or M.B. examination of the Calcutta University.

The Lady Rivers Thompson prize of Rs. 50 is awarded to the lady student who obtains the highest number of marks at the final examination.

No student shall be allowed to compete for a prize when attending a course in excess of the number prescribed in the College curriculum.

11. College scholars who receive less than Rs. 20 per mensem, are not required to pay Rs. 35 per session. All other scholars shall pay fees as matriculated students. These may pay their fees in advance, or have their scholarship money deducted till the full amount is received.

12. Any student holding a Medical College scholarship (paragraphs 9 and 10) will be permitted to draw the stipend of that scholarship at any recognized medical school in the United Kingdom, provided he furnishes, from the head of such school, a certificate of good conduct and diligence. These college classes are recognized by all the medical schools in the United Kingdom.

13. The class assistants to the Professors of Pathology and Comparative Anatomy will each receive a salary of Rs. 10 monthly.

14. COURSE OF STUDY FOR MATRICULATED STUDENTS.

1st year.	*2nd year.*	*3rd year.*
Descriptive and Surgical Anatomy.	Comp. Anatomy, Comp. Physiology, and Zoology.	Materia medica.
Chemistry.	Descriptive and Surgical Anatomy.	Dissections.
Botany.	General Anatomy and Physiology.	Physiology.
Dissections.	Chemistry.	Hospital practice—one year.
	Practical Chemistry.	
	Materia Medica.	1st M.B. and L.M.S. examination.
	Botany.	
	Dissections.	
	Pharmacy—three months.	
	Preliminary Scientific L.M.S. and M.B. examination.	

4th year.	*5th year.*
Medicine.	Medicine and Clinical Medicine.
Surgery.	Surgery and Clinical Surgery.
Midwifery.	Midwifery and six labour cases.
Medical Jurisprudence with demonstrations.	Medical Jurisprudence with demonstrations.
Hospital practice—twelve months.	Pathology with demonstrations.
	Ophthalmic Medicine and Surgery.
	Hygiene.
	Dentistry.
	Post-mortem records.
	Hospital practice—six months.
	Out-door and Eye Infirmary practice—three months each.

Final M.B. or L.M.S. examination.

15. A lady student who has passed the University F.A. examination shall be enrolled and pay fees as a matriculated student. She will get a special scholarship of Rs. 20 per mensem for five years.

16. A public competitive examination will be held annually about the month of February at the head-quarters of divisions and districts marginally noted, for the admission of candidates to the Military pupil class of the Medical College.

Calcutta.	Umballa.
Allahabad.	Meean Meer.
Morar.	Rawul Pindi.
Lucknow.	Peshawur.
Meerut.	Kasauli.

17. Candidates must be of European or Eurasian parentage, between 16 and 19 years of age, of healthy constitution, physically fit for military service, and of good character. They will be required to produce certificates showing that they possess those qualifications.

18. They will undergo a training in the Calcutta Medical College for four years at Government expense, after which period, if reported qualified, they will be gazetted into the Subordinate Medical Department and transferred to a military hospital for duty.

19. COURSE OF STUDY FOR MILITARY MEDICAL PUPILS.

1st year.

Anatomy—Descriptive and Surgical.
General Anatomy and Physiology.
Materia Medica.
Chemistry (30 elementary lectures).
Dissections.
Outdoor Dispensaries, Medical and Surgical—three months each.
Compounding Dispensary—six months.

2nd year.

Anatomy—Descriptive and Surgical.
General Anatomy and Physiology.
Materia Medica.
Chemistry (full course).
Dissections.
Hospital practice—eight months.
Compounding Dispensary—four months.

Examinations (final) in Anatomy, Physiology, Materia Medica, and Chemistry.

3rd year.

Medicine and Clinical Medicine.
Surgery and Clinical Surgery.
Midwifery.
Hygiene.
Pathology.
Hospital practice—one year.
Post mortem cases—six each.

Examinations in Hygiene and Pathology.

4th year.

Medicine and Clinical Medicine.
Surgery and Clinical Surgery.
Midwifery, Clinical.
Medical Jurisprudence.
Labour cases—six each.
Hospital wards—six months.
Ophthalmic wards and lectures—three months.
Dental dispensary and lectures— ditto.

Examinations (final) in Medicine, Surgery, Midwifery, Jurisprudence, Ophthalmic Medicine, and Dentistry.

20. FEMALE CERTIFICATE CLASS.

Lady students must be over 17 years of age before commencing their studies.

They must have passed the Entrance Examination of the Calcutta University or an examination officially recognised by that University as equivalent to the Entrance Examination. (The certificate of matriculation of the Melbourne University will be accepted.)

New students may begin their studies from 1st March, but are expected, at latest, to enter formally and commence attendance at the College when the Session opens on 23rd June. Under very exceptional circumstances a student will be permitted, at the discretion of the Principal, to extend the time to July 1st, but no application for admission will be entertained after that date.

The duration of the course will be four years.

Tuition (pending orders to the contrary) will be free.

20*a*. Students, preferably native ladies, may reside in the Sornomoye Hostel. Applications for residence to be made to the Lady Superintendent of the Hostel, or to the Secretary to the Countess of Dufferin Branch Committee.

21. The following is the curriculum :—

1st year.

Anatomy.
Materia Medica.
Dissections.
Chemistry (30 elementary lectures).
Compounding (six months).
Test examinations in Anatomy, Materia Medica, and Chemistry.

2nd year.

Anatomy.
Physiology (elementary).
Materia Medica.
Chemistry (full course).
Dissections.
Attendance at six *post-mortem* examinations.
Hospital attendance (including out-door departments) 12 months.
Pass examinations in Anatomy, Materia Medica, and Chemistry.

3rd year.

Medicine and Clinical Medicine.
Surgery and Clinical Surgery.
Medical Jurisprudence (demonstrations).
Midwifery (with attendance at three labour cases).
Pathology (with attendance at six *post-mortems*).
Physiology.
Hospital attendance (of which three months in the ophthalmic wards.)
Pass examinations in Pathology, Physiology, and Medical Jurisprudence.

4th year.

Medicine and Clinical Medicine.
Surgery and Clinical Surgery.
Midwifery (including six labour cases).
Hospital practice (of which six months in the Medical and Surgical wards, *minus* 15 attendances at the Dental Dispensary; and six months exclusively in the midwifery wards, when the students are to take regular tours of duty, night and day, assisting the regular work of the Hospital.
Dentistry (optional).
Pass examinations in Medicine, Surgery, and Midwifery.

Students who are successful are entitled to receive the certificate of the College qualifying them to practice medicine, surgery, and midwifery. A fee of Rs. 10 is charged for each certificate.

22. The following rules will be observed in regulating advancement from class to class :—

(1) Test examination at the end of the first year. If a student obtains less than 10 per cent. of the marks in any two out of three subjects of examination, she shall not be allowed to continue in the College.

(2) Pass examinations at the end of the second and third years. In order to pass, a student must gain 33 per cent. in each subject of examination. If a student fails in any two of the three subjects, or, failing in one subject only, if she gains less than 25 per cent. in that subject, she shall be put back for one year. If she fails in one subject only, gaining 25 per cent. or more in that subject, she shall be promoted to the next class, but will be required to submit to re-examination in that subject, in addition to the examination in the regular subjects at the end of the following year. She will be permitted to attend lectures on the subject in which she has failed. Failure on re-examination will carry the same penalty as original failure.

(3) Pass examination at the end of the fourth year. The same rules as apply to the previous pass examinations, with the exception that if a student, failing in one subject only, gains 25 per cent. in that subject, she will be referred back to her studies for a period of six months, at the expiration of which she will be entitled to re-examination after furnishing proof of having attended hospital practice during that period.

23. Female students who have not passed the Entrance or its equivalent, will be admitted into the Eden Hospital to learn midwifery. These will receive Rs. 20 per mensem. After a year's tuition and bedside practice, if found proficient, they will obtain a certificate qualifying them to practise midwifery. The fee for each certificate is Rs. 5.

24. Female students who have not passed the Entrance or its equivalent, but who read and write Bengali, can be admitted in the Eden Hospital as pupil dâis.

25. Of these, eight will receive Rs. 6 per mensem and the rest will be taught free. After 12 months' tuition and bedside practice, if found proficient, they will obtain a certificate qualifying them to practise midwifery.

26. All certificates are to be registered in the Principal's office.

MEDICAL COLLEGE OFFICE,

HIGH COURT NOTICES

Circular Order issued by authority of the High Court of Judicature at Fort William in Bengal.

[CIVIL]

No. 14, *dated the* 13*th May*, 1892.

After the words, etc. "Cases under Regulation V, 1799, section 7, regarding the property of intestates in which a claimant appears," under Class III (*b*) of Rule I, Chapter IV, page 100, of the Civil Rules and Orders, *insert the following*:—

Applications to sue or appeal *in formâ pauperis*, if rejected.

Published in the *Calcutta Gazette* of the 27th April, 1892, Part I, page 451, and in the *Assam Gazette* of the 7th May 1892, Part III, page 312.

NOTIFICATION.

The 6th June, 1892.

THE following Rule, having been framed by the High Court of Judicature at Fort William in Bengal in the exercise of the powers vested in it by section 652 of the Code of Civil Procedure, is published for general information.

H. W. C. CARNDUFF, *Registrar.*

(CIVIL.)

Rule No. , *dated the* *May*, 1892.

After Rule 14, Chapter I, page 17 of the General Rules and Circular Orders (Civil), insert the following:—

14A.—[Sections 184 and 189, C. P. C., Memoranda of Evidence—*Rule No.* *of May* 1892.]—When the presiding officer of a Court is acquainted with the English language, he should record in that language the memorandum of the substance of what each witness deposes, referred to in Sections 184 and 189 of the Code of Civil Procedure.

Sheriff's Office, the 8th June 1892.

NOTICE is hereby given that the Third Criminal Sessions of the year 1892 of the High Court of Judicature at Fort William in Bengal, for the Town of Calcutta and Factory of Fort William, and the places subordinate thereto, will be holden at the Court-house, in the Town of Calcutta, on Monday, the eleventh day of July next, at 11 o'clock in the forenoon, and so on from day to day, until the said Sessions be over. And it is hereby proclaimed that all persons who will prosecute any of the prisoners to be brought up for trial at the said Sessions be present then and there to prosecute.

J. L. MACKAY, *Sheriff.*

NOTIFICATION.

ECCLESIASTICAL.

The 3rd June 1892.

No. 170.—*Corrigendum.*—The following alteration in Part I of the revised Ecclesiastical Rules promulgated by Home Department Notification No. 103, dated the 20th June 1885, is published for general information:

Rule IX.—Substitute the following for this rule:

Where there is a resident Chaplain, he is responsible for the arrangements for digging a grave, and shall ordinarily arrange for the preparation of a coffin. Should he find or anticipate difficulty in making private arrangements for the preparation of a coffin, he should apply in military stations to the senior Military officer and in civil stations to the chief local Magistrate to make the necessary arrangements; and these officers are authorised to direct any local Public Works officer to supply all that is necessary. The local Public Works officer would usually be the Executive Engineer of Military Works in military stations and the Civil Executive Engineer in civil stations; but the senior Military officer in a military station and the chief local Magistrate in a civil station may in cases of emergency direct the Civil Executive Engineer or the Military Works Executive Engineer respectively to make the necessary arrangements. The resident Chaplain is in all such cases responsible that timely notice is given to the Government officers who may be called upon to arrange for the preparation of a coffin.

The senior Military officer in a military station and the chief local Magistrate in a civil station may, should the resident Chaplain report that private arrangements for the preparation of coffins are not feasible, issue a general order on the Executive Engineer of Military Works and the Civil Executive Engineer respectively to prepare coffins upon the requisition of the resident Chaplain. The expenditure incurred by the Executive Engineer will be held in his miscellaneous advance account till repaid by the officer under whose special or general order it was incurred.

During the absence of the resident Chaplain from the station, the senior Military officer in a military station and the chief local Magistrate in a civil station shall be responsible for the arrangements for digging graves and preparing coffins.

C. J. LYALL,
Secretary to the Govt. of India.

The following order, issued by the Government of India, Finance and Commerce Department, is republished for general information.

H. J. S COTTON,
Offg. Chief Secy. to the Govt. of Bengal.

NOTIFICATION.

ACCOUNTS AND FINANCE.

PUBLIC DEBT.

No. 2290.

Simla, the 6th June 1892.

WHEREAS the 4½ per cent. Loans noted on the margin, which mature upon 15th September 1893, can be discharged at par on that date provided three months' notice of repayment shall have been given on the 15th June 1893; and whereas it is desirable to give holders of those Loans the opportunity of transferring their holdings into the ordinary 4 per cent. Loans; it is hereby notified that the Public Debt Office, Bank

4½ per cent. Loan of 1878.
Transfer Loan of 1879, 4½ per cent. portion including the 4½ per cent. Loan of 1880.

of Bengal, Calcutta, has been authorized until 15th July 1892 to receive 4½ per cent. Securities of the above loans for the purpose of being exchanged for 4 per cent. Promissory Notes or Stock Certificates upon the following terms:—

(1) Rupees 100 of 4 per cent. Promissory Notes or Stock Certificates will be delivered for every Rs. 100 of 4½ per cent. Securities received; and any interest (not already paid) on the 4½ per cent. Securities up to the 29th June 1892 inclusive will be paid in cash.

(2) The Promissory Notes or Stock Certificates delivered will be of the Loan of 1854-55, and interest will run upon them from the 30th June 1892.

(3) The Securities tendered for transfer should be receipted in the following form:—

Received in lieu of this note a note of the same value of the 4 per cent. Loan of 1854-55 *bearing interest from* 30*th June* 1892.

2. Securities, other than Loan Certificates with coupons payable to bearer attached, tendered for transfer in India under this notification, should be presented on or before the 15th July 1892 at the Public Debt Office, Calcutta, or at a Presidency Bank or any of their Branches, or at any Government Treasury in India. Loan Certificates, with coupons payable to bearer attached, tendered for conversion in India, must be presented at the Public Debt Office, Calcutta, together with the coupons with which they were issued, if any such remain which have not become due. When the Securities are presented at the Public Debt Office, Calcutta, that office will, as soon as possible after receipt of the Securities, issue the 4 per cent. Promissory Notes, and also pay the interest. In other cases the Bank or Treasury receiving the Securities tendered will forward them to the Public Debt Office, Calcutta, which will, as soon as possible after receipt, furnish the Bank or Treasury concerned with the 4 per cent. Promissory Notes to be issued in exchange, and with a payment order for the interest. The 4 per cent Promissory Note will then be delivered, and the interest paid by the Bank or Treasury concerned.

3. No application will be entertained after the 15th of July 1892, but the Governor-General in Council reserves the right of withdrawing, on any earlier date that he may think fit, the authority given in this notification.

4. The Secretary of State for India will issue a notification in London, stating the terms on which Securities of the 4½ per cent. Loans mentioned in the margin of paragraph 1 will be received for conversion in England.

J. F. FINLAY,
Secretary to the Govt. of India.

NOTIFICATION.

Backergunge Collectorate, the 7th May 1892.

C. FISHER, for Collector.

NOTICE is hereby given that the undermentioned plots of land, no longer required by Government, situated along the Patna and Gaya Railway, in the district of Gaya, will be put up to sale at 9 A. M. on the dates and at the railway stations noted below :—

The purchasers of the several plots of land will be subject to the following conditions :—

1*st*.—The purchasers will have no power to make any excavations on the land nearer than fifteen feet from the railway fencing, or plough the land closer than three feet from its foundation.

2*nd*.—If the amount of purchase-money does not exceed Rs. 100, the whole amount must be paid down at once.

3*rd*.—If the amount of purchase-money exceeds Rs. 100, one-fourth of the amount must be immediately deposited. If the balance be not paid by noon of the fifteenth day after the sale, reckoning the day of sale as one, or if that day be a close holiday, then by noon of the first succeeding office day, the sale shall be cancelled, the sum deposited being forfeited to Government, and the lot again put up for sale at the risk of the defaulting purchaser, after issue of advertisement as in the case of original sale.

4*th*.—The plots of land will be sold revenue-free to the highest bidders.

5*th*.—The purchaser shall be put in possession on receipt by the Collector of the orders of the Board confirming the sales.

Will be put up to sale on 20*th June* 1892, *at Jahánabad Railway Station.*

Nadia Collectorate, the 13th May 1892. K. G. GUPTA, Collector.

NOTICE is hereby given that proprietary right of Government, as specified in the conditions of sale below, to the undermentioned estate situate in the district of Dacca, will be put up to sale at the Dacca Collectorate on the 22nd June 1892, corresponding with 9th Ashar 1299 B.S.

The purchaser will be subject to the following conditions of sale :—

CONDITIONS OF SALE.

1st.—The estate to be sold to the highest bidder above the upset price, which will be fixed by the Collector at the time of sale. The purchaser of this estate will be considered as the proprietor of the estate, and the entire proprietary right of Government in such estate will be transferred to him, subject to the revenue fixed in perpetuity.

2nd.—The sale to be subject to existing leases and to the rights conferred by the settlement proceedings and by the laws in force, and purchasers to be bound to respect the rights of resident cultivators who have signed the schedule of assessment prepared by the Revenue authorities.

3rd.—If the amount of purchase money do not exceed Rs. 100, the whole amount to be paid down at once.

4th.—If the amount of purchase-money exceed Rs. 100, one-fourth of the amount bid to be immediately deposited. If the balance be not paid by noon of the fifteenth day after the sale, reckoning the day of sale as one, or if that day be a close holiday, then by noon of the first succeeding office day, the sale is to be cancelled (the sum deposited being forfeited to Government), and the estate to be again put up to sale at the risk of the defaulting purchaser, after issue of advertisement, as in the case of original sale—

Bogra Collectorate, the 20th May 1892.

P. C. Lyon, Officiating Collector.

NOTICE is hereby given that the undermentioned plots of land, no longer required by Government, situated along the East Indian Railway, in the district of Hooghly, will be put up to sale at 12 o'clock on the 12th July 1892, corresponding with the 29th Ashar 1299 B S.

The purchasers of the several plots of land will be subject to the following conditions :—

1*st*.—The purchasers will have no power to make any excavations on the lands nearer than 15 feet from the railway fencing, or plough the land closer than 3 feet from its foundation.

2*nd*.—If the amount of purchase-money does not exceed Rs. 100, the whole amount must be paid down at once.

3*rd*.—If the amount of purchase-money exceeds Rs. 100, one-fourth of the amount must be immediately deposited. If the balance be not paid by noon of the fifteenth day after the sale, reckoning the day of sale as one, or if that day be a close holiday, then by noon of the first succeeding office day, the sale shall be cancelled (the sum deposited being forfeited to Government), and the lot again put up for sale at the risk of the defaulting purchaser after issue of advertisement as in the case of original sale.

4*th*.—The plots of land will be sold revenue-free to the highest bidders.

5*th*.—The purchasers shall be put in possession on receipt by the Collector of the orders of the Board confirming the sales.

The Bengal Trust and Loan Company, Limited, in Liquidation.

IN THE HIGH COURT OF JUDICATURE AT FORT WILLIAM IN BENGAL, ORDINARY ORIGINAL CIVIL JURISDICTION.

In the matter of the Indian Companies Act, 1882, and in the matter of the Bengal Trust and Loan Company, Limited.

THE creditors of the abovenamed Company are required, on or before the 1st day of August 1892, to send their names and addresses, and the particulars of their debts or claims, and the names and addresses of their Attorneys (if any), to Alfred Percival Handley, of No. 6, Strand, Calcutta, Barrister-at-Law, the Official Liquidator of the said Company, and if so required by notice in writing from the said Official Liquidator are by their Attorneys to come in and prove their said debts or claims at the High Court at Calcutta at such times as shall be specified in such notice, or in default thereof they will be excluded from the benefit of any distribution made before such debts or claims are proved. The twentieth day of August 1892 at 11 o'clock in the forenoon at the Calcutta High Court is appointed for hearing and adjudicating upon the said debts and claims. Dated this 27th day of May 1892.

(207—2) A. P HANDLEY, Official Liquidator.

Lost or Stolen.

THE Government Promissory Note No. 147973 of the 4 per cent. of 1865, for Rs. 500, originally standing in the name of William Moran and Company, and last endorsed to Prem Nauth Mullick, the proprietor, by whom it was never endorsed to any other person. Payment of the above note and the interest thereupon have been stopped at the Public Debt Office, Bank of Bengal, and application is about to be made for the issue of a duplicate in favour of the proprietor.

PREM NAUTH MULLICK, No. 25-1, Mullick Street, Calcutta. (210—3)

Notification.

TO be peremptorily sold pursuant to a decree and order of the Calcutta High Court, Original Civil Jurisdiction, made in suit No. 462 of 1882 (Lukshinarain Sing *versus* Dwarkanauth Khettry and others), and dated respectively the 8th of September 1884 and the 7th of January 1889, by the Registrar of the said Court in his sale-room at the court-house by public auction, on Saturday, the 25th June next, at the hour of 12 o'clock noon, the undermentioned property—

Lot 1.—No. 66, Cross Street, in the town of Calcutta, being a three-storied house and land, the area whereof is 1 bigha 2 cottahs 6 chitaks and 30 square feet, more or less, contained in Holding No. 54, Block No. XI in the North Division, and which property is bounded on the north by Cross Street; on the south by the tenanted house and premises of Jumna Dass; on the east by the tenanted land of Tarrucknauth Mullick, now the house of Punnalall Khettry Dass; and on the west by the land of Ramshebuk Mullick. The sum of Rs. 4-3-3 is payable annually to the Collector in respect of this property.

The conditions of sale and abstract of title may be seen at the Office of the Registrar of the High Court, Original Side, or at the Office of Babu Aushootoss Dhur, Attorney for the plaintiff, at No. 2, Hastings Street, on any day before the sale, and will be produced at the sale.

R. BELCHAMBERS, Registrar.

A. T. Dhur, Plaintiff's Attorney.
Calcutta High Court, Original Side, the 9th day of May 1892. (155—1)

In the matter of the Padre's Hill Mining Company, "Limited."

NOTICE is hereby given that all persons holding Share Warrants of the abovenamed Company are required, on or before the 31st day of July next, to send their names and addresses, and the particulars of the Share Warrants held by them, respectively to, and to deposit the said Share Warrants with, the undersigned, the Liquidator of the said Company, at his Office, No. 25, Mangoe Lane, Calcutta,

Dated this 1st day of June 1892.

J. H. LEWES, Liquidator.

25, Mangoe Lane, Calcutta. (229—1)

Notification.

TO be peremptorily sold pursuant to a decree and order of the Calcutta High Court, Original Jurisdiction, made in suit No. 43 of 1889, Woopendro Nath Bose *versus* Rai Greesh Chunder Dass Bahadur, and dated respectively 14th March 1889 and 27th August 1891, by the Registrar of the said Court in his sale-room in the court-house, on Saturday, the 2nd July next, at 12 o'clock noon, the undermentioned property :—

1. An undivided one equal third part or share of and in all that piece or parcel of tenanted land, No. 82, formerly No. 60, Holding No. 190, Block No. XIII, Upper Circular Road, North Division, in the town of Calcutta, containing by estimation 15 bighas 16 cottahs and 8 square feet of land, be the same a little more or less, and bounded as stated in the mortgage on the north by the tenanted land of Kally Prosonno Sing; on the south by the garden house and land of Manickjie Rustomjie; on the east by the Upper Circular Road; and on the west partly by a tank of Wooma Churn Haldar, partly by the house and land of Dwarka Nath Ghose and Wooma Churn Ghose, partly by the house and land of Gunga Narain Sen, and partly by the land and tank of Nundo Lall Bose and Dwarka Nath Ghose. In consequence of the opening of a new road, this property is now bounded on the north, south, and west by the new road, and on the east by Upper Circular Road.

The abstract of title and conditions of sale may be seen at the Registrar's Office, or at the Office of Messieurs Harriss and Simmons, the Attorneys for the Plaintiff, at No. 6, Hastings Street, in Calcutta, and will be produced at the sale.

R. BELCHAMBERS, Registrar.

Harriss and Summons, Plaintiff's Attorneys.

Calcutta High Court, Original Side, the 25th May 1892. (230—4)

Notification.

TO be peremptorily sold pursuant to a decree of the High Court at Fort William in Bengal in its Ordinary Original Civil Jurisdiction, made in suit No. 415 of 1888 (Kally Prosunno Ghose and another *versus* T. F. Brown and others), and dated 28th August 1891, by the Registrar of the said Court, Original Jurisdiction, in his sale-room at the court-house on Saturday, the 25th June next, at 12 o'clock noon, one equal half part or share of the following properties, namely :—

1*st*.—No. 54, Chowringhee Road, an upper-roomed brick-built house and premises, with the land thereunto belonging, and on part whereof the same is built, containing by estimation about 2 bighas and 15 cottahs, being Holding No. 55, Block No. XIX, in the South Division of the town of Calcutta. This property is bounded on the north by No. 53, Chowringhee Road; on the south by No. 55, Chowringhee Road; on the east by No. 4, Elysium Road; and on the west by the Chowringhee Road. The annual revenue in respect of this property amounts to Rs. 10-2-2 payable to the Government.

2*nd*.—No. 65, Sukea's Street, tenanted land, stated to contain by estimation 7 bighas and 5 cottahs, but since found by measurement to contain 4 bighas 14 cottahs 14 chitaks and 31 square feet, or thereabouts, being Holding No. 206, Block No. XIV, in the North Division of the town of Calcutta. This property is bounded on the north by the tenanted land of Bycanto Nath Kur; on the south by Sukea's Street; on the east by the tenanted land and dwelling-house of Roghu Nath Chatterjee; and on the west by the dwelling-house of Hurro Mohun Chatterjee. The annual revenue payable to the Government in respect of this property amounts to Rs. 19-8-2.

3*rd*.—No 75, Manicktolla Street, tenanted land, stated to contain by estimation 6 bighas 13 cottahs and 15 chitaks (but according to the records of the Calcutta Collectorate and by measuremont believed to be 6 bighas 6 cottahs 12 chitaks and 17 square feet or thereabout), being Holding No. 151, Block No. XIV, in the North Division of the town of Calcutta. This property is bounded on the north partly by Manicktolla Street, partly by the house of Anunda Chunder Bose, and partly by the house of Nobo Coomar Bannerjee; on the west by the tenanted land of Prasanno Coomar Bhuttacharjee; on the south by the tenanted land of Bycanta Nath Kur; and on the east partly by the house of Mohesh Chunder Coondoo, and partly by the house of Bhugobut Shaw. The annual revenue payable to the Government in respect of this property amounts to Rs. 23-12-4.

4*th*.—Nos. 3 and 4, Habberley's Lane, a lower-roomed brick-built house and premises, with the land thereunto belonging, and on part whereof the same is built, containing by estimation 9 cottahs 6 chitaks and 16 square feet, being Holding Nos. 145 and 146, Block No. III, in the North Division of the town of Calcutta. This property is bounded on the north by the open land of Roma Nath Agordanee; on the south partly by the dwelling-house of Pitamber Dhur and partly by Habberley's Lane; on the east by the dwelling-house of Keshub Lall Agordanee; and on the west by the tenanted house of Hurry Nath Chatterjee. The revenue payable to the Government in respect of this property amounts to Rs. 1-12-3.

5*th*.—No. 3, Bow Bazar Lane, tenanted land, containing by estimation 8 cottahs 11 chitaks and 18 square feet, being Holding No. 298, Block No. XVI, in the South Division of the town of Calcutta. This property is bounded on the north by the tenanted land of Sreemutty Raneemoney Dassee; on the south by the open land of Mr. Alexander Stuart; on the east by Bow Bazar Lane; and on the west by the house and premises now or lately occupied by the Bow Bazar Police Section. The annual revenue payable to Government in respect of this property amounts to Rs. 1-10-2.

The abstract of title and conditions of sale may be seen at the Office of the Registrar, High Court, Original Side, and at the Office of Babu Surendra Nath Dass, Attorney for the Plaintiffs, at No. 7, Old Post Office Street, in the town of Calcutta, on any day before the sale, and will be produced at the sale.

R. BELCHAMBERS, Registrar.

Surendra Nath Dass, Plaintiffs' Attorney.

Calcutta High Court, Original Jurisdiction, the 19th May 1892. (238—1)

In the Court of the Second Subordinate Judge of Alipore, 24-Parganas.

EXECUTION CASE No. 215 OF 1891.

Daskhyani Dassi, decree-holder, *versus* Lalmohan Ghosh, judgment-debtor.

The Indian Law Reports.

Published under Authority.

THE Indian Law Reports, published under the authority of the Governor-General in Council, appear in monthly parts, published as soon as possible after the first of each month at Calcutta, Madras, Bombay, and Allahabad, and comprise four series—one for the Calcutta High Court, a second for the Madras High Court, a third for the Bombay High Court, and a fourth for the Allahabad High Court. The cases heard by the Privy Council on appeal from each High Court are reported in the Series for that High Court. Cases heard by the Privy Council on appeal from Provinces in India not subject to any High Court are reported in the Calcutta Series.

The Calcutta series is distributed by the Bengal Secretariat, and the Madras, Bombay, and Allahabad Series are distributed direct from Madras, Bombay, and Allahabad respectively.

In supersession of the previous advertisements, on and from the 1st January 1889 the terms of subscription and sale will be as follows for current issues as well as for back numbers of the Reports from 1876:—

Terms of subscription payable annually in advance.

For the complete series, *including postage*, Rs. 22-8.

	Without postage.	With postage.
	Rs. A. P.	Rs. A. P.
For the Calcutta Series	10 0 0	2 8 0

,, a part of the Calcutta Series purchased separately (*inclusive of postage in India*)	.....	2 0 0
,, a part of each of the Madras, Bombay, and Allahabad Series purchased separately (*inclusive of postage in India*)	.....	1 0 0

The following is the rate at which deductions will be made for parts out of print and at which duplicate copies will be supplied to subscribers when required in place of copies lost in transit.

	For town.	For mufasil.
	Rs. A. P.	Rs. A. P.
For the Calcutta Series, per copy ...	0 8 9	0 10 3
,, each of the Madras, Bombay, and Allahabad Series, per copy ..	0 5 3	0 5 9
,, the Calcutta Series. For the year	7 2 6	8 6 3
,, each of the Madras, Bombay, and Allahabad Series. For the year	4 4 6	4 11 3

Persons desiring to subscribe for or purchase the Reports should apply to—

Superintendent, Government Press, Madras.
The Superintendent, Government Central Press, Bombay.
,, Curator of Government Books, North-Western Provinces and Oudh.
,, Superintendent of Government Printing, Bengal.

Orders and subscriptions for 1892 should be at once registered and remitted by money-order payable to the Accountant and Treasurer, Bengal Secretariat, Calcutta.

ADVERTISEMENTS will be received for publication on the wrappers of the Indian Law Reports, Calcutta Series, at the following rates, payable in advance—

	One page	Half page.	Quarter page.
For one issue ...	Rs. 20	Rs. 14	Rs. 9
,, three issues ...	,, 55	,, 36	,, 24

NOTICE TO MARINERS—No. 90.

[Second Publication.]

JAPAN—NIPON—SOUTH COAST.

Goza harbour and approaches—uncharted dangers.

THE following Notice to Mariners (No. 164 of 1892) issued by the British Admiralty is republished:—

(1) A recent small scale plan of Goza harbour having been received from the Japanese Government, which shows several dangers, not charted on Admiralty plan, No. 994, Mariners are cautioned not to use Goza harbour without a pilot, until a new large scale plan is published.

The following caution has been placed on Admiralty plan No. 994:—"Many uncharted dangers in Goza harbour."

(2) A rock with 15 feet water on it has been discovered outside Outer reef, southward of Goza harbour, from which Kami Sima bears E.N.E., distant 3 cables, and several other dangers have been found between Outer reef and the shore.

Vessels are consequently warned that they should give these outer dangers even a wider berth than usual.

Approximate position of Kami Sima, lat. 34° 11′ 50″ N., long. 136° 48′ 30″ E.

[Second Publication.]

JAPAN—YEZO ISLAND—NEMORO PENINSULA.

Sunken rock south-west of Isomoshiri jima.

THE British Admiralty has given notice (No 167 of 1892) that the Commander of the Japanese steam-vessel *Tsukushi maru* reports having touched, in October 1891, on a sunken rock lying off the south-east coast of Nemoro peninsula, with the south-west extreme of Isomoshiri jima bearing approximately N.E. by E. ½ E., distant 1$\frac{1}{10}$ miles.

The vessel was drawing 17 feet when she touched, and the lead gave 4½ fathoms on her starboard side, so that probably it is a pinnacle rock. During subsequent examination under unfavourable circumstances, 3 fathoms was the least depth obtained, but there is probably shoaler water in the vicinity.

Approximate position, lat. 43° 19′ N., long. 145° 45′ E.

[Second Publication.]

AUSTRALIA—North-west coast.

King sound entrance.

Shoals in and near the fairway Sunday strait.

The British Admiralty has given notice (No. 168 of 1892) concerning certain shoals lying in and near the fairway of Sunday strait, King sound entrance :—

1. A shoal, with 2 fathoms water on it, and 12 to 20 fathoms close northward, lies with the west extreme of East Roe island bearing south, distant about 1¼ miles.

   Approximate position, lat. 16° 20¼′ S., long. 123° 13′ E.

2. A shoal of small extent, with dangerously shallow water reported on it, lies in the fairway of the strait, with Tree islet bearing about E. ¼ S., distant 2½ miles.

   Position (to be considered doubtful), lat. 16° 22¼′ S., long 123° 16½′ E.

3. Amur reef, lying north-west of Long island, and which dries 15 feet at low water, extends nearly 3 miles in a N. by E. and S. by W. direction, with a breadth of about 1½ miles.

   Approximate position of northern end, lat. 16° 29½′ S , long. 123° 18′ E.

NOTICE TO MARINERS—No. 93.

AUSTRALIA—South.

Special warning to Mariners—compasses—heeling error.

The Secretary, Marine Board, Port Adelaide, has given notice that the attention of Mariners has been directed by the Board of Trade "to the necessity of exercising a constant watchfulness in regard to the error of their navigating compasses, more particularly to the heeling error, the neglect of which is doubtless a common, though often unsuspected, cause of the stranding of many vessels.

"Serious changes frequently take place in the character and amount of the heeling error as the ship changes her magnetic lat. from (1) the vertical force arising from the permanent magnetism of the ship, the error from which is greatest in high lats., diminishes until the Equator is reached, where it is least, and increases again in the opposite hemisphere, but still retaining the same name; (2) from verticle induction in vertical and transverse soft iron, generally (such as beams, &c.), the error from which is greatest in high lats., diminishes until the Equator is reached, where it becomes *nil*, and increases again (but of an opposite name) as the vessel recedes from the Equator in the opposite hemisphere. It is difficult, therefore, to predict with any great accuracy the change that will take place, observations at every possible opportunity being the only reliable safeguard.

"In the Nrn. hemisphere in ships built with their heads from about S.E., through N., to S.W. (the usual effect of the permanent magnetism of the ship then conspiring with that of her vertical and transverse soft iron), the N. pt. of the compass needle, assuming the compass to be on the upper deck and on the after portion of the ship as usual, will, as a general rule, be drawn to windward or to the high side of the ship; the nearer the ship's head was to N. whilst building the greater the error that may be expected, the effect being to throw the ship to windward of her supposed position when steering on Nly. courses, and to leeward on Sly. courses, the error decreasing as the Equator is approached, and small, perhaps of a contrary name, in the Srn. hemisphere.

"In ships built with their heads from about S.E., through S., to S.W. (the usual effect of the permanent magnetism, and that of the transverse, &c., iron, being then contrary to each other), the N. end of the compass needle may be drawn to leeward, depending upon whether the vertical force of the permanent magnetism or that of the induced magnetism of transverse iron predominates, but the error would then, as a general rule, be small in these lats. and large in the Srn. hemisphere.

"*It has been est., as a rule, however, that in the Nrn. hemisphere (in compasses above the upper deck) in the majority of iron ships, the N. pt. of the compass needle is drawn to windward, the consequence being that if this is not allowed for, a ship will go to windward of her supposed position on Nly. courses and to leeward on Sly. courses.*

"The heeling error is always greatest with the ship's head at or near N. or S. by the disturbed compass, and least, or *nil*, with the ship's head E. or W. It is particularly important, therefore, should the vessel heel over either from the effect of the wind, or the cargo, when steering in a Nly. or Sly. direction, that the Mariner should use every precaution and never lose an opportunity of ascertaining the errors of his compass.

"The heeling error may be small or large, depending greatly upon the position of the compass—it has been known to exceed 2° for every degree heel of the ship—and is directly proportional to the amount of heel, consequently if the error at N. or S. for 1° of heel is known, the error for any other direction of the ship's head, and amount of heel, can be found by the usual methods.

"Mariners are further warned that the adjustment of compasses by magnets, soft iron, &c., is for bringing the error within manageable limits and for equalising the directive force of the needle, and must only be considered approx. for the lat. in which the adjustment was made, and that they should lose no opportunity of verifying the error both in port and at sea, as it is constantly changing from numerous causes, the chief amongst which are heeling, change of lat., change of cargo, collision, after repairs, and from the ship remaining with her head in one direction for a length of time, &c."

NOTICE TO MARINERS—No. 94.

[Second Publication.]

CHINA—EAST COAST—YANG TSE KIANG.

Alterations in marking South Channel.

THE British Admiralty has given notice (No. 180 of 1892) that on account of changes in South channel, Yang tse Kiang, the following alterations have been made:—

1. Kiu Toan light vessel has been moved to a position off the south-east end of Block House shoal, and now lies with Kiu Toan beacon bearing S. 68° W., distant about $8\frac{3}{10}$ miles.

Approximate position, lat. 31° 17′ 10″ N., long. 121° 47′ 25″ E.

2. Middle ground lower buoy, painted black, and surmounted by a black spherical cage, now lies with House island beacon bearing N. 11° W., distant about $3\frac{6}{10}$ miles, and marks the south-west side of the channel.

Approximate position, lat. 31° 12′ 50″ N., long. 121° 52′ 25″ E.

3. Middle ground upper buoy, painted black, and surmounted by a black cylindrical cage, now lies with Kiu Toan beacon bearing S. 12° W., distant about $2\frac{8}{10}$ miles, and marks the south-west side of the channel, and the north-west extreme of Middle ground.

Approximate position, lat. 31° 18′ N., long. 121° 44′ 20″ E.

4. A red buoy, surmounted by a black spherical cage, and named *South-east Knoll buoy*, has been moored with Kiu Toan small beacon bearing S. 87° W., distant about $2\frac{8}{10}$ miles, and marks the north-east side of the channel, and the south-easternmost of a line of knolls that have formed off the south-west side of Block House shoal.

Approximate position, lat. 31° 19′ 30″ N., long. 121° 42′ 20″ E.

NOTE.—Vessels should not pass north-eastward of Kiu Toan light vessel.

RESOLUTION ON THE FINAL REPORT OF THE SURVEY AND SETTLEMENT OF THE DUBALHATI ESTATE IN THE DISTRICT OF RAJSHAHI.

REVENUE DEPARTMENT—LAND REVENUE.

Calcutta, the 31st May 1892.

RESOLUTION No. 2157L.R.

READ—

A letter No. 350A., dated the 13th April 1892, from the Board of Revenue, with enclosures, submitting the final report of the survey and settlement of the Dubalhati Estate in the district of Rajshahi.

1. The Lieutenant-Governor is glad to record the pleasure with which he has perused this report. It contains much interesting information in a convenient form, and the intelligence displayed in dealing with the general economic condition of the raiyat reflects great credit on the Settlement Officer, Munshi Nundjee. No settlement report which the Lieutenant-Governor has previously seen so nearly fulfils his ideal of what such a report should be.

2. The necessity for undertaking these operations arose from protracted disputes between the late Raja of Dubalhati and his tenants, which were likely to culminate in serious disturbances. They were in conflict on almost every question affecting the relation of landlord and tenant, and their respective rights in the land. They could not agree as to the rates of rent, or the standard of measurement, or the extent of occupancy rights. The raiyats were aggrieved by the levy of illegal cesses, and by the interference of the Raja with their marriage and social arrangements: the zamindari accounts were in a condition of chaos, and, in the uncertainty which existed as to legal rights,

both sides were prepared to appeal to force. Fortunately, wiser counsels prevailed, and it was determined to resort to the provisions of the Tenancy Act. The preparation of an accurate record was, however, under these conditions, a work of extreme difficulty. In many cases a raiyat was entered as paying rent for land which he did not hold, while he was holding land for which he paid no rent. There was no record in the Raja's office of mutations of holdings or sub-divisions of tenures, and, as a consequence, in many villages, the names of raiyats and the amount of their rents did not correspond with the entries in the khatians. The rents shown in some of the road cess returns of 1872 of which copies were in existence were much less than those shown in the returns of 1880. The raiyats relied upon the former, and the zamindar upon the latter. As a consequence, it was necessary to ascertain not only the existing rents, but by whom they were to be paid; and even after the rates had been determined by compromise, it was still a difficult task to prepare the jamabandi.

3. The property in question consisted of 8 estates borne on the tauzi, comprising 211 villages. The area surveyed and settled was 37,758 acres contained in 195 villages, in addition to which an area of 2,493 acres was cadastrally surveyed at the request of the Raja's agents, but was found not to belong to him; a further area of 1,543 acres was demarcated, but subsequently excluded from survey on the joint application of the Raja and his tenants as they had made up their differences. The survey by plane table was commenced in March 1888, and ended in March 1890. The settlement proceedings lasted from November 1889 to August 1891. The new rent-rolls were finally published in 1890-91, and took effect from April 1892.

4. The total cost of the survey and settlement has been Rs. 37,449-3-4, inclusive of Rs. 703-1-4 on account of the net cost to the estate of survey instruments; of this total, Rs. 5,025-10 have been realized on account of process fees, court-fees and copying fees, leaving Rs. 32,423-9-4 to be apportioned between the parties interested. The incidence of this sum on the total area dealt with, 41,794 acres, would be 12 annas 2 pie per acre, but on the 37,758 acres surveyed and settled it falls at the high rate of 13 annas 8 pie per acre. The settlement officer in paragraphs 172-178 of his report states that the cost of survey alone was less than 4 annas per acre, and explains the large balance of the charge as due to the extreme confusion into which rights and accounts had fallen, and the large number of disputes which had to be settled. He claims, and in the Lieutenant-Governor's opinion rightly claims, credit for having disposed of these disputes in a manner highly advantageous to the parties concerned. He decided 4,448 disputes in 3 years, besides conducting all the survey and settlement operations. Had these disputes been separately filed in a Munsif's Court, they would have taken longer, and have cost the litigants a larger sum.

5. The difficulties in the way had not been unforeseen, and both Mr. Phillips and Mr. Macpherson, successive District Officers, had estimated the cost at not less than 12 annas an acre. Indeed, protracted litigation might have indefinitely postponed the conclusion of the settlement and increased the cost to a corresponding degree, if a compromise had not been effected between the Raja and his raiyats, which afforded a guide and working basis for the Settlement Officer. Lengthened negotiations were required to bring about this amicable arrangement, to which the Lieutenant-Governor considers that much of the ultimate success achieved is due. His Honour desires to convey to Mr. Finucane and to Munshi Nundjee acting under his orders, as also to Mr. Phillips, his acknowledgment of their meritorious and successful efforts in this matter.

6. The Lieutenant-Governor is not quite clear as to the correctness of the calculations by which, as above stated, the sum of Rs. 5,025-10 is deducted from the gross cost of the settlement. If the wages of process-serving peons are included in the cost of establishment, the process fees are rightly deducted, and, generally speaking, whatever is collected in cash should be credited against the cash expenditure, but not what is collected in court fee or other stamps. If any considerable part of the Rs. 5,025-10 consisted of such stamp receipts, the calculation should be revised. The details of the total expenditure, Rs. 37,449-3-4, are not given, and it will be convenient if the Board prescribe that in future every settlement report shall contain an appendix giving these details.

7. The Lieutenant-Governor agrees with the Board and the Director that the Raj must pay the entire cost of the survey of lands held by the Raja as his own holding, and of the fallow lands recorded in his name, which are not in the occupation of any tenants. The objections which the Raja put forward in his petition are opposed to reason and quite untenable. With regard to service tenure-holders, the Director thinks that it would be unfair to charge any part of the cost to them as they are liable to be dismissed at any moment, and ejected from their land; but Sir Charles Elliott agrees with the Board that the contingency is not one on which much stress should be laid, and they must pay their share. The remaining cost will therefore be distributed as shown in paragraph 9 of the Director's report, subject to any revision of the divisible cost.

Of the Rs. 18,921-12-8 due from the Raja, a sum of Rs. 6,000 only has been paid by him, and the balance of Rs. 12,921-12-8 is still due.

Out of Rs. 13,501-12-8 falling to the raiyats' and tenure-holders' share, Rs. 10,838-8 are due from the raiyats, and of this sum Rs. 9,979-12-6 have been realised from them; the balance of Rs. 3,522-0-2 remains to be realised from them and from the holders of service lands.

8. The result of the settlement has been an increase of rent from Rs. 68,127-14 to Rs. 86,295-1-2½ or 26·8 per cent. Thus a single year's increase in the rental, Rs. 18,167, has almost recouped to the estate the whole cost it has incurred in the settlement operations. This increase is entirely due to more accurate measurement, there having been no increase in the rates. The average rent per acre is now Rs. 3-6-8, which is lower than the average rate found to exist in Muzaffarpur, Rs. 3-12. The Raj and the raiyats have therefore every reason to be satisfied; and, with reference to paragraph 188 of the Settlement Officer's report, the Collector is requested to watch carefully the progress of affairs, and to take such measures as may occur to him to prevent any wrong-doing on the part of the Raj which may lead to new difficulties.

9. Much useful and interesting information is contained in the Settlement Officer's report, regarding the economic conditions under which the agriculturists exist, the cost of living, the cost of cultivation, the average outturn of crops, the fixation of rent, and so forth. It was found that 93·405 per cent. of the tenants are settled raiyats with occupancy rights, 6·49 per cent. non-occupancy raiyats, and ·105 per cent. tenure-holders. The Settlement Officer observed a few cases of the transfer of occupancy rights, but the Raja made strong objections to the record of such transfer, on the ground that the custom of transferring the right of occupancy by sale did not prevail in his zamindari. It was true that some of the refractory tenants had recently sold their holdings without his knowledge in order to establish a custom in their favour, but he contended that such transfers were null and void, and the majority of the tenants admitted that he was not bound to recognize them unless made with his consent and registered in his office. The custom was therefore held not to exist.

The number and average area of holdings were found to be as follows:—

	Number.	
Tenure-holders ...	9	56 acres.
Settled raiyats ...	7,936	3 „
Non-occupancy raiyats ..	552	a little over 1 acre.
Under tenants ...	2,496	a little under 1 „

It is stated that raiyats sublet their holdings to a large extent on a system called *adi* under which the produce is divided equally between the raiyat and under-raiyat. It is difficult to conceive how this practice can exist when the area of holdings is so small as 3 acres.

10. The Lieutenant-Governor desires that in future every settlement report may be accompanied by an illustrative map on the scale of 1 inch to a mile, showing the situation and boundaries of the villages and the leading topographical features.

11. The interesting remarks contained in the report on the subject of the cultivation of ganja will be considered in the Financial Department of this Government.

ORDER.—Ordered that a copy of this Resolution be published in the *Calcutta Gazette*, and a copy forwarded to the Board of Revenue for information and guidance.

By order of the Lieutenant-Governor of Bengal,

C. E. BUCKLAND,

Secretary to the Government of Bengal.

ADMINISTRATION REPORT OF THE BENGAL METEOROLOGICAL DEPARTMENT FOR THE YEAR 1891-92.

THE following report is published for general information.

By order of the Lieutenant-Governor of Bengal,

C. E. BUCKLAND,

The 7th June 1892. *Secretary to the Government of Bengal.*

THE Administration Report for the year 1891-92 is intended to give a brief statement of the more important events only of the year, for the full report giving details of the administration of the Department for the triennial period 1890-93 will be issued at the beginning of the following year 1892-93.

The Department has been under my control for the whole year, as I have been on duty throughout this period.

The changes in the administration of the Department during the year have been of minor character, and there have been few years recently where the alterations introduced have been so small; but though there have been no changes in the principles on which the Department has been worked, a number of small improvements have been introduced to make the previous arrangements work more smoothly.

Observatories.

The number of meteorological observatories submitting reports to the Bengal Meteorological Department on the 31st of March 1892 was 70, instead of 69 observatories reporting in 1890-91. The only addition made during the year is the voluntary observatory at Kalimpong; but even in this case the observatory was erected and the instruments were arranged at the close of 1890-91, though observations were not recorded until the 1st of April 1891.

These observatories are arranged under the following heads:—first class observatory 1, second class observatories 15, third class observatories 38, voluntary observatories 8, and observatories not directly under the Bengal Reporter, but submitting daily observations in connection with the storm signal service, 8.

The following table will show the names and distribution of the observatories in question:—

1st class observatory.	2nd class observatories.	3rd class observatories.	Voluntary observatories.	Other observatories reporting to the Department, but not under direct control of the Department.
Bengal. Alipore* ...	Assam. Dhubri. Sibsagar. Silchar.	Bengal. Arrah. Balasore. Bankura. Barisál. Bhágalpur. Bogra. Buxar. Chaibassa. Chapra. Comilla. Dehri. Dinajpur. Faridpur. Gaya. Jalpaiguri. Jessore. Krishnagar. Malda. Midnapore.	Assam. Tura.	Burmah. Bassein. Diamond Island. Moulmein. Rangoon.
	Bengal. Berhampore. Burdwan. Chittagong. Cuttack. Dacca. Darbhanga. Darjeeling. False Point. Hazáribágh. Patna. Saugor Island.	Bengal (continued). Motihari. Muzaffarpur. Mymensingh. Naya Dumka. Noakhali. Puri. Purnea. Rampur Boalia. Ranchi. Raniganj. Rangpur. Sirajganj.	Bengal. Demagiri. Fort Tregear. Gnatong. Kalimpong. Lungleh. Shortt's Island.	Ceylon. Galle. Trincomallee.
	Burmah. Akyab.	Burmah. Tavoy.	Madras. Vizagapatam †	Madras. Masulipatam. Negapatam.
		Madras. Coconada. Cuddalore. Gopalpur. Madras (Port Office). Nellore. Pamban.		

* Under the direct control of the Meteorological Reporter to the Government of India.

† This observatory is not under the control of this Department. It is under the direction of Mr. A. V. Narsing Row of Vizagapatam.

In the year 1890-91 the number of rainfall recording stations reporting to the Bengal Meteorological Office was two hundred and fifty-seven. During the year under review ten rainfall stations have been added, and the number now stands at two hundred and sixty-seven. The stations which have been added during the year are Acquapada in the Balasore district, Mohesreka in the Howrah district, Khiri, Ageaon, Ramnagar, Koath, Sekroul, Bassawan, and Manaharpur in the Shahabad district, and Pandra in the Manbhum district. In the case of the Shahabad district the stations named were formerly established in connection with the Irrigation Department, and through the courtesy of the Superintending Engineer of the Sone Circle, they now report to the Meteorological Office as well.

The number of rainfall recording stations in each of the districts of the Province is shown in the following statement. In the majority of districts the number of stations appears quite sufficient to give an accurate estimate of the rain falling over the area, and, so far as can be ascertained also, the stations are probably fairly representative of the country dealt with. The system of rainfall registration, however, would probably be improved if a few more recording stations could be established in such districts as Puri, Midnapore, Chittagong, Rangpur, Saran, Sonthal Parganas, Lohardaga, and Singhbhum:—

Number of rainfall recording stations in each district in Bengal, &c., on 31st March 1892.

Puri	7	Rajshahi	5
Cuttack	8	Malda	5
Balasore	6	Dinajpur	4
Midnapore	7	Rangpur	6
24-Parganas	7	Jalpaiguri	5
Howrah	3	Kuch Bihár	4
Hooghly	3	Darjeeling	5
Burdwan	5	Purnea	7
Bankura	10	Bhágalpur	7
Birbhum	5	Darbhanga	5
Nadia	5	Muzaffarpur	7
Khulna	5	Champaran	4
Jessore	5	Saran	3
Murshidabad	8	Shahabad	13
Chittagong	4	Gaya	9
Chittagong Hill Tracts ...	2	Patna	6
Backergunge	6	Monghyr	5
Noakhali	4	Sonthal Parganas	8
Faridpur	3	Hazáribágh	9
Dacca	5	Lohardaga	3
Tippera	9	Palámau	4
Mymensingh	9	Singhbhum	4
Pabna	2	Manbhum	7
Bogra	4		

267 stations in all.

Inspection of meteorological observatories.

Twenty visits of inspection to various meteorological observatories (excluding rain-gauge stations) under the Bengal Reporter have been made during the year by different officers of the Department, and in addition three informal inspections were made by the former Inspector of Observatories under this Department, who has lately been employed in Census work. Of this number four inspections were made by the Meteorological Reporter to the Government of India, nine inspections by the Bengal Reporter, one by the Madras Reporter, and the remainder (6) by the Inspector of Observatories or the Personal Assistant to the Meteorological Reporter to the Government of India.

The number of observatories inspected in 1891-92 has again been rather smaller than the average of former years; but, as pointed out in the report for the previous year, this is inevitable with the present arrangements. The Bengal Reporter, who is mainly responsible for the inspection of the Bengal stations, is also now responsible for warning the ports round the whole Bay of Bengal of the occurrence of storms throughout the whole year, and hence he can only leave Calcutta during brief intervals when severe storms are not expected. In

the second place, also, I am personally only a half-time officer as Bengal Reporter and can practically only leave Calcutta during the vacations of the Presidency College, which is an additional curtailment of the possibilities of my leaving Calcutta on meteorological inspection tours.

The following were the observatories under the Bengal Reporter inspected during the year:—

Arrah.
Bankipore.
Bankura.
Berhampore.
Bhágalpur (twice).
Buxar.
Chaibassa.
Chapra (twice).
Cuddalore.
Cuttack.
Darbhanga (twice).
Darjeeling.
Dehri.
Gaya.
Kalimpong.
Malda.
Muzaffarpur.
Ranchi.
Raniganj (twice).

The general result of these inspections was that the observatories at Bankipore, Berhampore, Bhágalpur, and Kalimpong were found to be in excellent order; those at Arrah, Bankura, Buxar, Chapra, Darjeeling, Darbhanga, Gaya, and Raniganj (on the second inspection) were found to be in good order; those at Cuttack, Cuddalore, Dehri, and Malda were found to be in fair order only and not in very satisfactory condition, while Chaibassa, Ranchi, and Raniganj (on the first inspection) were in bad order.

Work at observatories.

The standard of work at the observatories generally throughout the year has been good, though there have naturally been exceptions, but, so far as can be judged, the quality of the work in 1891-92 has been quite equal to, if not superior to, that of former years.

First class observatory.—The only observatory of this class is at Calcutta (Alipore). It is not under the Bengal Meteorological Department at all, but is under the control of the India Reporter, and is in charge of the Second Assistant to the Meteorological Reporter to the Government of India, who is stationed at Calcutta throughout the year. The observations made at the Alipore observatory are, however, supplied daily to the Bengal Reporter; but as the observatory is not under the control of this Department, its working cannot be reviewed.

Second class observatories.—Five out of the fifteen observatories of this class were inspected during the year. At the time of the inspection of Bankipore the observatory was in excellent condition, and throughout the whole year 1891-92 the observer there has done very accurate work, and he has scarcely made a single mistake of any description. At Berhampore, also, at the time of inspection the observatory was in excellent order, showing the great care the observer always takes in his work, and his observations have also been quite accurate throughout the year. In the previous Administration Report reference was made to the fact that the Darbhanga observatory had been in an extremely unsatisfactory condition, and that the very strong measure of stopping the observer's pay for eight months had been resorted to. It is satisfactory that this has had the desired effect, and when the observatory was inspected in August 1891 and in March 1892, it was found in good condition. The observations submitted from Darbhanga during the year were also moderately satisfactory, though by no means of so high an order of accuracy as those from Berhampore and Bankipore. The Darjeeling observatory was also found in good order at the time of inspection, and the returns of observations on the whole have been accurate. When the Cuttack observatory was visited its condition was only fair, and some of the instruments were a little out of order. On the other hand, the observations submitted by the observer at Cuttack have on the whole been very accurate.

The remaining ten second class observatories not having been visited during the year, the only test of the nature of their working which can be applied is by a careful study of the observations that have been sent in to this office. Judged by this standard, Akyab, Burdwan, Dhubri, Hazáribágh, Saugor Island, Sibsagar, Silchar, and perhaps False Point, have sent in excellent results throughout the year, and have probably been kept in very good order

by their respective observers. Chittagong and Dacca during the year have sent in observations which were not quite so trustworthy, and a certain or perhaps considerable number of mistakes have been found in the registers received from these stations. On the other hand, in the Administration Report for the previous year it was stated that the observer at Chittagong had earned the reputation of making more mistakes than any other observer in Bengal. This, however, is by no means the fact in the present year, and hence the observer at Chittagong has clearly improved to a very considerable extent in the character of his work.

The thermometers on one occasion during the year were stolen from the thermometer shed at Hazáribágh, but the culprit was caught and sentenced to imprisonment.

Third class observatories (including the observatories at the coast ports of the Bay of Bengal directly under the Bengal Reporter).—Of these thirteen observatories were inspected during the year under review. The Arrah observatory at the time of inspection was found in fairly good order. The observer at that station was, however, a new man, and had never had any previous training in the work, hence his methods of observation were rather faulty, and some of the instruments were not in such good order as they ought to have been, but the observer was easily taught his work. Up to the time of inspection the errors of observation at Arrah were rather numerous, but since that time the observations received have been very accurate. Bankura observatory at the time of inspection was found in very good order, and the observations submitted from that station have also been very accurate. The main object of this inspection was to verify the apparently low readings of the barometer, which are submitted at certain times of the year from that station, and it was shown that the readings were accurately taken, and hence that from certain local peculiarities in this station, the barometer reads distinctly lower than at the stations in its neighbourhood even when differences in level, etc., are allowed for. The Bhágalpur observatory was inspected twice during the year, and on both occasions was found in good order; the observations also submitted from this station throughout the year have been excellent.

The Buxar observatory was inspected in October 1891 and was in fairly good order, though the anemometer was found to be quite useless. The accuracy of the observations submitted from the Buxar observatory (with the exception of wind velocities) was exceptionally good throughout the year. Chapra observatory was inspected twice during the year, and on both occasions was found in excellent order. The observations sent in to the Meteorological Office, however, have shown a little carelessness on the part of the observer, though the number of serious mistakes made was not so large as those of less importance. The Chaibassa observatory was inspected in August 1891, and was found in bad order, as several of the instruments were in a very dirty condition and could not possibly have given accurate results. The observations were also more or less inaccurate until November, and the observer had to be warned on several occasions and also fined; but these have had the desired effect, and since November fairly accurate observations have been received.

The Cuddalore observatory, which is one of the coast observatories established in connection with the Bay of Bengal storm signal service, was inspected by the Madras Reporter nearly at the close of the year 1890-91, but the inspection report was not received in time to be noticed in the last Administration Report. This observatory was also again inspected by the Madras Reporter in March 1892. In both cases the observatory was found to be in fair order, but owing to the local conditions of exposure of the instruments at Cuddalore the observations are only of moderate value. The observations, however, in themselves are generally very carefully taken by the observer, and they have been of considerable accuracy throughout the year.

The observatory at Dehri was inspected in October 1891, but the condition of the instruments, &c., was not satisfactory, and from failure to attend to the instructions given a large number of erroneous observations were submitted during the year; in fact the number of errors made at the Dehri observatory was far larger than those made at any other observatory in the Province. At the time of inspection the condition of the observatory had been rather improved owing to the appointment of a new observer, but

notwithstanding this the observatory was still in rather unsatisfactory condition. During the last few months, however, the returns received from Dehri have been much more trustworthy than they were during the year 1891. Gaya was inspected once during the year, and the observatory was in satisfactory condition. The observer at Gaya, however, has sent in observations of only moderate character, and he has as usual made a good many mistakes. In former years he has, however, sometimes been quite the least trustworthy observer in the Department, but his record for the present year has very decidedly improved, and the number of mistakes made has, compared with previous years, been rather small. He had, however, to be warned very severely on several occasions during the year. Malda when inspected in August 1891 was in fairly satisfactory condition; the observations sent in during the year were good, and the mistakes made were not numerous. Muzaffarpur was also inspected once in the year, when the observatory was found in good condition. The observer seems still rather careless in his work, and he has made a considerable number of mistakes in the observations submitted to the Department during the year under review. In the Administration Report for the previous year it was noted that the Nellore observatory had been inspected by the Madras Reporter, but that the report of the visit had not been received in time to notice it. That inspection showed that the Nellore observatory was in excellent order, and for the whole of the present official year, up to February, the observations sent in were extremely accurate. Since the early part of February, however, the barometric readings have become quite untrustworthy, and the cause of this has not yet been satisfactorily ascertained. Ranchi at the time of inspection was in rather bad order; the observations sent in, however, have been fairly accurate throughout the year. The Raniganj observatory was inspected twice during the year—once in October 1891 and a second time in March 1892 For a part of the year the Raniganj observatory was in charge of the medical subordinate who had previously been at Dehri, where he had given great trouble from the inaccuracy, etc., of his work. During the period of his incumbency the Raniganj observatory was practically useless, as the observations were almost always wrong, and when the observatory was inspected during his charge, it was found, as was to be expected, in decidedly bad order, and it was also found that the observer was physically unfit to render good service in any Government department. The observer was then replaced by a new man, and on the second inspection the observatory was found in good order. For a large part of the year, therefore, the observations from Raniganj were quite untrustworthy, and the former observer was warned and fined on several occasions, but with no effect. This station and Dehri, indeed, were by far the worst meteorological stations in Bengal, but since December 1891 the number of mistakes found in the observations from these two observatories has been comparatively small.

The condition of the remaining third class observatories, which could not be inspected during the year, can only be judged by the quality of the observations sent in to the office. The observations thus submitted during the year have been of a very high order of accuracy at Bogra, Coconada, Jessore, Krishnagar, Madras (Port Office), Midnapore, Motihari, Mymensingh, Naya Dumka, Pamban, and Rampur Boalia. The observations have been good at Balasore, Gopalpur, Puri, Rangpur, Sirajganj, and Tavoy, and only moderately good at Dinajpur, Faridpur, and Jalpaiguri. On the other hand, the observations at Barisál, Comilla, Noakhali, and Purnea have been inaccurate and misleading, and the observers at these stations have had to be warned and fined.

In connection with the third class stations it deserves to be noticed that the thermometer shed at Gopalpur, which was commenced last year, has been completed, and that a new thermometer shed has been erected at Coconada, where hitherto there had been no shed at all.

Voluntary observatories.—Meteorological returns are also received from eight voluntary observatories. One of the most important under this class is Vizagapatam, where the observatory is under the direction of Mr. A. V. Nursing Row, who has continued to favour the Department with his daily observations, which are most accurately taken and despatched. On every occasion, also, on which extra observations have been asked for in connection with stormy weather in the Bay, Mr. Nursing Row has sent them most promptly, and hence the thanks

of the Department are again due to Mr. Nursing Row for his valuable help and co-operation. The Kalimpong observatory which was at first under the superintendence of the Reverend Mr. Sutherland, and afterwards under the Reverend Mr. Kilgour, was inspected in April 1891, and was found to have been erected in a very favourable site, and it was in good working order. The observatory has also sent in regular returns for the whole year, which appear to be accurate, and very valuable results may be expected from this observatory, which is the only one of about 4,000 feet elevation under the Bengal Meteorological Department. The thanks of the Department are therefore due to the gentlemen in question for their valuable co-operation in the work of meteorology. The observations made at Shortt's Island by Mr. Tasker have again been received regularly throughout the year, and they have been very accurate and very valuable. In particular, Mr. Tasker sent in a very complete and important series of observations taken before and during the severe cyclone of the beginning of November 1891, which will be very useful in working out the history of this storm, and thus Mr. Tasker has again placed the Meteorological Department under considerable obligations. The voluntary observatories at Tura, Demagiri, Gnatong, Lungleh, and Fort Tregear are carried out on rather a smaller scale, and they are under the superintendence of the medical officers in charge of these stations, who have sent in valuable sets of thermometric and other observations (except in the case of Fort Tregear) almost throughout the year, and the thanks of the Department are therefore due to these gentlemen. In the case of the Gnatong observatory it was at one time intended to equip it completely, but owing to doubt as to the length of time the station is likely to be maintained, only a couple of barometers were sent there during the past year in addition to the thermometers which had been previously supplied. Should, however, the station be permanently occupied, Gnatong, when fully equipped, would be one of the most valuable meteorological stations in the whole of the Indian area. The observations from Fort Tregear, which had ceased from February 1891, were recommenced from 21st October 1891, but they again ceased from November 1891.

The work at the observatories, the time of observation, and the nature of the instruments observed has been practically the same in the past year as in the previous year, and there have been no changes in this direction in the routine of the Department.

The system of awarding small sums of money as an additional remuneration to those observers who take and submit special meteorological reports during unsettled and stormy weather, has been continued during the present year by the India Meteorological Office, and many of the Bengal observers have competed for these rewards. The Bengal observers who have submitted the most valuable reports of this kind, and who have received the largest rewards, are those at Shortt's Island, Saugor Island, Puri, Burdwan, Balasore, Dhubri, and False Point.

Work at and inspection of rain-gauge stations.

The rain-gauge stations have on the whole worked satisfactorily during the year, and there have been few cases of complaint, and on the whole comparatively few mistakes have been discovered in the returns which have been submitted. It must be remembered that the rain recording officers receive no salary for this trifling work, and when it is considered that such various classes of officials, etc., as Civil Surgeons, clerks and other medical subordinates, schoolmasters, sub-postmasters, subordinate police and canal officers, rural registrars, etc., etc, are employed in this work, it will not be wondered at that in a few cases difficulties are met with. Thus, during the year the police officers at Gondwara, Matiari, Balarampore, Jhalda, Pupri, etc., who were in charge of the rain-gauges at these stations, having failed to give satisfactory and reliable returns, the rain-gauges have had to be made over to other officials, or even in some cases to private indigo factories, etc.

An important step was taken during the year in the matter of securing more accurate rainfall statistics by the introduction of a system of rain-gauge inspection. Rules for the guidance of local officers inspecting rain-gauges were prepared by the India Meteorological Office, and also post card inspection forms containing a few brief appropriate questions with spaces for the replies. The Government of Bengal in their circular letter No. 3T.R., of the 23rd June 1891, directed all District Officers to see that the rain-gauge stations in

their districts were inspected. The inspections were to be carried out whenever any station at which a rain-gauge was maintained was visited either by the Collector himself or by the Deputy Magistrate or the Civil Surgeon. Spirit levels to test the level of the mouth of the rain-gauges and measuring gauges to test the accuracy of the diameter of the mouth of the funnel were also provided to all inspecting officers who submitted indents for them. No less than 102 inspection reports of rain-gauges were received during the year, a number of which were submitted from the towns visited during the tours of His Honour the Lieutenant-Governor.

These reports brought to light a considerable number of cases of improper exposure of the rain-gauges, of defects in the instruments and in some cases in the mode of reading, and in one case of an entirely incorrect form of rain-gauge being used, and all such imperfections in the mode of registration brought to light in these reports have, as far as possible, been remedied. In a considerable number of cases also spare measuring glasses have been provided at the stations, so as to provide for accidental breakage.

At a considerable number of stations for some years past duplicate rain registration has been carried on, one rain-gauge belonging to the Revenue Department and the other rain-gauge being in connection with the local meteorological observatories. In those cases where the conditions of exposure of the two instruments appeared similar, and where the falls recorded were approximately equal, the revenue rain-gauges have been withdrawn during the year, and such has been the case at Gaya, Berhampore, Hazáribágh, Darbhanga, Bogra, Mymensingh, Sirajganj, Buxar, Patna, Burdwan, Raniganj, Bankura, Krishnagar, Jessore, Malda, Darjeeling, Rangpur, Purnea, Bhágalpur, Dumka, Motihari, and Dehri. The same form of duplicate registration is, however, still being carried on at a certain number of sadar stations, and will not be stopped until it has been ascertained that the falls are strictly comparable as measured in the two gauges.

Departmental Reports.

The short *Annual Report of the Meteorology of Bengal* in the year 1890 was prepared as usual and submitted on 9th June 1891 for incorporation in the Bengal Administration Report. It was illustrated by the usual number of charts.

The *Report on the Meteorology of Bengal for the monsoon season* of 1891 was prepared and submitted to Government on 23rd December 1891. It was also illustrated by maps. The report was published in the *Calcutta Gazette* of the 6th January 1892.

A short note on the rainfall in 1891 in certain districts of North Bengal and Bihár as compared with the normal rainfall, and with the rainfall in 1873, 1875, and 1888, was also prepared.

The *Monthly Meteorological Reports* for Bengal and Assam have been regularly published about the 10th to the 15th of the month following that dealt with. These reports give the full meteorological and rainfall statistics for Bengal, and the meteorological data only for Assam, together with a brief discussion and summary. Monthly charts of the rainfall distribution, its variation from the normal, etc., for the monsoon season were prepared and submitted to Government and to the Sanitary Commissioner. These monthly reports, &c., have been carried on without material change throughout the year.

The *Weekly Meteorological Reports* for the week ending 8 a.m. on Saturdays have been published regularly throughout the year. These reports give similar data and summaries to those contained in the monthly reports, but they are not quite so complete as the monthly reports, for the date of publication of the weekly reports (which is only four days after the actual measurements of rainfall, etc., have been made) will scarcely allow of the postal reports from the distant parts of East Bengal, Orissa, etc., being received and included in these reports. There has also been no practical change in the form of these reports during the past year.

The Daily Weather Report dealing with the meteorology of the inland stations in Bengal and in Assam was published during the period 26th of April to 16th November 1891. This report contained the observations made at 45 stations, and with the exception of some slight alterations in the periods of comparison of rainfall data, the report as published was similar to that of the previous year. Of this report 102 copies were issued daily to Government officers and 16 copies to private subscribers at the rate of Rs. 2-8 a month.

The Bay of Bengal Weather Report and Chart, in connection with the storm signal service, has been published daily, Sundays and holidays included, throughout the year. This report, which gives the 8 a.m. data for the Bay and neighbouring coast area, is usually ready for distribution between 10-30 a.m. and 11 a.m. It is issued to 42 Government officials free of charge and to 26 subscribers at the rate of Rs. 2 per month, and the subscriptions received during the year have been sufficient to pay the cost of the lithographic establishment, repairs to presses, &c., and at the end of the year there was a small balance in hand which is kept to provide new presses, &c., when required. No change was made in the form of this report during the year.

In connection with the two daily reports just alluded to, a considerable amount of discussion has occurred during the past year. The Committee of the Bengal Chamber of Commerce applied to the Bengal Meteorological Department, asking to be provided, as early as was possible in each day, with meteorological information dealing with the districts yielding commercial produce, and particularly with the tea and indigo districts. Arising out of this request, after considerable discussion, at the suggestion of this office a plan was formulated by which it was proposed to amalgamate the two daily reports, and to publish daily one report and chart only, dealing with the whole of the Bay of Bengal as in the chart now published and with Bengal (inland), Assam, Cachar, and Sylhet, the latter districts to be more fully represented by meteorological stations than they are now. To provide for the working of the storm signal service, it was also proposed to issue very early in the day small slips briefly describing the state of the weather in the Bay. It was pointed out to the Chamber that the change would involve additional cost for the establishment of new observatories, etc., and that no proposal could be made for its adoption by Government unless it was shown that the form of the proposed report would meet with general approval by the commercial community, and that such a report would be adequately supported so as to partially reimburse the extra cost of production. Copies of the proposed amalgamated report were submitted to the Chamber of Commerce early in November 1891 for distribution amongst the merchants, etc., of Calcutta, but so far no expression of opinion on the scheme has been received.

In connection with the Bay of Bengal weather signal service urgent telegrams are issued daily from the Meteorological Office at about 10-45 a.m., giving a description of the weather conditions in the various parts of the Bay. These telegrams were sent throughout the year to the Port Officers of Coconada, Madras, Rangoon, and Negapatam, and also to the Vice-Chairman of the Port Commissioners at Rangoon, and to the Port Officer, Akyab, from the 1st of January to the 30th April. These messages are ordinarily sent by a code prepared for the purpose, which has been found to answer very satisfactorily, but on the occurrence of stormy weather in the Bay of Bengal, messages descriptive of the intensity, movement, &c., of the storms are sent in ordinary language instead of by the code messages.

During the year also a small code was arranged to enable the weather conditions in the Bay to be telegraphed daily by means of flag signals to outward-bound ships passing Saugor Island. For this purpose the Bay was divided into four sections, and the weather in each section is arranged to be indicated by one of the commercial code flags, so that by a single hoist of four flags at Saugor Island on each day a description of the weather in the whole Bay on the same day can be given. At the close of the official year the code was in the press, and this system of supplying information will be worked experimentally during the current year.

The system of forwarding meteorological information from the pilot brigs at the Saudheads to this office by flag hoists shown by the pilots of inward-bound vessels as they pass Saugor Island Lighthouse has been continued throughout the year, and the special code devised for this purpose continues to work successfully. In addition, too, during the year it has been arranged for the Commander of the pilot brig to send off daily postcard forms containing the same information as given in the telegrams. These are sent as opportunities occur, and they serve first as a check on the accuracy of the telegraphic messages, and second they make the record of meteorological information from the Sandheads a continuous one, for in the case of telegrams these are not sent unless they can reach Saugor Island within 24 hours of the time at which the observations were made.

Working of the storm signals.

The working of the storm signal service has been almost unaltered during the year. Narayanganj was added to the list of ports appointed to receive storm warnings during the previous year, but there was great delay in providing the station with the mast and apparatus for displaying the signals, and it was only on 19th November 1891 that these were handed over to the Station Master at Narayanganj by the Public Works Department. The cyclone of the early part of November passed only a moderate distance to the south of this station on the 6th of November, and there were thus no means of hoisting signals and of warning the station at a time when serious danger was becoming unpleasantly close to it.

The year 1891 was one which will be memorable for the severity of the two cyclones which occurred during November, both of which did much damage to shipping, etc., and caused very considerable loss of life. The first of the November storms was almost unique. It has been traced back as far as the Gulf of Siam, where it existed at the latter end of October as a very severe cyclonic storm. It then crossed the Malay Peninsula and struck Port Blair in the Andaman Islands, moving in a north-westerly direction, in which it continued till it reached the South Orissa coast. It then changed its direction of movement, which became first Northerly, then North-Easterly, and finally East North-Easterly. It passed over the Sandheads early in the morning of the 6th November, doing a large amount of damage, and then crossed through South and South-East Bengal into Cachar and Assam. Its diameter was small, but, on the other hand, it was one of the most violent cyclones on record. The second November cyclone apparently originated to the west or south-west of the Andamans and moved in a North-Easterly direction towards Burma, the direction of movement becoming more Easterly as the storm approached the land. It crossed the coast on the night of November 23rd, probably midway between Akyab and Diamond Island, and rapidly broke up in the Arakan Hills.

The dates of the principal storms occurring during the year are given in the first of the two following tables, and the action taken in the matter of issuing storm warnings and hoisting storm signals is indicated in the second of these tables.

Table giving a brief statement of the storms which affected the Bay of Bengal coasts during the year 1891.

No. of storm.	Period of depression or storm.	Character of storm.	Coast affected.
1	May 20th to 25th ...	Small storm formed off the Coromandel coast.	Circars and South Orissa coast.
2	May 28th to 30th ...	Small storm formed in the north of the Bay.	Bengal coast.
3	July 25th and 26th ...	Cyclonic storm formed off the Bengal coast.	Ditto.
4	August 1st to 3rd ...	Cyclonic storm formed off the Arakan coast.	Bengal and Orissa coasts.
5	August 21st to 24th ...	Feeble depression formed off the Orissa coast.	Orissa coast.
6	August 31st to September 2nd.	Feeble depression formed off the Orissa coast.	Ditto.
7	September 19th to 23rd	Moderate depression probably formed in the Gulf of Siam or the Chinese Sea, and passed into the Gulf of Martaban across Upper Siam and Tenasserim, and thence across the Bay of Bengal to False Point.	Ditto.
8	October 20th to 23rd ...	Feeble depression formed off the Coromandel coast.	Coromandel coast.
9	November 1st to 6th ...	Exceptionally severe cyclonic storm formed in the Gulf of Siam and passed into the Bay of Bengal across the Malayan Peninsula.	Ganjam, Orissa and Bengal coasts.
10	November 20th to 24th ...	Very severe cyclonic storm formed between the Madras coast and the Andamans.	Arakan and Burma coasts.
11	December 9th to 11th ...	Feeble depression formed off the Coromandel coast.	South India and Ceylon coasts.

Table showing the action taken by the Calcutta Meteorological Office in warning the coasts affected by the storms enumerated in the previous table.

Storm number.	Hoisting of Storm Signals.			Warning of ports by cautionary telegrams.	
	Ports ordered to hoist signals.	When hoisted.	When lowered.	Ports warned by cautionary telegrams.	Time and date of despatch of cautionary telegrams.
1				Negapatam, Pamban, Tuticorin.	10-16 of 21st; 10-35 of 22nd; 10-46 of 23rd; 10-45 of 24th; 10-45 of 25th May.

* No signal was hoisted at False Point, as there were no vessels or cargo boats in the anchorage at the time. Orders were issued to hoist the danger signals at 4-35 A.M. of 4th November 1891.

Warnings of heavy rainfall.

In August and September during the passage of the small storms marked four and seven in the above list, warnings that heavy rainfall might be expected were sent to the Engineers in charge of irrigation and other works in Orissa and the Midnapore districts.

Office Establishment.

The Meteorological Office staff has remained practically unchanged throughout the year. Under the able superintendence of the Head Clerk, Babu Fanindra Mohun Basu, the office has worked smoothly and very efficiently, and this has enabled the numerous reports, returns, maps, &c., published by this Department to be issued punctually and with great regularity throughout the year.

METEOROLOGICAL OFFICE;
CALCUTTA,
The 16th May 1892.

ALEX. PEDLER, F.I.C., F.C.S.,
Meteorological Reporter to the Government of Bengal.

RESOLUTION ON THE ANNUAL REPORT OF THE HEALTH OFFICER OF THE PORT OF CALCUTTA FOR THE YEAR 1891.

No. 1313Marine.

GOVERNMENT OF BENGAL—MARINE DEPARTMENT.

Dated Calcutta, the 3rd June 1892.

RESOLUTION.

READ—

A letter No. 2204, dated the 28th March 1892, from the Sanitary Commissioner for Bengal, submitting the Report of the Health Officer of the Port of Calcutta for the year 1891.

Establishment.—Dr. Macleod was the Health Officer of the Port of Calcutta from 1st January to 15th April. He was relieved by Dr. Forsyth, who was in charge for the remainder of the year, and has submitted the present report. The work was carried out in the steam-launch *Relief*, and in a steam-cutter which has taken the place of the bolio formerly used.

2. *Inspections.*—The following table shows the number and description of the vessels inspected by the Health Officer of the Port during the past five years :—

Year.	Inward-bound vessels inspected.		Outward-bound vessels inspected.		Total number of inspections.
	Foreign-going.	Coasting.	Foreign-going.	Coasting.	
1887 ...	630	100	699	172	1,601
1888 ...	568	88	629	179	1,464
1889 ...	559	112	598	174	1,443
1890 ...	530	117	576	171	1,394
1891 ...	629	185	627	60	1,501

The total number of inspections shows an increase over that of the previous year; the increase is stated to be due to a greater number of foreign arrivals and more frequent inspection of inward-bound coasters.

3. *Ventilation of crew spaces.*—There has been an improvement in the ventilation of the forecastle of ships, but the Health Officer states that there is still much room for improvement in forecastle comfort, especially as regards cargo steamers. In these, the forecastle is said to be merely an iron box with three or four small ports in the two sides and probably two ventilating tubes in the roof. In the hot-weather it is scarcely possible to go into them when these vessels are in port. An awning is usually stretched over the deck, but in some instances even this is not supplied, and it is not sufficient to prevent the iron deck being heated to a temperature almost unbearable. The Health Officer suggests that the forecastle deck or roof of all iron-built vessels trading with the East should be sheathed with wood both above and below. He will be asked to submit a report giving the names of these vessels and of their owners, and on receipt thereof the matter will receive the consideration of the Government.

4. *Bathing accommodation for native crews.*—The absence of properly protected bathing accommodation for native crews in vessels trading with European ports, referred to in last year's report, is becoming less evident as owners, when their attention is directed to the matter, fit up bathing-rooms for the use of the native portion of the crew.

5. *Sickness and mortality among European seamen.*—The number of European seamen who arrived in port during the year was 21,505 against 19,496 in the previous year: the daily average number in port was 1,426 against 1,679

in 1890. Including deaths out of hospitals, the death-rates per mille of the past five years were as follows:—

	Cholera.	Other Causes.	Total.
1887	10·03	16·91	26·94
1888	10·59	27·15	37·74
1889	11·07	20·29	31·36
1890	8 33	15·49	23·82
1891	7·01	22·44	29·45

6. The number of admissions into hospitals and deaths from different diseases during the five years ending with 1891 are shown in the subjoined table:—

	1887.		1888.		1889.		1890.		1891.	
	Admissions.	Deaths.	Admissions.	Deaths.	Admissions.	Deaths.	Admissions.	Deaths.	Admissions.	Deaths.
Cholera	29	19	26	15	33	17	15	14	12	9
Diarrhœa	116	1	106	2	142	2	51	...	56	2
Dysentery	70	...	34	4	61	4	24	...	31	...
Fever, enteric	8	2	2	...	1	...	4	1	8	4
„ malarious	220	1	120	1	227	2	167	3	106	2
„ simple	65	...	82	1	79	...	85	...	88	...
Scurvy	4	...	3	...	...	...	3	...	5	...
Small-pox	1	...	1	...	...	...	...	...	...	...
Sunstroke	5	1	19	5	6	1	4	1	3	...
Other diseases	1,201	11	1,182	21	1,267	17	1,066	19	975	17
Total ...	1,719	35	1,575	49	1,816	43	1,419	38	1,284	34

The total number of natural deaths was 42 against 40 in the previous year. Of the 42 deaths, 34 occurred in hospital and 8 out of hospital.

The number of cholera cases was less than in the year previous. There were altogether 13 cases, of which 10 proved fatal. The death-rate (7·01) per mille calculated on the daily average population was lower than that of the previous year, and was also lower than the quinquennial mean (10·0).

No case of small-pox was admitted during the year. There were 5 cases of scurvy against 3 in the year 1890, none of which were attended with fatal results.

There were 6 cases of sunstroke, of which 3 proved fatal. The 3 cases that were admitted into hospital terminated favourably.

The number of cases of drowning was 9 against 14 in the year previous.

7. The following figures exhibit the admissions into hospital since the year 1883 of European seamen suffering from venereal diseases:—

	Total admissions.	Rate per thousand.
1883	237	127·4
1884	184	109·2
1885	170	100·4
1886	417	179·2
1887	228	120·4
1888	183	121·1
1889	186	114·3
1890	248	147·7
1891	185	129·7

The number of admissions was lower than that in the previous year. The Health Officer, however, reports that ships' officers inform him that since the repeal of the Contagious Diseases Act, there has been a great increase in the number of men who have to be put off duty suffering from venereal affections after a vessel has left port.

8. There were 28 deaths at sea during the year under review against 3 in 1890.

9. *Sickness and mortality among the native floating population.*—The following figures show the mortality from all causes among the native floating population, the averages being calculated on a population of 25,000 :—

		Total deaths.		Ratio per mille.	
		1891.	1890.	1891.	1890.
Cholera	...	97	55	3·88	2·14
Bowel complaints	...	7	3	·28	·11
Fever, malarious	.	11	8	·44	·31
Do., simple	...	22	20	·88	·78
Other causes	...	33	31	1 32	1·20
Total	...	170	117	6·80	4·54

Of the 170 deaths that were reported during the year under review, 35 occurred in hospital ; out of the 97 deaths from cholera, 17 occurred in hospital.

10. Twenty-seven deaths are reported to have occurred amongst lascars at sea during 1891 against 28 in the year previous. Of these 2 occurred in vessels making coasting voyages, and the remaining 25 in foreign-bound steamers and ships, against 2 and 26, respectively, in the previous year. The rates were ·31 and 2·98 per mille against ·36 and 3·37 in the year before, and calculated on the total population the death-rate was 1·83 against 2·12 per mille. No complaints were made by the lascar crews during the year.

11. *Pilgrims.*—The S. S. *Khiva*, from Jeddah to Calcutta, arrived in the port on the 21st August with 934 pilgrims. There were 19 cases of small-pox on board, and the vessel anchored in mid-stream below Mateabrooj. These cases were sent to the Campbell Hospital, the unprotected pilgrims were vaccinated, the ship thoroughly disinfected, and allowed to take up her moorings at Babu Ghat on the 23rd.

12. *Conservancy.*—In the Resolution on the Annual Report of the Health Officer for the year 1890, it was remarked that the general improvement in the conservancy of the foreshore of the river, which was noticed in the Resolution on the Health Officer's Annual Report for the previous year, continued during the year. The Health Officer says that there has been no change from last year's report, and that the drain and latrine in Messrs. Ahmuty and Company's compound in Howrah is engaging the attention of the Municipality. The Commissioner of the Burdwan Division has reported that the latrine on the premises of the Company's Foundry in Howrah will be pulled down, a new latrine on an unobjectionable site having been built.

Dr. Forsyth states that the brickfield foreshore at Ghoosery still continues to be used as a latrine by the brickfield workers, boatmen, &c. The Commissioner of the Burdwan Division, in a report of subsequent date to that of Dr. Forsyth, states that the owners of the brickfields have constructed latrines for the use of their employés, and that the nuisances are committed by outsiders and boatmen who anchor there and repair boats. The Magistrate has directed the District Superintendent of Police to arrest persons committing nuisances there.

In the Resolution on the Annual Report of the Health Officer for the year 1890, it was remarked that the scheme for the discharge of the Fort sewage into the Calcutta sewers, prepared at the request of the Military Department of the Government of India, was under the consideration of that Government. Further information has been asked for by the Government of India in regard to the scheme, and the subject is receiving the attention of this Government.

13. *Corpses and Carcasses.*—The Lieutenant-Governor regrets to find from the Health Officer's Report that there has been an increase in the number of corpses and carcasses found floating in the river. This matter will be brought to the attention of the Municipal and Judicial Departments of this Government.

14. *Water-supply.*—No mention has been made by the Health Officer in his Report regarding the supply of filtered water to the shipping during the year. Information on this head should always be furnished in the Annual Report.

15. *Comparative Statistics of the Port and Town of Calcutta.*—The usual statement showing the comparative mortality in the Town and Port of Calcutta for the past three years has been submitted by the Health Officer. As observed in the Resolution on the Report for 1890, the circumstances are so different that any analysis of the figures for purposes of comparison would be useless.

16. *Health Officer and Sanitary Inspector.*—The Lieutenant-Governor concurs in the favourable opinion expressed by the Sanitary Commissioner regarding the manner in which Dr. R. Macleod, who has been transferred to another appointment, performed the duties of Health Officer during the two-and-a-half years he held the appointment, and observes that Babu Nundo Lal Halder, Sanitary Inspector, is also mentioned as deserving of commendation.

By order of the Lieutenant-Governor of Bengal,

C. W. ODLING,
Joint-Secretary to the Govt. of Bengal.

Rainfall, Weather, and State and Prospects of the Crops.

Statement showing Rainfall, Weather, and State and Prospects of the Crops in the different districts of Bengal, as reported to Government, during the week ending the 4th June, 1892.

No.	District and date of return.	Rainfall at Sadar Station in inches.	Character of the weather and state and prospects of the crops.
BENGAL.			
BURDWAN DIVN. 1	Burdwan June 4, '92	2·64	Weather—very close, but good rain fell at Sadar last evening (3rd), which is hoped to be general. Crops doing fairly. Sowing of *aus* paddy general. Water-supply rather short. Fodder sufficient. Prices of common rice :— Srs. Burdwan ... ... 12 to 14; Kalna ... ... 9 to 13; Katwa ... ... 13; Raniganj ... ... 13 } per rupee.
	Kalna ...	0·95	
	Katwa ...	Nil	
	Raniganj ...	0·16	
2	Bankura ,, 4, '92	0·77	Weather—seasonable. Ploughing and sowing of rice going on. Condition of cattle good. No deficiency of fodder and water. Common rice selling at 13½ seers per rupee at Sadar and 14 seers at Vishnupur.
	Vishnupur ...	5·12	
3	Birbhum ,, 4, '92	0·26	Local rain in showers over a good area of the district. Ploughing going on everywhere. Fodder fairly plentiful again, and water-supply better. Prices grown rather cheaper at 12½ to 16 seers per rupee.
	Rampur Hát ...	1·66	
4	Midnapore ,, 4, '92	1·49	The slight rain which has fallen has done some good. Weather very hot in the day-time, but a breeze sets in generally in the evening. Indigo doing well. More rain would be very beneficial. Prices of common rice :— Srs. Sadar ... ... 13; Contai ... ... 13; Tamluk ... ... 12; Ghatál ... ... 13 } per rupee.
5	Hooghly ,, 4, '92	1·30	Weather—hot by day, cloudy and showery in the evening. Prospects have improved owing to the rain. Ploughing and sowing of *aus* going on in many places, and *áman* seedlings also being planted. Jute doing well, and sugarcane reviving. Fodder and water-supply inadequate. Prices of common rice :— Srs. Sadar ... ... 10; Serampore ... ... 10; Jahánabad ... ... 13 } per rupee.
	Serampore ...	2·38	
	Jahánabad ...	0·74	
6	Howrah ,, 4, '92	0·50	Weather—hot, except when it rains. Prospects good. Ploughing and sowing going on. Fodder and water-supply sufficient. Condition of cattle good. Price of rice 10 to 12 seers per rupee.
	Ulubaria ...	1·86	
PRESIDENCY DIVN. 7	24-Parganas ,, 4, '92	0·63	Weather—hot and cloudy with showers. There were a few showers of rain during the week, which have facilitated ploughing operations. More rain is wanted. Prices stationary. Supply of fodder and water sufficient. No cattle-disease.
8	Nadia ,, 4, '92	0·09	Weather—very hot; fine with passing clouds. Prospects of standing crops favourable, but rain urgently wanted in the Sadar subdivision. Common rice selling at from 10 seers 10 chitaks to 13 seers 5 chitaks per rupee. Condition of cattle good, and supply of fodder and water sufficient.
	Kushtia ...	0·75	
	Meherpur ...	2·31	
	Ranaghat ...	0·99	
9	Khulna ,, 4 '92	Nil	Weather—hot, sometimes slightly cloudy. Very little rain has fallen during the week, and more is urgently required. Ploughing and sowing going on. Prospects of *til* and sugarcane good in Bágerhat. Price of coarse rice ranges from 11 to 14 seers per rupee. Supply of fodder for cattle sufficient and want of water diminishing.
	Bágerhat ...	1·38	
	Satkhira ...	0 69	
10	Jessore ,, 4, '92	1·19	Weather—hot with occasional showers. *Aus* and indigo doing well. Sowing of *áman* going on. Fodder and water plentiful. Prices stationary.
	Jhenida ..	2·42	
	Magura ...	1·24	
	Narail ...	2·93	
11	Murshidabad ...		Report not received.
CHITTAGONG DIVN. 12	Chittagong ,, 4, '92	0·43	Weather—seasonable. Prospects of crops good. Prices stationary. Condition of cattle generally good. Supply of fodder sufficient.
13	Noakhali ,, 4, '92	2·12	Weather—hot with occasional showers. State and prospects of standing crops favourable. Fodder and water sufficient. No cattle-disease. Prices stationary.
	Fenny ...	2·62	
14	Tippera ,, 4, '92	1·89	Weather—hot and cloudy. Sowing of *aus*, *áman* and jute approaching completion. Jute thriving. Prospects satisfactory. Prices stationary.
15	Chittagong Hill Tracts. ,, 3, '92	4·69	Weather—hot during the first part of the week, and cloudy with occasional showers of rain during the latter part. Sowing in *jums* almost completed. Land for *aus* under preparation. *Jum* produce progressing. Cattle-disease reported. Common rice being sold at 10 seers per rupee.

No.	District and date of return.	Rainfall at Sadar Station in inches.	Character of the weather and state and prospects of the crops.
BENGAL—*concld.*			
DACCA DIVN. 16	Dacca June 4, '92	Figures not furnished.	Weather—hot. Heavy rain on 30th May with high wind. Jute, *áman* and *aus* paddy thriving. Prospects good. Fodder available. No cattle-disease. Common rice selling at from 12 to 14 seers per rupee.
17	Faridpur ,, 4, '92	0·72	Weather—very hot and fine. Standing crops promise well. A little rice may have been spoiled on low grounds. River rising gradually. Common rice sells at 13 seers per rupee at Sadar and Madaripur and 12 seers at Goalundo. Cattle doing well and get fodder.
18	Backergunge ,, 4, '92	1·05	Weather—hot. State and prospects of crops fair. Ordinary rice sells at from 10 to 13 seers per rupee. Fodder and water sufficient.
19	Mymensingh ,, 4, '92	3·53	Weather—hot and cloudy. Rain at intervals. Prospects of standing crops fair. In the Kishorganj subdivision jute crop has been somewhat damaged. Prices stationary. Supply of fodder and water sufficient.
RAJSHAHI DIVN. 20	Dinajpur ,, 4, '92	5·17	Weather—hot, cloudy and rainy. Rain almost daily. *Bhadoi*, jute and sugar-cane prospering well. Ploughing for *haimanti* progressing. Prices of rice unchanged. Condition of cattle good. Fodder and water-supply sufficient.
Thakurgaon ...		4·56	
21	Rajshahi ,, 4, '92	0·93	Weather—hot and cloudy with occasional local showers. *Boro* rice giving a bumper outturn All other crops doing well, except linseed, which has been somewhat injured by rain. Very little cattle-disease in Nator. Fodder and water plentiful. Price of rice varies from 11 to 15 seers per rupee.
Nator ..		1·79	
Nowgong ...		3·21	
22	Rangpur ,, 4, '92	4·26	Weather—rainy. Prospects of *aus* and jute good. *Áman* being sown in some places. Price of common rice stationary.

No.	District and date of return.	Rainfall at Sadar Station in inches.	Character of the weather and state and prospects of the crops.
BIHÁR—*concld.*			
Patna Division. 32	Patna June 4, '92	Nil	Weather—hot. The recent rain did some benefit to the standing crops. *Cheena* is being harvested in several places. Sugarcane promising. Rain wanted for *bhadoi* sowings. Common rice selling at from 11 to 12½ seers per rupee. Fodder and water for cattle getting scarce at Barh. No distress reported.
	Barh ...	Nil	
	Bihár ...	0·30	
33	Gaya „ 4, '92	Nil	Weather—cloudy and humid. Rain at Nawáda local. Sugarcane under irrigation doing fairly well. *Cheena* was sown on a very limited area and is on an average only a six-anna crop. *Marua* being sown in nurseries. Prices stationary. Cattle suffering from scanty supply of fodder and water.
	Aurangabad ...	0·01	
	Nawáda ...	0·29	
	Jahánabad ...	Nil	
34	Shahabad „ 4, '92	0·54	About half-an-inch of rain fell over the north of the district on the 3rd instant. This has sensibly cooled the air. The rainfall, which appears to have been pretty general in the Buxar and Arrah subdivisions, will be of good service to sugarcane and *bhadoi* ploughing. Elsewhere rain is much wanted; otherwise the situation is nearly unchanged. Rice is cheaper by half a seer per rupee in the south.
	Buxar ...	Nil	
	Bhabhua ...	Nil	
	Sasau ...	Nil	
35	Darbhanga „ 4, '92	Nil	Weather—hot and occasionally cloudy. Recent rain has improved prospects of *bhadoi* and paddy seedlings. More rain wanted. In Samastipur moisture is insufficient for *bhadoi* sowings. Cattle have fodder, and water sufficient.
	Madhubani ...	0·31	
	Samastipur ...	Nil	
36	Muzaffarpur „ 4, '92	Nil	Easterly winds. In half of Sitamarhi paddy and *bhadoi* crops are coming up. In the rest of the district field operations are commencing, though backward. *Cheena* has been reaped in Hajipur. Prices rising in Hajipur, falling in Sitamarhi. Want of water for cattle reported from Hajipur.
	Hajipur ...	Nil	
	Sitamarhi ...	0·31	
37	Saran „ 4, '92	Nil	Weather—seasonable. Flying thunderstorms. In Gopalganj land is being largely prepared for *bhadoi*, and *marua* and *kodo* sown. In other subdivisions ploughing going on to a less extent. Prices of common rice :— Chapra ... ... 11 Siwán ... ... 11¼ Gopalganj ... ... 13¼ } per rupee. Water and fodder available.
	Siwán ...	Nil	
	Gopalganj ...	Nil	
38	Champaran „ 4, '92	0·70	Weather—hot; cloudy with occasional duststorms. Rain has fallen pretty generally all over the district except in thána Kesaria. Standing crops much benefited by rain. People are busy with agricultural operations. No change in prices of food-grains. No scarcity of water and fodder for cattle.
	Bettia ...	0·04	
ORISSA.			
Orissa Div. 39	Cuttack „ 4, '92	0·54	Weather—cloudy. Rain (more or less) throughout the district—beneficial but not sufficient. Sowing commenced. Fodder and water still scarce in parts. Rice sells at from 10½ to 15½ seers per rupee.
40	Puri „ 2, '92	0·44	Weather—seasonable. Ploughing for the ensuing paddy crop has commenced. More rain is wanted. Miscellaneous crops good. Rice sells at from 10 to 14 seers per rupee.
	Pipli ..	0·37	
	Banpur ...	0·71	
41	Balasore „ 4, '92	0·71	Weather—cooler Cultivation in progress More rain wanted, as the water-supply is very short. Rice sells at from 13 to 15 seers per rupee.
CHOTA NAGPUR.			
South-West Frontier Agency.			
Chota Nagpur Div. 42	Hazáribágh June 4, '92	0·09	Weather—sultry and rather unsettled; cloudy occasionally. Sugarcane doing well. Rain much wanted for agricultural operations. Fodder and water scanty in most places. Common rice selling at from 10 to 14 seers per rupee.
	Giridi ...	0·13	
43	Lohardaga „ 4, '92	0·13	Weather—very hot and cloudy. More rain wanted. Land is being prepared for early paddy. Common rice selling at 14 seers per rupee. Fodder and water not sufficient.
44	Palámau „ 3, '92	Nil	Weather—cooler: some showers. Sugarcane doing well. A good fall of rain reported in the Chandwa outpost. Showers in other parts, but rain still badly wanted. Common rice selling at from 12 to 14 seers per rupee. Supply of fodder and water very limited.
45	Singhbhum „ 4, '92	Nil	Rain in most parts of the district, but none at head-quarters, though storms have come daily. Sugarcane and *boro* paddy doing fairly well. Common rice 12 seers per rupee at Chakradharpur; at other places prices stationary.
46	Manbhum „ 4, '92	0·70	Weather—bright and cool. Rain all over the district except in Gourangdi to the east. Ploughing in full swing. Paddy being sown in places. Fodder and water-supply sufficient. Rice 12 to 16 seers per rupee.
	Gobindpur ...	1·24

* Means of 5 days.

Explanation.—Summary.—The normal means of air pressure and temperature are the arithmetical average or means of the reading during the same period for the last The *humidity* of the atmosphere is expressed at percentage, saturated air being presented by 100. A clear sky is denoted by 0 and an overcast sky by 10. The numbers are the numerical means or average of the rainfall in that district determined from the returns sent in by the subdivisional station for the period in question during the stations in the district sending in returns divided by the number of stations. A rainy day is one on which at least a tenth of an inch fell.

for the week ending Saturday, the 4th of June 1892.

Means. The variations are *negative* when the mean for the week is less than the corresponding normal mean, and *positive* when greater.
Cloud amount represents the part of the sky covered the whole sky being denoted by 10. Under the head District observations of rainfall the normal mean is ten years. The means of the district are the numerical average of the rainfall returned received in the district, i.e, from total rainfall at the subdivisional

Statement of Rainfall in Bengal for the week ending Saturday (8 a.m.), the 4th of June 1892.

Explanation.—......indicate that no rain has fallen. If the return for any day has not been received, the corresponding space is left blank. If any of the returns are wanting, the corresponding spaces in the total rainfall columns are left blank. With reference to the column of rainy days, the definition of a rainy day is when at least 0·1 inch of rain has fallen.

CALCUTTA, *the 7th June* 1892.

SUMMARY OF THE METEOROLOGICAL AND RAINFALL OBSERVATIONS TAKEN IN BENGAL, AND OF THE METEOROLOGICAL OBSERVATIONS TAKEN IN ASSAM, FOR THE WEEK ENDING 8 A.M., SATURDAY, THE 4TH OF JUNE 1892.

On the 29th of May, or at the commencement of the present week, pressure was below the normal at all stations, the defect ranging from about a twentieth of an inch in the south of the province to a tenth of an inch at Gaya, and nearly a tenth of an inch at Sibsagar. This low pressure over Bihár rather enhanced the usual tendency for a circulation of winds to set up over the west of the province, and winds varied from south-westerly at some of the south-western stations, through southerly in South Bengal and south-easterly in East Bengal, to easterly in the north of the province. The general weather conditions in the province continued somewhat disturbed, and local storms with rain were rather numerous in South-West and North Bengal on this day. These conditions continued practically unchanged on the 30th, and again a few local storms with rain occurred in the same districts. On the 31st the barometric changes were small and variable, and the general meteorological conditions remained unchanged. On this day the number of local storms with rain reported was decidedly larger, and almost every station in East and North Bengal and a good many stations in South-West Bengal reported rain. On June 1st a moderate rise of pressure commenced over the province, and pressure became above the normal at all except the western stations, and the local storms with rain reported on this day were mainly confined to Orissa, South-West Bengal and parts of North Bengal. On the 2nd a further rapid increase of pressure had taken place, the increase over a large area exceeding a tenth of an inch, and at some stations equalling 0·14″. This increase was largest at the north-western stations, and caused an entire change in the distribution of pressure, which became about a sixth of an inch in excess of the normal in the north and centre of the province, and about a seventh above it elsewhere. This increase again continued on the 3rd, and over a considerable portion of the province pressure became from a fifth to a quarter of an inch above the normal, but on the 4th, or the last day of the week, a reaction set in and pressure began to fall moderately to rapidly. From the 2nd, however, with the rapidly increasing pressure, the local storms with rain, which had previously been so frequent, almost entirely ceased, and from the 2nd to the 4th the whole province was to a great extent rainless except for a few local showers in Orissa, North Bengal and Bihár.

In the centre and south of the Bay the south-west monsoon current has been blowing pretty steadily throughout the week, and at one time it appeared almost as if the current had drifted well into the north of the Bay, and on the 1st of June the meteorological observer at Akyab reported that the monsoon had broken at that station. Immediately, however, pressure commenced to rise rapidly in Bengal and to become in excess of the normal as it did from about the 2nd, conditions became unfavourable for any further northerly advance of the monsoon winds towards Bengal, and hence at the close of the week conditions were not so favourable for the setting in of the rains in Bengal as they had been at the commencement.

Pressure.—Owing to the very high pressure obtaining during the second half of the week, the mean pressure has been in excess of the normal for the week in all districts. This excess generally varies from 0·04″ to 0·07,″ but it is smallest in Bihár and in the western districts generally, where at the commencement of the week pressure was very defective.

Temperature.—The temperature was usually moderate in the first half of the week, but it rose very considerably in the second half. The mean temperature for the week has been fairly normal in Orissa, South-West and North Bengal, and North Bihár, but, on the other hand, it has been from 1° to 2° above it in Assam, East Bengal, and Chota Nagpur, and in South Bihár it has been 4·1° above it. For the whole of the province of Bengal the mean temperature has been about one degree in excess of the normal.

Rainfall.—The falls in East and North Bengal have averaged from two to three inches, and those in South-West Bengal about an inch. In the other districts the falls have been much smaller, and have only equalled from about a third to half an inch. In all districts the falls have been rather largely in defect of the normal, in most cases only equalling about fifty per cent. of the ordinary amounts.

The falls, however, in such smaller districts as 24-Parganas, Howrah, Hooghly, Jessore, Khulna, Backergunge, Darbhanga, Champaran, Gaya, Patna, &c., have been even smaller than represented by the above figures, and in such districts as Muzaffarpur, Saran, and Singhbhum, rainfall has been practically absent.

The following table gives the summary of the temperature and rainfall data of each of the seven meteorological divisions of the province for the week ending Saturday, the 4th of June 1892:—

Meteorological Divisions.	Temperature.						Rainfall.									
	Highest observed during week.	Lowest observed during week.	Averages for week.			Average mean of week above or below normal mean of week.	Of week.			Rainy days.			Since 1st of month.		Since 16th May 1892.

The mean temperature of the month	87·1		
The average temperature of May from 24 years' registers ...	86·1		
The highest temperature in the month	97·9	4th.	
The lowest temperature in the month	71·0	27th & 28th.	
The range of temperature during the month	26·9		
The mean daily range of temperature	16·3		
The greatest range of temperature in one day	23·8	28th.	
	Per cent.		
The mean humidity of the month	75		
The average humidity of May from 24 years' registers ...	73		
	Inches.		
The mean vapour tension of the month	0·956		
The average vapour tension of May from 9 years' registers ...	0·933		
The mean cloud proportion of the month	4·32		
The average cloud proportion of May from 15 years' registers ...	4·52		
The total rainfall of the month	4·29		
The total rainfall indicated by a Beckley's self-registering rain-gauge (mouth of the gauge about 52 feet above the ground)	4·12		
The average fall of May from 48 years' registers	5·40		
The greatest fall in 24 hours	1·22	28th.	
	Days.		
The number of rainy days in the month	10		
The average number of rainy days in May from 24 years' registers	13		
	⊖		
The mean maximum equilibrium temperature of solar radiation during the month	150·1		
The mean difference of sun and air temperatures	55·1		
The greatest sun temperature	158·1	13th.	
The greatest excess of sun over air temperature	60·9	24th.	
The mean temperature of the nocturnal radiation thermometer on woollen cloth	76·8		
The mean depression of the nocturnal radiation thermometer below the minimum air temperature at 4 feet above the ground	2·2·		
The greatest depression of the nocturnal radiation thermometer below the minimum air temperature	4·4	12th.	
	Miles		
The mean movement of the wind per day	202·3		
The greatest movement of the wind in one day	398·0	22nd.	
The greatest movement of the wind in one hour	22·0	22nd	7 to 8 P.M.

The number of hours with winds from each of the 8 points—

N. 6, N.E. 7, E. 25, S.E. 83, S. 393, S.W. 207, W. 12, N.W. 8, Calm 3.

The results of observations at the Alipore Observatory are not rigorously comparable with the registers of past years (at the Park Street Observatory). The barometer is about 3 feet higher at Alipore, and, other things being equal, reads therefore ·003 lower. The diurnal range of temperature is also greater at Alipore, and the mean temperature apparently about 0·5° higher; and, finally, the thermometer which furnished the record of temperature at the Surveyor-General's Office during 20 years and upwards is found to read 0·6 higher than the Kew standard thermometer, which is the standard of reference at the present Observatory.

The mean pressure, temperature, &c., are deduced from the traces of the Barograph and Thermograph, and from observations made at 6h, 10h, 16h, and 22h.

The maximum and minimum temperatures are obtained from self-registering thermometers. All the thermometers are verified, and the readings have been corrected to a standard constructed and verified at the Kew Observatory. They are exposed under a thatched shed open at the sides, and are suspended four feet above the ground.

The barometer readings are corrected approximately to those of the standard, Newman's No. 86, formerly at the Surveyor-General's Office.

The hygrometric elements are obtained from Tables III, IV, and V of the official tables computed in the Meteorological Office, and based on Regnault's modifications of August's formula.

The directions and the movement of the wind are taken from the trace of a Beckley's anemograph.

The mouth of the rain-gauge is one foot above the ground.

o, overcast; g, gloomy; d, drizzling rain; p, passing temporary showers; ⌓, dew.

J. H. Gilliland,
For Meteorological Reporter to the Govt. of India.

Meteorological Office, Govt. of India;
Calcutta, the 6th June 1892.

* Includes 642 tons and 668 tons of coal during 1892 and 1891, respectively, carried for Revenue, for which no "Up" and "Down" register maintained.

† Railway plant and rolling-stock 553 tons and 204 tons for the years 1892 and 1891, respectively, for which no "Up" and "Down" register maintained.

Statement of principal commodities carried on the Bengal Central Railway during the month of March 1892.

Increases.

	Tons.
Coal	467

Due to ordinary fluctuations.

Decreases.

	Tons.
Oil-seeds	6,067

Jhikargacha, Bongong and Jessore show a marked decrease, said to be due to lesser production.

The increases and decreases in other commodities are due to ordinary fluctuations of traffic and call for no special remarks.

Calcutta, *the 21st May* 1892.

P. Barclay,
Traffic Superintendent.

PART I.

Orders and Notifications by the Lieutenant-Governor of Bengal, the High Court, Government Treasury, &c.

ORDERS BY THE LIEUT.-GOVERNOR OF BENGAL.

NOTIFICATION.

The 7th June 1892.—For a second time within little more than a month, and for a third time within little more than a year, the Lieutenant-Governor has to deplore the death of one of the most experienced and valued officers of the Government. Mr. Charles Fortescue Worsley, who died at Bankipore on the 7th June 1892, of remittent fever, entered the Indian Civil Service in 1861, and for 25 years his name is associated with useful and indefatigable district work in the Province of Bihar. For nine years he was Magistrate and Collector of Muzaffarpur. As Additional Commissioner of Patna, and as Commissioner of Orissa and Dacca, he enhanced the high reputation he had already won. A fortnight only has elapsed since he was appointed to be Commissioner of the Patna Division. His death is a heavy loss to the Administration, and will be grievously felt by his many friends, as well as by the people of the country, to whom he had endeared himself by his kindness and sympathy.

H. J. S. COTTON,
Offg. Chief Secy. to the Govt. of Bengal.

The 14th June 1892.

No. 57Marine.—The following communication No. 1864, dated 6th June 1892, from the Government of Bombay, is published for general information.

C. W. ODLING,
Joint-Secy. to the Govt. of Bengal.

No. 1864 of 1892, dated Bombay Castle, the 6th June 1892.

From—W. L. HARVEY, ESQ., C.S., Under-Secretary to the Government of Bombay, General Department,
To—The Secretary to the Government of Bengal, Marine Department.

IN continuation of my telegram of the 4th instant, I am directed to forward herewith, for the information of the Government of Bengal, copy of a Resolution of this Government, No. 1862 of to-day's date, and of the notification issued thereunder, regarding the enforcement of Quarantine Rules at Aden, Perim, and the Somali Coast against arrivals from Bussorah.

Quarantine: Imposition of—at Aden, Perim, and the Somali Coast against arrivals from Bussorah

No. 1862.

GENERAL DEPARTMENT

Bombay Castle, 6th June 1892.

Telegram from the Government of India, Home Department, dated 4th June 1892—

"Number 96, Sanitary. Your telegram 3rd June. Governor-General in Council sanctions as temporary measure issue of rules similar to those issued in Bombay Notification No. 1306, dated 13th April 1891, under section 1, Act I of 1870, against arrivals from Bussorah at the Port of Aden. Please wire date of notification publishing the rules, and send copy for republication in *Gazette of India*."

RESOLUTION.—A notification should be published in a *Bombay Government Gazette Extraordinary* bringing the Quarantine Rules into operation at Aden, Perim, and the Somali Coast against arrivals from Bussorah.

2. Copies of the notification should be forwarded to the Political Resident, Aden, and the other officers and departments concerned for information, in continuation of Government Resolution No. 1834, dated 4th instant. Copies should also be forwarded to the Governments of India, Bengal, Madras, and Ceylon, and the Chief Commissioner, Burma.

W. L. HARVEY,
Under-Secretary to Government.

NOTIFICATION.

GENERAL DEPARTMENT.

Bombay Castle, 6th June 1892.

No. 1862.—In exercise of the power conferred by Act I of 1870, the following Rules for Quarantine against Plague have been made by the Government of Bombay, with the previous sanction of the Governor-General in Council: they have effect from the 3rd instant in the Ports of Aden, Perim, and the Somáli Coast as a temporary measure:—

I.—The Commander of every vessel, including buggalows or other native craft arriving from Bussorah, shall, before entering the harbour, indicate by signal the port from which such vessel has come.

II.—Such Commander shall not, except as hereinafter provided, allow any communication, either with the pilot boat, except orally, or with the shore, or with any other vessel or boat in the harbour.

III.—Immediately on any such arrival being signalled, the Health Officer of the Port shall go alongside the vessel and ascertain by enquiry from the Commander whether any person on board is suffering, or has during the voyage suffered, from plague, and if the Health Officer is satisfied by such enquiry that no person on board is suffering, or during the voyage has suffered,

from plague, he shall direct the Commander to take the vessel to the quarantine anchorage, duly appointed and notified in that behalf by the Resident, there to remain for a period of seven days from the date of arrival in the harbour. The Health Officer shall also direct the Commander to prohibit during the period for which the vessel remains at the quarantine anchorage, as aforesaid, all communication, except such as is hereinafter provided for, between such vessel and the shore, or other vessels and boats in the harbour.

IV.—If the Health Officer shall have reason to believe at the time when the vessel arrives in the harbour that any person on board is suffering, or during the voyage has suffered, from plague, he shall direct the Commander to take the vessel to the quarantine anchorage as aforesaid, and there to remain for a period of fifteen days from the day of arrival in the harbour; and shall further direct that during such fifteen days intercourse between the said vessel and the shore or other vessels and boats in the harbour shall be prohibited as provided in Rule III.

V.—If during the period a vessel is at the quarantine anchorage aforesaid any case or cases of plague should occur on board, the said vessel shall remain in quarantine for a period of fifteen days from the date of the last case occurring, and be subject to all the prohibitions provided for in Rules III and IV.

VI.—When any vessel has been placed in quarantine as aforesaid, the Health Officer may direct the removal of so many of the passengers and crew as may not be suffering from illness, and whose services may not be required on board the vessel, to such particular spots as may from time to time be selected by the Resident as places of quarantine, there to remain for a period of seven days, or if the vessel has been placed in quarantine for fifteen days, for a period of fifteen days. If a case of plague occurs among such passengers and crew during any such perod, they shall remain in a place of quarantine for a period of fifteen days from the date of the occurrence of the last case of such illness.

VII.—Any mails or cargo which may be brought by any vessel so arriving shall be landed under such precautions as the Health Officer may deem necessary to prevent the spread of the disease.

VIII.—It will be the duty of the Port Officer to facilitate the conveyance to all vessels in quarantine of such supplies of provisions, stores, and other articles as may be required by those on board. Such supplies will be placed on the boats of the vessels in quarantine, to be subsequently removed by members of their crews.

IX.—All vessels arriving at Aden, Perim, and the Somáli Coast which may have communicated with vessels coming from Bussorah shall be subjected to the same quarantine as vessels arriving at Aden, Perim, and the Somáli Coast from Bussorah.

By order of His Excellency the Right Honourable the Governor in Council,

T. D. MACKENZIE,
Chief Secretary to Government.

No. 58 *Marine.*—In exercise of the powers conferred upon him by section 22 of Act VI of 1884 (the Inland Steam-vessels Act), the Lieutenant-Governor is pleased to appoint the gentlemen named below for the purpose of examining the qualifications of persons desirous of obtaining certificates of competency as second class masters and serangs of inland steam-vessels at the examination which will be held this day—

The Port Officer ... ... *President.*
C. Collingwood, Esq., Branch Pilot ... ... } *Members.*
Captain R. G. Hand, Certificated Master under the Inland Steam-vessels Act ... ... }

C. W. ODLING,
Joint-Secy. to the Govt. of Bengal.

JAIL DEPARTMENT.

No. 5832, *dated the* 8*th June* 1892.—Surgeon R. H. Whitwell made over charge of the Monghyr Jail to Assistant Surgeon Upendra Nath Sen on the afternoon of the 31st May 1892.

No. 5835, *dated the* 8*th June* 1892.—Assistant Surgeon Harendra Nath Ghose made over charge of the Palámau Intermediate Jail to Assistant Surgeon Kunjo Lal Sanyal on the forenoon of the 29th May 1892.

HIGH COURT NOTICE.

NOTIFICATION.

THE following Rule, passed by the High Court of Judicature at Fort William in Bengal, is published for general information.

By order of the High Court,
H. W. C. CARNDUFF, *Registrar.*

The 10th June, 1892.

HIGH COURT OF JUDICATURE AT FORT WILLIAM IN BENGAL.

CIVIL APPELLATE JURISDICTION.

A VAKEEL undertaking the preparation of a paper book shall, when filing the notice of election required by Rule 14, Part II, Chapter VIII, page 42, of the Rules of the High Court, Appellate Side, also file therewith a declaration to the effect that he is perfectly well acquainted with the vernacular and able to translate the vernacular portion of the record of the case in which such notice of election is filed.

Any notice of election filed without such declaration as aforesaid shall be returned to the Vakeel filing it.

The 9th June, 1892.

Sheriff's Office, the 8th June 1892.

NOTICE is hereby given that the Third Criminal Sessions of the year 1892 of the High Court of Judicature at Fort William in Bengal, for the Town of Calcutta and Factory of Fort William, and the places subordinate thereto, will be holden at the Court-house, in the Town of Calcutta, on Monday, the eleventh day of July next, at 11 o'clock in the forenoon, and so on from day to day, until the said Sessions be over. And it is hereby proclaimed that all persons who will prosecute any of the prisoners to be brought up for trial at the said Sessions be present then and there to prosecute.

J. L. MACKAY, *Sheriff.*

DACCA SMALL CAUSE COURT, *the 8th June* 1892.

EDUCATION DEPARTMENT, BENGAL.

Subordinate Educational Service.

The 8th June 1892.—Babu Beni Prasad Misra, Deputy Inspector of Schools, Shahabad (class V), is allowed leave of absence for one month, under Article 291 of the Civil Servie Regulations, with effect from the 1st June 1892.

Munshi Jamman Ram, Departmental Sub-Inspector of Schools, Shahabad (class VII and officiating in class VI), is appointed to have charge of the current duties of the Office of the Deputy Inspector of Schools, Shahabad, in addition to his own, during the absence, on leave, of Babu Beni Prasad Misra, or until further orders.

The 9th June 1892.—Babu Gopal Chandra Ghosal, Deputy Inspector of Schools, Hazáribágh (class V), is allowed leave of absence for one and half months, under Article 291 of the Civil Service Regulations, with effect from the 18th May 1892.

CHARLES H. TAWNEY,
Offg. Director of Public Instruction.

EDUCATIONAL PROSPECTUS.

THE Calcutta Medical College Session, 1891-92, will commence on the 23rd June next. Students who may be desirous of commencing their studies are requested to apply to the Principal between the hours of 11 A.M. and 4 P.M. on or before that date.

Students are expected to enter formally and commence attendance at the College upon the date named. Under exceptional circumstances a student will be permitted, at the discretion of the Principal, to extend the time to July 1st, but under no circumstance will any application for entrance be entertained after that date.

2. Ten free presentations for a year will then be awarded. These are given to students according to their relative positions in the University B.L., B.A., and F.A. examinations, preference being given to those who have passed the highest examination.

3. No person shall be enrolled as a matriculated student who has not previously passed the First Arts examination of the Calcutta or an Indian University, or a preliminary Arts examination of the United Kingdom recognized by the British General Medical Council.

4. All matriculated students of the College shall pay Rs. 15 on entrance, Rs. 35 for the summer session on the 23rd June, and Rs. 35 for the winter session on 1st November of each year. Rupees 6 extra will be required from each student for each course of dissections. Fees once paid cannot be refunded.

Muhammadan students are required to pay Rs. 15 on entrance and one-third fee, *i.e.*, Rs. 12 per session. The remaining two-third fees are charged to the Mohsin Fund.

5. Any matriculated student of the College may, with the permission of the Principal and the Professor of the subject, attend courses of lectures or departments of hospital practice in addition to the full curriculum for the year, and shall be entitled to certificates of attendance at such extra lectures, if the Professor is satisfied that he or she has really studied the subject. The fees payable in advance for such additional courses are the following:—

	Rs.
For a single course of lectures on each subject in one year ...	40
For six months' attendance in each department of hospital practice	60

6. Any matriculated student who leaves the College before completing his University course, with the object of continuing his studies at a medical school in Europe, may receive certificates of attendance at lectures on payment of fees at the rate fixed in the foregoing rule. But in calculating the sum to be so paid, the amount of the fees already paid by him as a regular student, or, in the case of a free student, the amount which would have been paid by him had he been a paying student, shall be deducted.

7. Any person not being a matriculated student of the College who wishes to attend any course of lectures, or any department of hospital practice, may do so with the permission of the Principal and Professor of the subject on payment, in advance, of fees at the rates fixed in paragraph 5. If he has passed the Entrance examination of the University, he shall receive certificates of attendance at lectures. If he has not passed the Entrance examination, he shall receive no class certificates.

8. College scholarships (*vide* paragraphs 9 and 10), prizes and certificates of honour are open for competition only to matriculated students of the College, military medical pupil and female certificate classes.

9. Junior scholarships of Rs. 8 per mensem and free tuition for one year are annually awarded to 10 students of the 2nd and to 10 of the 3rd year, on the results of the 1st year's Test and Honour and Preliminary Scientific L.M.S. and M.B. examinations respectively.

10. Ten senior scholarships of Rs. 12 per mensem and free tuition tenable for two years are annually awarded to students of the 4th year on the results of the University first examination in medicine. But these shall not be awarded to students who gain Durga Charan Laha scholarship of Rs. 30 per mensem for two years, nor to other scholars. Students who have failed from any cause to pass at their first chance are not eligible for these scholarships (junior and senior).

The Goodeve scholarship of Rs. 12 per mensem, tenable for one year, is annually awarded to a matriculated student of the 5th year, on the result of the midwifery test examination of the 4th year.

The F.C. Chatterjee scholarship of Rs. 17 per mensem, tenable for a year, is annually awarded to the best matriculated student of Native Indian extraction, and whose conduct is certified to be good, in histology at the end of the 4th year. The examination takes place in June each year.

The Abdul Gunny scholarship of Rs. 26 per mensem, tenable for one year, is annually awarded to the end of the 4th year to the best matriculated student in all subjects at the class examinations of the 1st to 4th year inclusive. The award is made in May.

The Duke of Edinburgh's prize is awarded to the best in surgery among the matriculated students at the end of the 4th and 5th year. The examination takes place in May.

The Bhola Nath Bose's prize of Rs. 40 is awarded to the 4th-year matriculated student who proves himself to be the most successful at bedside diagnosis of disease, in surgery and medicine in alternate years. The award is made in May.

A gold medal and certificates of honour are awarded to the best students in each subject at the test and honour examinations.

The Goodeve and Macnamara silver medals are awarded to the best of the 1st-year native students in anatomy and chemistry respectively, on the result of the tests and honour examinations.

A prize in Clinical Medicine is awarded annually to the best clinical clerk of the 4th and 5th year matriculated students.

A prize in Clinical Surgery is awarded annually to the best clinical dresser of the 4th and 5th year matriculated students.

The Rivers Thompson silver medal is annually awarded to the best Mahomedan student who passes the final L.M.S. or M.B. examination of the Calcutta University.

The Lady Rivers Thompson prize of Rs. 50 is awarded to the lady student who obtains the highest number of marks at the final examination.

No student shall be allowed to compete for a prize when attending a course in excess of the number prescribed in the College curriculum.

11. College scholars who receive less than Rs. 20 per mensem, are not required to pay Rs. 35 per session. All other scholars shall pay fees as matriculated students. These may pay their fees in advance, or have their scholarship money deducted till the full amount is received.

12. Any student holding a Medical College scholarship (paragraphs 9 and 10) will be permitted to draw the stipend of that scholarship at any recognized medical school in the United Kingdom, provided he furnishes, from the head of such school, a certificate of good conduct and diligence. These college classes are recognized by all the medical schools in the United Kingdom.

13. The class assistants to the Professors of Pathology and Comparative Anatomy will each receive a salary of Rs. 10 monthly.

14. COURSE OF STUDY FOR MATRICULATED STUDENTS.

1st year.	*2nd year.*	*3rd year.*

Chemistry.	Descriptive and Surgical Anatomy.	Dissections.
Botany.	General Anatomy and Physiology.	Physiology.
Dissections.	Chemistry.	Hospital practice—one year.
	Practical Chemistry.	1st M.B. and L.M.S. examination.
	Materia Medica.	
	Botany.	
	Dissections.	
	Pharmacy—three months.	
	Preliminary Scientific L.M.S. and M.B. examination.	

4th year.	*5th year.*
Medicine.	Medicine and Clinical Medicine.
Surgery.	Surgery and Clinical Surgery.
Midwifery.	Midwifery and six labour cases.
Medical Jurisprudence with demonstrations.	Medical Jurisprudence with demonstrations.
Hospital practice—twelve months.	Pathology with demonstrations.
	Ophthalmic Medicine and Surgery.
	Hygiene.
	Dentistry.
	Post-mortem records.
	Hospital practice—six months.
	Out-door and Eye Infirmary practice—three months each.

Final M.B. or L.M.S. examination.

15. A lady student who has passed the University F.A. examination shall be enrolled and pay fees as a matriculated student. She will get a special scholarship of Rs. 20 per mensem for five years.

16. A public competitive examination will be held annually about the month of February at the head-quarters of divisions and districts marginally noted, for the admission of candidates to the Military pupil class of the Medical College.

Calcutta.	Umballa.
Allahabad.	Mean Meer.
Morar.	Rawul Pindi.
Lucknow.	Peshawur.
Meerut.	Kasauli.

17. Candidates must be of European or Eurasian parentage, between 16 and 19 years of age, of healthy constitution, physically fit for military service, and of good character. They will be required to produce certificates showing that they possess those qualifications.

18. They will undergo a training in the Calcutta Medical College for four years at Government expense, after which period, if reported qualified, they will be gazetted into the Subordinate Medical Department and transferred to a military hospital for duty.

'19. COURSE OF STUDY FOR MILITARY MEDICAL PUPILS.

1st year.

Anatomy—Descriptive and Surgical.
General Anatomy and Physiology.
Materia Medica.
Chemistry (30 elementary lectures).
Dissections.
Outdoor Dispensaries, Medical and Surgical—three months each.
Compounding Dispensary—six months.

2nd year.

Anatomy—Descriptive and Surgical.
General Anatomy and Physiology.
Materia Medica
Chemistry (full course).
Dissections.
Hospital practice—eight months.
Compounding Dispensary—four months.

Examinations (final) in Anatomy, Physiology, Materia Medica, and Chemistry.

3rd year.

Medicine and Clinical Medicine.
Surgery and Clinical Surgery.
Midwifery.
Hygiene.
Pathology.
Hospital practice—one year.
Post mortem cases—six each.

Examinations in Hygiene and Pathology.

4th year.

Medicine and Clinical Medicine.
Surgery and Clinical Surgery.
Midwifery, Clinical.
Medical Jurisprudence.
Labour cases—six each.
Hospital wards—six months.
Ophthalmic wards and lectures—three months.
Dental dispensary and lectures— ditto.

Examinations (final) in Medicine, Surgery, Midwifery, Jurisprudence, Ophthalmic Medicine, and Dentistry.

20. FEMALE CERTIFICATE CLASS.

Lady students must be over 17 years of age before commencing their studies.

They must have passed the Entrance Examination of the Calcutta University or an examination officially recognised by that University as equivalent to the Entrance Examination. (The certificate of matriculation of the Melbourne University will be accepted.)

New students may begin their studies from 1st March, but are expected, at latest, to enter formally and commence attendance at the College when the Session opens on 23rd June. Under very exceptional circumstances a student will be permitted, at the discretion of the Principal, to extend the time to July 1st, but no application for admission will be entertained after that date.

The duration of the course will be four years.

Tuition (pending orders to the contrary) will be free.

20*a*. Students, preferably native ladies, may reside in the Sornomoye Hostel. Applications for residence to be made to the Lady Superintendent of the Hostel, or to the Secretary to the Countess of Dufferin Branch Committee.

21. The following is the curriculum :—

1st year.

Anatomy.
Materia Medica.
Dissections.
Chemistry (30 elementary lectures).
Compounding (six months).
Test examinations in Anatomy, Materia Medica, and Chemistry.

2nd year.

Anatomy.
Physiology (elementary).
Materia Medica.
Chemistry (full course).
Dissections.
Attendance at six *post-mortem* examinations.
Hospital attendance (including out-door departments) 12 months.
Pass examinations in Anatomy, Materia Medica, and Chemistry.

3rd year.

Medicine and Clinical Medicine.
Surgery and Clinical Surgery.
Medical Jurisprudence (demonstrations).
Midwifery (with attendance at three labour cases).
Pathology (with attendance at six *post-mortems*).
Physiology.
Hospital attendance (of which three months in the ophthalmic wards.)
Pass examinations in Pathology, Physiology, and Medical Jurisprudence.

4th year.

Medicine and Clinical Medicine.
Surgery and Clinical Surgery.
Midwifery (including six labour cases).
Hospital practice (of which six months in the Medical and Surgical wards, *minus* 15 attendances at the Dental Dispensary; and six months exclusively in the midwifery wards, when the students are to take regular tours of duty, night and day, assisting the regular work of the Hospital.
Dentistry (optional).
Pass examinations in Medicine, Surgery, and Midwifery.

Students who are successful are entitled to receive the certificate of the College qualifying them to practice medicine, surgery, and midwifery. A fee of Rs. 10 is charged for each certificate.

22. The following rules will be observed in regulating advancement from class to class :—

(1) Test examination at the end of the first year. If a student obtains less than 10 per cent. of the marks in any two out of three subjects of examination, she shall not be allowed to continue in the College.

(2) Pass examinations at the end of the second and third years. In order to pass, a student must gain 33 per cent. in each subject of examination. If a student fails in any two of the three subjects, or, failing in one subject only, if she gains less than 25 per cent. in that subject, she shall be put back for one year. If she fails in one subject only, gaining 25 per cent. or more in that subject, she shall be promoted to the next class, but will be required to submit to re-examination in that subject, in addition to the examination in the regular subjects at the end of the following year. She will be permitted to attend lectures on the subject in which she has failed. Failure on re-examination will carry the same penalty as original failure.

(3) Pass examination at the end of the fourth year. The same rules as apply to the previous pass examinations, with the exception that if a student, failing in one subject only, gains 25 per cent. in that subject, she will be referred back to her studies for a period of six months, at the expiration of which she will be entitled to re-examination after furnishing proof of having attended hospital practice during that period.

23. Female students who have not passed the Entrance or its equivalent, will be admitted into the Eden Hospital to learn midwifery. These will receive Rs. 20 per mensem. After a year's tuition and bedside practice, if found proficient, they will obtain a certificate qualifying them to practise midwifery. The fee for each certificate is Rs. 5.

24. Female students who have not passed the Entrance or its equivalent, but who read and write Bengali, can be admitted in the Eden Hospital as pupil dâis.

25. Of these, eight will receive Rs. 6 per mensem and the rest will be taught free. After 12 months' tuition and bedside practice, if found proficient, they will obtain a certificate qualifying them to practise midwifery.

26. All certificates are to be registered in the Principal's office.

MEDICAL COLLEGE OFFICE,
Calcutta, 2nd May 1892.

E. A. BIRCH,
Principal, Medical College.

Bombay Veterinary College.

NOTICE TO CANDIDATES.

THE College will re-open on the 16th June, when students will be admitted. Each candidate will be required to produce the following certificates :—

(*a*) Of age (no applicant under sixteen years of age can be admitted as a student).
(*b*) Of having (if under 18 years of age) permission from his parents or guardians to enter as a student.
(*c*) Of physical and moral fitness.
(*d*) Of having studied up to the sixth English standard.

The Matriculation Certificate, or the School Final Examination Certificate of any University, shall be accepted as sufficient evidence of general education ; for other candidates an examination for entrance will be conducted by the officers of the College.

Free studentships will be granted to deserving and promising young men.

Scholarships of Rs. 5 per mensem are available, after competition ; and a student may obtain both a free studentship and a scholarship.

JAS. MILLS, *Captain*, A.V.D.,
The 6th June 1892. *Principal, Bombay Veterinary College.*

Backergunge Collectorate, the 7th May 1892.

C. FISHER, for Collector.

NOTICE is hereby given that the undermentioned plots of land, no longer required by Government, situated along the Patna and Gaya Railway, in the district of Gaya, will be put up to sale at 9 A. M. on the dates and at the railway stations noted below :—

The purchasers of the several plots of land will be subject to the following conditions :—

1*st.*—The purchasers will have no power to make any excavations on the land nearer than fifteen feet from the railway fencing, or plough the land closer than three feet from its foundation.

2*nd.*—If the amount of purchase-money does not exceed Rs. 100, the whole amount must be paid down at once.

3*rd.*—If the amount of purchase-money exceeds Rs. 100, one-fourth of the amount must be immediately deposited. If the balance be not paid by noon of the fifteenth day after the sale, reckoning the day of sale as one, or if that day be a close holiday, then by noon of the first succeeding office day, the sale shall be cancelled, the sum deposited being forfeited to Government, and the lot again put up for sale at the risk of the defaulting purchaser, after issue of advertisement as in the case of original sale.

4*th.* The plots of land will be sold revenue-free to the highest bidders.

5*th.*—The purchaser shall be put in possession on receipt by the Collector of the orders of the Board confirming the sales.

Will be put up to sale on 20*th June* 1892, *at Jahánabad Railway Station.*

Nadia Collectorate, the 13th May 1892. K. G. GUPTA, Collector.

NOTICE is hereby given that proprietary right of Government, as specified in the conditions of sale below, to the undermentioned estate situate in the district of Dacca, will be put up to sale at the Dacca Collectorate on the 22nd June 1892, corresponding with 9th Ashar 1299 B.S.

The purchaser will be subject to the following conditions of sale :—

CONDITIONS OF SALE.

1*st.*—The estate to be sold to the highest bidder above the upset price, which will be fixed by the Collector at the time of sale. The purchaser of this estate will be considered as the proprieter of the estate, and the entire proprietary right of Government in such estate will be transferred to him, subject to the revenue fixed in perpetuity.

2*nd.*—The sale to be subject to existing leases and to the rights conferred by the settlement proceedings and by the laws in force, and purchasers to be bound to respect the rights of resident cultivators who have signed the schedule of assessment prepared by the Revenue authorities.

3*rd.*—If the amount of purchase-money do not exceed Rs. 100, the whole amount to be paid down at once.

4*th.*—If the amount of purchase-money exceed Rs. 100, one-fourth of the amount bid to be immediately deposited. If the balance be not paid by noon of the fifteenth day after the sale, reckoning the day of sale as one, or if that day be a close holiday, then by noon of the first succeeding office day, the sale is to be cancelled (the sum deposited being forfeited to Government), and the estate to be again put up to sale at the risk of the defaulting purchaser, after issue of advertisement, as in the case of original sale—

Number on the district roll.	Name of estate and pargana.	Approximate area in acres.	Government revenue assessed.

Midnapore Collectorate, the 18th May 1892.

R. C. DUTT, Collector.

NOTICE is hereby given, under sections 6 and 13, Act XI of 1859, that the undermentioned estate in the district of Bogra will be put up for sale at the Collector's Office of that district on 25th June 1892 for arrears of revenue and other demands, which, by the Regulations and Acts in force, are directed to be realized in the same manner as arrears of revenue.

When in columns 5, 7, and 9 of the appended statement it is stated that only a share is to be sold, a separate account is kept for such share, and the other share or shares in the estate are excluded from the sale :—

1	2	3	4	5	6	7	8	9
Tauzi No.	Name of mahal and pargana.	Sadar jama of the whole estate.	Whether the whole estate is to be sold.	If only a share is to be sold, specification of such share or shares. Bogra Collectorate, the 20th May 1892.

P. C. LYON, Officiating Collector.

NOTICE is hereby given that the undermentioned plots of land, no longer required by Government, situated along the East Indian Railway, in the district of Hooghly, will be put up to sale at 12 o'clock on the 12th July 1892, corresponding with the 29th Ashar 1299 B.S.

The purchasers of the several plots of land will be subject to the following conditions :—

1*st*.—The purchasers will have no power to make any excavations on the lands nearer than 15 feet from the railway fencing, or plough the land closer than 3 feet from its foundation.

2*nd*.—If the amount of purchase-money does not exceed Rs. 100, the whole amount must be paid down at once.

3*rd*.—If the amount of purchase-money exceeds Rs. 100, one-fourth of the amount must be immediately deposited. If the balance be not paid by noon of the fifteenth day after the sale, reckoning the day of sale as one, or if that day be a close holiday, then by noon of the first succeeding office day, the sale shall be cancelled (the sum deposited being forfeited to Government), and the lot again put up for sale at the risk of the defaulting purchaser after issue of advertisement as in the case of original sale.

4*th*.—The plots of land will be sold revenue-free to the highest bidders.

5*th*.—The purchasers shall be put in possession on receipt by the Collector of the orders of the Board confirming the sales.

Consecutive number of lot.	Name of district.	Pargana and mauza.	Number of mile on which land is situate.	Situated on which side of the railway.	Approximate area of lot in bighas and in acres.		Land excluded from sale from each lot.		Commencement and termination of lot.	Boundary of Lot.
							Reasons for exclusion.

F. COLLIS SANDES, *Offg. Administrator-General, Bengal.*

CALCUTTA, *the 14th June* 1892.

Oudh Forest Department.

BAHRAMGHAT DEPOT.

ON THE OUDH AND ROHILKHAND RAILWAY.

FROM this date the prices of sâl beams and scantlings supplied from this depôt will be as follows:—

BEAMS.—21 feet length, at Rs. 2-10 per cubic foot.
22 ,, ,, 2-12 ,,
23 ,, ,, 2-14 ,,
24 ,, ,, 3 ,,

Above the length given two annas per foot run will be charged. Any inches over the foot will be charged as a foot.

SCANTLINGS—From 12 to 20 feet, at Rs. 2-8 per c. ft.
Under 12 and over 7 ,, 2-4 ,,
Under 7 feet ,, 2 ,,

The above prices are for ordinary building purpose.

For *Planking Sleepers*, &c., special rates will be fixed by agreement.

The Department will still take orders for buildings all over at Rs. 2-4 per cubic foot, provided the scantlings are taken in fair proportion.

Second and Third Class Timber will be sold and price fixed by agreement.

Auction Sales will be held from time to time to clear off stock.

For further particulars apply to the Officer in charge.

By order of the Conservator of Forests, N. W. P. and Oudh, Oudh Circle.

KANHYA LAL,
Sub-Assistant Conservator of Forests,
Bahramghat Division.

Bahramghat, the 1st April 1886.

Reduction in price of Cinchona Febrifuge.

FROM 1st April 1891, and until further orders Cinchona Febrifuge can be purchased by all Government officers and by any one taking *ten pounds* at a time, from the Superintendent, Botanic Garden, Calcutta, at the following rates. Four ounce tin Rs. 2-8; eight ounce tin Rs. 5; one pound tin Rs. 10 The general public can be supplied by the Superintendent, Botanic Garden, *for cash only* at the undernoted rates:—Per four ounce tin Rs. 3; per eight ounce tin Rs. 6; per pound tin Rs. 12. This medicine is also sold by the principal European and Native druggists in Calcutta. Postage four annas per 4 ounce tin, eight annas per 8 ounce tin, and twelve annas per pound tin, in addition to the foregoing rates.

Reduction in the Price of the Pure Sulphate of Quinine.

MANUFACTURED AT THE BENGAL GOVERNMENT CINCHONA PLANTATION.

ON and after 1st April 1891 the price of this quinine will be as follows:—

1 Pound tin Rs. 16, or, post free, Rs. 16-12.
½ ,, ,, ,, 8 ,, ,, ,, ,, 8-8.
¼ ,, ,, ,, 4 ,, ,, ,, ,, 4-8.

Analysis shows this quinine to be of the purest manufacture, and it is guaranteed to be free from wilful mixture with the inferior alkaloids, Cinchonine and Cinchonidine. It is for sale only to Government officers, and only for cash, and may be had from the Superintendent, Botanic Garden, Sibpur, near Calcutta. It can be had either white or coloured pink.

[Illegible], for Collector.

Camp Palmaner, the 7th June 1892.

In the Court of the Subordinate Judge, Second Court, 24-Parganas.

EXECUTION CASE NO. 70 OF 1892.

Joygobind Law, decree-holder, *versus* George Bell McIntosh, Administrator to the estate of A. R. McIntosh, deceased, judgment-debtor.

THE following mortgaged properties belonging to the judgment-debtor above named will be sold by auction in the Court of the District Judge, 24-Parganas, at noon, on the 11th July 1892, for the realization of the judgment-debt of Rs. 2,02,266-9-3:—

1 The entire Sunderbund lot No. 63, Deoli Abad, being estate No. 1318 of the tauzi of the 24-Parganas Collectorate, in the sub-registry of Baripur, police station Canning, containing, more or less, 12,000 bighas of land, and bearing a sadar jama of Rs. 4,361-3 per annum. The lot is butted and bounded as follows:—

Deoli Khal on the north; the patni villages of Deoli and Hurendhar Khal on the east; Hurendhar Khal on the south, and Dhootra Khal on the west.

2. The entire Patni mahal, mauza Deoli, containing 501 bighas of land, situate in pargana Paikhatty, Taraf Dhulundhul in the sub-district Bassirhat, police-station Harawa, district 24-Parganas, together with the pukka kutcherry buildings and out-offices. The patni rent payable to Mr G. P. Melitus is Rs. 307-12-6 per annum, and the property is butted and bounded as follows:—

Sheoli Khal on the north; Gorgoria *alias* Bhodaganj on the east, the remaining portion of the patni of Deoli on the south, and lot No. 63, McIntosh Abad on the West.

For further particulars apply to Babu Jogodish Chundra Bose, Vakeel for the decree-holder, or to the decree-holder at No. 8, New China Bazar Street, Calcutta.

KALLY PROSONNO MOOKERJEE, Subordinate Judge.
Dated Alipore, the 9th June 1892. (259—1)

NOTICE is hereby given to the public that an Original Conveyance of the premises No. 41 (formerly No. 36), Middle Road, Entally, from Assam Company to Lal Behary Dey and others, and dated February 1882, was, on the 8th June 1892, lost from Dhurrumtolla Tramcar between Wellington Square and High Court. Any one bringing the same to the undersigned will be rewarded with Rs. 20.

GREESH CHUNDER GHOSE,
(266—1) 5, Hastings Street, Calcutta.

The Bengal Coal Company, "Limited."

THE Half-yearly Ordinary General Meeting of the Shareholders will be held at the Registered Office of the Company, No. 2, Garstin's Place, Calcutta, on Friday, the 24th June 1892, at noon, for the purpose of receiving the Directors' Report for the half-year ended 30th April last, passing the accounts, declaring a dividend, and electing Directors and Auditors.

In terms of clause 23 of the Articles of Association, the Transfer Books of the Company will be closed from the 11th to 24th June 1892, inclusive.

By order of the Board,
C. W. GRAY, Superintendent.

Calcutta, Custom House, the 30th May 1892.

INSOLVENT NOTICES.

In the Court for the Relief of Insolvent Debtors at Calcutta.

In the matter of DIJENDRA NATH BANNERJEE, an insolvent.

On Saturday, the 4th day of June instant, it was ordered that the matters of the petition of the said insolvent be heard on Saturday, the 6th day of August next, and that the said insolvent do then attend to be examined before the said court.

Ukhoy Chunder Dutt, Attorney. (244—2)

In the matter of BEJOY BHUSUN ROY, an insolvent.

On Saturday, the 4th day of June instant, it was ordered that the matters of the petition of the said insolvent be heard on Saturday, the 6th day of August next, and that the said insolvent do then attend to be examined before the said court.

Insolvent in person. (245—2)

In the matter of GOSTO BEHARY SEAL, an insolvent.

On Saturday, the 28th day of May last, it was ordered that Saturday, the 6th day of August next, be appointed for the further hearing of this matter, and that unless cause be shown to the contrary on that day, the said insolvent be discharged personally as well as to his after-acquired property from all liabilities for debts, claims and demands of and against the said insolvent at the time of the filing of his petition for relief.

M. M. Chatterjee, Attorney. (247—2)

Chief Clerk's Office, the 7th day of June 1892.

In the matter of SOSHEEBHOOSUN NUNDY, SURUT CHUNDER NUNDY, and BAGOLA CHURN NUNDY, insolvents.

On Wednesday, the 6th day of August 1884, by an order of this Court, the said insolvents were adjudged entitled to their personal discharge under the Act XI Vic., Chap. XXI, as to all persons named in their schedule as creditors, or claiming to be creditors respectively.

Wilson and Chatterjee, Attorneys. (270—1)

In the matter of RAKHAL DAS SEAL, an insolvent.

On Monday, the 6th day of June instant, it was ordered that the matters of the petition of the said insolvent be heard on Saturday, the 6th day of August next, and that the said insolvent do then attend to be examined before the said Court.

N. C. Roy, Attorney. (271—2)

In the matter of DIJENDRO NATH BANERJEE, an insolvent.

Notice that an application for an *ad interim* protection order has been this day made by the said insolvent, and that such application will be heard and disposed of by the Acting Commissioner of the Insolvent Court on Monday, the 20th day of June instant, at the hour of half-past ten o'clock in the forenoon.

☞ "Any creditor of the said insolvent desirous of opposing such application must appear before the said Court at the time and place aforesaid."

Ukhoy Chunder Dutt, Attorney. (272—1)

In the matter of RAKHAL DAS SEAL, residing at No. 23-2, Baranassee Ghose's Street, in the town of Calcutta, and lately carried on business as a dealer in Government Securities at New China Bazar Street in Calcutta aforesaid, an insolvent.

Notice that the petition of the said insolvent seeking the benefit of the Act XI Vic., Chapter XXI, was filed in the Office of the Chief Clerk, on Monday, the 6th day of June instant, and by an order of the same date the estate and effects of the said insolvent were vested in the Official Assignee.

N. C. Roy, Attorney. (273—1)

Chief Clerk's Office, the 14th day of June 1892.

In the Court of the District Judge of Shahabad at Arrah.

INSOLVENCY CASE No. 3 OF 1891.

In the matter of SIKHIR CHAND, SAKHI CHAND, SUMAIR CHAND, and SUMAT DASS, insolvents.

NOTICE is hereby given that Sikhir Chand, Sakhi Chand, Sumair Chand, and Sumat Dass of Arrah were, on the 9th May 1892, declared insolvents by this Court, and the estate and effects of the said insolvents were vested in the Receiver, Munshi Harihur Pershad, a pleader of this Court, and 20th July 1892 has been fixed for creditors to prove their debts.

G. G. DEY, Offg. District Judge.

Dated Arrah, the 31st May 1892. (225—3)

Berhampur, the 13th June 1892.

A Manual of Tibetan, being a Guide to the Colloquial Speech of Tibet, in a series of progressive Exercises, by Major T. H. Lewin, F. R. G. S., of the Bengal Staff Corps, Late Deputy Commissioner of Darjeeling. *Price Rs 6: postage, 3 annas.*

Copies are to be had at the Office of the Director of Public Instruction.

THE following Weather Reports of the Bengal Meteorological Department, issued by orders of the Government of Bengal, can be supplied to the public at the prices annexed :

1st—Bay of Bengal Daily Report giving meteorological observations taken at 27 stations on or near the coast of the Bay, with a chart and summary. This is published in connection with the Bay of Bengal Storm Signal Service. The report giving 8 A.M. observations of the day is distributed by peon in Calcutta soon after 11 A.M. Price to subscribers in Calcutta Rs. 2 per mensem.

2nd.—Bengal Daily Report containing observations taken at 45 meteorological stations in Bengal and Assam, and transmitted to Calcutta by weather telegrams, with a brief summary of the weather in Bengal during the preceding 24 hours. The report giving the 8 A.M. observations of each day is printed in time for the evening mail, and is distributed to subscribers in Calcutta the same evening. This report for the present is only published during the south-west monsoon, *i.e.* from about May 15th to November 15th, orthereabouts. Price Rs 2-8 per mensem, including postage.

3rd.—A Weekly and Monthly Statement of Meteorological Observations taken at 49 observing stations, and of rainfall recorded at 260 sub-divisional stations, together with summaries of the more important features of the meteorology of the past week or month of the province, and of the distribution of the rainfall and its variation from the normal. Price of the Weekly Report, including postage, Rs. 6 per annum, payable in advance, and of the Monthly Summary Report, Rs. 2 per annum, payable in advance.

Subscriptions payable to the Meteorological Reporter to the Government of Bengal, 5, Russel Street, Calcutta, for the Bay of Bengal Daily Report, and to the Accountant and Treasurer, Bengal Secretariat, for the other reports.

ALEX. PEDLER,
Meteorological Reporter to the Govt. Bengal.

The Indian Law Reports.

Published under Authority.

THE Indian Law Reports, published under the authority of the Governor-General in Council, appear in monthly parts, published as soon as possible after the first of each month at Calcutta, Madras, Bombay, and Allahabad, and comprise four series—one for the Calcutta High Court, a second for the Madras High Court, a third for the Bombay High Court, and a fourth for the Allahabad High Court. The cases heard by the Privy Council on appeal from each High Court are reported in the Series for that High Court. Cases heard by the Privy Council on appeal from Provinces in India not subject to any High Court are reported in the Calcutta Series.

The Calcutta series is distributed by the Bengal Secretariat, and the Madras, Bombay, and Allahabad Series are distributed direct from Madras, Bombay, and Allahabad respectively.

In supersession of the previous advertisements, on and from the 1st January 1889 the terms of subscription and sale will be as follows for current issues as well as for back numbers of the Reports from 1876 :—

Terms of subscription payable annually in advance.

For the complete series, *including postage*, Rs. 22-8.

	Without postage.	With postage.
	Rs. A. P.	Rs. A. P.
For the Calcutta Series	10 0 0	2 8 0
,, each of the Madras, Bombay, and Allahabad Series, ...	6 0 0	7 0 0
,, a part of the Calcutta Series purchased separately (*inclusive of postage in India*)	.....	2 0 0
,, a part of each of the Madras, Bombay, and Allahabad Series purchased separately (*inclusive of postage in India*)	.....	1 0 0

The following is the rate at which deductions will be made for parts out of print and at which duplicate copies will be supplied to subscribers when required in place of copies lost in transit.

	For town.	For mufassil.
	Rs. A. P.	Rs. A. P.
For the Calcutta Series, per copy ...	0 8 9	0 10 3
,, each of the Madras, Bombay, and Allahabad Series, per copy ..	0 5 3	0 5 9
,, the Calcutta Series. For the year	7 2 6	8 6 3
,, each of the Madras, Bombay, and Allahabad Series. For the year	4 4 6	4 11 3

Persons desiring to subscribe for or purchase the Reports should apply to—

Superintendent, Government Press, Madras.
The Superintendent, Government Central Press, Bombay.
,, Curator of Government Books, North-Western Provinces and Oudh.
,, Superintendent of Government Printing, Bengal.

Orders and subscriptions for 1892 *should be at once registered and remitted by money-order payable to the Accountant and Treasurer, Bengal Secretariat, Calcutta.*

ADVERTISEMENTS will be received for publication on the wrappers of the Indian Law Reports, Calcutta Series, at the following rates, payable in advance—

	One page	Half page.	Quarter page.
For one issue ...	Rs. 20	Rs. 14	Rs. 9
,, three issues ...	,, 55	,, 36	,, 24
,, six ,, ...	,, 100	,, 68	,, 45
,, nine ,, ...	,, 145	,, 96	,, 64
,, twelve ,, ...	,, 180	,, 120	,, 80

SEVERAL volumes of the BENGAL LAW REPORTS, from August 1868 to December 1875, and FULL BENCH RULINGS, Parts I and II, are available at the following rates: —

APPENDIX TO

The Calcutta Gazette.

WEDNESDAY, JUNE 15, 1892.

NOTICES TO MARINERS.

GOVERNMENT OF BENGAL,—MARINE DEPARTMENT.

NOTICE TO MARINERS No. 95.

[First Publication.]

BAY OF BENGAL—BURMA COAST.

South Patch buoy adrift.

THE Port Officer, Chittagong, has given notice that South Patch buoy has got adrift.

EATON W. PETLEY,
Port Officer of Calcutta.

Published for general information.

K. H. STEPHEN,
Under-Secretary, Marine Department.

CALCUTTA, *the 6th June* 1892.

GOVERNMENT OF BENGAL,—MARINE DEPARTMENT.

NOTICE TO MARINERS No. 96.

[First Publication.]

JAPAN—SETO UCHI OR ISLAND SEA—BINGO NADA.

Rock southward of Tomo.

THE British Admiralty has given notice, (No. 191 of 1892,) that a rock, which dries 3 feet at low water, has been found by the Japanese steam-vessel *Kinsen Maru* lying about 1¼ miles in a S.S.W. direction from Tomo, on the northern shore of Bingo Nada, or in approximately lat. 34° 21′ 50″ N., long. 133° 22′ 5″ E. It is stated also that this rock is well known to the fishermen of the locality.

(*Variation* 5° *Westerly in* 1892.)

EATON W. PETLEY,
Port Officer of Calcutta.

Published for general information.

K. H. STEPHEN,
Under-Secretary, Marine Department.

NOTICE TO MARINERS No. 97.

[First Publication.]

NEW ZEALAND.

FOVEAUX STRAIT—AWARUA HARBOUR APPROACH.

Shoal north-east of Dog island.

THE British Admiralty has given notice (No. 194 of 1892) of the existence of a rocky shoal, with 17 feet on it at low water spring tides, lying in the approach to Awarua or Bluff harbour from the south-eastward, with Dog island light-house bearing about S.W. ½ S., distant 1½ miles.

Approximate position, lat. 46° 39′ S., long. 168° 27½′ E.

Further notice as to the exact position of this rock will be given in due course.

(*Variation* 16° *Easterly in* 1892.)

EATON W. PETLEY,
Port Officer of Calcutta.

NOTICE TO MARINERS No. 98.

[First Publication.]

EASTERN ARCHIPELAGO—SURABAYA STRAIT.

East gat inner Gas buoy—Alteration in character.

THE British Admiralty has given notice (No. 197 of 1892) that on 1st April 1892 the light shown from the Inner gas buoy (marking the northern edge of the Tongue) of the East gat, Surabaya strait, would be altered to an *occulting white* light, visible *five seconds* and eclipsed *five seconds*.

EATON W. PETLEY,
Port Officer of Calcutta.

Published for general information.

K. H. STEPHEN,
Under-Secretary, Marine Department.

CALCUTTA, *the 6th June* 1892.

GOVERNMENT OF BENGAL,—MARINE DEPARTMENT.

NOTICE TO MARINERS No. 99.

[First Publication.]

AUSTRALIA—SOUTH COAST—PORT PHILLIP.

Regarding the buoyage of that port.

THE British Admiralty publishes (No. 198 of 1892) the following information relating to port Phillip received from the Government of Victoria, dated 11th March 1892:—

1. Nicholson knoll, on the southern side of South channel, and north-east of the Quarantine station, has been removed by dredging, and the two buoys (black and white chequered) previously marking it have been withdrawn.

2. A 26 feet patch has grown up north-east of the former position of Nicholson knoll, which is marked by a *conical* buoy, painted black and white, in horizontal stripes, and lying with Portsea pier head bearing S. $\frac{5}{8}$ W., distant $1\frac{1}{10}$ miles, and Observatory point flagstaff W. by S. $\frac{3}{8}$ S.

3. A narrow ship channel, with a depth of 20 feet at low water, the northern edge of which is marked by beacons, has been dredged between Geelong Outer and Inner harbours.

(*Variation* 8° *Easterly in* 1892.)

EATON W. PETLEY,
Port Officer of Calcutta.

NOTICE TO MARINERS No. 103.

[First Publication.]

CHINA—East coast.

HONGKONG HARBOUR—Eastern approach.

Shoal northward of Quarry point, &c.

The British Admiralty has given notice (No. 209 of 1892) of the existence of a shoal lying northward of Quarry point, in the fairway of approach to Hongkong harbour from the eastward. This shoal, extending 2½ cables in a N. by W. and S. by E. direction, with a breadth of three-quarters of a cable, has 5 fathoms on it at low water of lowest spring tides, over sand and shells, with 6 to 8 fathoms around. Its northern end lies with Quarry point bearing S. by E., distant 5 cables, and Quarry S.W. by W.

Also, that the depths of water are found to be generally reduced between Lyemun pass and Kaulung peninsula.

(*Variation* 1° *Easterly in* 1892.)

NOTICE TO MARINERS No. 104.

[First Publication.]

AUSTRALIA—Keppel bay.

Additional Red Sector from Sea Hill Light.

The Port Master, Brisbane, has given notice (No. 4 of 1892) that on and after 15th June next a beam of red light will be shown from the Sea Hill Light between the bearings of S. 6° W. and S. 25° W.

If the entrance leading lights on Balaklava Island at any time are obscured, a vessel entering from the North should keep on the western edge of the red sector until the Cape Capricorn lights were in line bearing S. 70° E.; or, if from the south, should run down that lead until on the western edge of the above-mentioned red sector, from which point she should steer S. by W. ½ W. through the white light. When the Capricorn light is obscured by the high land of Cape Keppel, a vessel will be clear of the Timandra Bank, and may either anchor or proceed as considered advisable.

Eaton W. Petley,
Port Officer of Calcutta.

JAPAN—Nipon—South coast.

Goza harbour and approaches—uncharted dangers.

The following Notice to Mariners (No. 164 of 1892) issued by the British Admiralty is republished:—

(1) A recent small scale plan of Goza harbour having been received from the Japanese Government, which shows several dangers, not charted on Admiralty plan, No. 994, Mariners are cautioned not to use Goza harbour without a pilot, until a new large scale plan is published.

The following caution has been placed on Admiralty plan No. 994:—"Many uncharted dangers in Goza harbour."

(2) A rock with 15 feet water on it has been discovered outside Outer reef, southward of Goza harbour, from which Kami Sima bears E.N.E., distant 3 cables, and several other dangers have been found between Outer reef and the shore.

Vessels are consequently warned that they should give these outer dangers even a wider berth than usual.

Approximate position of Kami Sima, lat. 34° 11′ 50″ N., long. 136° 48′ 30″ E.

GOVERNMENT OF BENGAL,—MARINE DEPARTMENT.

NOTICE TO MARINERS—No. 91.

[Third Publication.]

JAPAN—YEZO ISLAND—NEMORO PENINSULA.

Sunken rock south-west of Isomoshiri jima.

THE British Admiralty has given notice (No. 167 of 1892) that the Commander of the Japanese steam-vessel *Tsukushi maru* reports having touched, in October 1891, on a sunken rock lying off the south-east coast of Nemoro peninsula, with the south-west extreme of Isomoshiri jima bearing approximately N.E. by E. ½ E, distant 1$\frac{1}{10}$ miles.

The vessel was drawing 17 feet when she touched, and the lead gave 4½ fathoms on her starboard side, so that probably it is a pinnacle rock. During subsequent examination under unfavourable circumstances, 3 fathoms was the least depth obtained, but there is probably shoaler water in the vicinity.

Approximate position, lat. 43° 19′ N., long. 145° 45′ E.

(*Variation* 5° *Westerly in* 1892.)

NOTICE TO MARINERS—No. 92.

[Third Publication.]

AUSTRALIA—NORTH-WEST COAST.

KING SOUND ENTRANCE.

Shoals in and near the fairway Sunday strait.

THE British Admiralty has given notice (No. 168 of 1892) concerning certain shoals lying in and near the fairway of Sunday strait, King sound entrance:—

1. A shoal, with 2 fathoms water on it, and 12 to 20 fathoms close northward, lies with the west extreme of East Roe island bearing south, distant about 1¼ miles.
   Approximate position, lat. 16° 20¼′ S., long. 123° 13′ E.
2. A shoal of small extent, with dangerously shallow water reported on it, lies in the fairway of the strait, with Tree islet bearing about E. ¼ S., distant 2½ miles.
   Position (to be considered doubtful), lat. 16° 22¼′ S., long 123° 16½′ E.
3. Amur reef, lying north-west of Long island, and which dries 15 feet at low water, extends nearly 3 miles in a N. by E. and S. by W. direction, with a breadth of about 1½ miles.
   Approximate position of northern end, lat. 16° 29½′ S., long. 123° 18′ E.

(*Variation* 2° *Easterly in* 1892.)

GOVERNMENT OF BENGAL,—MARINE DEPARTMENT.

[Third Publication.]

NOTICE TO MARINERS—No. 93.

AUSTRALIA—South.

Special warning to Mariners—compasses—heeling error.

The Secretary, Marine Board, Port Adelaide, has given notice that the attention of Mariners has been directed by the Board of Trade "to the necessity of exercising a constant watchfulness in regard to the error of their navigating compasses, more particularly to the heeling error, the neglect of which is doubtless a common, though often unsuspected, cause of the stranding of many vessels.

"Serious changes frequently take place in the character and amount of the heeling error as the ship changes her magnetic lat. from (1) the vertical force arising from the permanent magnetism of the ship, the error from which is greatest in high lats., diminishes until the Equator is reached, where it is least, and increases again in the opposite hemisphere, but still retaining the same name; (2) from verticle induction in vertical and transverse soft iron, generally (such as beams, &c.), the error from which is greatest in high lats., diminishes until the Equator is reached, where it becomes *nil*, and increases again (but of an opposite name) as the vessel recedes from the Equator in the opposite hemisphere. It is difficult, therefore, to predict with any great accuracy the change that will take place, observations at every possible opportunity being the only reliable safeguard.

"In the Nrn. hemisphere in ships built with their heads from about S.E., through N., to S.W. (the usual effect of the permanent magnetism of the ship then conspiring with that of her vertical and transverse soft iron), the N. pt. of the compass needle, assuming the compass to be on the upper deck and on the after portion of the ship as usual, will, as a general rule, be drawn to windward or to the high side of the ship; the nearer the ship's head was to N. whilst building the greater the error that may be expected, the effect being to throw the ship to windward of her supposed position when steering on Nly. courses, and to leeward on Sly. courses, the error decreasing as the Equator is approached, and small, perhaps of a contrary name, in the Srn. hemisphere.

"In ships built with their heads from about S.E., through S., to S.W. (the usual effect of the permanent magnetism, and that of the transverse, &c., iron, being then contrary to each other), the N. end of the compass needle may be drawn to leeward, depending upon whether the vertical force of the permanent magnetism or that of the induced magnetism of transverse iron predominates, but the error would then, as a general rule, be small in these lats. and large in the Srn. hemisphere.

"*It has been est., as a rule, however, that in the Nrn. hemisphere (in compasses above the upper deck) in the majority of iron ships, the N. pt. of the compass needle is drawn to windward, the consequence being that if this is not allowed for, a ship will go to windward of her supposed position on Nly. courses and to leeward on Sly. courses.*

"The heeling error is always greatest with the ship's head at or near N. or S. by the disturbed compass, and least, or *nil*, with the ship's head E. or W. It is particularly important, therefore, should the vessel heel over either from the effect of the wind, or the cargo, when steering in a Nly. or Sly. direction, that the Mariner should use every precaution and never lose an opportunity of ascertaining the errors of his compass.

"The heeling error may be small or large, depending greatly upon the position of the compass—it has been known to exceed 2° for every degree heel of the ship—and is directly proportional to the amount of heel, consequently if the error at N. or S. for 1° of heel is known, the error for any other direction of the ship's head, and amount of heel, can be found by the usual methods.

"Mariners are further warned that the adjustment of compasses by magnets, soft iron, &c., is for bringing the error within manageable limits and for equalising the directive force of the needle, and must only be considered approx. for the lat. in which the adjustment was made, and that they should lose no opportunity of verifying the error both in port and at sea, as it is constantly changing from numerous causes, the chief amongst which are heeling, change of lat., change of cargo, collision, after repairs, and from the ship remaining with her head in one direction for a length of time, &c."

Eaton W. Petley,
Port Officer of Calcutta.

Published for general information.

K. H. Stephen,
Under-Secretary, Marine Department.

Calcutta, *the 23rd May* 1892.

GOVERNMENT OF BENGAL,—MARINE DEPARTMENT.

NOTICE TO MARINERS—No. 94.

[Third Publication.]

CHINA—East coast—Yang tse Kiang.

Alterations in marking South Channel.

The British Admiralty has given notice (No. 180 of 1892) that on account of changes in South channel, Yang tse Kiang, the following alterations have been made:—

1. Kiu Toan light vessel has been moved to a position off the south-east end of Block House shoal, and now lies with Kiu Toan beacon bearing S. 68° W., distant about $3\frac{1}{4}$ miles.

Approximate position, lat. 31° 17′ 10″ N., long. 121° 47′ 25″ E.

2. Middle ground lower buoy, painted black, and surmounted by a black spherical cage, now lies with House island beacon bearing N. 11° W., distant about $3\frac{3}{10}$ miles, and marks the south-west side of the channel.

Approximate position, lat. 31° 12′ 50″ N., long. 121° 52′ 25″ E.

3. Middle ground upper buoy, painted black, and surmounted by a black cylindrical cage, now lies with Kiu Toan beacon bearing S. 12° W., distant about $2\frac{3}{10}$ miles, and marks the south-west side of the channel, and the north-west extreme of Middle ground.

Approximate position, lat. 31° 18′ N., long. 121° 44′ 20″ E.

4. A red buoy, surmounted by a black spherical cage, and named *South-east Knoll buoy*, has been moored with Kiu Toan small beacon bearing S. 87° W., distant about $2\frac{3}{10}$ miles, and marks the north-east side of the channel, and the south-easternmost of a line of knolls that have formed off the south-west side of Block House shoal.

Approximate position, lat. 31° 19′ 30″ N., long. 121° 42′ 20″ E.

NOTE.—Vessels should not pass north-eastward of Kiu Toan light vessel.

LIBERALITY OF NAWAB FAIZUNNESSA SAHEBA AND HER THREE CO-SHARERS.

GENERAL DEPARTMENT—EDUCATION.

Calcutta, the 11th June 1892.

RESOLUTION No. 1514.

READ—

Endorsement from the Commissioner of Chittagong, No. 187T., dated 19th May 1892, and the enclosed report from the Magistrate of Tippera regarding the liberality of Nawab Faizunnessa Saheba and her three co-sharers in connection with the construction of a female hospital in Comilla under the auspices of the Lady Dufferin Fund.

The Commissioner of Chittagong has brought to the notice of Government that Nawab Faizunnessa Saheba has made over Rs. 10,000 to the Magistrate of Tippera for the purpose of giving effect to her offer to construct a female hospital in Comilla under the auspices of the Lady Dufferin Fund, and that the Nawab Saheba and her three co-sharers, Najamunessa Chaudhrain, Badarunessa Chaudhrain, and Chaudhri Mozuffe Ghazi, have provided a suitable site

free of cost for the building. The Lieutenant-Governor has already been pleased to express his high appreciation of the public spirit by which the Nawab Saheba has been animated, and desires now to tender to her his thanks for her liberal donation. His Honour's thanks are also due to the Nawab Saheba and her three co-sharers for generously providing a site free of cost for the building.

2. The Lieutenant-Governor will be glad to be informed by the Commissioner on what plan the hospital is being built, and whether it has been approved by the Inspector-General of Civil Hospitals.

ORDER.—Ordered that a copy of this Resolution be forwarded to the Commissioner of Chittagong for information and guidance, and for communication to the Nawab Saheba and her three co-sharers.

Ordered also that a copy of this Resolution be published in the *Calcutta Gazette*.

By order of the Lieutenant-Governor of Bengal,

C. E. BUCKLAND,

Secretary to the Govt. of Bengal.

Rainfall, Weather, and State and Prospects of the Crops.

Statement showing Rainfall, Weather, and State and Prospects of the Crops in the different districts of Bengal, as reported to Government, during the week ending the 11th June, 1892.

No.	District and date of return.	Rainfall at Sadar Station in inches.	Character of the weather and state and prospects of the crops.
BENGAL.			
BURDWAN DIVS. 1	Burdwan June 11, '92	3·73	Weather—very stormy with pretty continued rain; heavy at times. Cool. Ploughing and sowing of *aus* being briskly carried on. Prices of common rice :— Srs. Burdwan ... ... 11 to 16; Kalna ... ... 9 to 13; Katwa ... ... 13; Raniganj ... ... 13 } per rupee.
	Kalna ...	1·52	
	Katwa ...	0·92	
	Raniganj ...	3·52	
2	Bankura ,, 11, '92	3·25	Weather—much cooled down and rainy. The rainfall of the week has much facilitated agricultural operations. Seed-plants are coming on well and sugarcane thriving. Fodder and water-supply sufficient. Common rice selling at 13½ seers per rupee at Sadar and 14 seers at Vishnupur.
	Vishnupur ...	1·03	
3	Birbhum ,, 11, '92	5·48	Rain nearly every day in the week, very heavy on 6th, 9th, and 10th, and is going on heavily this morning (11th). Fodder and water now quite plentiful again. Prices of rice 12 to 16 seers per rupee.
	Rampur Hát ...	1·30	
4	Midnapore ,, 11, '92	2·35	During the last few days there has been a great deal of rain which has benefited the country greatly. Ploughing going on; crops doing well. Sugarcane improved by the rain. Indigo favourably reported of. Fodder plentiful. Prices of common rice :— Srs. Sadar ... ... 13; Contai ... ... 13; Tamluk ... ... 12; Ghatál ... ... 13 } per rupee.
5	Hooghly ,, 11, '92	1·24	Deep black clouds hanging on. Weather cyclonic. Sugarcane and jute doing well. Ploughing is being carried on, but rain wanted everywhere very badly. In thánas Polba, Pandua and Dhaniakhali, water-supply and fodder have become very scanty, as also in some of the villages in Jahánabad sub-division. In Serampore, however, it is otherwise. High cyclonic winds blowing from Wednesday (8th) evening last. Common rice at Sadar and Serampore 10 to 11 seers a rupee and at Jahánabad 12 seers.
	Serampore ...	0·27	
	Jahánabad ...	0·24	
6	Howrah ,, 11, '92	3·29	Weather—cooler. Monsoon appears to have broken. Ploughing and sowing continue. Prospects favourable. Condition of cattle good. Fodder and water-supply sufficient. Rice 10 to 12 seers per rupee.
	Ulubaria ...	0·43	
PRESIDENCY DIVS. 7	24-Parganas ,, 11, '92	2·89	Weather—cloudy and hot at times with showers. The weather has been very favourable for all crops sown and being sown. Ploughing and sowing proceeding briskly. No deficiency of fodder and water. No cattle-disease. Prices unchanged.
8	Nadia ,, 11, '92	1·07	Weather—rainy with strong wind. Monsoon broken over the whole district. Agricultural operations going on vigorously. Prospects good.
	Kushtia ...	0·15	
	Meherpur ...	0·60	
	Ranaghat ...	2·30	
9	Khulna ,, 11, '92	3·28	Weather—rainy. Good rain has been falling during the last three or four days, and ploughing and sowing are progressing vigorously. *Til* is being cut in Bágerhat, and prospects of sugarcane continue favourable there. Common rice selling at 11 to 14 seers per rupee. Fodder and water for cattle sufficient.
	Bágerhat ...	2·40	
	Satkhira ...	0·59	
10	Jessore ,, 11, '92	2·74	Weather—cloudy and rainy. Sowing of *aus*, jute, and indigo over, and that of *áman* still progressing. Prospects good. Supply of fodder and water sufficient.
	Jhenida ..	0·73	
	Magura ...	0·61	
	Narail ...	0·88	
	Bangaon ...	0·60	
11	Murshidabad ,, 11, '92	1·90	Weather—stormy with showers and fairly cool. Sowing of *bhadoi* rice finished. Crop up in most places and promising. Weather favourable for all crops except mangoes. Coarse rice sells at 12 seers per rupee. Fodder plentiful for cattle.
CHITTAGONG DIVS. 12	Chittagong ,, 11, '92	0·69	Weather—seasonable. Prospects of crops good. Cultivation of *aus* commenced. Prices stationary. Condition of cattle generally good. Supply of fodder sufficient.
13	Noakhali ,, 11, '92	3·18	Weather—rainy. State and prospects of the standing crops good. *Aman* still being sown. Fodder and water ample. No cattle-disease except in the island of Hatia. Prices stationary.
	Fenny ...	1·92	
14	Tippera ,, 11, '92	2·29	Weather—hot and cloudy. *Aman* paddy is being transplanted. *Aus* and jute thriving. Prospects satisfactory. Prices stationary.
15	Chittagong Hill Tracts. ,, 10, '92	3·11	Weather—hot with occasional showers of rain throughout the week. *Jum* paddy and cotton plants progressing. Lands are being ploughed for late rice. Cattle-disease still prevailing. Common rice selling at 10 seers per rupee.

No.	District and date of return.	Rainfall at Sadar Station in inches.	Character of the weather and state and prospects of the crops.
BENGAL—*concld.*			
DACCA DIVN.			
16	Dacca — June 11, '92	0·89	Weather—warm and cloudy. Jute and paddy thriving. *Aus* paddy partially affected owing to insufficient rain. Prospects of other crops fair. Fodder available. No cattle-disease. Common rice selling at from 12 to 14 seers per rupee.
17	Faridpur — „ 11, '92	1·73	Weather—cloudy and stormy. Standing crops doing well. Common rice sells at 11½ seers per rupee at the Sadar, 12 seers at Goalundo and 13 seers at Madaripur. No cattle-disease and cattle get fodder.
18	Backergunge — „ 11, '92	2·45	Weather—cyclonic. State and prospects of crops satisfactory. Ordinary rice sells at from 10 to 13 seers per rupee. Fodder and water sufficient.
19	Mymensingh — „ 11, '92	1·84	Weather—cloudy and stormy; rainy. Prospects of crops fair. Excessive rain has caused some damage to *aus* and jute crops in some parts of the district. Rice sells at 13½ seers per rupee. Supply of fodder and water sufficient.
RAJSHAHI DIVN.			
20	Dinajpur — „ 11, '92	2·13	Weather—cloudy and rainy with high easterly wind. Prospects of standing crops good Preparation of lands for *haimanti* rice continues. Price of rice at Sadar 11 seers per rupee. This rise is owing to incessant rain and consequent difficulty of drying the paddy before husking. Prices stationary in Thakurgaon. Condition of cattle good. Fodder and water-supply continue sufficient.
	Thakurgaon ...	6·05	
21	Rajshahi — „ 11, '92	0·42	The rains have set in, and the weather is quite seasonable. Rain has done a little harm to linseed. *Boro* rice has given a 16 annas outturn. *Aus*, *áman*, jute, and all other crops are doing well. A few cases of cattle-disease are reported. Fodder and water-supply ample. Price of rice ranges from 11 to 15 seers per rupee.
	Nator ...	0·42	
	Nowgong ...	1·51	
22	Rangpur — „ 11, '92	0·8	Weather—cloudy and warm. *Aus* rice and jute doing well. The former is being harvested in some places. Transplantation of *áman* in progress. Price of common rice stationary.
	Nilphamari ...	2·74	
	Gaibanda ...	0·82	
	Kurigaon ...	2·13	
	Ulipur ...	0·68	
23	Bogra — „ 11, '92	2·02	Weather—hot and cloudy with occasional showers and strong east wind. Crops on ground doing well. Ploughing for transplantation of *áman* still going on. Condition of cattle not bad. No want of fodder and water. Common rice selling at 13 seers a rupee.
	Sherpur ...	0·88	
	Naukhila ...	0 29	
24	Pabna — „ 11, '92	0·78	Weather—hot and cloudy at times. Prospects of standing crops continue good. Price of common rice rose to 12 seers per rupee. Condition of cattle good. Water-supply and fodder sufficient.
25	Darjeeling — „ 11, 92	10·29	Heavy rain during latter part of week. *Bhutta*, potatoes, *bhadoi*, *chhota marua*, and *kangni* thriving well. Water and fodder-supply sufficient. Cattle-disease in some parts of the hills.
26	Jalpaiguri — „ 11, '92	1·13	Weather—hot; cloudy with occasional showers. Prospect of jute not favourable. *Bhadoi* crop improving. Ploughing for transplantation of *haimanti* paddy commenced in certain places. No cattle-disease. Fodder and water-supply abundant.
BIHÁR.			
BHAGALPUR DIVN.			
27	Monghyr — „ 11, '92	2·75	Since the 6th the sky has the appearance of the monsoon having begun. Very high east wind since 10th, apparently the result of a cyclone. The rain has set ploughing and sowing agoing all over the district. *Bhadoi* crops are in part sown; also *kauni*, *kheri*, *sama* and *marua*. Sugarcane doing well. Water-supply now plentiful, and there will soon be fodder in abundance.
	Begusarai ...	1·22	
	Jamui ...	1·67	
28	Bhagalpur — „ 11, '92	3·18	Weather—rainy and stormy. Good rainfall throughout the district, heavier in north than in south. *Marua* being transplanted and rice sown. Standing crops doing very well. Agricultural operations in full swing and prospects at present distinctly favourable. No cattle-disease.
	Banka ...	1·07	
	Madhipura ...	6·80	
	Supaul ...	6·13	
29	Purnea — „ 11, '92	1·58	The rains seem to have set in since Monday last (6th), when there was a heavy fall of nearly 10 inches at Araria. Crops all doing well. There was some anxiety as to the south and south-west of the district, where the rain had been very scanty and indigo and *bhadoi* were stunted, but it has now begun to fall there. Prices of rice:—
	Kishanganj ...	3·36	
	Araria ...	10·22	
			Srs.
			Sadar ... ... 11½ to 13
			Kishanganj ... ... 10 to 11 per rupee.
			Araria ... ... 12 to 13
30	Malda — „ 11, '92	2·03	Weather—seasonable; latter part of the week cloudy with occasional rain and high easterly wind. Standing *bhadoi* crops thriving and promising well. Lands are still being ploughed and prepared for *áman*. Yield of mango 8 annas. Supply of fodder ample. Ordinary rice selling at from 10½ to 13 seers a rupee.
	Chanchal ...	1·26	
	Shibganj ...	0·79	
	Gajol ...	4·93	
18	Santhal Parganas — „ 11, 92	*	Weather—cloudy and cool with east winds and rain. A storm on the 10th and 11th. Prospects greatly improved. Sugarcane doing well The rain has saved the small sowings of Indian-corn. Cultivation of rice in full swing. The grass sprung up will help the cattle. Water and fodder now plentiful. Price of rice 10 to 13 seers per rupee.
	Deoghur ...	2·25	
	Godda ...	1·72	
	Jamtara ...	0·27	
	Pakaur ...	0·95	
	Rajmahal ...	1·41	

* Figures not given.

No.	District and date of return.	Rainfall at Sadar Station in inches.	Character of the weather and state and prospects of the crops.
BIHÁR—*concld.*			
PATNA DIVISION. 32	Patna — June 11, '92	2·88	Weather—cloudy with high winds. The rainfall has facilitated the preparation of land for *bhadoi* crops. *Cheena* and sugarcane have been much benefited by it. Harvesting of *cheena* has commenced in Bihár. Prices of food-grains almost stationary. Common rice selling at from 11 to 12½ seers per rupee. No distress reported. Fodder sufficient except in Barh, where, however, there is an improvement.
	Barh ...	3·80	
	Bihár ...	1·65	
	Dinapur ...	1·15	
33	Gaya — ,, 11, '92	1·96	Monsoon seems to have burst; stormy weather. *Marua* millet being sown. Vigorous preparation of land for *bhadoi* will now begin, and there will soon be a sufficient supply of fodder and water. Prices stationary.
	Aurangabad ...	2·41	
	Nawáda ...	4·2	
34	Shahabad — ,, 11, '92	0·66	Weather—very stormy. High wind and frequent showers. The rainfall has done immense good to the sugarcane, but unfortunately it has been least where most wanted in the west of the district. Ploughing for *bhadoi* has not yet begun. Fodder and water-supply adequate. Prices stationary.
	Buxar ...	2·47	
	Sasaram ...	1·51	
	Bhabhua ...	0·57	
35	Darbhanga — ,, 11, '92	3·58	High east wind prevailing. Rainfall has greatly improved general cultivation and benefited *janera, dhan*, and *makai* lately sown, also *marua* plants. Sowings of *bhadoi* commenced. Prices almost stationary, with slight inclination to fall in places.
	Madhubani ...	4·95	
	Samastipur ...	4·35	
36	Muzaffarpur — ,, 11, '92	4·84	Weather—cloudy and cool; frequent strong east winds. Rain has fallen generally throughout the district. Prospects of *bhadoi* and rice crops now excellent. Agricultural operations now in full swing everywhere. Prices have not fallen appreciably.
	Hajipur ..	1·35	
	Sitamarhi ...	3·88	
37	Saran — ,, 11, '92	2·89	Heavy rain-storms everywhere from 1½ to 6 inches. High cyclonic winds for last 24 hours. *Bhadoi* sowings started, and also manufacture of indigo in some places. Water and fodder sufficient. Prices of common rice:— Srs. Ch. Chapra ... ... 11 8; Siwán ... ... 13 4; Gopalganj ... ... 12 10 — per rupee.
	Siwán ...	1·34	
	Gopalganj ...	0·42	
38	Champaran — ,, 11, '92	4·77	Weather—hot, cloudy at times. Rain has fallen everywhere in the district. Ploughing going on. Paddy and other crops are being sown. Standing crops much benefited by rain, No scarcity of fodder and water for cattle. Prices almost stationary.
	Bettiah ...	1·23	
ORISSA.			
ORISSA DIVS. 39	Cuttack — ,, 11, '92	4·58	Weather—cold and cloudy. Rain more or less general throughout the district with very beneficial results. Sowing in progress. Price of common rice has fallen from 10½ seers to 11½ seers per rupee at Sadar, though stationary in the interior.
40	Puri — ,, 9, '92	3·12	Weather—stormy. Ploughing going on. Miscellaneous crops doing well. Rice sells at 10 to 14 seers per rupee.
	Khurda ...	2·14	
41	Balasore — ,, 11, '92	2·76	Weather—cyclonic. Recent rainfall will be very beneficial for cultivation, which is still backward.
CHOTA NAGPUR.			
South-West Frontier Agency.			
CHOTA NAGPUR DIVS. 42	Hazáribágh — June 11, '92	5·99	Weather—cloudy and cool. Very wet and stormy since 10th. Ample rain everywhere. Ploughing and sowing in vigorous progress. Water abundant. Fodder now sufficient. Common rice selling at from 10 to 14 seers per rupee.
	Giridi ...	0·38	
43	Lohardaga — ,, 11, '92	7·40	Weather—rainy. The rainfall is sufficient for ploughing and sowing *bhadoi* crops. Common rice selling at 14 seers per rupee. Fodder sufficient.
44	Palámau — ,, 10, '92	1·02	The monsoon seems to have broken and the weather is now cool. Showers in almost all the thánas of the district. Fields are being prepared for *bhadoi* crops. Sugarcane thriving. Common rice selling at from 12 to 18 seers per rupee. Fodder-supply limited.
45	Singhbhum — ,, 11, '92	2·87	Rain on four days. Weather very boisterous and wet. Rice crop being sown. Price of common rice stationary.
46	Manbhum — ,, 11, '92	3·41	Heavy rain during the week. The rains have evidently set in, and the people are busily engaged in ploughing. Young sugarcane doing well. All anxiety in the matter of fodder and water-supply now at an end. Rice 13 to 16 seers per rupee.

The total fall from 1st January to 11th June 1892	9·38
The average fall of the corresponding period for 24 years, S.-G.'s Office ...	12·91

The mean pressure, temperature, &c., are deduced from the traces of the Barograph and Thermograph, and from observations made at 6h, 10h, 16h, and 22h.

The maximum and minimum temperatures are obtained from self-registering thermometers. All the thermometers are verified, and the readings have been corrected to a standard constructed and verified at the Kew Observatory. They are exposed under a thatched shed open at the sides, and are suspended four feet above the ground.

The barometer readings are corrected approximately to those of the standard, Newman's No. 86, formerly at the Surveyor-General's Office.

The hygrometric elements are obtained from Tables III, IV, and V of the official tables computed in the Meteorological Office, and based on Regnault's modifications of August's formula.

The directions and the movement of the wind are taken from the trace of a Beckley's anemograph.

The mouth of the rain-gauge is one foot above the ground.

o, overcast; g, gloomy; d, drizzling rain; p, passing temporary showers; t, thunder.

J. H. GILLILAND,
For Meteorological Reporter to the Govt. of India.

SUMMARY OF THE METEOROLOGICAL AND RAINFALL OBSERVATIONS TAKEN IN BENGAL, AND OF THE METEOROLOGICAL OBSERVATIONS TAKEN IN ASSAM, FOR THE MONTH OF MAY 1892.

THE principal features in the meteorology of Bengal and Assam during May 1892 have been as follows :—

1. Pressure at the commencement of the month was distinctly in excess of the normal ; it then became largely in defect, the mean defect at many stations in the second week equalling about a tenth of an inch. This defective pressure continued, though gradually becoming rather smaller, and the seat of largest defect was removed to Bihár in the third week, but at the close of the month, though pressure remained in considerable defect, the deficiency was smallest at some of the northern stations and in Bihár, and largest at some of the southern stations and in Assam. The mean pressure therefore of both Bengal and Assam has been about 0·04 inch in defect of the normal.

2. Temperature was very high in the early part of the month, the excess above the normal for the first week averaging 4·2°. This excess was continued in the second week, but it was about a degree smaller than in the previous week, and in this week the excess in Chota Nagpur equalled the unusually large amount of 9·2°. In the third week of the month the average temperature of the province was again about three degrees in excess of the normal, but during the fourth week owing to rather heavy rain having fallen temperature fell rapidly, and became below the normal by between one and two degrees. For the whole month, therefore, the mean temperature of the province of Bengal has been about 2° in excess of the normal, but in Assam there has been a defect of about a degree.

3. The winds blowing over the province have been more strongly easterly than usual, and south-easterly and southerly winds have generally prevailed in the south of the province, and easterly winds at the northern stations. During a considerable part of the month also the southerly winds blowing at the head of the Bay and in parts of South Bengal were unusually strong.

4. Rainfall in the early part of the month was confined to North and East Bengal, but the falls were decidedly less than the normal. In the second week the rainfall increased in heaviness in East and North Bengal ; while South-West Bengal and North Bihár commenced to receive moderate amounts. In the third week rainfall occurred almost daily in North Bengal, while in East and South-West Bengal and North Bihár only occasional local showers were reported, while in the last week of the month moderate to heavy rain was received in all districts except South Bihár.

5. The number of hot weather storms or nor'-westers which occurred during the month has been very considerable, but they have as usual been most frequent in the eastern and north-eastern districts, though during the fourth week of May they were also rather numerous in all districts except South Bihár.

6. The first appearance of strong winds at the Ceylon stations indicating that the real south-west monsoon current was advancing up the Bay commenced on about the 10th, and these continued almost till the close of the month. In front of this advance a barometric depression was formed in the Andaman Sea, which moved slowly into the Gulf of Martaban, and then over Burma, and which brought up heavy rain to that district. A second feeble low-pressure area commenced to develop off the South Orissa and Ganjam coasts, but both depressions filled up on the 26th without developing to any considerable extent.

The changes of conditions during the greater part of the month do not call for any detailed remarks. For the first week conditions were of ordinary hot weather character, and the number of local storms occurring was small. In the second week pressure fell so rapidly at the western stations that a feeble low pressure area formed over the western parts of the province, and hence with these disturbed conditions the number of local storms or nor'-westers was largely increased. This feeble depression filled up on about the 14th, when weather became more settled, but again on the 20th an almost similar low-pressure area was developed over part of Chota Nagpur and West Bengal. This lasted for several days, and it filled up on the 24th, but again the disturbed conditions induced by the feeble depression gave rise to numerous local storms and rain showers which lasted in Bengal almost up to the close of the month.

In the south of the Bay winds began to strengthen owing to the advance of the south-west monsoon from about the 10th, and they blew steadily and rather strongly almost to the close of the month. By about the 24th these winds had apparently reached well into the centre of the Bay, when pressure began to fall moderately to rapidly in the east of the centre of the Bay, forming a feeble depression, and on this date also winds round the Andaman Sea appeared to form part of a cyclonic circulation. On the same day also there was a distinct tendency to low pressure off the South Orissa and Ganjam coasts. On the morning of the 25th, the wind directions in Bengal had become very irregular, and at a good many stations north-easterly winds were reported, showing slight indraught towards the Bay, and the feeble barometric depressions appeared still to exist off the South Orissa coast and in the Gulf of Martaban, but the pressure changes on this day in Bengal were small. On the 26th the depression in the Bay off the Orissa coast filled up, while that in the Gulf of Martaban may probably have

passed over Burma and there filled up, for heavy rain was received over that area. Pressure distribution and wind directions therefore became a little more normal, and on the 27th pressure rose slowly in Bengal, and the distribution became practically normal for the day, and the winds also became of directions varying from southerly in the southern districts through south-easterly at the eastern stations to easterly in the north of the province. On the 28th the pressure changes were comparatively small, though usually there was a fall, and pressure was again becoming below the normal, particularly in Bihár, but winds continued fairly normal in direction on this day as they did up to practically the close of the month.

In the Bay the south-west monsoon current continued to blow fairly steadily and rather strongly, and after the disappearance of the two feeble depressions it probably continued its northerly advance, and by the close of the month it had apparently drifted well into the north of the Bay, and at one time even it appeared to be commencing to drift over South-East Bengal. On the 1st of June indeed the observer at Akyab reported that the monsoon had broken at that station, and it certainly, at the close of May, had advanced well into the north of the Bay.

Pressure.—In the first week of May pressure was above the normal by from 0·03″ to 0·05″, the smallest excess pressure being reported in North Bengal and North Bihár. In the second week a rapid fall occurred, and pressure became in defect by 0·09″, while defects in excess of a tenth of an inch were registered at such stations as Motihari, Dehri, Buxar, Gaya, Bankipore, Bankura, Raniganj, and Berhampore. In the third week at such stations as Gaya, Bankipore, and Dehri, average defects of about 0·08″ were registered, but in the south and south-east of the province the defects were from 0·02″ to 0·03″, and in Assam they were only 0 015″. In the fourth week the largest defect had been transferred to the extreme east of the province, where at Sibsagar it equalled 0·09 and in the north and west of the province, at such stations as Darbhanga, Purnea, and Rangpur, the defect only equalled 0·03″, so that the usual defect over the province equalled from 0·05″ to 0·07.″

For the whole month the mean pressure has been in distinct defect of the normal, the defects ranging from about 0·02″ at the extreme south-eastern and south-western stations, such as at Chittagong and Comilla and Gopalpur and False Point, to about 0·04″ and ·05″ in Bihár, defects exceeding 0·05″ being recorded at Motihari and Bankipore. The general defect over the province of Bengal equals about 0·04″.

In Assam the average defect is 0·012″, and at Sibsagar the large defect of 0·067″ is recorded.

Temperature.—The mean average temperature of the whole of Bengal for the month has been 2·1° in excess of the normal. The excess has been the large amount of 4·8° in Chota Nagpur, but in most Divisions it has equalled about 2° or 3°. In North Bengal, on the other hand, there has been a defect of about half a degree, and in Assam the defect has equalled 1·3°

Some very high maximum temperatures have been recorded during the month, and temperatures exceeding 114° have been recorded at Gaya and Chaibassa, exceeding 112° at Cuttack, Bankura, Raniganj, and Dehri, and exceeding 110° at Midnapore, Chapra, Arrah, and Naya Dumka.

Rainfall.—An average fall of nearly 13 inches of rain has occurred in North Bengal, or more than 4 inches, or roughly 50 per cent., more than usual. The fall in East Bengal has equalled 11 inches, or nearly two inches, or roughly 20 per cent., in excess. In all other districts, however, the falls have been in distinct defect, the percentage of defect equalling in South-West Bengal 11 per cent., in North Bihár 28 per cent., in Chota Nagpur 47 per cent., in Orissa 50 per cent., and in South Bihár no less than 64 per cent. The actual fall in South-West Bengal has averaged nearly five inches, in North Bihár nealy two and-a-half inches, in Orissa nearly two inches, in Chota Nagpur one and-a-half inches, and in South Bihár only 0·85 inch. Taking these various divisions as having an equal value in the calculation, it may be said that the rainfall of Bengal in May was about 20 per cent. in defect of the normal fall.

The variation in the amounts of rain received by stations in different districts of the province has been extraordinarily large, and thus Kuch Bihár during the month has received 46·22 inches of rain, while on the other hand falls of less than a fifth of an inch are reported at Satpara (Puri), Roshera (Darbhanga), Buxar, Dehri, Sasarám, Aurangabad, Rajouli (Gaya), Pakri Barawan (Gaya), Bikram (Patna), Gogri (Monghyr), Sheikpura (Monghyr), Palámau, and Garwah (Palámau). The heaviest falls have occurred at the stations in the hills in the north-east of the province, and the smallest usually in the west of Chota Nagpur and Bihár, though a broad area of extremely small rainfall stretches eastward through Bihár, and includes parts of the Sonthal Parganas. The lines of equal rainfall usually run in a north-westerly direction, and thus to the east of a line joining the extreme north-east corner of the Bay with Kissenganj in the Purnea district rainfall has been in excess of 10 inches, and to the west of it less than 10 inches; the line of 5 inches rainfall runs roughly from Patuakhali to Supaul, and that of 2 inches from Orissa to Champaran, and so on.

Compared with the normal falls, it will be found that in Kuch Bihár and its neighbourhood, excessive falls have occurred in some cases, the falls being 20 and 30 inches more than usual. If a line be drawn from about Backergunge in a north-westerly direction up to about the north of Bhágalpur, it will be found that most of the stations to the east of this line have received falls in excess of the normal amounts, while to the west of the line defective

falls have occurred. The defects, however, as a rule, do not much exceed two inches, and a large area indeed is shown where the defect is not larger than one inch.

The areas of largest defect are to be found in the Sonthal Parganas over the greater part of Orissa, and at one or two stations in North Bengal such as Saugor Island and Patuakhali.

The following table gives full data for the comparison of the actual and the normal rainfall of the month of May in all districts of the province. The figures are derived from the average and actual rainfall of the rain-recording stations in each district, due allowance being made for the area which each station represents. This gives a more accurate average than the arithmetical means given in the weekly and monthly meteorological tables. The first column gives the normal or average district rainfall as determined from the rainfall observations of the past 15 years. The second column gives the actual district rainfall as determined from the weighted actual rainfalls of the month at the reporting stations in each district. The third column expresses the ratio of the actual district rainfall of the past month to the normal rainfall as a percentage. The fourth column gives the same information as the third in a slightly different form, stating as a percentage how much the district rainfall of the month varied in excess or defect from the normal:—

Percentage Table for May 1892.

Division.	District.	Normal district rainfall for May.	Actual district rainfall for May 1892.	Percentage of actual to normal rainfall.	Percentage excess (+), defect (−).

* Means of 4 days. | † Mean of 5 days. | ‡ Means of 6 days.

Explanation.—Summary.—The normal means of air pressure and temperature are the arithmetical average or means of the reading during the same period for the last The *humidity* of the atmosphere is expressed at percentage, saturated air being presented by 100. A clear sky is denoted by 0 and an overcast sky by 10. The numbers are the numerical means or average of the rainfall in that district determined from the returns sent in by the subdivisional station for the period in question during the stations in the district sending in returns divided by the number of stations. A rainy day is one on which at least a tenth of an inch fell.

for the week ending Saturday, the 11th of June 1892.

Average humidity at 8 A.M.	Average cloud amount at 8 A.M. for week.	Rainfall of week at observing station.	DISTRICT OBSERVATIONS. RAINFALL. Of week. Mean for district.	Of week. Normal mean.	Since 1st of month. Mean for district.	Since 1st of month. Normal mean.	Since 1st of month. Variation.	Since 16th May 1892. Mean for district.	Since 16th May 1892. Normal mean.	Since 16th May 1892. Variation.	Of week. Average number of rainy days.	Of week. Normal number of rainy days.	Representative station.	District.	Meteorological Division.

Statement of Rainfall in Bengal for the week ending Saturday (8 a.m.), the 11th of June 1892—concld.

Meteorological division.	District.	Station.	Rainfall. Sunday, 5th June.	Monday, 6th June.	Tuesday, 7th June.	Wednesday, 8th June.	Thursday, 9th June.	Friday, 10th June.	Saturday, 11th June.	Total— Number of rainy days.	Total— Rainfall of week.	Average normal rainfall of week.	Total rainfall since 1st of month.	Average total rainfall from 1st of month.	Total rainfall since 16th May 1892.	Average rainfall from 16th May to date.

Explanation.—.....indicate that no rain has fallen. If the return for any day has not been received, the corresponding space is left blank. If any of the returns are wanting, the corresponding spaces in the total rainfall columns are left blank. With reference to the column of rainy days, the definition of a rainy day is when at least 0·1 inch of rain has fallen.

Calcutta, *the 14th June* 1892.

SUMMARY OF THE METEOROLOGICAL AND RAINFALL OBSERVATIONS TAKEN IN BENGAL, AND OF THE METEOROLOGICAL OBSERVATIONS TAKEN IN ASSAM, FOR THE WEEK ENDING 8 A.M., SATURDAY, THE 11TH OF JUNE 1892.

On the last few days of the previous week a rapid increase of pressure had taken place in Bengal and pressure had become largely in excess of the normal, so that the pressure distribution had become very unfavourable for the advancement of the monsoon current and the setting in of the rains over Bengal, though as stated in the report of the previous week, the monsoon current had advanced well into the north of the Bay. On the 4th, however, a reaction had set in and pressure began to fall, and this fall continued on the 5th and 6th, and on the latter day the distribution of pressure became very irregular, and the lowest pressures were reported at Gopalpore and Puri. In addition, too, pressure had become below the normal over the Bay, while slight excess pressure was still recorded in Bengal. Wind directions at the coast stations in the north of the Bay were decidedly irregular, and in Bengal at most stations winds had become easterly. On this day some exceedingly heavy rainfalls were reported in North Bihár and North Bengal, but over the remainder of the province only a few local showers fell. On the 6th, so far as could be detected, there was no sign of any cyclonic circulation of winds in the north of the Bay, and certainly no storm had formed, though perhaps in some parts of the Bay weather may have been a little squally. On the morning of the 7th pressure had again fallen moderately to rapidly, and pressure had become below the normal by amounts which ranged up to nearly a tenth of an inch along the west coast from Gopalpore to Madras. Winds also at the stations on the Circars and Orissa coasts began to show the commencement of a cyclonic circulation, though they were very light in all cases. The lowest pressures reported on this day were at Puri and Gopalpore, and it was evident that a barometric depression had formed, and its position, so far as can be at present roughly judged, was in about latitude 17° or 18° N. and perhaps longitude 88° E., but until the observations from the vessels navigating the Bay have been received and worked out, the precise position of the formation of the storm cannot be accurately given. On the 7th the winds over Bengal became mainly easterly and south-easterly, and may have been influenced by the developing whirl or depression, but this is scarcely probable. Moderate to heavy rain was reported on this day from many of the Bengal stations. On the 8th the storm in the Bay had undergone further development, a rapid fall of pressure had taken place in the north-west angle of the Bay, and in Orissa and at such stations as False Point, pressure had become more than a fifth of an inch below the normal. The cyclonic wind circulation as indicated by the observations at the coast stations had also advanced northwards, and the centre of the storm was at 8 a.m. probably to the east of Puri or Gopalpore, The storm had undoubtedly developed very considerably in the day and was already of moderate severity. From the 8th to the 9th at 8 a.m. the storm developed in intensity with extraordinary rapidity and had become a fierce cyclone, and it had also again advanced slowly in a northerly direction and was probably a little to the south of east of False Point. The increase in intensity may be judged by the fact that there had been a fall of a quarter of an inch in the pressure at False Point, and pressure there was about half an inch below the normal. The position of the cyclone can be fortunately fixed in the afternoon and evening of the 9th, for the Meteorological Department has been favoured with a report by Mr Milner, Senior Branch Pilot, who was on board the P. V. *Sarsuti* which experienced the storm and which passed through the calm centre, and extracts from whose report are given below. The *Sarsuti* it appears entered the calm centre of the cyclone from the north-eastern quadrant between 3 p.m and 4 p.m. of the 9th, and was in it until nearly 7-30 p.m. The position of the *Sarsuti* at this time is given as 55 miles E. by N. of False Point, so that again the storm had moved in a northerly direction, and its centre was about 80 miles from, and almost due south of, the mouth of the Hooghly, and considering the direction in which the storm had been moving on the 7th and 8th, which, so far as can be judged, was almost due north, it appeared highly probable that the storm would reach the mouth of the Hooghly, and might possibly subsequently advance up the basin of the Hooghly towards Calcutta. During the evening and night of the 9th the rate at which the storm was moving must have increased very rapidly, and the storm must also have commenced to recurve towards the west, for at 11 p.m. of the 9th the centre was to the south-south-west of Saugor Island and about 45 miles only from the mouth of the Hooghly, so that it had moved 35 miles in 5 or 6 hours. At 2 a.m. of the 10th it was to the west-south-west of Saugor Island, and at 5 a.m. it was almost on the coast line between Calcutta and Balasore. So far as can be ascertained, the storm centre crossed the coast between Balasore and Saugor Island at about 6-30 a.m. on the 10th, and nearer the former station than the latter. As the distance between the mouth of the Hooghly and Balasore is not more than about 50 to 60 miles, the storm could only have passed about 40 or 45 miles to the west of the mouth of the river. In passing it may be remarked that the great Calcutta cyclone of 1864, which caused the storm wave in the Hooghly and the consequent enormous destruction of shipping and property, crossed the coast a little to the west of the mouth of the Hooghly, and the point at which the storm which is now being described

struck the land was probably not more than 30 miles to the west of that of the 1864 cyclone. The difference between the paths of the two cyclones was this, that in the present year the storm commenced to recurve to the west as it approached close to the head of the Bay, and that when it reached the land it recurved still more rapidly to the west and took up a west-north-westerly direction, which carried the storm rapidly away from Calcutta. On the other hand, the storm of 1864 continued in its northerly course after reaching the land, and later on recurved slightly towards the east, thus bringing it nearer to Calcutta, though the centre of the cyclone of 1864 was never nearer than 30 miles to the west of Calcutta.

The storm having crossed the coast a little to the east of Balasore about 6-30 a.m. of the 10th, when the extraordinarily low pressure of 28·670 inches was registered, it advanced in a west-north-westerly direction, and at 8 a.m. the centre was to the north or north-west of Balasore, when a pressure of 28·731 inches was registered. From the 10th to the morning of the 11th the storm continued its west-north-westerly advance, and the centre was on this day apparently in the south-west corner of Chota Nagpur, but as there are no meteorological observatories in the immediate neighbourhood of this area, it is impossible to state its position with certainty. The rapidity of the advance of the storm on this day was also very much greater than it had been, and while from the morning of the 9th to the 10th the distance travelled by the storm cannot have been more than 90 to 100 miles, from the 10th to the 11th it had travelled over probably 250 miles, and thus had more than doubled the rate of its advance.

The strength of the storm may be judged by the excessively low pressures registered at all the coast stations in the north-west angle of the Bay during the advance and passage of the storm which were much lower than during the passage of any storm during recent years, and notably by the pressure at Balasore at 6-30 a.m. on the 10th of 28l·670 inches. Exceedingly strong winds also prevailed in the neighbourhood of the storm, and for a long distance to the east and south of it. At Balasore during the early morning of the 10th winds were reported to be of hurricane force. Up to the present time the only report of any vessel which was involved in the storm which has reached the Meteorological Department is that of the *Sarsuti* sent in by Mr. Milner above referred to, and his description of the weather experienced near the centre of the storm may be briefly stated:—"The wind kept at S.E. and E.S.E. till 3 p.m. (of the 8th), when it died away to a calm; it had been blowing a moderate gale; wind was very light until 7-30 p.m., when it began to freshen, and became very violent at 9 p.m. from the W.S.W.; it was most furious at midnight to 1 a.m. (of the 9th), when it seemed doubtful if the masts would not be blown out of the vessel, the wind being then S.W. It is doubtful if the wind was not as strong as in the cyclone of May 1887 (when the *Sir John Lawrence* and the *Retriever* were lost), at which time I was on board the P V. *Cassandra* and nearly in the same position. On this occasion the vessel was under bare poles." The lowest pressure recorded during the calm centre in the *Sarsuti* was about 28·8 inches, which being reduced for temperature and gravity would be probably about 28·6 inches. The cyclone, then, was undoubtedly one of the fiercest of recent years, and in addition it affected a very large area, and the bad weather accompanying it extended even to such stations as Chittagong, Akyab, and Diamond Island to the east and south-east, and to Coconada on the south-south-west of the storm.

Pressure.—Owing to the formation and advance of the cyclone, pressure has been rather largely in defect of the normal in all districts; the mean defect is largest at Balasore, where it equals 0·195″, and it generally exceeds a tenth of an inch in the south-western districts, but the defects are comparatively small in the north of the province, where at such stations as Purnea, Darbhanga, and Motihari the defects are only one or two-hundredths of an inch.

Temperature.—Owing to the heavy rainfall, temperature has been below the normal in all districts except East Bengal, the defects equalling 4° and 5° in South Bihár and Chota Nagpur, and 2° and 3° degrees in Orissa and South-West Bengal and North Bihár. In Assam and in East Bengal temperature has been about 1° above the normal.

Rainfall.—Exceptionally heavy rain was brought up by the cyclone to parts of Orissa, and on the 10th, False Point reported 11·27 inches, while for the week this station has received 17·20 inches. Several other stations also reported falls of about 10 inches and upwards during the week. Rainfall has therefore been in very large excess of the normal in Orissa, and in large excess in Chota Nagpur and Bihár. In South-West Bengal about a normal fall has occurred, but owing to the indraught towards the storm, the rainfall in East and North Bengal has been lighter than usual, and the falls do not amount to more than about half the normal.

The following table gives the summary of the temperature and rainfall data of each of the seven meteorological divisions of the province for the week ending Saturday, the 11th of June 1892:—

Meteorological Divisions.	Temperature.						Rainfall.									
	Highest observed during week.	Lowest observed during week.	Averages for week.			Average mean of week above or below normal mean of week.	Of week.			Rainy days.			Since 1st of month.		Since 16th May 1892.	
			Of highest of each day.	Of lowest of each day.	Of mean for each day.		Average.	Normal average.	Variation.	Average number in week.	Normal average number in week.	Variation.	Average.	Normal average.	Average.	Normal average.

	Inches.
The mean 10 A.M. pressure of the seven days	29·499
	°
The mean temperature of the seven days	84·3
The extreme variation of temperature	17·4
The maximum temperature	95·0
	%
The mean 10 A.M. relative humidity of the seven days	79
The total fall of rain from 5th to 11th June 1892	4·07

The daily mean temperatures are the crude means of maximum and minimum temperatures.

J. H. Gilliland,
For Meteorological Reporter to the Govt. of India.

Meteorological Office, India;
The 13th June 1892.

Statement showing the Results of the Registration of Births and Deaths in the principal Municipalities in Bengal during the week ending with Saturday, the 21st May 1892.

	Chalsa Bazar	*North*—Killcott tea-garden. *South*—Shilshilbasi. *East*—Killcott. *West*—Gokuljhora and Satkhya.

H. J. S. COTTON,
Offg. Chief Secy. to the Govt. of Bengal.

PUBLIC NOTICE

The 20th June 1892.—All persons intending to go on pilgrimage to Mecca are hereby warned that it has been officially reported by Her Majesty's Ambassador at Constantinople that the Mecca and Medina roads are unsafe.

H. J. S. COTTON,
Offg. Chief Secy. to the Govt. of Bengal.

NOTIFICATION.

The 13th June 1892.—It is hereby notified for general information that His Honour the Lieutenant-Governor of Bengal, in the exercise of the powers vested in him by section 13, clause (1), and section 14 of the Bengal, North-Western Provinces and Assam Civil Courts Act XII of 1887, is pleased to direct that, with effect from the 24th October 1892, the local limits of the jurisdictions of the Munsifs of Moradnagar and Ramroygram, in the district of Tippera, shall be incorporated within the local limits of the Sadar Munsifi of Tippera, and that the Munsifs now holding their Courts at Moradnagar and Ramroygram, respectively, shall thereafter hold their Courts at Comilla.

H. J. S. COTTON,
Offg. Chief Secy. to the Govt. of Bengal.

PUBLIC WORKS DEPARTMENT,—BENGAL.

DARJEELING,
The 15th June 1892.

CHARLES H. TAWNEY,
Offg. Director of Public Instruction.

Orders by the Vice-Chancellor and Syndicate of the University of Calcutta.

THE undermentioned students have been declared entitled to Maharaja Sir Jotendra Mohan Tagore's Medals for the year 1891 on the result of the examination held by the Tagore Law Professor in the subject of his lectures (Hindu Law of Endowments) :—

Das, Satyendranath ... Gold medal.
Bandyopadhyay, Haripada ... Silver „

A. M. NASH, *Registrar.*

SENATE HOUSE, *the 18th June* 1892.

EDUCATIONAL PROSPECTUS.

THE Calcutta Medical College Session, 1891-92, will commence on the 23rd June next. Students who may be desirous of commencing their studies are requested to apply to the Principal between the hours of 11 A.M. and 4 P.M. on or before that date.

Students are expected to enter formally and commence attendance at the College upon the date named. Under exceptional circumstances a student will be permitted, at the discretion of the Principal, to extend the time to July 1st, but under no circumstance will any application for entrance be entertained after that date.

2. Ten free presentations for a year will then be awarded. These are given to students according to their relative positions in the University B.L., B.A., and F.A. examinations, preference being given to those who have passed the highest examination.

3. No person shall be enrolled as a matriculated student who has not previously passed the First Arts examination of the Calcutta or an Indian University, or a preliminary Arts examination of the United Kingdom recognized by the British General Medical Council.

4. All matriculated students of the College shall pay Rs. 15 on entrance, Rs. 35 for the summer session on the 23rd June, and Rs. 35 for the winter session on 1st November of each year. Rupees 6 extra will be required from each student for each course of dissections. Fees once paid cannot be refunded.

Muhammadan students are required to pay Rs. 15 on entrance and one-third fee, *i.e.*, Rs. 12 per session. The remaining two-third fees are charged to the Mohsin Fund.

5. Any matriculated student of the College may, with the permission of the Principal and the Professor of the subject, attend courses of lectures or departments of hospital practice in addition to the full curriculum for the year, and shall be entitled to certificates of attendance at such extra lectures, if the Professor is satisfied that he or she has really studied the subject. The fees payable in advance for such additional courses are the following:—

	Rs.
For a single course of lectures on each subject in one year ...	40
For six months' attendance in each department of hospital practice	60

6. Any matriculated student who leaves the College before completing his University course, with the object of continuing his studies at a medical school in Europe, may receive certificates of attendance at lectures on payment of fees at the rate fixed in the foregoing rule. But in calculating the sum to be so paid, the amount of the fees already paid by him as a regular student, or, in the case of a free student, the amount which would have been paid by him had he been a paying student, shall be deducted.

7. Any person not being a matriculated student of the College who wishes to attend any course of lectures, or any department of hospital practice, may do so with the permission of the Principal and Professor of the subject on payment, in advance, of fees at the rates fixed in paragraph 5. If he has passed the Entrance examination of the University, he shall receive certificates of attendance at lectures. If he has not passed the Entrance examination, he shall receive no class certificates.

8. College scholarships (*vide* paragraphs 9 and 10), prizes and certificates of honour are open for competition only to matriculated students of the College, military medical pupil and female certificate classes.

9. Junior scholarships of Rs. 8 per mensem and free tuition for one year are annually awarded to 10 students of the 2nd and to 10 of the 3rd year, on the results of the 1st year's Test and Honour and Preliminary Scientific L.M.S. and M.B. examinations respectively.

10. Ten senior scholarships of Rs. 12 per mensem and free tuition tenable for two years are annually awarded to students of the 4th year on the results of the University first examination in medicine. But these shall not be awarded to students who gain Durga Charan Laha scholarship of Rs. 30 per mensem for two years, nor to other scholars. Students who have failed from any cause to pass at their first chance are not eligible for these scholarships (junior and senior).

The Goodeve scholarship of Rs. 12 per mensem, tenable for one year, is annually awarded to a matriculated student of the 5th year, on the result of the midwifery test examination of the 4th year.

The F.C. Chatterjee scholarship of Rs. 17 per mensem, tenable for a year, is annually awarded to the best matriculated student of Native Indian extraction, and whose conduct is certified to be good, in histology at the end of the 4th year. The examination takes place in June each year.

The Abdul Gunny scholarship of Rs. 26 per mensem, tenable for one year, is annually awarded to the end of the 4th year to the best matriculated student in all subjects at the class examinations of the 1st to 4th year inclusive. The award is made in May.

The Duke of Edinburgh's prize is awarded to the best in surgery among the matriculated students at the end of the 4th and 5th year. The examination takes place in May.

The Bhola Nath Bose's prize of Rs. 40 is awarded to the 4th-year matriculated student who proves himself to be the most successful at bedside diagnosis of disease, in surgery and medicine in alternate years. The award is made in May.

A gold medal and certificates of honour are awarded to the best students in each subject at the test and honour examinations.

The Goodeve and Macnamara silver medals are awarded to the best of the 1st-year native students in anatomy and chemistry respectively, on the result of the tests and honour examinations.

A prize in Clinical Medicine is awarded annually to the best clinical clerk of the 4th and 5th year matriculated students.

A prize in Clinical Surgery is awarded annually to the best clinical dresser of the 4th and 5th year matriculated students.

The Rivers Thompson silver medal is annually awarded to the best Mahomedan student who passes the final L.M.S. or M.B. examination of the Calcutta University.

The Lady Rivers Thompson prize of Rs. 50 is awarded to the lady student who obtains the highest number of marks at the final examination.

No student shall be allowed to compete for a prize when attending a course in excess of the number prescribed in the College curriculum.

11. College scholars who receive less than Rs. 20 per mensem, are not required to pay Rs. 35 per session. All other scholars shall pay fees as matriculated students. These may pay their fees in advance, or have their scholarship money deducted till the full amount is received.

12. Any student holding a Medical College scholarship (paragraphs 9 and 10) will be permitted to draw the stipend of that scholarship at any recognised medical school in the United Kingdom, provided he furnishes, from the head of such school, a certificate of good conduct and diligence. These college classes are recognized by all the medical schools in the United Kingdom.

13. The class assistants to the Professors of Pathology and Comparative Anatomy will each receive a salary of Rs. 10 monthly.

14. COURSE OF STUDY FOR MATRICULATED STUDENTS.

1st year.	*2nd year.*	*3rd year.*
Descriptive and Surgical Anatomy. Chemistry. Botany. Dissections.	Comp. Anatomy, Comp. Physiology, and Zoology. Descriptive and Surgical Anatomy. General Anatomy and Physiology. Chemistry. Practical Chemistry. Materia Medica. Botany. Dissections. Pharmacy—three months. Preliminary Scientific L.M.S. and M.B. examination.	Materia medica. Dissections. Physiology. Hospital practice—one year. 1st M.B. and L.M.S. examination.

4th year.	*5th year.*
Medicine. Surgery. Midwifery. Medical Jurisprudence with demonstrations. Hospital practice—twelve months.	Medicine and Clinical Medicine. Surgery and Clinical Surgery. Midwifery and six labour cases. Medical Jurisprudence with demonstrations. Pathology with demonstrations. Ophthalmic Medicine and Surgery. Hygiene. Dentistry. *Post-mortem* records. Hospital practice—six months. Out-door and Eye Infirmary practice—three months each.

Final M.B. or L.M.S. examination.

15. A lady student who has passed the University F.A. examination shall be enrolled and pay fees as a matriculated student. She will get a special scholarship of Rs. 20 per mensem for five years.

16. A public competitive examination will be held annually about the month of February at the head-quarters of divisions and districts marginally noted, for the admission of candidates to the Military pupil class of the Medical College.

Calcutta.	Umballa.
Allahabad.	Meean Meer.
Morar.	Rawul Pindi.
Lucknow.	Peshawur.
Meerut	Kasauli.

17. Candidates must be of European or Eurasian parentage, between 16 and 19 years of age, of healthy constitution, physically fit for military service, and of good character. They will be required to produce certificates showing that they possess those qualifications.

18. They will undergo a training in the Calcutta Medical College for four years at Government expense, after which period, if reported qualified, they will be gazetted into the Subordinate Medical Department and transferred to a military hospital for duty.

19. COURSE OF STUDY FOR MILITARY MEDICAL PUPILS.

1st year.	*2nd year.*
Anatomy—Descriptive and Surgical. General Anatomy and Physiology. Materia Medica. Chemistry (30 elementary lectures). Dissections. Outdoor Dispensaries, Medical and Surgical—three months each. Compounding Dispensary—six months.	Anatomy—Descriptive and Surgical. General Anatomy and Physiology. Materia Medica. Chemistry (full course). Dissections. Hospital practice—eight months. Compounding Dispensary—four months. Examinations (final) in Anatomy, Physiology, Materia Medica, and Chemistry.

3rd year.	*4th year.*
Medicine and Clinical Medicine. Surgery and Clinical Surgery. Midwifery. Hygiene. Pathology. Hospital practice—one year. *Post mortem* cases—six each. Examinations in Hygiene and Pathology.	Medicine and Clinical Medicine. Surgery and Clinical Surgery. Midwifery, Clinical. Medical Jurisprudence. Labour cases—six each. Hospital wards—six months. Ophthalmic wards and lectures—three months. Dental dispensary and lectures— ditto. Examinations (final) in Medicine, Surgery, Midwifery, Jurisprudence, Ophthalmic Medicine, and Dentistry.

20. FEMALE CERTIFICATE CLASS.

Lady students must be over 17 years of age before commencing their studies.

They must have passed the Entrance Examination of the Calcutta University or an examination officially recognised by that University as equivalent to the Entrance Examination. (The certificate of matriculation of the Melbourne University will be accepted.)

New students may begin their studies from 1st March, but are expected, at latest, to enter formally and commence attendance at the College when the Session opens on 23rd June. Under very exceptional circumstances a student will be permitted, at the discretion of the Principal, to extend the time to July 1st, but no application for admission will be entertained after that date.

The duration of the course will be four years.

Tuition (pending orders to the contrary) will be free.

20*a*. Students, preferably native ladies, may reside in the Sornomoye Hostel. Applications for residence to be made to the Lady Superintendent of the Hostel, or to the Secretary to the Countess of Dufferin Branch Committee.

21. The following is the curriculum :—

1st year.

Anatomy.
Materia Medica.
Dissections.
Chemistry (30 elementary lectures).
Compounding (six months).
Test examinations in Anatomy, Materia Medica, and Chemistry.

2nd year.

Anatomy.
Physiology (elementary).
Materia Medica.
Chemistry (full course).
Dissections.
Attendance at six *post-mortem* examinations.
Hospital attendance (including out-door departments) 12 months.
Pass examinations in Anatomy, Materia Medica, and Chemistry.

3rd year.

Medicine and Clinical Medicine.
Surgery and Clinical Surgery.
Medical Jurisprudence (demonstrations).
Midwifery (with attendance at three labour cases).
Pathology (with attendance at six *post-mortems*).
Physiology.
Hospital attendance (of which three months in the ophthalmic wards.)
Pass examinations in Pathology, Physiology, and Medical Jurisprudence.

4th year.

Medicine and Clinical Medicine.
Surgery and Clinical Surgery.
Midwifery (including six labour cases).
Hospital practice (of which six months in the Medical and Surgical wards, *minus* 15 attendances at the Dental Dispensary; and six months exclusively in the midwifery wards, when the students are to take regular tours of duty, night and day, assisting the regular work of the Hospital.
Dentistry (optional).
Pass examinations in Medicine, Surgery, and Midwifery.

Students who are successful are entitled to receive the certificate of the College qualifying them to practice medicine, surgery, and midwifery. A fee of Rs. 10 is charged for each certificate.

22. The following rules will be observed in regulating advancement from class to class :—

(1) Test examination at the end of the first year. If a student obtains less than 10 per cent. of the marks in any two out of three subjects of examination, she shall not be allowed to continue in the College.

(2) Pass examinations at the end of the second and third years. In order to pass, a student must gain 33 per cent. in each subject of examination. If a student fails in any two of the three subjects, or, failing in one subject only, if she gains less than 25 per cent. in that subject, she shall be put back for one year. If she fails in one subject only, gaining 25 per cent. or more in that subject, she shall be promoted to the next class, but will be required to submit to re-examination in that subject, in addition to the examination in the regular subjects at the end of the following year. She will be permitted to attend lectures on the subject in which she has failed. Failure on re-examination will carry the same penalty as original failure.

(3) Pass examination at the end of the fourth year. The same rules as apply to the previous pass examinations, with the exception that if a student, failing in one subject only, gains 25 per cent. in that subject, she will be referred back to her studies for a period of six months, at the expiration of which she will be entitled to re-examination after furnishing proof of having attended hospital practice during that period.

23. Female students who have not passed the Entrance or its equivalent, will be admitted into the Eden Hospital to learn midwifery. These will receive Rs. 20 per mensem. After a year's tuition and bedside practice, if found proficient, they will obtain a certificate qualifying them to practise midwifery. The fee for each certificate is Rs. 5.

24. Female students who have not passed the Entrance or its equivalent, but who read and write Bengali, can be admitted in the Eden Hospital as pupil dâis.

25. Of these, eight will receive Rs. 6 per mensem and the rest will be taught free. After 12 months' tuition and bedside practice, if found proficient, they will obtain a certificate qualifying them to practise midwifery.

26. All certificates are to be registered in the Principal's office.

MEDICAL COLLEGE OFFICE,
Calcutta, 2nd May 1892.

E. A. BIRCH,
Principal, Medical College.

NOTIFICATIONS OF THE BOARD OF REVENUE.

No. 868B.

NOTICE is hereby given that the Seventh Sale of Opium, the Provision of 1890-91, will be held at the Government Opium Sale-room, No. 2, Bankshall Street, on Monday, the 4th July 1892, at 11 A.M., and will comprise 4,500 chests, viz.—

	Chests.
Opium manufactured at the Patna Factory	2,150
Ditto ditto at the Ghazeepore Factory	2,350
Total ...	4,500

2nd.—The general conditions of the sale now advertised will be the same as usual. They may be ascertained by reference to the Notification issued on the 24th November 1891, and published in the *Government* and *Exchange Gazettes*, or on personal application at the Office of the Board of Revenue.

3rd.—The latest dates for deposit and clearance will be the 9th and 19th July 1892, respectively, that is to say, no Bank of Bengal Receipts, Government Promissory Notes, or other public securities that may be tendered for deposit in redemption of Promissory Notes given by purchasers in the sale-room will be received after 1-30 P.M. of Saturday, the 9th July 1892, and no Bank of Bengal Receipts in full payment of lots will be accepted after 3-30 P.M. of Tuesday, the 19th July 1892.

4th.—In addition to the quantity above advertised for sale, the following quantities, more or less, of the Opium manufactured at the Patna and Ghazeepore Factories will be brought to sale down to December next about the dates specified below. The Board of Revenue, however, reserve to themselves the right of altering these dates should circumstances render it expedient to do so :—

DATES.	Manufactured at the Patna Factory. About chests.	Manufactured at the Ghazeepore Factory. About chests.	Total, about chests.
On or about Wednesday, 3rd August 1892 ..	2,150	2,350	4,500
On or about Thursday, 1st September 1892 ...	2,150	2,350	4,500
On or about Monday, 10th October 1892 ...	2,150	2,350	4,500
On or about Wednesday, 2nd November 1892 ...	2,150	2,350	4,500
On or about Thursday, 1st December 1892 ...	2,150	2,350	4,500
Total ...	10,750	11,750	22,500

By order of the Board of Revenue, L. P.,

T. INGLIS, *Offg. Secretary.*

BOARD OF REVENUE, L. P., FORT WILLIAM, *the 30th May* 1892.

Nadia Collectorate, the 13th May 1892. K. G. GUPTA, Collector.

NOTICE is hereby given that proprietary right of Government, as specified in the conditions of sale below, to the undermentioned estate situate in the district of Dacca, will be put up to sale at the Dacca Collectorate on the 22nd June 1892, corresponding with 9th Ashar 1299 B.S.

The purchaser will be subject to the following conditions of sale :—

CONDITIONS OF SALE.

1*st.*—The estate to be sold to the highest bidder above the upset price, which will be fixed by the Collector at the time of sale. The purchaser of this estate will be considered as the proprietor of the estate, and the entire proprietary right of Government in such estate will be transferred to him, subject to the revenue fixed in perpetuity.

2*nd.*—The sale to be subject to existing leases and to the rights conferred by the settlement proceedings and by the laws in force, and purchasers to be bound to respect the rights of resident cultivators who have signed the schedule of assessment prepared by the Revenue authorities.

3*rd.*—If the amount of purchase-money do not exceed Rs. 100, the whole amount to be paid down at once.

4*th.*—If the amount of purchase-money exceed Rs. 100, one-fourth of the amount bid to be immediately deposited. If the balance be not paid by noon of the fifteenth day after the sale, reckoning the day of sale as one, or if that day be a close holiday, then by noon of the first succeeding office day, the sale is to be cancelled (the sum deposited being forfeited to Government), and the estate to be again put up to sale at the risk of the defaulting purchaser, after issue of advertisement, as in the case of original sale—

Number on the district roll.	Name of estate and pargana.	Approximate area in acres.	Government revenue assessed.

Midnapore Collectorate, the 18th May 1892.

R. C. DUTT, Collector.

NOTICE is hereby given, under sections 6 and 13, Act XI of 1859, that the undermentioned estate in the district of Bogra will be put up for sale at the Collector's Office of that district on 25th June 1892 for arrears of revenue and other demands, which, by the Regulations and Acts in force, are directed to be realized in the same manner as arrears of revenue.

When in columns 5, 7, and 9 of the appended statement it is stated that only a share is to be sold, a separate account is kept for such share, and the other share or shares in the estate are excluded from the sale :—

1	2	3	4	5	6	7	8	9

Bogra Collectorate, the 20th May 1892.

P. C. LYON, Officiating Collector.

NOTICE is hereby given that the undermentioned plots of land, no longer required by Government, situated along the East Indian Railway, in the district of Hooghly, will be put up to sale at 12 o'clock on the 12th July 1892, corresponding with the 29th Ashar 1299 B.S.

The purchasers of the several plots of land will be subject to the following conditions:—

1*st*.—The purchasers will have no power to make any excavations on the lands nearer than 15 feet from the railway fencing, or plough the land closer than 3 feet from its foundation.

2*nd*.—If the amount of purchase-money does not exceed Rs. 100, the whole amount must be paid down at once.

3*rd*.—If the amount of purchase-money exceeds Rs. 100, one-fourth of the amount must be immediately deposited. If the balance be not paid by noon of the fifteenth day after the sale, reckoning the day of sale as one, or if that day be a close holiday, then by noon of the first succeeding office day, the sale shall be cancelled (the sum deposited being forfeited to Government), and the lot again put up for sale at the risk of the defaulting purchaser after issue of advertisement as in the case of original sale.

4*th*.—The plots of land will be sold revenue-free to the highest bidders.

5*th*.—The purchasers shall be put in possession on receipt by the Collector of the orders of the Board confirming the sales.

Consecutive number of lot	Name of district.	Pargana and mauza.	Number of mile on which land is situate.	Situated on which side of the railway.	Approximate area of lot in bighas and in acres. Oudh Forest Department.

BAHRAMGHAT DEPOT.

ON THE OUDH AND ROHILKHAND RAILWAY.

FROM this date the prices of sál beams and scantlings supplied from this depôt will be as follows:—

BEAMS.—21 feet length, at Rs. 2-10 per cubic foot.
22 ,, ,, 2-12 ,,
23 ,, ,, 2-14 ,,
24 ,, ,, 3 ,,

Above the length given two annas per foot run will be charged. Any inches over the foot will be charged as a foot.

SCANTLINGS—From 12 to 20 feet, at Rs. 2-8 per c. ft.
Under 12 and over 7 ,, 2-4 ,,
Under 7 feet ,, 2 ,,

The above prices are for ordinary building purpose.

For *Planking Sleepers*, &c., special rates will be fixed by agreement.

The Department will still take orders for buildings all over at Rs. 2-4 per cubic foot, provided the scantlings are taken in fair proportion.

Second and Third Class Timber will be sold and price fixed by agreement.

Auction Sales will be held from time to time to clear off stock.

For further particulars apply to the Officer in charge.

By order of the Conservator of Forests, N. W. P. and Oudh, Oudh Circle.

KANHYA LAL,
Sub-Assistant Conservator of Forests,
Bahramghat Division.

Bahramghat, the 1st April 1886.

Reduction in price of Cinchona Febrifuge.

FROM 1st April 1891, and until further orders Cinchona Febrifuge can be purchased by all Government officers and by any one taking *ten pounds* at a time, from the Superintendent, Botanic Garden, Calcutta, at the following rates. Four ounce tin Rs. 2-8; eight ounce tin Rs. 5; one pound tin Rs. 10 The general public can be supplied by the Superintendent, Botanic Garden, *for cash only* at the undernoted rates:—Per four ounce tin Rs. 3; per eight ounce tin Rs. 6; per pound tin Rs. 12. This medicine is also sold by the principal European and Native druggists in Calcutta. Postage four annas per 4 ounce tin, eight annas per 8 ounce tin, and twelve annas per pound tin, in addition to the foregoing rates.

Reduction in the Price of the Pure Sulphate of Quinine.

MANUFACTURED AT THE BENGAL GOVERNMENT CINCHONA PLANTATION.

ON and after 1st April 1891 the price of this quinine will be as follows:—

1 Pound tin Rs. 16, or, post free, Rs. 16-12.
½ ,, ,, ,, 8 ,, ,, ,, ,, 8-8.
¼ ,, ,, ,, 4 ,, ,, ,, ,, 4-8.

Analysis shows this quinine to be of the purest manufacture, and it is guaranteed to be free from wilful mixture with the inferior alkaloids, Cinchonine and Cinchonidine. It is for sale only to Government officers, and only for cash, and may be had from the Superintendent, Botanic Garden, Sibpur, near Calcutta. It can be had either white or coloured pink.

IS hereby given that as the Court of Wards has accepted the management of the Chanchra Estate, Jessore, it will not be responsible for any debts which the marginally noted Wards may incur without its express sanction.

Raja Gunada Kantha Ray, Kumar Hemada Kantha Ray, minor sons of the late Kumar Manada Kanta Ray.

A. EARLE, Collector.
Dated Jessore, the 30th May 1892. (233—3)

GOVERNMENT STATIONERY OFFICE.

Calcutta, the 7th June 1892.

Notice.

GOVERNMENT Officers are informed that a stock of 300 Whitaker's and 65 Tucker's padlocks, of medium sizes, exists in the Stationery Office, Calcutta, and that these are available on payment of cost for them. Requisitions should be sent to the undersigned.

F. C. BARNES, Superintendent.

Notification.

TO be peremptorily sold pursuant to a decree and order of the Calcutta High Court, Original Jurisdiction, made in suit No. 43 of 1889, Woopendro Nath Bose *versus* Rai Greesh Chunder Dass Bahadur, and dated respectively 14th March 1889 and 27th August 1891, by the Registrar of the said Court in his sale-room in the court-house, on Saturday, the 2nd July next, at 12 o'clock noon, the undermentioned property:—

1. An undivided one equal third part or share of and in all that piece or parcel of tenanted land, No. 82, formerly No. 60, Holdin[illegible] No. 190, Block No. XIII, Upper Circular Road, North Division, in the town of Calcutta, containing by estimation 15 bighas 16 cottahs and 8 square feet of land, be the same a little more or less, and bounded as stated in the mortgage on the north by the tenanted land of Kally Prosonno Sing; on the south by the garden house and land of Manickjie Rustomjie; on the east by the Upper Circular Road; and on the west partly by a tank of Wooma Churn Haldar, partly by the house and land of Dwarka Nath Ghose and Wooma Churn Ghose, partly by the house and land of Gunga Narain Sen, and partly by the land and tank of Nundo Lall Bose and Dwarka Nath Ghose. In consequence of the opening of a new road, this property is now bounded on the north, south, and west by the new road, and on the east by Upper Circular Road.

The abstract of title and conditions of sale may be seen at the Registrar's Office, or at the Office of Messieurs Harriss and Simmons, the Attorneys for the Plaintiff, at No. 6, Hastings Street, in Calcutta, and will be produced at the sale.

R. BELCHAMBERS, Registrar.
Harriss and Summons, Plaintiff's Attorneys.
Calcutta High Court, Original Side, the 25th May 1892.
(230—4)

New Birbhum Coal Company, Limited.

NOTICE is hereby given that the Thirty-eighth Ordinary General Meeting of the Shareholders of the above Company will be held at No. 103, Olive Street, on Wednesday, 22nd June 1892, at noon, for the purpose of receiving the Directors' Report, passing the accounts for the half-year ending 30th April 1892, electing Auditors, declaring a dividend, and for the transaction of any other business that may be brought forward. The Share Transfer Books of the Company will be closed from the 8th till 22nd June, both days inclusive.

BALMER, LAWRIE & Co., Managing Agents.
Calcutta, the 7th June 1892.
(242—3)

PURSUANT to a decree of the High Court of judicature at Fort William in Bengal, in its Ordinary Original Civil Jurisdiction, made in suit No. 542 of 1891, wherein William Jupe was plaintiff and Mary Catherine Gellott was defendant, the creditors of the late Charles Frederick Norman Gellett, late of No. 5, Wellington Street, in Calcutta, builder and contractor, who died on the 2nd day of August 1891, are, on or before the 30th day of July 1892, to send to the Office of the Registrar of this Court, in its Original Side, their names, addresses and descriptions, the full particulars of their claims, a statement of their accounts, and the nature of the securities (if any) held by them, or in default thereof they will be peremptorily excluded from the benefit of the said decree.

Every creditor holding any security may produce or transmit the same to the Registrar with the particulars of his claim, or shall produce the same before the Registrar on the 16th day of August at the hour of 12 o'clock noon, being the time appointed for adjudication on the claims.

R. BELCHAMBERS, Registrar.
S. J. Leslie & Son, Plaintiff's Attorneys.
Calcutta High Court, Original Side, the 9th June 1892. (261—1)

Notification.

TO be peremptorily sold pursuant to a decree and order of the Calcutta High Court, Original Civil Jurisdiction, made in suit No. 165 of 1889, the Administrator-General of Bengal *versus* Jadubkristo Bose, and another, and dated respectively 14th July 1890 and 19th December 1891, by the Registrar of the said Court in his sale-room in the court-house, on Saturday, the 16th of July next, at twelve o'clock noon, the following property:—

No. 62, Grey Street, Hatibagan, Sootanooty, Calcutta, being a brick-built house and premises, with the land appertaining thereto, formerly described as containing about 5¼ cottahs of rent-free land, but by measurement found to contain four cottahs two chittacks and twenty feet, and bounded on the north partly by Grey Street and partly by land which belonged to the late Prankissen Dutt; on the east by Jadoonath Ghose's house; on the south by Kedarnath Bhattacharjee's land; and on the west by the said Bhattacharjee's dwelling-house.

The abstract of title and conditions of sale may be seen at the Office of the said Registrar, or at the Office of Mr. R. Rutter, No. 10, Hastings Street, in Calcutta, on any day before the sale, and will be produced at the sale.

R. BELCHAMBERS, Registrar.
Richard Rutter, Plaintiff's Attorney.
Calcutta High Court, Original Jurisdiction, the 6th June 1892. (267—1).

Notice

THE public are hereby informed that Thakur Churn Roy of Bowbazar, in the town of Calcutta, has ceased to be in our service from Pous 1298 B.E., and that we have revoked the authority that we granted to him by a Bengali ammokhtiarnama executed by us in his favour on the 18th April 1888, corresponding with 7th Baisakh 1295.

[Second Publication.]

AUSTRALIA—South coast—Port Phillip.

Regarding the buoyage of that port.

The British Admiralty publishes (No. 198 of 1892) the following information relating to port Philip received from the Government of Victoria, dated 11th March 1892:—

1. Nicholson knoll, on the southern side of South channel, and north-east of the Quarantine station, has been removed by dredging, and the two buoys (black and white chequered) previously marking it have been withdrawn.

2. A 26 feet patch has grown up north-east of the former position of Nicholson knoll, which is marked by a *conical* buoy, painted black and white, in horizontal stripes, and lying with Portsea pier head bearing S. $\frac{3}{8}$ W., distant $1\frac{1}{10}$ miles, and Observatory point flagstaff W. by S. $\frac{1}{8}$ S.

3. A narrow ship channel, with a depth of 20 feet at low water, the northern edge of which is marked by beacons, has been dredged between Geelong Outer and Inner harbours.

[Second Publication.]

CHINA—East coast.

HONGKONG HARBOUR—Eastern approach.

Shoal northward of Quarry point, &c.

The British Admiralty has given notice (No. 209 of 1892) of the existence of a shoal lying northward of Quarry point, in the fairway of approach to Hongkong harbour from the eastward. This shoal, extending 2½ cables in a N. by W. and S. by E. direction, with a breadth of three-quarters of a cable, has 5 fathoms on it at low water of lowest spring tides, over sand and shells, with 6 to 8 fathoms around. Its northern end lies with Quarry point bearing S. by E., distant 5 cables, and Quarry S.W. by W.

Also, that the depths of water are found to be generally reduced between Lyemun pass and Kaulung peninsula.

AUSTRALIA—Keppel bay.

Additional Red Sector from Sea Hill Light.

The Port Master, Brisbane, has given notice (No. 4 of 1892) that on and after 15th June next a beam of red light will be shown from the Sea Hill Light between the bearings of S. 6° W. and S. 25° W.

If the entrance leading lights on Balaklava Island at any time are obscured, a vessel entering from the North should keep on the western edge of the red sector until the Cape Capricorn lights were in line bearing S. 70° E.; or, if from the south, should run down that lead until on the western edge of the above-mentioned red sector, from which point she should steer S. by W. ½ W. through the white light. When the Capricorn light is obscured by the high land of Cape Keppel, a vessel will be clear of the Timandra Bank, and may either anchor or proceed as considered advisable.

BIHÁR INDUSTRIAL SCHOOL.

GENERAL DEPARTMENT—EDUCATION.

Darjeeling, the 13th June 1892.

RESOLUTION No 1696.

READ again—

The following papers on the subject of the reorganization of the Bihár Industrial School:—

(1). Letter to the Commissioner of the Patna Division, No. 14T.—G., dated the 2nd November, 1891.

(2). Letter from the Commissioner of the Patna Division, No. 157Ct., dated the 21st February, 1892.

(3). Letter to the Commissioner of the Patna Division, No. 675, dated the 12th March, 1892.

Read also—

Letter from the Commissioner of Patna, No. 306G., dated the 19th April, 1892, and its enclosures.

To commemorate the visit of His Royal Highness the Prince of Wales to Bankipore, a fund was raised by subscriptions for the purpose of founding an Industrial School at that station. A school was accordingly opened in March, 1879, but was closed after a short period. The attention of the Lieutenant-Governor was attracted during his visit to Bankipore, in November, 1891, to the existence of the Bihár Industrial School Committee and of the fund for which they are Trustees for the promotion of technical education. So far as His Honour was able to gather, there appeared to be some uncertainty as to the

measures which should be adopted for this purpose, and a difficulty in determining a scheme of operations. But Sir Charles Elliott considered it undesirable that no definite action should be taken when there was a large sum of money available. The Commissioner was therefore requested to submit a workable scheme for the establishment of a Bihár Industrial School, after consulting the Director of Public Instruction and the Principal of the Sibpur College.

2. Accordingly, a scheme has been prepared by Mr. J. S. Slater, Principal of the Sibpur College, which, with some slight modifications, has been accepted by the Committee and laid before the Lieutenant-Governor. The main feature of the scheme is the division of the proposed school into two distinct departments. The higher or Apprentice department is intended to aim at training lads to qualify for admission to the 3rd-year class of the Sibpur College, Apprentice Department, where, during a residence of three years, they would be trained to become Foremen Mechanics and Upper Subordinates. The instruction in this Department will be in English. The lower or Artisan department is meant to turn out skilled workers in wood and metals, with an elementary knowledge of drawing and estimating. The medium of instruction will be the vernacular. Training will be provided for 72 apprentices and 36 artisans. The object of both departments will be to qualify boys for further training at the Sibpur College.

3. The scheme has not yet been completed in every detail, but the following proposals, which have been made for the regulation of the two departments and are approved by the Lieutenant-Governor, will show its general scope:—

A.—Apprentice Department:—

Apprentice Department.

(1) The qualification for admission is to be a certificate from the headmaster of a zillah school under public management, stating that the candidate has been promoted at least to the second class in the school.

(2) Twenty-four boys, or two from each district in Bihár, using the word in its widest sense, will be admitted annually. They must be under sixteen years of age. A certificate of good conduct will be required, and all candidates must be passed by a Civil Surgeon as physically fit for work in the shops. The instruction will, at least for the present, be free, and District Boards will be invited to provide scholarships of say Rs. 5 per mensem for their nominees.

(3) The course of study will be as follows:—

	1st year.	2nd year.	3rd year.
Mathematics ...	Arithmetic, Algebra, Euclid	Algebra, Euclid, Mensuration.	Mensuration, Trigonometry.
Drawing ...	Printing, scales, elementary geometrical drawing.	Orthographic projection ...	Plan drawing.
Engineering ...	Nil.	Building materials ...	Building materials, estimating.
Surveying ...	Nil.	Chain and compass surveying.	Levelling.
Workshops ...	Carpenters' shop ...	Blacksmiths' shop ...	Fitters' shop.

(4) After a three years' approved course at Bankipore, in July of each year, those apprentices who wish to continue their course will be allowed to go to the Sibpur College to be examined. The examination at Sibpur is to be both theoretical and practical; those who pass may be admitted to the 3rd-year class of the Sibpur College, Apprentice Department, and become members of that institution.

(5) A certain number of scholarships of Rs. 10 a month, tenable for three years, subject to the usual conditions of progress and good behaviour, will be awarded to the best students on their entering the Sibpur College; half the cost of these scholarships will be borne by the Bihár Industrial School Fund, and the District Boards of the districts to which the students belong will be moved to bear the other half of the cost.

B.—Artisan Department:—

(1) The lower primary standard will be required as a qualification for admission to this Department.

(2) Twelve boys will be admitted annually. They must be between the ages of 12 and 16, and of good physique.

(3) The course in this department will consist of three years' practical work, supplemented by elementary instruction in laying out work to full size, and learning the elements of drawing and mensuration. It will be optional for boys to adhere to one trade for the three years, or to adopt the course qualifying for Sibpur. At the end of the three years, those who elect the latter will be at liberty to apply for permission to go to the Sibpur College.

(4) Stipends at the rate of Rs. 3 per mensem will be given to the boys of this department while at Bankipore, and some at least of those who are admitted to the Sibpur College will receive stipends at the rate of Rs. 7 per mensem.

4. In regard to the finance of the scheme, it is proposed that a suitable building should be erected near the site of the present Survey School at an estimated cost of about Rs. 13,200, and that the school should, if possible, be opened in July this year, so that in future years July would be the beginning of the school year, and candidates would go up to Sibpur for examination in that month.

The capital expenditure and working expenses of the school have been estimated as follows, provision being made for 36 boys in each shop (24 apprentices and 12 artisans).

CAPITAL EXPENDITURE.

FIRST YEAR.

Carpenters' Shop.

			Rs.
Tools for 36 boys at Rs. 70 each	...	...	2,520
Nine carpenters' tables at Rs 50 each	...	...	450
Two joiners' cramps at Rs. 14 each	...	...	28
Two glue-pots at Re. 1-8 each ...	...	...	3
Two grindstones	...	...	24
Two wood-turning lathes, with tools	...	...	480
	Total	...	3,505

Blacksmiths' Shop.

			Rs.	
Tools for 36 boys at Rs. 30 each	...	...	1,080	
Eighteen anvils at Rs. 50 each...	...	...	900	
Eighteen forges at Rs. 200 each	...	...	3,600	
Two swage blocks	...	...	100	
	Total	...	5,680	
	Add	...	13,200	for building.
	Grand Total	...	22,385	

SECOND YEAR.

Fitters' Shop.

Tools for 36 boys at Rs. 40 each	...	...	1,440
Thirty-six vices at Rs. 45 each .	..	...	1,620
Six fitters' tables at Rs. 50 each...	...	...	300
Face plates	...	...	168
	Total	...	3,528

THIRD YEAR.

No capital expenditure will be incurred, the three proposed shops being fully equipped.

WORKING EXPENSES.

FIRST YEAR.

	Rs.
Head-master at Rs. 80 a month	960
Survey teacher at Rs. 50 a month	600
Two carpenter instructors at Rs. 25 and Rs. 15 ...	480
Materials for 36 boys at Rs. 30 a year	1,080
Petty establishment and miscellaneous expenses ...	500
Stipends to 12 artisans at Rs. 3 a month each ...	432
Total ...	4,052

SECOND YEAR.

As in first year	4,052
One instructor in smiths' shop at Rs. 30 a month ...	360
Eighteen forges at Rs. 20 a forge	360
Materials for 36 boys at Rs. 30 a year	1,080
Stipends to 12 artisans	432
Total ...	6,284

THIRD YEAR.

As in second year	6,284
One instructor in fitters' shop at Rs. 30 a month ...	360
Materials for 36 boys at Rs. 30 a year	1,080
Miscellaneous	500
Stipends to 12 artisans	432
Total ...	8,656

During the fourth, fifth, and sixth years, the working expenses will be increased by the amount of the scholarships awarded to those apprentices, and stipends allowed to those artisans, who may in either case find admittance at the Sibpur College.

5. It is estimated that the capital of Rs. 2,54,385, which is now at the disposal of the Committee, will, after allowing for the interest to be credited and for the capital and working expenses to be incurred, be reduced to Rs. 2,37,578 at the beginning of the fourth year; the income should be Rs. 9,503 a year, and the expenditure Rs. 8,656, thus providing a surplus of Rs. 847 at Bankipore. During the fourth year there would be 24 apprentices and 12 artisans at the Sibpur College; during the fifth year, there would be 48 apprentices and 24 artisans, and in the sixth year the full number of 72 apprentices and 36 artisans would be reached. His Honour is of opinion that it will be sufficient if one-third of each of these sets of youths are allowed scholarships at Rs. 10 each, and stipends at Rs. 7 each respectively: thus the total cost on this account would be—

	Scholarships.		Stipends.		Total.
	Rs.	Rs.	Rs.	Rs.	Rs.
In the fourth year ...	8 × 10 × 12	=960	4 × 7 × 12	=336	1,296
In the fifth year ...	16 × 10 × 12	=1,920	8 × 7 × 12	=672	2,592
In the sixth year ...	24 × 10 × 12	=2,880	12 × 7 × 12	=1,008	3,888

If the District Boards are willing to contribute half the cost of the scholarships, the charge to Government would be reduced to—

Rs.	
816	in the fourth year.
1,632	in the fifth year.
2,448	in the sixth year.

With the Rs. 847 surplus available at Bankipore, the additional charge to be thrown on Government should in no case exceed Rs. 1,600 a year, a sum which His Honour would hope to find by readjustment of the budget of the Educational Department. But His Honour is sanguine that in a few years the success of the

new Industrial School would be assured, and that further endowments would be forthcoming to provide the necessary scholarships.

No credit has been taken in the above scheme for the value of the work done by the students. At first, this would be small, but, after a time, it would probably be sufficient to contribute materially to the cost of the maintenance of the institution.

6. The Lieutenant-Governor is pleased to record his general approval of the scheme of which an outline has been given above, and desires that a prospectus, drawn up on these lines, may be at once issued, and steps taken to have the school opened as soon as possible. A report should be submitted at an early date whether the Patna Survey School cannot be amalgamated with the Industrial School.

7. In order to ensure the success of the project, which His Honour regards as one calculated to do much good to the country, Sir Charles Elliott is pleased to appoint the following gentlemen, whose names will be gazetted, to be members of the Committee of the Bihár Industrial School:—

The Commissioner of the Patna Division, *ex-officio* President.
The Collector of Patna.
The Principal of the Patna College.
The Principal of the Sibpur College.
The Inspector of Schools, Bihár Circle.
The Inspector of Local Works, Patna Division.
} *Ex-officio.*
A. McD. Salmon, Esq., C.E., District Engineer, Patna.
G. W. Kuchler, Esq., Professor, Patna College.
Nawab Syad Wilayat Ali Khan, C.I.E.
Maulvi Khuda Baksh Khan, Bahadur.
Babu Nobin Chunder Dey.
„ Guru Parshad Sen.
Rai Jay Prokash Lal, Bahadur, C. I. E.
Syad Badshah Nawab.
Maulvi Fazl Imam Khan, Bahadur.
„ Abdur Rauf, Shums-ul-Ulama.
Rai Ishri Prosad.
Rai Radha Kishan.

The Lieutenant-Governor will further empower each District Board sending boys with scholarships to the school to select for nomination to the Committee two members whose names will be duly published.

ORDER, ordered that a copy of the Resolution be forwarded to the Commissioner of the Patna Division and the Director of Public Instruction for information.

Ordered, also, that a copy of the Resolution be published in the *Calcutta Gazette*.

By order of the Lieutenant-Governor of Bengal,

C. E. BUCKLAND,
Secretary to the Government of Bengal.

RESOLUTION ON THE ANNUAL REPORT ON THE POLICE ADMINISTRATION OF THE TOWN OF CALCUTTA AND ITS SUBURBS FOR THE YEAR 1891.

POLICE.

Dated Darjeeling, the 17th June 1892.

READ—

The Annual Report on the Police Administration of the Town of Calcutta and its Suburbs for the year 1891.

Read also—

The Reports for the two preceding years, and the Resolutions recorded by Government thereon.

1. Mr. J. Lambert, C.I.E., was in charge of the Police of the Town of Calcutta and its Suburbs throughout the year as Commissioner of Police, and Mr. A. B. Barnard continued to hold the office of Deputy Commissioner, except for the period from the 17th August to 10th October, when he was on privilege leave, and Mr. E. C. Ryland acted for him.

2. *Reported cases.*—The total number of cases, cognizable and non-cognizable, reported during 1891 was 60,440, against 61,542 in 1890; of these, 48,569 were from the Town and 11,871 from the Suburbs. In the Town 27,182 cognizable cases were tried by the Magistrates, of which 24,808 ended in conviction in the Magistrate's Court and 30 at the High Court Sessions. In the Suburbs, of 8,113 cases tried, 7,717 ended in conviction, viz., 7,704 in the Magistrate's Court and 13 in the Sessions Court. This is a creditable outturn of Police work. Of cases under the Penal Code, there was an increase from 8,439 to 8,742 in cognizable offences, and from 6,142 to 7,022 in non-cognizable offences, while miscellaneous cognizable cases rose from 26,592 to 27,893. Miscellaneous non-cognizable cases, on the other hand, fell from 20,369 to 16,783. The increase in cognizable cases is due to prosecutions for public and local nuisances, street nuisances, and cruelty to animals. The figures of cognizable crime under the Indian Penal Code for the years 1889, 1890, and 1891 are 3,712, 3,327, and 3,289 respectively. In the Town there was a decrease of 35 cases, compared with the figures of 1890, in serious offences against person and property: a decrease of 87 in minor offences against property: an increase of 552 in other offences, chiefly cases of street obstruction (section 283, Indian Penal Code) and cases under the Hackney Carriage Act, and an increase of 960 in offences under special and local laws. Out of a total population of 466,450 in the Town proper, including the Fort, the Esplanade, and the Port of Calcutta, 10,763 persons were convicted of offences under the Penal Code during the year.

3. *False cases.*—Fifty-eight false cases were brought in the Town and 18 in the Suburbs, against 43 and 18, the corresponding figures for last year. Thirty prosecutions for bringing false complaints were instituted in the Town, and in 16 cases convictions were obtained. In four of these cases the offenders were sentenced to imprisonment, and in 12 they were fined. Besides these, compensation was granted in 20 other cases under section 552, Code of Criminal Procedure. In the Suburbs prosecutions were instituted in 13 cases, and in two cases the offenders were sentenced to imprisonment, and in two were fined. In no case in the Suburbs was compensation granted. The Lieutenant-Governor hopes that Magistrates will not overlook the power of granting compensation for vexatious prosecution conferred on them by the provisions of the new section 560 (1) of the Indian Penal Code.

4. *Property stolen and recovered.*—The value of property stolen in the Town and Suburbs during the year was Rs. 1,17,901, of which Rs. 68,445, or 58·05 per cent., was recovered. This percentage, in spite of a falling off in the Suburbs, due to one or two large undetected burglaries and thefts, is higher than in any preceding year. In the Town alone the percentage was 63·56, against 56·17 in 1890 and 49·02 in 1889.

5. *Cognizable offences. Town.*—Detailed information regarding the various crimes committed during the year is given in the body of the report, and the Lieutenant-Governor does not consider it necessary to reproduce here more than the most important facts noticed by Mr. Lambert.

In the Town there were seven unimportant cases connected with coins, in which eight persons were arrested and seven convicted, and one case connected with stamps, in which two stamp vendors were fined Rs. 500 each for selling used court-fee stamps. There was one case of murder by poison, in which five coolies of the Chamar caste were poisoned, of whom three died and two recovered. The poison used was aconite, and was administered by two other members of the caste, who were arrested and put on their trial. The evidence against them was not, however, altogether trustworthy, and the jury, under direction of the Judge, acquitted them. There were three other true cases of murder, and one false case, due to a false confession of murder made by a man of unsound mind. In two cases the accused were convicted; in the third the jury returned an inexplicable verdict of not guilty. There were three cases of culpable homicide not amounting to murder, in two of which the accused were convicted. In the third case the accused is still at large. There was one case of alleged rape, in which, however, there was no evidence of any more serious offence than indecent assault, and the accused was discharged. Twenty-five cases of grievous hurt occurred and two of administering stupefying drugs. In one of the latter cases the victim died, and the accused would probably have been convicted of murder but that no poison could be traced. Thirty-six cases of hurt by dangerous weapons were reported, and 22 cases of kidnapping, but only one case of theft of ornaments from a child. The Lieutenant-Governor is glad to notice that 451 children wearing ornaments, who were lost in the streets during the year in the Town and Suburbs, were restored to their parents with their ornaments intact. There were eight cases of causing death by a rash and negligent act, and five of robbery. The true cases of burglary and lurking house-trespass numbered 106, against 154 and 179 in the years 1890 and 1889, and the number of cases detected was 79, against 87 and 109 in the same two years. The number of thefts fell from 1,855 in 1889 and 1,549 in 1890 to 1,495 in 1891; of these, 815 cases were detected. There were 343 cases of breach of trust, including thefts by carters and boatmen; 530 persons were put on their trial for offences under the Gambling Act; and there were 2,849 cases and 2,534 convictions under the Hackney Carriage Act. The number of persons arrested for cruelty to animals was 6,833, and of these 6,521, or over 95 per cent., were convicted.

6. *Non-cognizable offences Town.*—The total number of offences under the Penal Code and under Special and Local Laws, respectively, was 5,357 and 14,829, against 4,554 and 17,461, the corresponding figures for 1890. These figures include one case of an offence against the State under sections 124A and 500, Indian Penal Code, three cases of forgery, nine of extortion, two important cases of cheating, and the celebrated case of criminal breach of trust known as the "Imperial Diamond Case." The first and last of these alone call for special remark. The case under sections 124A and 500, Indian Penal Code, was brought by Government against the *Bangabasi* newspaper for publishing defamatory and seditious articles. The charge under section 500 was abandoned at the trial before the High Court, and in the end the special jury, by whom the case was tried, were unable to agree in their verdict. A new trial was ordered, but the accused having expressed contrition, a *nolle prosequi* was entered, and they were discharged. In the Imperial Diamond Case, Mr. A. M. Jacobi a well-known diamond merchant, was charged by His Highness the Nizam of Hyderabad with criminal breach of trust in respect of 23 lakhs of rupees. He was finally acquitted at the Sessions.

7. *Cognizable offences. Suburbs.*—There were altogether 8,237 cases, against 8,155 in 1890. There were seven cases of murder, two of attempted murder, and two of culpable homicide. The number of burglaries was 132, in 58 of which detection followed, and of thefts 403, of which 203 were detected. The most important case which occurred during the year was that known as the Shambazar riot case. In this case a rumour that the purchase of some land by a Hindu would result in the removal of a temporary building used as a mosque, led to an unprovoked attack on the police by certain Muhammadans of the Shambazar quarter. The police were armed only with batons. One police constable

was killed, and 18 members of the police force were so severely injured as to be incapacitated from duty, while 51 others received slight injuries; while of the rioters, one was fatally injured, and some 50 more wounded more or less severely. The results of the trial of the offenders were unsatisfactory in the extreme. The rioters were put on their trial in three batches. In the first trial, several of the prisoners were convicted. In the second, all were acquitted, the evidence as to identity being somewhat faulty. In the third case, in which the prisoners were almost exclusively men who were wounded in the *mêlée*, and sent direct from the spot to the hospital, and never lost sight of, and as to the guilt of the great majority of whom no unprejudiced person could entertain a doubt, the jury returned a verdict of acquittal, which the Judge, to the Lieutenant-Governor's great regret, accepted, not thinking it advisable to refer the case to the High Court. One result of the riot has been that the police have been armed with more efficient weapons, in case such an emergency should occur again.

8. *Non-cognizable offences. Suburbs.*—There were 3,619 cases, against 4,496 in 1890. There was one case of forgery and three cases of extortion, but no case that calls for special remark.

9. *Suicides and accidental deaths.*—There were 66 cases of suicide during the year, of which 48 occurred in the Town and 18 in the Suburbs; 24 of these suicides were by hanging, and 23 by opium-poisoning. The number of accidental deaths during the year was 308, against 301 in 1890: of these, 36 were those of persons run over by vehicles. Only two fatal cases occurred, in which there was evidence of negligence or rashness on the part of the driver. Ninety-nine persons were prosecuted for rash and furious driving, and 91 were convicted.

10. *European Vagrancy Act IX of* 1874.—Forty-one vagrants were admitted into the Government Workhouse during the year, and 5 were in the Workhouse at the close of 1890, making a total of 46. Of these, 25 were discharged on obtaining employment, seven were released under the first clause of section 16 of the Act, five absconded, two obtained permission to leave the Workhouse temporarily and failed to return, one was imprisoned, one absconded from the ship in which he was to have been deported, and four remained in the Workhouse at the close of the year. During 1890 no inmates of the Workhouse absconded, and the Lieutenant-Governor regrets to notice the falling off in this respect. The total expenditure incurred by Government in working the Act was Rs. 3,725. Sixty-nine seamen, who found refuge in the Alms House, were all shipped during the year.

11. *Fire-Brigade Act IV (B.C.) of* 1883.—The steam fire-engines of the Fire-Brigade were in attendance at 26 fires during the year, against 47 in 1890, and the manual engines kept at the out-stations rendered assistance at 23 other small fires. The only serious fire during the year was on the American ship *Kenilworth* in the Port; this fire was not got under for 4½ hours, and the loss was estimated at Rs. 1,70,000. There were no fires during the year in jute mills or presses. None of the fires was attended with loss of life.

12. *Constitution of the Police Force.*—The total strength of the force was 2,873, as shown on the margin. This is an increase of 13 over the numbers of last year, the increase being due to the entertainment of a Court Sub-Inspector and 12 special constables. The total cost of the force was Rs. 6,22,254, against Rs. 6,14,634 in 1890. The increase is principally due to the payment of heavy law charges from the police grant. The pay in the two lowest grades of officers having been found insufficient to attract educated and respectable men to the ranks in the hope of promotion, was raised during the year from Rs. 10 and Rs. 12 to Rs. 12 and Rs. 16 respectively.

Superintendents	8
Inspectors	50
Sub-Inspectors ..	7
European Sergeants and Constables	52
Darogas	11
Sergeants	78
Corporals	163
Special Constables ...	51
Constables	2,431
Mounted Police	22

13. *Adjournment of Police cases.*—The Lieutenant-Governor is glad to notice a further decrease in the number of adjourned cases. These fell from 422 in 1889 and 308 in 1890 to 289 in 1891, and of these, 226 cases were disposed of at the second hearing.

14. *Judicial work.*—Mr. A. P. Handley officiated as Chief Presidency Magistrate from the beginning of the year till the 22nd October, when he made

over charge to Mr. Marsden. Nawab Syud Ameer Hossein, C.I.E., was in charge of the Magistracy of the Northern Division throughout the year, except for one month when he was absent on privilege leave, and his place was taken by Maulvi Abdul Jubbar, Khan Bahadur.

The following table shows the work done in the Courts of the Chief Presidency Magistrate, the Magistrate of the Northern Division, and the Honorary Magistrates respectively :—

		Cases instituted.	Persons— Brought to trial.	Acquitted or discharged.	Convicted or committed.
Court of the Chief Presidency Magistrate.	Cognizable offences ...	11,832	17,700	879	16,771
	Non-cognizable offences ...	1,997	1,695	859	829
	Total ...	13,829	19,395	1,738	17,600
Court of the Presidency Magistrate, Northern Division.	Cognizable offences ...	14,315	18,757	599	18,146
	Non-cognizable offences ...	3,245	1,584	718	860
	Total ...	17,560	20,341	1,317	19,006
Court of the Honorary Magistrates, Calcutta.	Cognizable offences	1,035	1,458	310	1,148
	Non-cognizable offences ...	14,944	8,756	4,213	4,536
	Total ...	15,979	10,214	4,523	5,684

This table includes, besides strictly criminal cases, miscellaneous cases connected with maintenance, with forfeiture of recognizance bonds, and with the possession of immoveable property, decided by the Magistrates under special sections of the Criminal Procedure Code. Of the statements attached to the Magistrates' reports, Crime Statement, Parts I and II, includes such miscellaneous cases, and also shows cases which are struck off owing to the non-appearance of the parties. The Annual Criminal Statement 2 excludes all these, but shows the result of cases committed to the Session, together with those of cases disposed of in the Magistrate's Court. Any inter-comparison between the two statements is therefore impossible.

The percentage of convictions and acquittals to the whole number of persons brought to trial in the three Courts in cognizable and non-cognizable cases, respectively, is as follows:—

	Cognizable offences.		Non-cognizable offences.	
	Acquittals.	Convictions.	Acquittals.	Convictions.
Court of Chief Presidency Magistrate ...	4·9	94·7	50·6	43·0
Ditto Magistrate, Northern Division ...	2·9	96·7	45·3	54·2
Ditto Honorary Magistrates ...	21·2	78·7	48·1	51·8

The Lieutenant-Governor has no desire to judge of the character of the work done merely by these proportions, but the figures would seem to show that more care is taken in sifting complaints in the Northern Division Court than in the others.

15. *Court of Chief Presidency Magistrate.*—In the Court of the Chief Presidency Magistrate, 13,829 cases, in which 19,395 persons were implicated, were instituted during the year. Of the accused persons, 1,738 were acquitted or discharged, 17,576 were convicted, 24 were committed for trial, and 51 were under trial at the end of the year.

The total number of persons charged under the Indian Penal Code was 7,110, of whom 6,182 were convicted. Under the Cruelty to Animals Act, 1,944 cases were instituted, and of the 3,912 persons concerned in them, 3,630 were convicted. Fifteen persons were brought up under the European Vagrancy Act, of whom 13 were sent to the Government Workhouse and two discharged. Only 170 persons were charged under the Merchant Shipping Act, against 386 in 1890; of these 152 were convicted, 14 discharged, and 4 were under trial at the end of the year. Of nine persons concerned in eight cases under the Excise Act, six were convicted and three discharged, and of five persons in three cases under

the Opium Act, three were convicted and two acquitted or discharged. Substantive sentences of imprisonment were passed on 419 persons, 77 were imprisoned in default of payment of fine, and 5 imprisoned in default of furnishing security for good behaviour. The number of prisoners sentenced to flogging was 33, but in no case did the sentence exceed 20 stripes. Three juvenile offenders were sent to the Reformatory School at Alipore. The total value of the fines imposed during the year was Rs. 30,591, of which Rs. 28,776 were realized. There were 46 appeals against the orders of the Chief Presidency Magistrate during the year, all of which were rejected. The High Court was moved to set aside orders of the Magistrate in five cases. In two of these the application was rejected, and in one the rule was discharged, one conviction was set aside, and one re-trial ordered.

16. *Northern Division Court.*—In this Court 17,560 cases were instituted during the year, against 15,056 in the year 1890, and the number of persons brought to trial was 20,341 as compared with 18,420. Of these, 1,317 were acquitted or discharged, 18,985 were convicted, and 21 committed to the High Court Sessions in 20 cases. Of the 21 persons committed to the Sessions, three were charged with murder, one with attempted murder, one with culpable homicide, five with burglary after previous convictions, ten with theft after previous convictions, and one with extortion. Eighteen of the prisoners committed were finally convicted, two were awaiting trial at the end of the year, and only one was discharged—an extremely satisfactory result. During the year 717 persons were sentenced to imprisonment and 24 to whipping. Eight juvenile offenders were sent to the Reformatory School at Alipore. The total value of fines imposed during the year was Rs. 33,902-8, out of which Rs. 32,672-8 were realized. Thirty-five persons were sent up during the year under the European Vagrancy Act, of whom 26 were sent to the Government Workhouse, and 9 were imprisoned for violating the Workhouse rules. There were 2,159 cases of cruelty to animals, against 1,596 in 1890. Of the 2,773 persons implicated in these cases, 2,754 were convicted and 19 discharged.

Twenty-two persons were charged in twenty cases with offences under the Excise laws, all of whom were convicted. Cases under the Opium Act fell from 45 in 1890 to 21 in 1891, and of 22 persons put on their trial in these cases, 18 were convicted and 4 acquitted or discharged. Out of 113 appealable sentences passed in this Court, 77 were appealed against, but in every case the appeal was rejected—an excellent record. The High Court was moved to set aside orders of the Court in 8 cases, in 4 of which the application was rejected, in 2 convictions were set aside, and in 2 a re-trial was ordered.

17. *Honorary Magistrates' Court.*—The Lieutenant-Governor is glad to notice that the Chief Presidency Magistrate speaks in high terms of the assistance rendered to him and to his colleague during the year by the Honorary Magistrates, and is able to report that these gentlemen have as a body taken great interest in the discharge of the duties entrusted to them by Government, and have of late shown an increasing desire to keep their files clear and avoid unnecessary adjournments. Mr. Handley, however, has to repeat the complaint made last year of absence without notice, or on insufficient notice, of Honorary Magistrates invited to attend the Bench. The number of attendances during 1891 was 1,038 to 1,538 invitations issued. Out of 91 Magistrates invited, 84 attended at least once. The report for last year does not show the number of times each Honorary Magistrate was invited to attend, and any comparison is therefore impossible. Two Courts presided over by a single Magistrate sat on alternate days—one for the trial of criminal and the other for the trial of municipal cases. Benches of three, or sometimes two, Magistrates sat three times a week for the disposal of criminal cases, and special Benches were convened as occasion required. Six hundred and eighty-eight cases were transferred to the Bench and 1,188 to Magistrates sitting singly. From the figures given in statement, Parts I and II, attached to the report, the result of these cases, excluding municipal cases, appears to have been as follows:—

	Cases instituted.	Persons— Brought to trial.	Convicted.	Discharged or acquitted.
Cognizable cases ...	1,035	1,458	1,148	310
Non-cognizable cases ...	844	1,389	459	924

Of the cognizable cases, the proportion of convictions was highest in the case of offences under the Hackney Carriage Act, of public and local nuisances, and of miscellaneous street offences, in which, out of 72, 346, and 328 persons put on their trial, 67, 316, and 322 respectively were convicted. Of 115 persons prosecuted under the Port Acts all were convicted, as were 137 out of 148 persons prosecuted for cruelty to animals. On the other hand, of 37 and 29 persons put on their trial for serious and minor offences against the person, 35 and 25 respectively were acquitted or discharged, while of 330 persons tried for minor offences against property, 188 were acquitted or discharged, and only 142 convicted. In the case of non-cognizable offences, excluding offences under the Calcutta Municipal Act II (B.C.) of 1888 (which is wrongly described in the Crime Statement, Part II, as the Conservancy Act IV (B.C.) of 1876), the number of acquittals largely exceeded that of convictions. This would appear to indicate that sufficient care is not taken in examining complaints preliminary to the issue of process, and that many persons are unnecessarily brought into Court, and the Lieutenant-Governor trusts that, if there has been any such want of care, it may be avoided in future. Of the offenders convicted by the Bench, 166 persons were sentenced to rigorous imprisonment, 7 to simple imprisonment, 13 were whipped, and 1,299 fined. The total amount of fines imposed was Rs. 4,809, of which Rs. 4,401 were realized. There were seven appeals against the decisions of the Honorary Magistrates: in four of these the applications were summarily rejected, and in three the appeals were dismissed after hearing. In eight cases the High Court was moved to set aside orders passed by the Honorary Magistrates: in two of these cases the convictions were quashed, in one a retrial was ordered, in three the applications were rejected, and in two the rule was discharged. The Lieutenant-Governor is pleased to notice that there were very few cases of adjournments during the year. Out of 934 police cases, adjournments were granted in 25 only, and in 21 of these there was only one adjournment. In all cases the Chief Presidency Magistrate reports that the adjournments were granted on reasonable grounds.

18. *Municipal cases.*—Except for 10 cases, in which 13 persons were concerned, all of whom were convicted, which were tried by the Magistrate of the Northern Division, cases under the Calcutta Municipal Act all fall upon the Honorary Magistrates. The following table gives the figures relating to these cases for the past two years:—

	Number of cases—		Number of persons—			
	Instituted.	In which process issued.	Against whom process issued.	Who actually appeared before the Court.	Acquitted or discharged.	Convicted.
1890	16,820	16,704	16,705	7,532	2,710	4,821
1891	14,100	14,006	14,006	7,367	3,289	4,077

The sections of the Act under which these cases are instituted are not shown in the report, and the Lieutenant-Governor desires that this information may be given in future years. From a report furnished by the Chairman of the Corporation, it appears that by far the greater number of these cases are license prosecutions. The reduction in the number of cases is explained to be due to the introduction of rules in the Municipal Office by which more warning than in former years is given to defaulters before prosecutions are instituted, but cases once instituted are not without good cause withdrawn on mere payment of the sum with regard to which default has been made. A large proportion of the acquittals is understood to be due to the discharge with a warning of defaulters in whose cases the Magistrates considered that the infliction of the minimum punishment allowed under the Act would be an unduly

severe punishment. During the year 6,733 cases were struck off or withdrawn. The fines levied in the cases amounted to Rs. 24,052, of which Rs. 18,958 were realized. The Chief Presidency Magistrate reports that the non-realization of the balance of Rs. 5,094 is almost entirely due to the inability of the police to trace defaulters, and suggests that this might be avoided if the municipal employés would render more assistance to the police in this particular. The Lieutenant-Governor invites the attention of the Chairman to this remark.

19. The Lieutenant-Governor desires again to acknowledge the efficient administration of the Metropolitan Police Department by Mr. Lambert, and that of the Magistrates' Courts by Mr. Handley and Nawab Syud Ameer Hossein, C.I.E. The names of the subordinate officers commended by Mr. Lambert have been noted.

By order of the Lieutenant-Governor of Bengal,

H. J. S. COTTON,

Offg. Chief Secretary to the Govt. of Bengal.

DISTRICT ROAD FUND.

No. 3084R.C.

GOVERNMENT OF BENGAL—PUBLIC WORKS DEPARTMENT.

Road Cess.

Dated Calcutta, the 17th June 1892.

RESOLUTION.

READ—

Letter from the Accountant-General, Bengal, No. 261L.F., dated the 6th June 1892, submitting an abstract of receipts and expenditure of the several District Road Committees in Bengal, for the quarter ending 31st March 1892.

RESOLUTION.—The Lieutenant-Governor directs that the accounts of the receipts and expenditure of the several District Road Committees in Bengal for the 4th quarter of the year 1891-92 be published in the *Calcutta Gazette*, and circulated to the officers concerned.

ORDER.—Ordered that a copy of this Resolution, together with a copy of the abstract of receipts and expenditure, be published in the Supplement to the *Calcutta Gazette*.

Ordered also that a copy of this Resolution and of the abstract referred to, be forwarded to the Commissioners of the Rajshahi, Bhágalpur, Chittagong, and Chota Nagpur Divisions; to the Superintending Engineers of the Northern and Western Circles; to the Inspector of Works, Eastern Circle, and to the Financial Department of this Government, for information.

By order of the Lieutenant-Governor of Bengal,

W. B. GWYTHER,

Under-Secretary to the Govt. of Bengal.

R. E. HAMILTON,

Offg. Accountant-General, Bengal.

Rainfall, Weather, and State and Prospects of the Crops.

Statement showing Rainfall, Weather, and State and Prospects of the Crops in the different districts of Bengal, as reported to Government, during the week ending the 18th June, 1892.

No.	District and date of return.	Rainfall at Sadar Station in inches	Character of the weather and state and prospects of the crops.
BENGAL.			
Burdwan Div. 1	Burdwan June 18, '92	1·02	Except in Raniganj, the rainfall has been rather scanty, but sufficient for the present, *Aus* sown in most places. *Aman* being sown. Prospects favourable. Price of rice still high. Common rice at— Srs. Burdwan ... ... 11 to 16; Kalna ... ... 9 to 13; Katwa ... ... 12½; Raniganj ... ... 13 } per rupee.
	Kalna ...	1·54	
	Katwa ...	0·42	
	Raniganj ...	4·17	
2	Bankura „ 18, '92	5·02	Weather—rainy till yesterday (17th), since cleared up. Sufficient rainfall during the week. Transplantation not yet commenced. Sugarcane and other standing crops doing well. Supply of fodder and water sufficient. Cattle-disease reported. Ordinary rice selling at 13¾ seers per rupee at Sadar and 14 seers at Vishnupur.
	Vishnupur ...	2·15	
3	Birbhum „ 18, '92	4·96	Very heavy rain in Sadar subdivision. Sufficient rain in north. Ploughing and sowing going on briskly. Fodder and water plentiful. State of cattle normal. Common rice dearer: 12 to 14 seers per rupee.
	Rampur Hát ...	1·32	
4	Midnapore „ 18, '92	3·01	Weather—much cooler owing to rain. Ploughing going on vigorously. Sugarcane doing well. Favourable reports are received about the indigo crop. Fodder is plentiful now. There is an abundant supply of water everywhere. Prices of common rice:— Srs. Sadar ... ... 13; Contai ... ... 12; Tamlúk ... ... 12 } per rupee.
5	Hooghly „ 18, '92	1·03	Weather—cooler: cloudy with slight showers. Jahánabad is more advanced than Serampore and Hooghly, but everywhere ploughing and sowing have made considerable progress. Crops promise well though the harvest will be late. Fodder and water-supply adequate. Prices of common rice.— Srs. Sadar ... ... 10; Serampore .. ... 10; Jahánabad ... ... 13 } per rupee.
	Serampore ...	2·61	
	Jahanabad ...	2·43	
6	Howrah „ 18, '92	2 82	Weather—seasonable. Ploughing and sowing continue. Jute and paddy growing. Condition of cattle good. Fodder and water-supply sufficient. Rice 10 to 12 seers per rupee.
	Ulubaria ...	3·64	
Presidency Div. 7	24-Parganas „ 18, '92	2 06	Weather—hot and cloudy with occasional showers. Sowing of *aus* and jute proceeding. The rain has done much good to the young plants which have already appeared. Prospects greatly improved. Rice selling at from 10 to 11¼ seers per rupee. No want of fodder or water. No cattle-disease.
8	Nadia „ 18, '92	1·57	Weather—hot and cloudy with occasional showers. Agricultural prospects good. Standing crops doing well. Common rice sells at from 10 seers 8 chitaks to 13 seers 5 chitaks per rupee. Condition of cattle good, and supply of fodder and water sufficient.
	Kushtia ...	1·17	
	Meherpur ...	1·89	
	Ranaghat ...	1·56	
	Chuadanga ...	0·38	
9	Khulna „ 18, '92	2·54	Weather—showery with short breaks. *Aus* seedlings thriving. Ploughing and sowing of *áman* going on. Reaping of *til* in Bágerhat completed; outturn estimated at 12 annas. Common rice selling at from 11 to 14 seers per rupee. Fodder and water sufficient.
	Bágerhat ...	4 10	
	Satkhira ...	3·08	
10	Jessore „ 18, '92	3·38	Weather—cloudy and rainy. *Aus, áman*, jute and indigo doing well. Fodder and water plentiful. Price of rice stationary.
	Jhenida ..	2·75	
	Magura ...	1·09	
	Narail ...	2·80	
	Bangaon ...	0·98	
11	Murshidabad „ 18, '92	3 19	Weather—cloudy and hot at times with showers. *Bhadoi* rice and jute doing well. Recent rain has done much good to sugarcane and mulberry. Coarse rice sells at 11 seers per rupee. There is a sufficient supply of fodder for cattle.
Chittagong Div. 12	Chittagong „ 18, '92	2 57	Weather—seasonable. Prospects of crops good. Rice being transplanted. Prices stationary. Condition of cattle generally good. Supply of fodder sufficient.
13	Noakhali „ 18, '92	6·87	Weather—cloudy and rainy. The late rain will be favourable to the *aus* plants which are in the field, as well as to the sowing of both *aus* and *áman*. Fodder and water ample. Price of coarse rice has become dearer than what it was last week.
	Fenny ..	4·56	
14	Tippera „ 18, '92	0·17	Weather—hot, cloudy and damp. Crops thriving. Prospects most favourable. Cattle-disease abating. Price of rice high.
15	Chittagong Hill Tracts. „ 16, '92	0·55	Weather—cloudy and sunny throughout the week. Rainy this day day (16th). *Jum* paddy and cotton progressing. Lands are being ploughed for late rice crop. Common rice selling at 9 seers 12 chitaks per rupee.

No	District and date of return.	Rainfall at Sadar Station in inches.	Character of the weather and state and prospects of the crops.
BENGAL—*concld.*			
Dacca Div.			
16	Dacca June 18, '92	0·79	Weather—cloudy and rainy. Rains were heavy at Narayanganj and Munshigan Jute and paddy thriving. Transplantation of rice going on. Prospects standing crops good. Fodder available. No cattle-disease. Common rice selling at from 12 to 14 seers per rupee.
17	Faridpur ,, 18, '92	1·60	Weather—cloudy and occasionally rainy. Paddy, jute and sugarcane doing well. Common rice selling at 11¼ seers per rupee at Sadar, 12 seers at Goalundo, and 13 seers at Madaripur. Condition of cattle good. Fodder available.
18	Backergunge ,, 18, '92	1·53	Weather—rainy and cloudy. State and prospects of crops satisfactory. Ordinary rice sells at from 10 to 13 seers per rupee. Fodder and water sufficient.
19	Mymensingh ,, 18, '92	2·84	Weather—hot and cloudy and sometimes rainy Prospects of crops fair. Jute and *aus* now thriving, although damaged in some parts by excessive rain. Supply of fodder and water sufficient. Prices stationary.
Rajshahi Div.			
20	Dinajpur ,, 18, '92	1·18	Weather—hot, cloudy and rainy. Jute and *bhadoi* have been sown to the extent
	Thakurgaon ...	1·30	of 16 annas. Prospects continue good. Preparation of lands for *haimanti* in progress. Price of rice at Sadar 10½ seers per rupee, that at Thakurgaon stationary. Condition of cattle good. Fodder and supply of drinking water sufficient.
21	Rajshahi ,, 18, '92	2·63	Weather—seasonable and rainy. *Boro* rice is being harvested with good out-
	Nator ..	4·53	turn everywhere. *Aus*, jute and *áman* cultivation satisfactory everywhere.
	Nowgong ...	1·28	Drinking water and fodder ample. Price of common rice from 11 to 15 seers per rupee.
22	Rangpur ,, 18, '92	2·06	Ordinary monsoon weather. Prospects of *aus* paddy and jute favourable.
	Gaibanda ...	0·80	Price of common rice stationary.

BIHÁR—*concld.*			
PATNA DIVISION			
32	Patna — June 18, '92	0·91	Weather—generally cloudy. Rain has been beneficial for *bhadoi* sowing, and lands are being generally prepared for it. In Barh subdivision water and fodder are now plentiful. In Bihár subdivision the harvesting of *chesna* is in progress. Transplantation of *marua* and sowing of Indian-corn have commenced in several places, and lands are being prepared for paddy. No distress reported. Common rice selling at from 10 to 13 seers per rupee, against 11 to 12½ seers in last week.
	Barh ..	1·67	
	Bihár ..	0·88	
	Dinapore ...	0·25	
33	Gaya .. 18, '92	2·96	Monsoon weather with a sufficiency of rain except in Jahánabad. Preparation of land for *bhadoi* and winter rice crops commenced. *Marua* nearly ready for transplantation. Sugarcane crop secured by the rain that has fallen. Prices stationary. Common rice selling at 12 seers per rupee at Sadar. Supply of water ample, and sufficient fodder will also soon be available.
	Aurangabad ...	2·59	
	Nawáda ..	1·20	
	Jahánabad	0·76	
34	Shahabad .. 18, '92	1·57	Weather—cloudy with high winds and frequent showers. Rainfall in north of district not sufficient for *bhadoi* sowing, elsewhere abundant, and in south quite phenomenal for this season. Prospects generally favourable. Sugarcane, *marua* and Indian-corn flourishing. Lands being got ready for *bhadoi* sowing.
	Sasaram ...	5·32	
	Bhabhua ...	3·21	
	Buxar	1·05	
35	Darbhanga .. 18, '92	2·16	Weather—cloudy and close with frequent falls of rain more or less heavy. Rain has enabled paddy and *marua* to be sown, and has benefited all standing crops. *Marua* plants are hardly forward enough yet for planting. Cattle looking well. Fodder freshened by rain. Prices stationary. Common rice 12 seers per rupee at Madhubani.
	Madhubani ...	0·65	
	Samastipur ..	0·97	
36	Muzaffarpur .. 18, '92	1·24	Weather—rather hot; cloudy at times. Crop prospects good everywhere. All seed sown germinating, ample rain for the present having been received. Prices falling in Sitamarhi and in one part of Hajipur; elsewhere almost stationary.
	Sitamarhi .	0·60	
	Hajipur ..	1·35	
37	Saran .. 18, '92	2·04	Weather—stormy and disturbed. Heavy storms almost everywhere. *Bhadoi* sowings going on. Standing crops much benefited. Fodder and water now plentiful. Prices of common rice:—
	Siwán ...	1·22	
	Gopalganj ...	3·32	

	Srs.	Ch.	
Chapra	11	2	per rupee.
Siwán	12	9	
Gopalganj	12	10	

38	Champaran .. 18, '92	2·22	Weather—cloudy and hot. Rain has fallen generally throughout the district and just in time when it was required. It has done a great deal of good. Agricultural operations in progress. Standing crops doing well. No scarcity of fodder and water. Prices stationary.
	Bettiah ...	3·64	
ORISSA			
ORISSA DIVN.			
39	Cuttack .. 18, '92	1·78	Weather—seasonable. Rainfall general and adequate. Ploughing and sowing of *sarad* and *biali* in progress. Price of common rice 9 seers to 15 seers 12 chitaks per rupee. Fodder-supply adequate.
40	Puri .. 16, '92	6·52	Weather—cloudy. Ploughing going on. Sowing has begun in places. Miscellaneous crops doing well. Rice sells at from 10 to 14 seers per rupee.
	Khurda ...	7·45	
41	Balasore .. 18, '92	4·68	Weather—stormy. The cyclone of last week caused extensive floods in the south of the district. Lands being cultivated, and sowing of winter rice begun. Rice sells at from 13 to 15 seers per rupee.
CHOTA NAGPUR.			
South-West Frontier Agency			
CHOTA NAGPUR DIVN.			
42	Hazáribágh — June 18, '92	5·00	Weather—seasonable. Sugarcane doing well. Ploughing and sowing in vigorous progress all over the district. Water and fodder sufficient.
	Giridi ..	2·98	
43	Lohardaga .. 18, '92	5·35	Weather—seasonable. Ploughing is being vigorously carried on. Sowing of *bhadoi* crops continues. Winter rice is also being sown. Common rice selling at 14 seers per rupee. Fodder and water-supply sufficient.
44	Palámau .. 17, '92	5·08	Weather—cloudy and cool. A break seems to have now set in. Good rain reported from all thánas and outposts except Untari, where showers are reported. Ploughing for and sowing of *bhadoi* crops have commenced. Common rice selling at from 12 to 16 seers per rupee. Supply of fodder increasing. Cattle-disease reported from Daltonganj thána.
45	Singhbhum .. 18, '92	2·80	Weather—seasonable. The rains have set in apparently. Rice crop being sown everywhere. Price of common rice stationary.
46	Manbhum .. 18, '92	7·22	Heavy rain during the week. Ploughing still going on. Prospects so far fair.
	Gobindpur ...	1·12	Rice 13 to 16 seers per rupee.

* Means of 6 days.

Explanation.—Summary.—The normal means of air pressure and temperature are the arithmetical average or means of the reading during the same period for the last The *humidity* of the atmosphere is expressed at percentage, saturated air being presented by 100. A clear sky is denoted by 0 and an overcast sky by 10. The numbers are the numerical means or average of the rainfall in that district determined from the returns sent in by the subdivisional station for the period in question during the stations in the district sending in returns divided by the number of stations. A rainy day is one on which at least a tenth of an inch fell.

for the week ending Saturday, the 18th of June 1892.

Average humidity at 8 A.M.	Average cloud amount at 8 A.M. for week.	Rainfall of week at observing station.	Of week. Mean for district.	Of week. Normal mean.	District observations. Rainfall. Since 1st of month. Mean for district.	Since 1st of month. Normal mean.	Since 1st of month. Variation.	Since 16th May 1892. Mean for district.	Since 16th May 1892. Normal mean.	Since 16th May 1892. Variation.	Of week. Average number of rainy days.	Of week. Normal number of rainy days.	Representative station.	District.	Meteorological Division.

Explanation.—.....indicate that no rain has fallen. If the return for any day has not been received, the corresponding space is left blank. If any of the returns are wanting, the corresponding spaces in the total rainfall columns are left blank. With reference to the column of rainy days, the definition of a rainy day is when at least 0·1 inch of rain has fallen

CALCUTTA, *the 21st June* 1892.

SUMMARY OF THE METEOROLOGICAL AND RAINFALL OBSERVATIONS TAKEN IN BENGAL, AND OF THE METEOROLOGICAL OBSERVATIONS TAKEN IN ASSAM, FOR THE WEEK ENDING 8 A.M., SATURDAY, THE 18TH OF JUNE 1892.

THE principal feature in the meteorology of the previous week had been the formation of a cyclone in the north-west angle of the Bay, and its advance first in a northerly direction, then in a north-westerly and finally in a west-north-westerly direction. The centre of the storm had crossed the coast between Saugor Island and Balasore on the early morning of the 10th instant, and on the 11th instant, or the last day of the previous week, the centre was in the extreme south-west of Chota Nagpur. From the 11th to the 12th it continued its north-westerly advance, and the centre at 8 a.m. of the 12th was close to Sutna. At this time its forward movement practically ceased, and on the 13th the centre was still close to Sutna and the storm itself was quickly filling up, and by the morning of the 14th the cyclone had practically filled up and disappeared after having had a life history of about six or seven days. The storm probably rapidly decreased in intensity immediately it began to advance over the land, and particularly when it had to advance through the hills in the south of Chota Nagpur. Strong winds, however, generally prevailed over the province for the first three or four days of the week, and gales of wind were reported from such stations as Hazáribágh and Patna, and later on from several stations in the North-West Provinces and Central Provinces. The storm in its advance naturally brought up a wave of humid winds to Bengal, and for several days in the week fairly general rain was received over the whole province, the rainfall being heaviest on the 12th, 15th, 16th, and 17th, while towards the close of the week the rain-bearing current appeared to diminish in strength, and rainfall became rather lighter. With the inland advance and partial filling up of the storm there was a rapid rebound of pressure in Bengal, and by the 12th even, pressure was considerably in excess of the normal, the rise on this day at many stations exceeding a tenth of an inch. From this date, however, pressure began to fall slowly until the 15th, when there was again a moderate rise; but on the 16th, owing to an increase of pressure having taken place at the north-western stations and a general fall elsewhere, which was moderately large in the centre and south-east of the province, a feeble barometric depression began to show itself over Central Bengal, which was accompanied by a feeble cyclonic circulation of winds with a centre near Berhampore. This feeble depression continued to exist on the 17th, but on the 18th it had almost entirely disappeared, though there was still a feeble circulation of winds over the province. These conditions rather tended to confine the heavy rainfall on the 17th and 18th to the eastern and northern districts, and thus at the close of the week a partial break of the rains was setting in over such districts as Bihár, Chota Nagpur, &c.

Pressure.—With the rapid rebound of pressure which took place in the early part of the week, the mean pressure of the province for the week has been in excess of the normal by amounts which range from nearly a tenth of an inch in Orissa to a general excess of about 0·04″ or 0·05″ in the north of the province.

Temperature.—With the moderate to heavy rain which has fallen during the week, temperature has been abnormally low, and thus Chota Nagpur shows a mean defect of 7·1° for the week and South Bihár one of 5·1°. General defects of from 2° to 3° have been recorded in Orissa, South-West Bengal, and North Bihár; but, on the other hand, slight excess temperatures have been registered in East and North Bengal, and in Assam the excess rises up to 1·1°.

Rainfall.—General average falls of about three inches are reported in East and North Bengal and Chota Nagpur, a fall of two and-a-quarter inches in South-West Bengal, and of from one to two inches in Orissa and Bihár. The only division in which the falls have been in excess of the normal has been Chota Nagpur, with an excess of 17 per cent. In the other divisions, notwithstanding the rather heavy falls during the week, the defects have been rather large, and thus in South-West Bengal, South Bihár, and East Bengal, defects of aboute 20 to 25 per cent. have been registered, in North Bihár and North Bengal the defects have equalled from 35 to 40 per cent., while in Orissa the very large deficiency of 53 per cent. is registered. Thus taking these divisions to have an equal value in the calculation, the rainfall of the province for the week has been about 26 per cent. below the normal.

The following table gives the summary of the temperature and rainfall data of each of the seven meteorological divisions of the province for the week ending Saturday, the 18th of June 1892:—

Meteorological Divisions.	Temperature.						Rainfall.									
	Highest observed during week.	Lowest observed during week.	Averages for week.			Average mean of week above or below normal mean of week.	Of week.			Rainy days.			Since 1st of month.		Since 16th May 1892.

The mean pressure, temperature, &c., are deduced from the traces of the Barograph and Thermograph, and from observations made at 6h, 10h, 16h, and 22h.

The maximum and minimum temperatures are obtained from self-registering thermometers. All the thermometers are verified, and the readings have been corrected to a standard constructed and verified at the Kew Observatory. They are exposed under a thatched shed open at the sides, and are suspended four feet above the ground.

The barometer readings are corrected approximately to those of the standard, Newman's No. 86, formerly at the Surveyor-General's Office.

The hygrometric elements are obtained from Tables III, IV, and V of the official tables computed in the Meteorological Office, and based on Regnault's modifications of August's formula.

The directions and the movement of the wind are taken from the trace of a Beckley's anemograph.

The mouth of the rain-gauge is one foot above the ground.

o, overcast; g, gloomy; d, drizzling rain; p, passing temporary showers; t, thunder; lr, lightning reflection; ⌓, dew.

By order,

J. W. CURRIE, *Capt.*,

Private Secretary.

No. 151A.

GENERAL. *The 21st June* 1892.—The services of Mr. E. N. Baker, Officiating Magistrate and Collector, 24-Parganas, on leave, are placed at the disposal of the Government of India in the Finance and Commerce Department.

The 23rd June 1892.—Babu Charu Chunder Chatterjee, Deputy Collector, is appointed to perform the functions of a Collector under section 4 of the Public Demands Recovery Act VII (B.C.) of 1880 in the district of Shahabad.

Babu Jamini Mohan Das, Deputy Magistrate and Deputy Collector, Noakhali, is transferred temporarily to the head-quarters station of the Tippera district, during the absence, on leave, of Babu Prokash Chunder Singha, or until further orders.

Babu Atul Chunder Kur, substantive *pro tempore* Sub-Deputy Collector, Tamluk, Midnapore, is transferred to the head-quarters station of that district.

Babu Bisseswar Das, substantive *pro tempore* Sub-Deputy Collector, Midnapore, on leave, is transferred to the Tamluk sub-division of that district.

The 24th June 1892.—Mr. F. H. B. Skrine, Magistrate and Collector, Shahabad, is appointed to be a Magistrate and Collector of the first grade, with effect from the 8th June 1892, *vice* Mr. A. Forbes.

Mr. W. D. Blyth, Magistrate and Collector, Champaran, is appointed to be a Magistrate and Collector of the second grade, with effect from the 8th June 1892, *vice* Mr. F. H. B. Skrine.

Mr. E. B. Harris, substantive *pro tempore* Magistrate and Collector of the third grade, is confirmed in that grade, with effect from the 8th June 1892, *vice* Mr. W. D. Blyth, but will continue to act, until further orders, in the second grade of Magistrates and Collectors.

Mr. W. C. Macpherson, Joint-Magistrate and Deputy Collector of the first grade, is appointed substantively *pro tempore* to the third grade of Magistrates and Collectors, with effect from the 8th June 1892, *vice* Mr. E. B. Harris, but will continue to act, until further orders, in the second grade of Magistrates and Collect r.

Maulvi Fazlul Karim, Deputy Magistrate and Deputy Collector, Natpr, Rajshahi, is allowed leave for one month, under article 291 of the Civil Service Regulations, with effect from the date on which he may be relieved.

Mr. Krishna Govinda Gupta, Magistrate and Collector, Nadia, is appointed to act, until further orders, in the first grade of Magistrates and Collectors, with effect from the 20th instant, *vice* Mr. H. G. Cooke, on deputation.

Rai Nund Kishore Das Bahadur, who was appointed, under the order of the 18th February 1890, to be a probationer in the Statutory Civil Service, is now appointed to be a member of the Provincial Service, and to be a Deputy Magistrate and Deputy Collector of the third grade. He will, however, continue to hold his substantive appointment of District Officer of Angul and Khondmals, and his services will remain, until further orders, at the disposal of the Political Department of this Government for employment in Keonjhur.

Mr. Tahrīr-ud-din Ahmed, who was appointed, under the order of the 18th February 1890, to be a probationer in the Statutory Civil Service, is now appointed to be an Officiating Deputy Magistrate and Deputy Collector, but he will continue, until further orders, to be employed on settlement work in Orissa.

The 27th June 1892.—Mr. F. R. S. Collier, Magistrate and Collector, Murshidabad, is appointed to be Magistrate and Collector of the 24-Parganas.

Mr. A. E Harward, substantive *pro tempore* Joint-Magistrate and Deputy Collector, Darbhanga, is appointed to act, until further orders, as Magistrate and Collector of Murshidabad.

Mr. J. E. Phillimore, Assistant Magistrate and Collector, Saran, is transferred to the head-quarters station of the district of Darbhanga, on being relieved of his present charge of the current duties of the office of Magistrate and Collector of Saran by Mr. A. Earle.

Babu Siva Sankar Singh, Officiating Deputy Magistrate and Deputy Collector, on special duty under the Public Works Department of this Government, is vested with the powers of a Collector under Act X of 1870 in the districts of Patna, Gaya, and Shahabad, whilst he holds charge of the Revenue Division, Sone Canals, during the absence, on leave, of Babu Saroda Prosad Chatterjee.

The following confirmations are made in the grades of Sub-Deputy Collectors :—

Confirmed in the first grade.

Babu Siva Prasanna Sen, on deputation.

Confirmed in the second grade.

Babu Kedar Nath Mookerjee, on deputation.
„ Akshay Kumar Chaudhuri.

Confirmed in the third grade.

Babu Hari Pada Ghose, on deputation.
„ Tara Nath Bose, on deputation.

Confirmed in the fourth grade.

Maulvi Wajihuddin Ahmed, on deputation.
Babu Jadu Nath Das, on deputation.

The 28th June 1892.—In modification of the order, dated the 21st instant, Babu Nogendra Lall Mittra, Sub-Deputy Collector, Kishanganj, Purnea, is allowed leave for two months and twenty-five days, under article 291 of the Civil Service Regulations, with effect from the date on which he may be relieved.

Babu Nagendra Nath Ghose, Deputy Magistrate and Deputy Collector, Bhadrak, Balasore, is allowed leave for three months, under article 291 of the Civil Service Regulations, with effect from the date on which he may be relieved.

Babu Monmohan Chakravarti, Deputy Magistrate and Deputy Collector, Puri, on leave, is transferred to Balasore, and is appointed to have charge of the Bhadrak sub-division of that district, during the absence, on leave, of Babu Nagendra Nath Ghose, or until further orders.

Babu Khetra Gopal Ray, Deputy Magistrate and Deputy Collector, Tippera, is vested with the powers of a Collector under Act X of 1870 in that district.

POLICE.—*The 23rd June* 1892.—Mr. F. C. Daly, Assistant Superintendent of Police, Chittagong Hill Tracts, is allowed leave for nine months, under article 369 of the Civil Service Regulations, with effect from the date on which he may avail himself of it.

Maulvi Zannat Hosain Khan, Inspector of Police, Saran, is appointed to act, until further orders, as an Assistant Superintendent of Police, on probation.

The 28th June 1892.—Mr. R. L. Ward, Officiating District Superintendent of Police, Pabna, is allowed leave for three months, under article 291 of the Civil Service Regulations, with effect from the 1st July 1892, or such subsequent date as he may be relieved.

Mr. W. B. Stuart, Assistant Superintendent of Police, is appointed to act as District Superintendent of Police of Pabna, during the absence, on leave, of Mr. R. L. Ward, or until further orders, on being relieved of his present appointment as Officiating District Superintendent of Police, Birbhum, by Mr. G. B. Havelock.

Mr. M. F. Beamish, District Superintendent of Police, Champaran, is allowed leave for three months, under article 291 of the Civil Service Regulations, with effect from the 19th July 1892, or such subsequent date as he may be relieved.

No. 209.—*Declaration.*—Whereas it appears to the Lieutenant-Governor of Bengal that land is required to be taken by Government at the public expense for a public purpose, viz., for construction of an outlet channel at mile 71 of Eastern Bengal State Railway, Bihár Section, in the mauzas of Batwar Arazee, Ranijellalpur, and Tahirpur, pargana Barour, zilla Purnea, it is hereby declared that for the above purpose two strips of land, about 1,630 feet long, varying in width from 250 to 375 feet, and containing, more or less, 9 acres 1 rood and 34·3 poles A. class land of standard measurement, are required within the aforesaid mauzas of Batwar Arazee, Ranijellalpur, and Tahirpur.

This declaration is made, under the provisions of section 6 of Act X of 1870, to all whom it may concern.

No. 210.—*Declaration.*—Whereas it appears to the Lieutenant-Governor of Bengal that land is required to be taken by Government at the public expense for a public purpose, viz., for construction of an outlet channel and repairing bank at mile 76 of Eastern Bengal State Railway, Bihár Section, in the mauza of Bissanpur, pargana Kadba, zilla Purnea, it is hereby declared that for the above purposes two strips of land, about 1,950 feet long, varying in width from 75 to 1,250 feet, and containing, more or less, 4 acres and 25·38 poles A. class, and 7 acres 3 roods and 4·95 poles B. class lands of standard measurement, are required within the aforesaid mauza of Bissanpur.

This declaration is made, under the provisions of section 6 of Act X of 1870, to all whom it may concern.

No. 211.—*Declaration.*—Whereas it appears to the Lieutenant-Governor of Bengal that land is required to be taken by Government at the public expense for a public purpose, viz., for construction of an outlet channel at mile 153 of Eastern Bengal State Railway, Bihár Section, in the mauzas of the Dargaiganj and Gurhea, pargana Habili, zilla Purnea, it is hereby declared that for the above purpose a strip of land, about 2,415 feet long, varying in width from 50 to 320 feet, and containing, more or less, 9 acres 1 rood and 7·54 poles A. class land of standard measurement, is required within the aforesaid mauzas of Dargaiganj and Gurhea.

This declaration is made, under the provisions of section 6 of Act X of 1870, to all whom it may concern.

F. J. JOHNSTONE,
Secretary to the Govt. of Bengal.

IRRIGATION.

The 28th June 1892.

No. 203.—*Notification.*—In exercise of the powers conferred on him by section 99 of Act III (B.C.) of 1876, notice is hereby given that the Hon'ble the Lieutenant-Governor of Bengal proposes to add the following Rule to the Toll Rules, published in Notification No. 330 of 15th December 1866 (*vide Calcutta Gazette* of 19th December 1866, Part I, pages 2158-59), for the Kendrapara Canal—

Rule XXII.—Boats entering the Jugutpur lock from the Beropa river during the rainy season for the sole purpose of transhipping cargo to larger boats, and not passing beyond the off-take of the Pattamundy Canal, will be charged a fee of two annas only, irrespective of

size, and will, on payment, be furnished with a pass by the Toll Collector covering the return journey. Boats proceeding beyond the abovementioned limit will be charged tollage at the ordinary rates under the rules in force.

C. W. ODLING,
Joint-Secy. to the Govt. of Bengal.

GOVERNMENT OF BENGAL,—MARINE DEPARTMENT.

The 23rd June 1892.

No. 61*Marine.*—The following telegram, dated the 21st June 1892, from the Government of Bombay, is published for general information:—

C. W. ODLING,
Joint-Secy. to the Govt. of Bengal.

Copy of a telegram, dated the 21st June 1892, *from the Government of Bombay to the Government of Bengal, Marine Department.*

BRITISH CONSUL, Alexandria, telegraphs—Quarantine imposed in Egypt against Jibuti on account of cases of cholera declared. Obokh remains in free pratique. Resident Aden, telegraphs—Obokh has imposed full quarantine against Jibuti.

The 27th June 1892.

No. 62*Marine.*—In pursuance of the provisions of section 40, sub-section (3) of the Indian Merchant Shipping Act (VII of 1880), as amended by the Deck and Load Lines Act (XVII of 1891), the Lieutenant-Governor directs that the annexed draft of rules intended to be made under sub-sections (1) and (2) of that section be published in the *Calcutta Gazette*, in supersession of the draft rules published at Part I, pages 873-75 of the *Calcutta Gazette* of the 30th September 1891. These rules will be taken into consideration on the expiry of ninety days from the date of their first publication in the *Calcutta Gazette*, and the Lieutenant-Governor will receive and consider any objections or suggestions which may be made within that period.

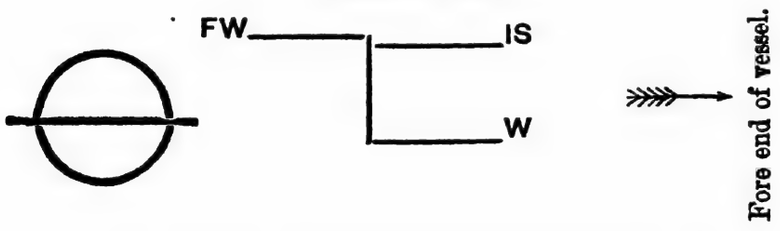
C. W. ODLING,
Joint-Secy. to the Govt. of Bengal.

Rules as to Load Line Marks, Seasons, Certificates, Draught of Water, and Freeboard.

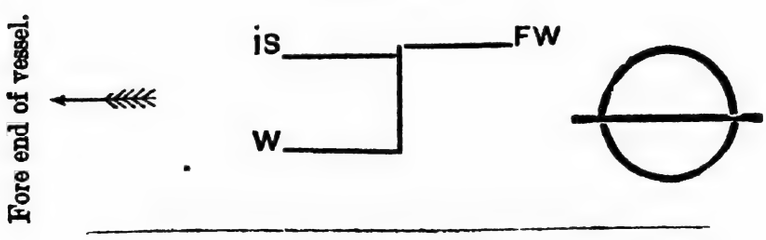
1. The lines to be used in order to indicate the maximum load line under different circumstances and at different seasons shall be nine inches in length and one inch in thickness, and the maximum load line shall be the upper edge of each of such lines.

2. The said lines shall be horizontal lines marked on both sides of the ship, extending from and at right angles to a vertical line marked 21 inches forward of the centre of the disc. The maximum load line in fresh water shall be marked abaft such vertical line, and the maximum load lines in salt water shall be marked forward of such vertical line, as shown in the following diagrams—

Starboard Side.



Port Side.



The arrow (⟶) points in the direction of the vessel's head.

The provisions of the Indian Merchant Shipping Act, 1880, Chapter II, shall have effect as if any such maximum load line were drawn through the centre of the disc.

3. Such maximum load lines shall be as follows, viz.:—

For fresh water,
„ Indian summer (fair weather season),
„ Indian foul weather season,

and shall be distinguished by initial letters permanently and conspicuously marked opposite such horizontal lines as aforesaid, such initial letters being as follows:—

F. W.—Fresh water.
I. S.—Indian summer (fair weather season).
W.—Indian foul weather season.

The upper edge of the horizontal line passing through the centre of the disc shall always indicate the summer freeboard in salt water.

4. Steamships and sailing vessels engaged in the foreign trade shall be marked with such of the horizontal lines as aforesaid as are applicable to the nature of their employment. Sailing-ships engaged solely in the coasting trade shall only be marked with the line indicating the maximum load line in fresh water.

5. The said disc, and the lines, or marks, to be used in connection therewith, shall be painted white or yellow on a dark ground, or black on a light ground, and the position of the disc, and of each of the lines, shall, in the case of iron and steel vessels, be permanently marked by centre punch marks, and shall, in the case of wooden vessels, be sunk for their breadths into the planking a depth of not less than one-quarter of an inch.

6. Application for a certificate of approval of the position of the disc or any alteration thereof shall be made to Mr. Robert Bushby or Mr. Graham Robertson at Calcutta, in the form marked L.L. 1 in the schedule hereto annexed; and the certificate shall be issued in duplicate in the form marked L.L. 2 in the schedule hereto annexed; one part shall be delivered to the applicant, and the other part shall be forthwith sent to the Port Officer of Calcutta.

7. The master of every British or British Indian ship shall, before she leaves any port, for the purpose of proceeding to sea, enter in the official log all the particulars stated in the certificate so issued as aforesaid if not previously entered.

8. For the purposes of these Rules—

(*a*) the expression "Indian summer (fair weather) season" shall mean, in the Bay of Bengal (*i.e.*, east of Tuticorin), the period from the 21st November to the 10th May, and, in the Arabian Sea (*i.e.*, west of Tuticorin), the period from the 1st October to the 20th May, and

(*b*) the expression "Indian foul weather season" shall mean, in the Bay of of Bengal (*i.e.*, east of Tuticorin), the period from the 11th May to the 20th November, and, in the Arabian Sea (*i.e.*, west of Turicorin), the period from the 21st May to the 30th September.

SCHEDULE.

FORM L.L. 1.

APPLICATION for CERTIFICATE of APPROVAL of the position of a LOAD LINE DISC under the provisions of the Indian Merchant Shipping Act (VII of 1880), as amended by the Deck and Load Lines Act (XVII of 1891).

DARJEELING,
The 20th June 1892.

CHARLES H. TAWNEY,
Offg. Director of Public Instruction.

Subordinate Educational Service.

The 20th June 1892.—Babu Lalit Kumar Banerjea, M.A., is appointed temporarily to be Lecturer in the Dacca College, and substantively *pro tempore* to class V, with effect from the date on which he joins that appointment.

The 21st June 1892.—Babu Bhubaneswar Gupta, Deputy Inspector of Schools, Dinajpur (class V), is allowed leave of absence for fifteen days, under Article 291 of the Civil Service Regulations, with effect from the 5th July next.

The 23rd June 1892.—Maulavi Abdul Aziz, B.A., Sixth Master of the Arrah Zilla School, is declared to have acted in class VII from the 1st December 1891 to the 31st January 1892, inclusive, *vice* Babu Shankar Lal, promoted.

CHARLES H. TAWNEY,
Offg. Director of Public Instruction.

EDUCATIONAL PROSPECTUS.

THE Calcutta Medical College Session, 1891-92, will commence on the 23rd June next. Students who may be desirous of commencing their studies are requested to apply to the Principal between the hours of 11 A.M. and 4 P.M. on or before that date.

Students are expected to enter formally and commence attendance at the College upon the date named. Under exceptional circumstances a student will be permitted, at the discretion of the Principal, to extend the time to July 1st, but under no circumstance will any application for entrance be entertained after that date.

2. Ten free presentations for a year will then be awarded. These are given to students according to their relative positions in the University B.L., B.A., and F.A. examinations, preference being given to those who have passed the highest examination.

3. No person shall be enrolled as a matriculated student who has not previously passed the First Arts examination of the Calcutta or an Indian University, or a preliminary Arts examination of the United Kingdom recognized by the British General Medical Council.

4. All matriculated students of the College shall pay Rs. 15 on entrance, Rs. 35 for the summer session on the 23rd June, and Rs. 35 for the winter session on 1st November of each year. Rupees 6 extra will be required from each student for each course of dissections. Fees once paid cannot be refunded.

Muhammadan students are required to pay Rs. 15 on entrance and one-third fee, *i.e.*, Rs. 12 per session. The remaining two-third fees are charged to the Mohsin Fund.

5. Any matriculated student of the College may, with the permission of the Principal and the Professor of the subject, attend courses of lectures or departments of hospital practice in addition to the full curriculum for the year, and shall be entitled to certificates of attendance at such extra lectures, if the Professor is satisfied that he or she has really studied the subject. The fees payable in advance for such additional courses are the following:—

	Rs.
For a single course of lectures on each subject in one year ...	40
For six months' attendance in each department of hospital practice	60

6. Any matriculated student who leaves the College before completing his University course, with the object of continuing his studies at a medical school in Europe, may receive certificates of attendance at lectures on payment of fees at the rate fixed in the foregoing rule. But in calculating the sum to be so paid, the amount of the fees already paid by him as a regular student, or, in the case of a free student, the amount which would have been paid by him had he been a paying student, shall be deducted.

7. Any person not being a matriculated student of the College who wishes to attend any course of lectures, or any department of hospital practice, may do so with the permission of the Principal and Professor of the subject on payment, in advance, of fees at the rates fixed in paragraph 5. If he has passed the Entrance examination of the University, he shall receive certificates of attendance at lectures. If he has not passed the Entrance examination, he shall receive no class certificates.

8. College scholarships (*vide* paragraphs 9 and 10), prizes and certificates of honour are open for competition only to matriculated students of the College, military medical pupil and female certificate classes.

9. Junior scholarships of Rs. 8 per mensem and free tuition for one year are annually awarded to 10 students of the 2nd and to 10 of the 3rd year, on the results of the 1st year's Test and Honour and Preliminary Scientific L.M.S. and M.B. examinations respectively.

10. Ten senior scholarships of Rs. 12 per mensem and free tuition tenable for two years are annually awarded to students of the 4th year on the results of the University first examination in medicine. But these shall not be awarded to students who gain Durga Charan Laha scholarship of Rs. 30 per mensem for two years, nor to other scholars. Students who have failed from any cause to pass at their first chance are not eligible for these scholarships (junior and senior).

The Goodeve scholarship of Rs. 12 per mensem, tenable for one year, is annually awarded to a matriculated student of the 5th year, on the result of the midwifery test examination of the 4th year.

The F.C. Chatterjee scholarship of Rs. 17 per mensem, tenable for a year, is annually awarded to the best matriculated student of Native Indian extraction, and whose conduct is certified to be good, in histology at the end of the 4th year. The examination takes place in June each year.

The Abdul Gunny scholarship of Rs. 26 per mensem, tenable for one year, is annually awarded to the end of the 4th year to the best matriculated student in all subjects at the class examinations of the 1st to 4th year inclusive. The award is made in May.

The Duke of Edinburgh's prize is awarded to the best in surgery among the matriculated students at the end of the 4th and 5th year. The examination takes place in May.

The Bhola Nath Bose's prize of Rs. 40 is awarded to the 4th-year matriculated student who proves himself to be the most successful at bedside diagnosis of disease, in surgery and medicine in alternate years. The award is made in May.

A gold medal and certificates of honour are awarded to the best students in each subject at the test and honour examinations.

The Goodeve and Macnamara silver medals are awarded to the best of the 1st-year native students in anatomy and chemistry respectively, on the result of the tests and honour examinations.

A prize in Clinical Medicine is awarded annually to the best clinical clerk of the 4th and 5th year matriculated students.

A prize in Clinical Surgery is awarded annually to the best clinical dresser of the 4th and 5th year matriculated students.

The Rivers Thompson silver medal is annually awarded to the best Mahomedan student who passes the final L.M.S. or M.B. examination of the Calcutta University.

The Lady Rivers Thompson prize of Rs. 50 is awarded to the lady student who obtains the highest number of marks at the final examination.

No student shall be allowed to compete for a prize when attending a course in excess of the number prescribed in the College curriculum.

11. College scholars who receive less than Rs. 20 per mensem, are not required to pay Rs. 35 per session. All other scholars shall pay fees as matriculated students. These may pay their fees in advance, or have their scholarship money deducted till the full amount is received.

12. Any student holding a Medical College scholarship (paragraphs 9 and 10) will be permitted to draw the stipend of that scholarship at any recognized medical school in the United Kingdom, provided he furnishes, from the head of such school, a certificate of good

conduct and diligence. These college classes are recognised by all the medical schools in the United Kingdom.

13. The class assistants to the Professors of Pathology and Comparative Anatomy will each receive a salary of Rs. 10 monthly.

14. COURSE OF STUDY FOR MATRICULATED STUDENTS.

1st year.

Descriptive and Surgical Anatomy.
Chemistry.
Botany.
Dissections.

2nd year.

Comp. Anatomy, Comp. Physiology, and Zoology.
Descriptive and Surgical Anatomy.
General Anatomy and Physiology.
Chemistry.
Practical Chemistry.
Materia Medica.
Botany.
Dissections.
Pharmacy—three months.

Preliminary Scientific L.M.S. and M.B. examination.

3rd year.

Materia medica.
Dissections.
Physiology.
Hospital practice—one year.

1st M.B. and L.M.S. examination.

4th year.

Medicine.
Surgery.
Midwifery.
Medical Jurisprudence with demonstrations.
Hospital practice—twelve months.

5th year.

Medicine and Clinical Medicine.
Surgery and Clinical Surgery.
Midwifery and six labour cases.
Medical Jurisprudence with demonstrations.
Pathology with demonstrations.
Ophthalmic Medicine and Surgery.
Hygiene.
Dentistry.
Post-mortem records.
Hospital practice—six months.
Out-door and Eye Infirmary practice—three months each.

Final M.B. or L.M.S. examination.

15. A lady student who has passed the University F.A. examination shall be enrolled and pay fees as a matriculated student. She will get a special scholarship of Rs. 20 per mensem for five years.

16. A public competitive examination will be held annually about the month of February at the head-quarters of divisions and districts marginally noted, for the admission of candidates to the Military pupil class of the Medical College.

Calcutta.	Umballa.
Allahabad.	Meean Meer.
Morar.	Rawul Pindi.
Lucknow.	Peshawur.
Meerut.	Kasauli.

17. Candidates must be of European or Eurasian parentage, between 16 and 19 years of age, of healthy constitution, physically fit for military service, and of good character. They will be required to produce certificates showing that they possess those qualifications.

18. They will undergo a training in the Calcutta Medical College for four years at Government expense, after which period, if reported qualified, they will be gazetted into the Subordinate Medical Department and transferred to a military hospital for duty.

19. COURSE OF STUDY FOR MILITARY MEDICAL PUPILS.

1st year.

Anatomy—Descriptive and Surgical.
General Anatomy and Physiology.
Materia Medica.
Chemistry (30 elementary lectures).
Dissections.
Outdoor Dispensaries, Medical and Surgical—three months each.
Compounding Dispensary—six months.

2nd year.

Anatomy—Descriptive and Surgical.
General Anatomy and Physiology.
Materia Medica.
Chemistry (full course).
Dissections.
Hospital practice—eight months.
Compounding Dispensary—four months.

Examinations (final) in Anatomy, Physiology, Materia Medica, and Chemistry.

3rd year.

Medicine and Clinical Medicine.
Surgery and Clinical Surgery.
Midwifery.
Hygiene.
Pathology.
Hospital practice—one year.
Post-mortem cases—six each.

Examinations in Hygiene and Pathology.

4th year.

Medicine and Clinical Medicine.
Surgery and Clinical Surgery.
Midwifery, Clinical.
Medical Jurisprudence.
Labour cases—six each.
Hospital wards—six months.
Ophthalmic wards and lectures—three months.
Dental dispensary and lectures— ditto.

Examinations (final) in Medicine, Surgery, Midwifery, Jurisprudence, Ophthalmic Medicine, and Dentistry.

20. FEMALE CERTIFICATE CLASS.

Lady students must be over 17 years of age before commencing their studies.

They must have passed the Entrance Examination of the Calcutta University or an examination officially recognised by that University as equivalent to the Entrance Examination. (The certificate of matriculation of the Melbourne University will be accepted.)

New students may begin their studies from 1st March, but are expected, at latest, to enter formally and commence attendance at the College when the Session opens on 23rd June. Under very exceptional circumstances a student will be permitted, at the discretion of the Principal, to extend the time to July 1st, but no application for admission will be entertained after that date.

The duration of the course will be four years.

Tuition (pending orders to the contrary) will be free.

20*a*. Students, preferably native ladies, may reside in the Sornomoye Hostel. Applications for residence to be made to the Lady Superintendent of the Hostel, or to the Secretary to the Countess of Dufferin Branch Committee.

21. The following is the curriculum :—

1st year.

Anatomy.
Materia Medica.
Dissections.
Chemistry (30 elementary lectures).
Compounding (six months).
Test examinations in Anatomy, Materia Medica, and Chemistry.

2nd year.

Anatomy.
Physiology (elementary).
Materia Medica.
Chemistry (full course).
Dissections.
Attendance at six *post-mortem* examinations.
Hospital attendance (including out-door departments) 12 months.
Pass examinations in Anatomy, Materia Medica, and Chemistry.

3rd year.

Medicine and Clinical Medicine.
Surgery and Clinical Surgery.
Medical Jurisprudence (demonstrations).
Midwifery (with attendance at three labour cases).
Pathology (with attendance at six *post-mortems*).
Physiology.
Hospital attendance (of which three months in the ophthalmic wards.)
Pass examinations in Pathology, Physiology, and Medical Jurisprudence.

4th year.

Medicine and Clinical Medicine.
Surgery and Clinical Surgery.
Midwifery (including six labour cases).
Hospital practice (of which six months in the Medical and Surgical wards, *minus* 15 attendances at the Dental Dispensary; and six months exclusively in the midwifery wards, when the students are to take regular tours of duty, night and day, assisting the regular work of the Hospital.
Dentistry (optional).
Pass examinations in Medicine, Surgery, and Midwifery.

Students who are successful are entitled to receive the certificate of the College qualifying them to practice medicine, surgery, and midwifery. A fee of Rs. 10 is charged for each certificate.

22. The following rules will be observed in regulating advancement from class to class :—

(1) Test examination at the end of the first year. If a student obtains less than 10 per cent. of the marks in any two out of three subjects of examination, she shall not be allowed to continue in the College.

(2) Pass examinations at the end of the second and third years. In order to pass, a student must gain 33 per cent. in each subject of examination. If a student fails in any two of the three subjects, or, failing in one subject only, if she gains less than 25 per cent. in that subject, she shall be put back for one year. If she fails in one subject only, gaining 25 per cent. or more in that subject, she shall be promoted to the next class, but will be required to submit to re-examination in that subject, in addition to the examination in the regular subjects at the end of the following year. She will be permitted to attend lectures on the subject in which she has failed. Failure on re-examination will carry the same penalty as original failure.

(3) Pass examination at the end of the fourth year. The same rules as apply to the previous pass examinations, with the exception that if a student, failing in one subject only, gains 25 per cent. in that subject, she will be referred back to her studies for a period of six months, at the expiration of which she will be entitled to re-examination after furnishing proof of having attended hospital practice during that period.

23. Female students who have not passed the Entrance or its equivalent, will be admitted into the Eden Hospital to learn midwifery. These will receive Rs. 20 per mensem. After a year's tuition and bedside practice, if found proficient, they will obtain a certificate qualifying them to practise midwifery. The fee for each certificate is Rs. 5.

24. Female students who have not passed the Entrance or its equivalent, but who read and write Bengali, can be admitted in the Eden Hospital as pupil dâis.

25. Of these, eight will receive Rs. 6 per mensem and the rest will be taught free. After 12 months' tuition and bedside practice, if found proficient, they will obtain a certificate qualifying them to practise midwifery.

26. All certificates are to be registered in the Principal's office.

MEDICAL COLLEGE OFFICE,
Calcutta, 2nd May 1892.

E. A. BIRCH,
Principal, Medical College.

NOTIFICATIONS OF THE BOARD OF REVENUE.

No. 1050B.

The following Notification of the Government of India, in the Department of Finance and Commerce, No. 2611, dated 24th June 1892, is published for general information :—

OPIUM.
D. R. LYALL, ESQ., C.S.I.

"With reference to clause (3) of the Notification of the Government of India in the Finance and Commerce Department, No. 2886 of 26th June 1891, published in the *Gazette of India* of 27th June 1891, it is hereby notified for general information that in each of the three months, October, November, and December 1892, 3,642 chests of Bengal Opium will be offered for sale, of which 1,715 chests will be Benares Opium and 1,927 chests Patna Opium."

By order of the Board of Revenue, L.P.,
T. INGLIS, *Offg. Secretary.*

CALCUTTA, *the 27th June* 1892.

No. 1059B.

NOTICE is hereby given that the Eighth Sale of Opium, the provision of 1890-91, will be held at the Government Opium Sale-room, No. 2, Bankshall Street, on Wednesday, the 3rd August 1892, at 11 A.M., and will comprise 4,500 chests, viz.—

	Chests.
Opium manufactured at the Patna Factory	2,150
Ditto ditto at the Ghazeepore Factory	2,350
Total ...	4,500

2nd.—The general conditions of the sale now advertised will be the same as usual. They may be ascertained by reference to the Notification issued on the 24th November 1891, and published in the *Government* and *Exchange Gazettes*, or on personal application at the Office of the Board of Revenue.

3rd.—The latest dates for deposit and clearance will be the 8th and 18th August 1892, respectively, that is to say, no Bank of Bengal Receipts, Government Promissory Notes, or other public securities that may be tendered for deposit in redemption of Promissory Notes given by purchasers in the sale-room will be received after 3-30 P.M. of Monday, the 8th August 1892, and no Bank of Bengal Receipts in full payment of lots will be accepted after 3-30 P.M. of Thursday, the 18th August 1892.

4th.—In addition to the quantity above advertised for sale, the following quantities, more or less, of the opium manufactured at the Patna and Ghazeepore Factories will be brought to sale down to December next about the dates specified below. The Board of Revenue, however, reserve to themselves the right of altering these dates should circumstances render it expedient to do so.

DATES.	Manufactured at the Patna Factory; about chests.	Manufactured at the Ghazeepore Factory; about chests.	Total about chests.

Advertisements.

[N. B.—Advertisements, Notices, &c., intended for insertion in this part of the Gazette, cannot be received after Noon on Monday.]

LAND SALE NOTICES.

NOTICE is hereby given that the undermentioned plots of land, no longer required by Government, situated along the East Indian Railway, in the district of Hooghly, will be put up to sale at 12 o'clock on the 12th July 1892, corresponding with the 29th Ashar 1299 B.S.

The purchasers of the several plots of land will be subject to the following conditions:—

1*st*.—The purchasers will have no power to make any excavations on the lands nearer than 15 feet from the railway fencing, or plough the land closer than 3 feet from its foundation.

2*nd*.—If the amount of purchase-money does not exceed Rs. 100, the whole amount must be paid down at once.

3*rd*.—If the amount of purchase-money exceeds Rs. 100, one-fourth of the amount must be immediately deposited. If the balance be not paid by noon of the fifteenth day after the sale, reckoning the day of sale as one, or if that day be a close holiday, then by noon of the first succeeding office day, the sale shall be cancelled (the sum deposited being forfeited to Government), and the lot again put up for sale at the risk of the defaulting purchaser after issue of advertisement as in the case of original sale.

4*th*.—The plots of land will be sold revenue-free to the highest bidders.

5*th*.—The purchasers shall be put in possession on receipt by the Collector of the orders of the Board confirming the sales.

J. E. PHILLIMORE, Assistant Collector in Charge.

NOTICE is hereby given, under sections 6 and 13 of Act XI of 1859, that the undermentioned estates or shares of estates in the district of Muzaffarpur will be put up for sale at the Collector's Office of that district on the 22nd July 1892, corresponding with the 12th Sawan 1299 F. for arrears of revenue and other demands, which, by the Regulations and Acts in force, are directed to be realized in the same manner as arrears of revenue due on the .

When in columns 5, 7, and 9 of the appended statement it is stated that only a share is to be sold, a separate account is kept for such share, and the other share or shares in the estate are excluded from the sale:—

1	2	3	4	5	6	7	8	9
Tauzi No.	Name of mahal and pargana.	Sadar jama of whole estate.	Whether the whole estate is to be sold.	If only a share is to be sold, specification of such share or shares.	Names of proprietors of property to be sold.	If only a share is to be sold, the sadar jama of such share.	If the whole estate is to be sold, the arrears due from it.	If only a share is to be sold, the arrears due from it.

A Manual of Tibetan, being a Guide to the Colloquial Speech of Tibet. in a series of progressive Exercises, by Major T. H. Lewin, F. R. G. S., of the Bengal Staff Corps, Late Deputy Commissioner of Darjeeling. *Price Rs 6: postage, 3 annas.*

Copies are to be had at the Office of the Director of Public Instruction.

The Indian Law Reports.

Published under Authority.

THE Indian Law Reports, published under the authority of the Governor-General in Council, appear in monthly parts, published as soon as possible after the first of each month at Calcutta, Madras, Bombay, and Allahabad, and comprise four series—one for the Calcutta High Court, a second for the Madras High Court, a third for the Bombay High Court, and a fourth for the Allahabad High Court. The cases heard by the Privy Council on appeal from each High Court are reported in the Series for that High Court. Cases heard by the Privy Council on appeal from Provinces in India not subject to any High Court are reported in the Calcutta Series.

The Calcutta series is distributed by the Bengal Secretariat, and the Madras, Bombay, and Allahabad Series are distributed direct from Madras, Bombay, and Allahabad respectively.

In supersession of the previous advertisements, on and from the 1st January 1889 the terms of subscription and sale will be as follows for current issues as well as for back numbers of the Reports from 1876:—

Terms of subscription payable annually in advance.

For the complete series, *including postage*, Rs. 22-8.

	Without postage.	With postage.
	Rs. A. P.	Rs. A. P.
For the Calcutta Series	10 0 0	2 8 0
,, each of the Madras, Bombay, and Allahabad Series	6 0 0	7 0 0
,, a part of the Calcutta Series purchased separately (*inclusive of postage in India*)	.....	2 0 0
,, a part of each of the Madras, Bombay, and Allahabad Series purchased separately (*inclusive of postage in India*)	.....	1 0 0

The following is the rate at which deductions will be made for parts out of print and at which duplicate copies will be supplied to subscribers when required in place of copies lost in transit.

	For town.	For mufassal
	Rs. A. P.	Rs. A. P.
For the Calcutta Series, per copy ...	0 8 9	0 10 3
,, each of the Madras, Bombay, and Allahabad Series, per copy ..	0 5 3	0 5 9
,, the Calcutta Series. For the year	7 2 6	8 6 3
,, each of the Madras, Bombay, and Allahabad Series. For the year	4 4 6	4 11 3

Persons desiring to subscribe for or purchase the Reports should apply to—

Superintendent, Government Press, Madras.
The Superintendent, Government Central Press, Bombay.
,, Curator of Government Books, North-Western Provinces and Oudh.
,, Superintendent of Government Printing, Bengal.

Orders and subscriptions for 1892 *should be at once registered and remitted by money-order payable to the Accountant and Treasurer, Bengal Secretariat, Calcutta.*

ADVERTISEMENTS will be received for publication on the wrappers of the Indian Law Reports, Calcutta Series, at the following rates, payable in advance—

	One page	Half page.	Quarter page.
For one issue ...	Rs. 20	Rs. 14	Rs. 9
,, three issues ...	,, 55	,, 36	,, 24
,, six ,, ...	,, 100	,, 68	,, 45

REVENUE DEPARTMENT.

REVISED ADVERTISEMENT.

A Dictionary of the Economic Products of India

BY DR. GEO. WATT, C.I.E.

Reporter on Economic Products.

Published under the authority of the Government of India in the Revenue and Agricultural Department.

The first five volumes of this work are now ready for issue, and intending subscribers are invited to register their names with theSuperintendent of Government Printing, Calcutta.

The Dictionary is intended to deal with the products of India—animal, vegetable, and mineral; each product being treated after a uniform plan, the paragraphs of which give the scientific, vernacular, and European

names; habitat or source; history; properties and uses (both chemical and industrial); trade statistics; markets; &c. The work is arranged alphabetically according to scientific nomenclature, but commercial and important vernacular names are also given as cross references, so that little difficulty need be experienced in finding the account of a product even when its scientific name is unknown to the reader.

An important feature of the Dictionary consists in the fact that derived information is in every instance given under quotation marks, and with a reference to the original publication. Numerous contributors have, however, furnished the results of new discoveries and confirmed the vernacular names, so that the Dictionary is not only a complete compilation of published information, but has been brought abreast of the most recent inventions and discoveries.

Volume I contains the letters A and B, and consists of 559 royal octavo pages; Vol. II embraces the letter C in 689 pages; Vol. III contains the letters D, E, F and half of G. Vol. IV latter half of G to middle of L; and Vol. V contains the latter half of L to end of "O." The whole work will, it is expected, be completed in seven volumes during the current year; but an eighth volume may also be issued consisting of an Index to all the vernacular and other names contained in the Dictionary. The Index will practically be a Glossary of the vernacular and European names of the plants, animals and minerals of India, and as such will be a work of reference, which, it is hoped, may prove of considerable value.

The period of registration of subscribers' names having expired on the 1st October, the price will in future be in India Rs. 45 and in England 3 guineas, payable in advance, for the complete set (exclusive of the Index, for which a separate charge will be made). An extra charge for packing and postage will be made for the set—in India, at 8 annas per volume, and for England, at 2 rupees 6 annas per volume.

For copies bound in half calf or half morocco, Rs. 6 and 8 shillings respectively will be charged extra for the whole sets.

No copies will be issued to non-subscribers till the work is complete, and no single volume will be sold separately.

Jeypore Enamels. Super royal, 4to. Rs. 30 (9*a*.)

Waste Lands in India, Rules for the Lease or Sale of, 1892. Fcap., boards. Rs. 2 (5*a*.)

JAPAN—YEZO STRAIT—KUNASHIRI ISLAND.

Flashing light and fog signal on Keramoi saki.

THE British Admiralty has given notice (No. 220 of 1892) that on 15th May 1892 a light would be exhibited from a lighthouse recently erected on Keramoi saki (Keramui misaki), the south extreme of Kunashiri island :—

Keramoi saki light is a *flashing white* light of the fifth order, showing a *flash every fifteen seconds*, and visible through an arc of 302°, or from the bearing of S. 6° E., through east and north, to S. 52° W. It is elevated 45 feet above the sea, and should be seen in clear weather from a distance of 12 miles.

The lighthouse, 40 feet high, constructed of wood, and octagonal in shape, is painted black and white in horizontal bands.

Approximate position, lat. 43° 40′ N., long. 145° 31′E.

Also, that during thick or foggy weather, a bell at Keramoi saki lighthouse will be sounded *twelve times every minute.*

NOTE.—This light will not be exhibited, nor the bell sounded, during the months of January and February annually.

BENGAL—HOOGHLY RIVER.

System of Buoyage for the port of Calcutta.

SYSTEM of Buoyage to be adopted by the Calcutta Port Commissioners in part conformity with recommendations of the Conference appointed to consider the proposal for a uniform system of buoyage.—

1. The term starboard hand shall denote that side which would be on the right hand of the Mariner, either going with the main stream of flood or entering a harbour, river or estuary from seaward. The port hand shall denote the left hand of the Mariner under the same circumstances.
2. Starboard hand buoys shall always be painted a single red colour.
3. Port hand buoys shall be always painted a single black colour.
4. Fairway buoys shall be painted in horizontal stripes of black and white.
5. No changes will at present be made in the mountings or lettering of the buoys.
6. The above will be gradually brought into force during the next cold season, of which due notice will be given to the local pilots.

MAURITIUS—PORT LOUIS.

Flashing light replaced by three fixed White lights.

THE Assistant Colonial Secretary, Mauritius, has given notice (dated 10th May 1892) that, pending the restoration of the Flashing light on board the light-ship in Port Louis roadstead, three fixed White lights forming a triangle, and visible in a radius of about three miles, will temporarily replace the Flashing light.

The temporary light-ship will be recognized in daylight by a black ball at her mast head.

She is moored in the same position as that hitherto occupied by the light-ship.

The aforenamed temporary light will be exhibited from this date until further notice.

NEW ZEALAND—North island—East coast.

Red light on breakwater—Napier Bluff.

The British Admiralty has given notice (No. 225 of 1892) that on 18th April 1892 a *fixed red* light would be exhibited on the outer end of the breakwater at Napier (Ahuriri) bluff, and which will be shifted outward as the works are advanced. Mariners should give the breakwater works a good berth, as submerged portions extend some distance seaward.

Approximate position, lat. 39° 28½′ S., long. 176° 57′ E.

Note.—As the position of this breakwater is uncertain, the light is not yet shown on the Admiralty charts.

AUSTRALIA—South coast—Port Phillip.

Regarding the buoyage of that port.

The British Admiralty publishes (No. 198 of 1892) the following information relating to port Phillip received from the Government of Victoria, dated 11th March 1892:—

1. Nicholson knoll, on the southern side of South channel, and north-east of the Quarantine station, has been removed by dredging, and the two buoys (black and white chequered) previously marking it have been withdrawn.

2. A 26 feet patch has grown up north-east of the former position of Nicholson knoll, which is marked by a *conical* buoy, painted black and white, in horizontal stripes, and lying with Portsea pier head bearing S. $\frac{5}{8}$ W., distant $1\frac{1}{10}$ miles, and Observatory point flagstaff W. by S. $\frac{5}{8}$ S.

3. A narrow ship channel, with a depth of 20 feet at low water, the northern edge of which is marked by beacons, has been dredged between Geelong Outer and Inner harbours.

The 28th April 1892.

P. C. GHOSHA,

Registrar of Companies.

Rainfall, Weather, and State and Prospects of the Crops.

Statement showing Rainfall, Weather, and State and Prospects of the Crops in the different districts of Bengal, as reported to Government, during the week ending the 25th June, 1892.

No.	District and date of return.	Rainfall at Sadar Station in inches.	Character of the weather and state and prospects of the crops.
BENGAL.			
BURDWAN DIVN. 1	Burdwan June 25, '92	1·26	Weather—very hot. Rain wanted in parts. Sowing and transplanting going on. Prices stationary. Prices of common rice :— Srs. Burdwan ... ... 11 to 14 / Kalna ... ... 9 to 13 / Katwa ... ... 13 / Raniganj ... ... 13 } per rupee.
	Kalna ...	0·42	
	Katwa ...	0·08	
	Raniganj ...	1·64	
2	Bankura ,, 25, '92	0·06	Weather—very hot and occasionally cloudy. Transplantation of *aus* commenced in places. More rain wanted. Other standing crops thriving. No change in prices Supply of fodder and water gradually increasing with the rainfall.
	Vishnupur ...	0·60	
3	Birbhum ,, 25, '92	Nil	Weather—cloudy and sultry. A break has occurred in the rains. Ploughing and sowing going on actively. Water and fodder plentiful. Cattle in normal health. Common rice sells at 12 to 15 seers per rupee.
	Rampur Hát ...	0·68	
4	Midnapore ,, 25, '92	0·06	Weather—very hot in day time. More rain needed. Ploughing going on. Favourable reports are given of sugarcane and indigo crops. Fodder is not scarce, but more rain would be advantageous. Prices of common rice :— Srs. Sadar ... ... 13 / Contai ... ... 18 / Tamlúk ... ... 12 / Ghatál ... ... 13½ } per rupee.
5	Hooghly ,, 25, '92	0·39	Weather—has been dry and hot, but has now changed and gives good prospect of rain. Cultivation of both *aus* and *áman* retarded for want of rain. If, however, the change of weather which has just occurred continues, the lee way will be made up. Jahánabad is still best off. Prices of common rice :— Srs. Sadar ... ... 10 / Serampore ... ... 10 / Jahánabad ... ... 12½ } per rupee.
	Serampore ...	0·43	
	Jahánabad ...	1·04	
6	Howrah ,, 25, '92	1·23	Weather—sultry. Heavy rain on Saturday morning (25th). Paddy promising. Vegetables in good condition. Condition of cattle good. Fodder and water-supply sufficient. Rice 10 to 12 seers per rupee.
	Ulubaria (up to 23rd June)	0·16	
PRESIDENCY DIVN. 7	24-Parganas ,, 25, '92	0·98	Weather—hot and cloudy. Sowing of *áman* continues. Young plants of *aus* and jute thriving. Prospects improving. Prices stationary. Water and fodder sufficient. No cattle-disease.
8	Nadia ,, 25, '92	1·09	Weather—hot and cloudy. Standing crops doing well. The weather is favourable for weeding operations. Common rice selling at 10 seers 8 chitaks to 13 seers 5 chitaks per rupee. Health of cattle good.
	Kushtia ...	1·11	
	Meherpur ...	2·59	
	Ranaghat ...	1·78	
	Chuadanga ...	0·78	
9	Khulna ,, 25, '92	0·30	Weather—bright and warm. There was very little rain this week; but rain has recommenced to-day (25th); and if it is sufficient and falls everywhere, much damage will not be done. Rain is, however, urgently required. Common rice is selling at from 11 to 14 seers per rupee. Supply of fodder and water sufficient.
	Bágerhat ..	0·19	
	Satkhira ...	0·67	
10	Jessore ,, 25, '92	0·85	Weather—fair and windy. More rain wanted for the standing crops. Prospects good. Weeding going on. Fodder and water for cattle plentiful. Prices steady.
	Jhenida ..	0·18	
	Magura ...	1·77	
	Narail ..	3·51	
	Bangaon ..	1·29	
11	Murshidabad ,, 25, '92	0·65	Weather—hot and cloudy with occasional showers. Standing crops doing well. Prospects favourable owing to recent rain. Coarse rice sells at 12 seers per rupee. Fodder sufficient for cattle.
CHITTAGONG DIVN. 12	Chittagong ,, 25, '92	2·71	Only occasional showers. Prospects of crops fair. Rice is being transplanted. Prices stationary. Condition of cattle generally good. Supply of fodder sufficient.
13	Noakhali ,, 25, '92	4·60	Weather—seasonable. *Aman* is still being sown. *Aus* seedlings are thriving. No cattle-disease. Fodder and water sufficient. Prices of common rice :— Srs Ch. Sadar ... ... 12 2 / Fenny ... ... 13 8 } per rupee.
14	Tippera ,, 25, '92	1·79	Weather—damp and cloudy. All standing crops flourishing. *Aus* and jute are being cut in Daudkandi. Prospects favourable.
15	Chittagong Hill Tracts. ,, 24, '92	4·72	Weather—hot and cloudy with occasional showers of rain throughout the week. *Jum* paddy and cotton progressing. Lands are being ploughed for late rice crop. Common rice selling at 8 seers 15 chitaks per rupee.

No	District and date of return.	Rainfall at Sadar Station in inches.	Character of the weather and state and prospects of the crops.
BENGAL.—*concld.*			
Dacca Divn. 16	Dacca June 25, '92	Not reported.	Weather—cloudy and rainy. Jute and *áman* paddy doing well. Transplantation of rice going on. Fodder available. No cattle-disease. Common rice selling at from 12 to 13½ seers per rupee.
17	Faridpur „ 25, '92	2·44	Weather—very hot since 19th till to-day (25th). State of standing crops good. Harvesting of *til* beginning. Common rice 11½ seers per rupee at Sadar, 12 seers at Goalundo, and 12½ seers at Madaripur. Cattle get fodder. A few cases of cattle-disease reported from the Sadar. Rivers rising.
18	Backergunge „ 25, '92	0 74	Weather—hot. State and prospects of crops satisfactory. Ordinary rice sells at from 10 to 13 seers per rupee. Fodder and water sufficient.
19	Mymensingh „ 25, '92	4·66	Weather—cloudy and sometimes rainy. The condition of standing crops has improved. Jute and *aus* are now doing fairly well. The supply of fodder and water is sufficient. Prices stationary.
Rajshahi Divn. 20	Dinajpur „ 25, '92	1·82	Weather—cloudy with occasional showers. The break in the rains is now over. A cyclonic storm on the night of the 23rd caused some damage in the town. Prospects of standing crops good. Ploughing for *haimanti* rice going on. Transplantation commenced on low lands. Price of rice has a tendency to rise at Thakurgaon. It is selling at 10 seers 3 chitaks per rupee at Sadar. Condition of cattle good. Supply of fodder and drinking water sufficient.
	Thakurgaon ...	2·08	
21	Rajshahi „ 25, '92	Nil	Weather—hot. Cultivation of *aus*, *áman* and jute going on everywhere satisfactorily. Rain wanted for the steeping of jute. Condition of cattle good. Fodder and water sufficient. Price of rice stationary.
	Nator ..	3·10	
	Nowgong ...	3·06	
22	Rangpur „ 25, '92	4·67	Weather—seasonable. More rain wanted in Nilphamari. Transplanting of *áman* and harvesting of *aus* proceeding. Price of common rice stationary.
	Gaibanda ...	7·80	
	Nilphamari ...	0 42	
	Kurigaon ...	5·98	
	Ulipur ..	6·42	
23	Bogra „ 25, '92	2 18	Heavy rain on 18th and 19th; since then weather hot and rainless until night of 24th when rain fell again. The *aus* and jute and other standing crops are all doing well. *Aus*, *káon* and some jute are being cut. Transplantation of *áman* has commenced with favourable prospects. Common rice sells at 12½ seers per rupee.
	Sherpur ...	3·36	
	Naukhila ...	6 31	
24	Pabna „ 25, 92	1·09	Weather—hot and cool by turns. Prospects of standing crops continue good. Weeding continues. Common rice sells at 12 seers per rupee. Condition of cattle good. Water-supply and fodder sufficient.
25	Darjeeling „ 25, 92	3 05	Weather—fair with occasional breaks. *Bhutta*, *fafar* and potatoes being harvested. *Chhota marua* coming to perfection *Bhados* and jute progressing favourably. Cattle-disease in the hills has somewhat abated. Fodder and water-supply sufficient. Price of common rice at Siliguri 10 seers per rupee.
26	Jalpaiguri „ 25, '92	5 64	Weather—seasonable and rainy. Condition of *bhadoi* crop (what remains after injury by heavy rain in May) good. Ploughing for *haimanti* rice briskly going on. Transplantation commenced in places. Price of common rice unchanged. Fodder and water sufficient.
BIHAR.			
Bhagalpur Divn. 27	Monghyr „ 25, '92	Nil	Weather—very hot and rainless at head-quarters. The rainfall in Jamui has been good, and ploughing and sowing are going on well there. In Begusarai the *bhadoi* lands have all been prepared and three-fourths sown. Indigo is said to be doing well there. Rain is much wanted in head-quarters. Fodder and water for cattle are more available. Coarse rice selling at 10 to 12 seers per rupee.
	Begusarai ...	0 55	
	Jamui ...	2·41	
28	Bhagalpur „ 25, '92	Nil	The prolonged break in the rains has made the weather extremely oppressive. Sowing and ploughing still going on and *bhadoi* crops doing well As soon as the break is over, transplanting of *aghani* paddy will begin. Weeding of *bhadoi* has begun. Prospects generally encouraging. Common rice 11 seers 6 chitaks per rupee.
	Banka ...	Nil	
	Madhipura ...	0·60	
	Supaul ...	0·82	
29	Purnea „ 25, '92	0·01	Weather—unseasonably hot and sultry; cloudy. State of crops satisfactory The break in the rains has facilitated weeding, but rain is now urgently wanted for the *bhadoi* coming into ear and for transplantation of *aghani* rice. Fodder and water sufficient. Prices of common rice:—
	Kishanganj ...	1·15	
	Araria ...	3 35	

	Srs.	
Sadar	10 to 13	per rupee.
Kishanganj	8 to 9	
Araria	12 to 13	

30	Malda „ 25, '92	Nil	Weather—hot and oppressive. Latter part of the week cloudy. Rain much wanted in thánas Ratua, Kharba, Tulshihatta, Kaliachuk, and Bamongola. Standing *bhadoi* crops are thriving but suffering for want of rain throughout the district, specially in the thánas mentioned above. Supply of fodder ample. Ordinary rice selling at from 8 to 13 seers per rupee.

No.	District and date of return.	Rainfall at Sadar Station in inches.	Character of the weather and state and prospects of the crops.
BIHÁR—*concld.*			
Patna Division. 32	Patna June 25, '92	Nil	Weather—very hot and clear. The rainfall has been very scanty during the week and confined to Barh and Bihár subdivisions. The *bhadoi* sowing has been generally started, but more rain is much needed. Fodder and water for cattle are fairly sufficient. Common rice selling at 11 to 13 seers per rupee. No distress reported.
	Barh ...	0·33	
	Bihár ..	1·62	
	Dinapore ...	Nil	
33	Gaya „ 25, '92	Nil	Weather—intensely hot and oppressive with strong west winds. Ploughing in progress everywhere. Sowing of *bhadoi* crops commenced, but much anxiety is felt by cultivators for the safety of the seedlings on account of the prolonged break in the rains. Prices have risen slightly. Common rice selling at 11½ seers per rupee at Sadar. Supply of water sufficient and fodder becoming available.
	Jahánabad ...	Nil	
	Aurangabad ...	Nil	
	Nawáda ...	Nil	
34	Shahabad „ 25, '92	Nil	A break in the rains. Rain is urgently needed for the *bhadoi* sowing. *Marua* and sugarcane are withering for want of water. Prices show an upward tendency except in the south where a slight fall is reported. Fodder abundant.
	Buxar ...	Nil	
	Bhabhua ...	0·01	
	Sasaram ...	Nil	
35	Darbhanga „ 25, '92	Nil	Weather—cloudy and close. The break in the rains continues and will affect growing crops unfavourably if it lasts a week longer. Young paddy is springing up in many of the *chur* lands, but much is still unsown. Prospects of *bhadoi* favourable, but rain wanted for this also. Cattle are in good condition. Fodder and water plentiful.
	Samastipur ...	0·68	
	Madhubani ...	0·99	
36	Muzaffarpur „ 25, '92	0·74	Weather—very hot and close. Prospects of crops excellent. More rain will shortly be wanted. Prices almost stationary.
	Sitamarhi ...	1·03	
	Hajipur ...	0·02	
37	Saran „ 25, '92	Nil	Weather—generally close and oppressively hot. There is sufficient moisture for sowing the *bhadoi* crops in Siwán and Gopalganj subdivisions, but in the Sadar subdivision *bhadoi* cannot be sown for want of rain. Fodder and water for cattle sufficient. Prices of common rice :—
	Siwán ...	0·05	
	Gopalganj ...	0·15	
			Srs. Ch.
			Chapra ... ... 11 0 }
			Siwán ... ... 12 8 } per rupee.
			Gopalganj ... ... 12 10 }
38	Champaran „ 25, '92	Nil	Weather—hot and somewhat cloudy towards the end of the week. Sowings nearly over. Weeding of paddy and *bhadoi* crops going on. Transplanting of *marua* retarded for want of rain. Standing crops doing well. Supply of fodder and water ample. Prices unaltered.
ORISSA.			
Orissa Divn. 39	Cuttack „ 25, '92	1·82	Weather—seasonable. Rainfall, though late, very beneficial. Sowing of *biali* and *sarad* in progress. Price of common rice 9 seers 2 chitaks to 13 seers 2 chitaks per rupee, but rice is not everywhere easily obtainable. No cattle-disease. Fodder-supply sufficient.
40	Puri „ 23, '92	0·49	Weather—hot and cloudy. Ploughing and sowing going on. Miscellaneous crops doing well. Rice sells at from 10 to 14 seers per rupee.
41	Balasore „ 25, '92	1·28	Weather—showery. Sowing of winter rice well in hand. Prices stationary. Rice selling at Balasore 13 seers and Bhadrak 15 seers per rupee.
CHOTA NAGPUR.			
	South-West Frontier Agency.		
Chota Nagpur Divn. 42	Hazáribágh June 25, '92	Nil	Weather—settled, fair; very sultry. Sugarcane doing well. Ploughing and sowing still in progress, but more rain is now wanted. Common rice 10 to 14 seers per rupee Water and fodder sufficient.
	Giridi ...	4·86	
43	Lohardaga „ 25, '92	Nil	Weather—seasonable. Ploughing and sowing of *bhadoi* crops and winter rice continue. Common rice selling at 14 seers per rupee. Fodder and water sufficient.
44	Palámau „ 23, '92	Nil	The break in the rains continues; sky now cloudless and sun very hot. Showers in some parts of the district. *Bhadoi* sowing in progress. Common rice 12 to 15 seers per rupee. Fodder-supply increasing.
45	Singhbhum „ 25, '92	Nil	Rain in the district, but none at head-quarters. Paddy, sugarcane, *gaudli* and Indian-corn doing well. No change in price of rice, which is selling at 16 seers per rupee in Chaibassa town.
46	Manbhum „ 25, '92	Nil	Weather—hot and dry. Cessation of rain all over district. If dry weather continues the seedlings will suffer. Rice 13 to 16 seers per rupee. Fodder and water-supply sufficient.

* Means of 6 days.

Explanation.—Summary.—The normal means of air pressure and temperature are the arithmetical average or means of the reading during the same period for the last [illegible]. The *humidity* of the atmosphere is expressed as percentage, saturated air being presented by 100. A clear sky is denoted by 0 and an overcast sky by 10. The numbers are the numerical means or average of the rainfall in that district determined from the returns sent in by the subdivisional station for the period in question during the stations in the district sending in returns divided by the number of stations. A rainy day is one on which at least a tenth of an inch fell.

for the week ending Saturday, the 25th of June 1892.

Temperature at 8 A.M.	Average cloud amount at 8 A.M. for week.	Rainfall of week at observing station.	Of week. Mean for district.	Of week. Normal mean.	District observations. Rainfall. Explanation.—.....indicate that no rain has fallen. If the return for any day has not been received, the corresponding space is left blank. If any of the returns are wanting, the corresponding spaces in the total rainfall columns are left blank. With reference to the column of rainy days, the definition of a rainy day is when at least 0·1 inch of rain has fallen.

CALCUTTA, *the 28th June* 1892.

SUMMARY OF THE METEOROLOGICAL AND RAINFALL OBSERVATIONS TAKEN IN BENGAL, AND OF THE METEOROLOGICAL OBSERVATIONS TAKEN IN ASSAM, FOR THE WEEK ENDING 8 A.M., SATURDAY, THE 25TH OF JUNE 1892.

DURING the week ending the 18th instant, the wave of monsoon winds following in the rear of the cyclone of the previous week had spread over the whole province, and had given general rainfall for several days, though in the majority of cases the falls had been smaller than the normal amounts. This humid current, however, appeared rapidly to decrease in strength, and even finally almost to cease to flow over the greater part of the province. Hence from the beginning of the week rainfall began to be less general and lighter. The rainfall-bearing current apparently first withdrew from Bihár and Chota Nagpur and then from Orissa and South Bengal, but rain continued at many of the stations in East and North Bengal until about the 22nd, when the rain-bearing current to a certain extent withdrew from the province, for rain ceased to fall except at the stations in and near the hills of North Bengal. In its retreat, however, it again gave a few showers in Orissa. From the 23rd the rainfall over the province was confined to a few showers of little importance. In the Bay during the early part of the week the monsoon current appeared generally to be of moderate strength only, but from the 20th the wind velocities at the Ceylon stations showed that another strong advance of monsoon winds was taking place in the extreme south of the Bay, and these strong winds continued to blow for four or five days. With the strengthening of the monsoon winds in the Bay towards the end of the week another advance of humid winds again commenced to flow over the province and to give general rain, the rain as usual beginning at the southern, eastern and north-eastern stations, and on the last day of the week under review rainfall was tolerably general over these districts, though Bihár, Orissa, and Chota Nagpur remained almost rainless.

In other respects the meteorology of the week has not been important. Pressure rose slowly on the 19th, and again on the 20th, but on the 21st it fell in Bihár, while elsewhere the increase continued. On the 22nd the fall became more general, and pressure became slightly below the normal in all districts except South Bengal and Orissa. A slight fall again occurred on the 23rd, but the pressure distribution was little changed. On the 24th pressure had commenced to rise, the increase being large in parts of South Bengal, and distinctly low pressure was on this day established in the north and north-east of the province. On the 25th a moderately rapid fall of pressure set in which produced a distinct though rather feeble low pressure area in the north of the province, where pressure was more than a tenth of an inch below the normal, while in South Bengal and Orissa a band of relatively high pressure still continued to exist, and indeed pressure was still above the normal over this area. This band of high pressure has indeed formed a prominent character in the meteorology of the week. Temperature has on the whole risen steadily almost throughout the week owing to the diminution, and finally almost complete absence, of rainfall, and it became quickly above the normal, particularly in the western districts, where towards the close of the week the excess equalled about 10°. Winds on the whole have been fairly normal in direction and at the head of the Bay, and at many of the inland stations they have been decidedly stronger than usual at this season of the year, though this was not the case generally over the Bay area, except at the Ceylon stations, in the latter half of the week.

Pressure.—The variations of the mean pressure from the normal for the week have been rather irregular. Over the north of the province, and particularly in North Bengal where a depression existed for a part of the week, the mean pressure for the period has been in defect of the normal, the defect being largest at Jalpaiguri, where it equals 0·043″. On the other hand, there has been an area of relatively high pressure over South Bengal and Orissa, where the mean pressure is about 0·03″ in excess of the normal, and this excess is largest in Orissa, where at False Point and Cuttack it equals 0·06″ and at Gopalpore 0·09″. Between these two areas pressure is fairly normal. In Assam pressure has been below the normal by 0·025,″ the defect being largest at Sibsagar, where it equals 0·049″.

Temperature—Has been above the normal over the whole of Bengal for the week, though in Assam there has been a defect of a little more than one degree. The excess in Bengal is small at the eastern and northern stations and in the extreme south-west of the province, equalling about a degree in East and North Bengal and Orissa and gradually increasing towards the western districts, where in Chota Nagpur it equals 4·1,° in North Bihár 3·6,° and in South Bihár no less than 6·0°. For the whole of Bengal indeed an average excess of 2·9° has been registered.

Rainfall—Has been unusually light during the week. An average fall of rather more than three and-a-half inches is recorded in North Bengal and one of two and-a-half inches in East Bengal. An average amount of about an inch has fallen in Orissa and South-West Bengal, but Chota Nagpur and Bihár have been almost rainless. In all cases the falls are very largely below the normal, a defect of about four inches being recorded in East and North Bengal and of about two to three inches over the remainder of the province. Generally speaking, indeed the rainfall for the week has not been much more than a third of the normal fall for the period.

The following table gives the summary of the temperature and rainfall data of each of the seven meteorological divisions of the province for the week ending Saturday, the 25th of June 1892:—

Meteorological Divisions.	Temperature.						Rainfall.									
	Highest observed during week.	Lowest observed during week.	Averages for week.			Average mean of week above or below normal mean of week.	Of week.			Rainy days.			Since 1st of month.		Since 16th May 1892.

The mean pressure, temperature, &c., are deduced from the traces of the Barograph and Thermograph, and from observations made at 6h, 10h, 16h, and 22h.

The maximum and minimum temperatures are obtained from self-registering thermometers. All the thermometers are verified, and the readings have been corrected to a standard constructed and verified at the Kew Observatory. They are exposed under a thatched shed open at the sides, and are suspended four feet above the ground.

The barometer readings are corrected approximately to those of the standard, Newman's No. 86, formerly at the Surveyor-General's Office.

The hygrometric elements are obtained from Tables III, IV, and V of the official tables computed in the Meteorological Office, and based on Regnault's modifications of August's formula.

The directions and the movement of the wind are taken from the trace of a Beckley's anemograph.

The mouth of the rain-gauge is one foot above the ground.

o, overcast; g, gloomy; d, drizzling rain; p, passing temporary showers; t, thunder.

* Includes 1,944 tons and 5,508 tons during 1892 and 1891, respectively, carried for Revenue, for which no "Up" and "Down" register maintained.

† Railway plant and rolling-stock 14,369 tons and 7,769 tons for the years 1892 and 1891, respectively, for which no "Up" and "Down" register maintained.

Statement of principal commodities carried on the Eastern Bengal State Railway during the month of March 1892.

INCREASES.

	Tons
Coal	18,820
For railway and Flotilla consumption principally.	
Rice	3,315
The chief increase is in despatches from Goalundo, Nawabganj, Joypurhat, and Sara Ghat. This is due to a short crop in the northern and Bihár districts, and to a brisk demand in the both districts and also to a rise in prices in the Calcutta market. Magra Hát also contributed to the increase, owing to the fact that the water in the canal is too low to allow of country boats carrying the traffic.	
Railway plant and rolling-stock	Tons. 6,630
For renewals and repairs; and for Bengal-Assam, Bengal Doors, and Kuch Bihar Railways.	
Salt	1,601
Ordinary fluctuation.	
Cotton	1,205
Postgollah and Goalundo show the principal increases. The traffic is a growing one.	
Tobacco	1,291
This increase was contributed principally by D. K. G., Siliguri, Domar and Araria, due to a good crop and a favourable market	

DECREASES.

	Tons.
Jute, screwed	5,175
Daroani, Haldibari, Kashba, and Damukdia Ghat show large decreases, due to short crop.	
Jute, unscrewed	Tons. 18,268
The heavy decreases are in despatches from Goalundo, Sirajganj, Mymensingh, Kaunia, and Kaoraid, due to short crop.	

CALCUTTA, *the 22nd June 1892.*

P. BARCLAY,
Traffic Superintendent.

Weekly Return of Traffic Receipts on Indian Railways.

EAST INDIAN RAILWAY.

Approximate Return of Traffic for week ended 18th June 1892, on 1,558½ miles open.
